GTE MIDWEST INCORPORATED

MAR 16 1993

WIDE AREA TELECOMMUNICATIONS SERVICE

MISSOURI

Public Service Commission

GTE MIDWEST INCORPORATED, a Delaware Corporation, hereby adopts, ratifies, and makes its own, in every respect as if the same had been originally filed by it, all schedules, rules, notices, concurrences, schedule agreements, divisions, authorities or other instruments whatsoever, filed with the Public Service Commission, State of Missouri, by Contel of Missouri, Inc. d/b/a GTE Missouri prior to April 1, 1993, the beginning of its possession.

By this notice it also adopts and ratifies all supplements or amendments to any of the above schedules, etc., which Contel of Missouri, Inc. d/b/a GTE Missouri has heretofore filed with said Commission.

This Tariff is applicable only to the GTE MIDWEST INCORPORATED exchanges as shown on Title Sheets 3 and 4.

For administrative purposes, subsequent tariff filings made by the Company will be identified in the upper left hand corner of the tariff sheet as GTE MIDWEST INCORPORATED (former GTE Missouri).

Memorandum of Understanding

MAY 2 1988

MISSOURI

Public Service Commission

Contel of Missouri, Inc. is serving as a primary toll carrier solely pursuant to the terms of the Conceptual Framework, Missouri Intrastate, InterLATA Primary Toll Carrier By Toll Center Plan, filed in MO. P.S.C. Case No. 10-84-222 et al., on January 29, 1987, as modified by subsequent Commission orders in that case dated April 3, 1987, October 23, 1987 and December 11, 1987.

Contel of Missouri, Inc. hereby agrees to undertake the obligations as provider of last resort for Wide Area Telecommunications Services in accordance with the Conceptual Framework for the term of that agreement and in accordance with said Commission orders. By filing this tariff document and operating under its terms, Contel of Missouri, Inc. does not concede that it has any obligation to so serve, absent the Conceptual Framework and said Commission orders.

Pursuant to the Commission orders referenced above, charges for service governed by the Conceptual Framework will be made at rates shown in this tariff. Contel of Missouri, Inc. specifically denies that by virtue of its execution of any contract with any secondary carrier or by the filing of this or any tariffs which are applicable to services governed by the Conceptual Framework and rendered in exchanges in which Contel of Missouri, Inc. is not the authorized local exchange provider, Contel of Missouri, Inc. is undertaking to provide governed services, professing to serve the following exchanges or offering to provide governed services to the following exchanges:

WIDE AREA TELECOMMUNICATIONS SERVICE

NOV 23 1992

1. Application of Tariff

MISSOURI
Public Service Commission

This Tariff applies to WATS furnished or made available by the Company over service components wholly within, or partly within, the State of Missouri and between points within the State of Missouri.

2. General Regulations

2.1 Definitions

The following definitions pertain to Wide Area Telecommunications Service. Other terms used in this Tariff are found in the Explanation of Terms section of the General and Local Exchange Service Tariff. (C)

Business Line 800: GTE Business Line 800 is a terminating service which allows inbound toll-free 800 calls to terminate on any business line, i.e., business individual line, business trunk (PBX) or Digital Centrex. (N)

Change: The substitution of 800 Service for Outward WATS or vice versa. (N)

Hunting Arrangement: A grouping of 800 Service access lines arranged for the completion of a given call or arranged for overflow to or from another access line or group of access lines.

Interexchange Customer(s) (IC): Denotes any individual, partnership, association, corporation or governmental agency or any other entity which subscribes to the services offered under the Access Services Tariff to provide intrastate telecommunications services for its own use or for the use of its customers (End Users).

IntraLATA: Wide Area Telecommunications Service (WATS) where the originating service point location and the terminating service point location are all within the same Local Access and Transport Area (LATA).

Jointly Provided WATS Service: Jointly provided WATS Service is an arrangement between the Company and an interexchange customer (IC). This arrangement provides end user billing of intraLATA WATS/800 usage at the intraLATA WATS/800 rates found in this tariff. End user billing may be subject to interim regulations found in 5.4(C)(1) following. InterLATA usage will be billed at the rates of the IC. If the calling scope of the WATS Access Line is limited to calling within the State of Missouri, the WATS Access Lines found in this tariff will be used to provide the WATS/800 Service. (C)

Public Service Commission

Jointly Provided WATS Service: Jointly provided WATS Service is an arrangement between the Company and an interexchange customer (IC). This arrangement provides end user billing of intraLATA WATS/800 usage at the intraLATA WATS/800 rates found in this tariff. End user billing may be subject to interim regulations found in 5.4(C)(1) following. InterLATA usage will be billed at the rates of the IC. If the calling scope of the WATS Access Line is limited to calling within the state of Missouri, the WATS Access Lines found in this tariff will be used to provide the WATS/800 Service.

Local Access and Transport Area (LATA): The Local Access and Transport Area denotes a geographical area established for the administration of communications service. It encompasses designated local operating Company exchanges which are grouped to serve common social, economic and miscellaneous purposes.

Public Service Commission

Local Access and Transport Area (LATA): The Local Access and Transport Area denotes a geographical area established for the administration of communications service. It encompasses designated local operating Company exchanges which are grouped to serve common social, economic and miscellaneous purposes. (M)

Move: A change in location on the same premises of the customer's WATS access line. (M)

Multiline Terminating System: Switching equipment (i.e., PBX, Centrex, ACD, tandem switching equipment) and Key telephone-type systems which are capable of terminating more than one central office line, WATS access line, Private Line Service or communications system.

Network Data Report: Interexchange customers (ICs) providing 800 Service jointly with the Company must provide to the Company an 800 Network Data Report. ICs providing 800 Service on a non-joint provisional basis must provide to the Company either an 800 Network Data Report or jurisdictional reports as described in Section 6.6.1 of the Company's Intrastate Access Service Tariff. The Network Data Report shall reflect all 800 telephone numbers that may originate and terminate in the same state within Company territory. Each 800 telephone number provided in the 800 Network Data Report will reflect either an NPA-NXX code (for calls completing according to the provisions of non-joint provided WATS Access Line Service) or a ten digit POTS telephone number for calls completing on joint provided WATS Access Line Service to which the 800 Access Service traffic will complete. This report shall also reflect any time or day sensitive routing information which the Company requires to accurately bill and an indicator of the type of termination that will be used in the completion of the 800 call, i.e., common line, WATS Access Line, or other. The IC is required to provide this report before initial 800 Access Service is established. The IC is required to provide an updated 800 Network Data Report on a weekly basis unless the Company and the IC agree that the ICs 800 Service activity requires provision of the report on either a more frequent or less frequent basis.

Public Service Commission

800 Service: The furnishing of service components for dial-type telephone communication to an 800 Service access line from intraLATA toll service points within the State of Missouri in accordance with the regulations and schedules of charges as specified herein, except as provided in the following: (M)

InterLATA dial-type telephone communication to an 800 Service access line provided by the Company is furnished by an interexchange customer. Any interexchange customer may provide interLATA service using the Company-provided 800 Service access line, subject to the availability and compatibility of the service components of the Company and of the interexchange customer.

Since interLATA calls cannot be prevented from reaching an 800 Service number, the customer subscribing to intraLATA 800 Service must also subscribe to an interLATA 800 Service or similar service provided by an interexchange customer. (M)

Outward WATS: The furnishing of service components for dial-type telephone communications from an Outward WATS access line to intraLATA local and toll service points within the State of Missouri in accordance with the regulations and schedules of charges as specified herein, except as provided in the following:

InterLATA dial-type telephone communication from the Outward WATS access line provided by the Company is furnished by an interexchange customer. Any interexchange customer may provide interLATA service using the Company-provided WATS access line, subject to the availability and compatibility of the service components of the Company and of the interexchange customer.

If the subscriber to interLATA WATS does not subscribe to intraLATA WATS, calls made within the same LATA over service components wholly provided by the Company over a Company-provided WATS access line will be billed at charges for local and toll calls specified in the Company's Tariffs.

2.4 Liability of Company

MAY 2 1988

- (A) In view of the fact that the customer has exclusive control of his communications over the services furnished him by the Company, and of the other uses for which service components may be furnished him by the Company and because of unavailability of errors incident to the services and to the use of such service components of the Company, the services and service components furnished by the Company are subject to the terms, conditions and limitations herein specified.
- (B) The Company's failure to provide or maintain service under this Tariff shall be excused by labor difficulties, governmental orders, civil commotions, acts of God and other circumstances beyond the Company's reasonable control, subject to the interruption allowance provisions of this Tariff.
- (C) With respect to any claim or suit, by a customer or by any others, for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission or service occurring in the course of furnishing service, channels or other service components, the Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the customer for the period during which such mistake, omission, interruption, delay, error or defect in transmission or service occurs and continues. This liability shall be in addition to any amounts that may otherwise be due to the customer under this Tariff as an allowance for interruptions. However, such mistakes, omissions, interruptions, delays, errors or defects in transmission or service which are caused or contributed to by the negligence or willful act of the customer or which arise from or in connection with the use of customer premises equipment or service components shall not result in the imposition of any liability whatsoever upon the Company.

2.4 Liability of Company (Cont'd)

MISSOURI

(D) The Company shall be indemnified and saved harmless by the customer or customers against claims for libel, slander or the infringement of copyright arising directly or indirectly from the material transmitted over the service components or the use thereof, against claims for infringement of patents arising from combining with, or using in connection with, service components furnished by the Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with service components provided by the Company.

(E) When the lines of other telephone companies are used in establishing connections to service points not reached by the Company's lines, the Company is not liable for any act or omission of the other company or companies.

(F) The Company does not guarantee nor make any warranty with respect to service components provided by it for use in an explosive atmosphere. The customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer, or by any other party or person for any personal injury to or death of any person or persons and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said service components so provided.

The Company may require each customer to sign an agreement for the furnishing of such service components as a condition precedent to the furnishing of such equipment.

2.4 Liability of Company (Cont'd)

MISSOURI

(F) (Cont'd)

Public Service Commission

The customer shall furnish, install and maintain sealed conduit with explosion-proof fittings between the service components provided in an explosive atmosphere and points outside the hazardous area where connection may be made with regular service components of the Company. The customer may be required to install and maintain these service components within the hazardous area if, in the opinion of the Company, injury or damage to Company employees or property might result from installation or maintenance by the Company.

- (G) The charges specified in this Tariff do not contemplate work being performed by the Company employees involved at a time when overtime wages apply, due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime be performed or interrupts work once begun, an additional charge based on the additional costs involved applies.

2.5 Limitation of Service

- (A) WATS does not include person-to-person, collect, conference or other calls requiring operator handling, except that an operator will reach the called telephone number where service components are not available for customer dial completion.

WATS is not represented as adapted for connection to other services of the Company or to customer-provided systems. The service contemplates the provision of satisfactory transmission only between the access line and the calling or called station. The access line will be terminated only at a customer's premises located in the same serving exchange of the same state as that for which the rate applies.

Public Service Commission

2.7 Suspension and Termination of Service for Cause

(A) The WATS Access Line may be suspended by the Company in accordance with the General Regulations Section, Discontinuance of Service item of the Local Exchange Tariff. For the purposes of administering this provision, the WATS Access Line is considered business service.

(B) Upon nonpayment of any sum due the Company, or upon a violation of any of the conditions governing the furnishing of service, the Company may, by notice in writing to the customer, without incurring any liability, forthwith discontinue the furnishing of said service. This written notice shall be sent or delivered to the customer five (5) days prior to the date of the proposed discontinuance. If, in the judgment of the Company, unusual risk of financial loss exists, service may be discontinued after 48 hours' written notice has been furnished to the customer.

(C) 800 Service is furnished upon condition that the customer obtain adequate service to permit the use of this service without injurious effects upon it or any other service rendered by the Company. The Company may terminate or refuse to furnish 800 Service to any customer without incurring any liability if the use of the service would interfere with or impair WATS or any other service rendered by the Company, provided that in the case of a termination of service, at least five days have elapsed following written notification to the subscriber by mail or in person of the Company's intention to terminate the service for such cause.

(3) Non-Jointly Provided IntraLATA Usage Rate

Under this option, it is not required that the interexchange customer jointly provide 800 Service with the Company. However, the interexchange customer must provide network data reports, as defined in this tariff, to the Company. The rate cited in the following paragraph will apply instead of the rates found in Paragraph (A)(2), preceding.

At the option of the interexchange customer providing interLATA 800 Service, and with concurrence of the Company, intraLATA 800 Service calls will be billed at a rate of \$.217 per minute of use for all intraLATA originating minutes of use. Billing will be to the interexchange customer. Additional charges may also apply as found in the Access Services Tariff of the Company.

5.4 Access Lines - Inward WATS (800 Service) or Outward WATS (Cont'd)

MAY 2 1988

(C) Method of Applying Monthly IntraLATA Usage RateMISSOURI
Public Service Commission

- (1) Rates for 800 Service in Paragraph 5.4 (A)(2), preceding, will apply to 47 percent of the total intrastate 800 Service usage for each rate period. Rates for the remaining 53 percent of the total 800 Service usage will be at the rates as found in the tariffs of the interexchange customer.
- (2) Rates for Outward WATS Service in Paragraph 5.4 (B)(2), preceding, will apply to intraLATA usage only. Rates for interLATA Outward WATS usage will be at the rates as found in the tariffs of the interexchange customer.

5.5 Method of Determining Monthly Charges for Usage

CANCELLED

For all WATS access lines on which usage is recorded by the Company by time-of-day rate periods, the usage charge is determined, separately for Outward WATS and 800 Service, using Steps (A) through (E), following:

- (A) Determine the total number of completed calls for each rate period for each service arrangement.
- (B) Apply the Minimum Average Time Requirement of one minute by dividing the number of completed calls for each rate period in each service arrangement by 60. (one call = one minute).
- (C) Determine the total actual hours used for each rate period for each service arrangement.
- (D) Determine the total chargeable hours for each rate period for each service arrangement. This is the greater of (B) or (C), above, rounded to the nearest tenth (one decimal place).
- (E) Determine the total usage charge for all rate periods in each service arrangement by applying the rates shown in the rate table in Paragraph 5.4 for Outward WATS or 800 Service.

5.6 Timing of Calls

MISSOURI

- (A) Chargeable time begins when connection is established between a service point associated with the WATS access line and the calling or called service point and ends when the calling service point "hangs up," thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.

- (B) When a connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period.

- (C) The rate charged is determined by the day and time (standard or daylight savings) at the WATS access line location.

- (D) When 800 Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communications system, chargeable time begins when the 800 Service call terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the 800 Service so that chargeable time may begin.

CANCELLED

5.7 Access Line Extension (WEC)

SEP 15 1994

Extensions of individual WATS access lines are provided at locations within the intraLATA territory of the WATS state as provided. The mileage rates and measurements are the same as for a type 415 Voice Grade Service as provided in the Private Line Service Tariff.

9. GTE BUSINESS/RESIDENCE LINE 800 SERVICE

MISSOURI

9.1 DESCRIPTION

Public Service Commission

- (A) GTE Business/Residence Line 800 Service is the furnishing of dial type telecommunications from stations within a LATA to a station associated with an 800 termination point within the same LATA within the same state.
- (B) Dial type telecommunications is a call dialed and completed from or to an 800 access line without the assistance of a Telephone Company operator, or placed with an operator where facilities are not available for dial completion, or where, for other service reasons, operator assistance in completion of the call is necessary.
- (C) Generally, an 800 termination is a path between the network interface at the customer's premises and the point in a Telephone Company central office where access to the switched network is obtained for the purpose of completing 800 calls. GTE Business/Residence Line 800 Service will be arranged for common line termination. GTE Business/Residence Line 800 Service provides termination of calls over nondedicated business and residence one-party lines. One 800 number may be assigned to each existing or newly provided exchange telephone number which allows for the completion of 800 calls in addition to all other usage normally handled on this termination.
- (D) GTE Business/Residence Line 800 Service is not available in conjunction with Coin Telephone Service, Public Telephone Service, Coin Box Service, Customer Owned Pay Telephone Service, or Foreign Exchange service lines.
- (E) GTE Business/Residence Line 800 Service provides for the termination of 800 calls only.
- (F) GTE Business/Residence Line 800 service provides for the assignment of a single ten digit 800 number (i.e., 800+XXX+XXXX) to the customer which can be used in one or more LATAs at the same time for intraLATA calling. GTE Business/Residence Line 800 service allows for, but does not require the GTE Business/Residence Line 800 customer to use one 800 number in multiple LATAs for intraLATA calling. Customers may retain the same GTE Business/Residence Line 800 service telephone number when moving to another location within the state.

NOV 23 1992

9. GTE BUSINESS/RESIDENCE LINE 800 SERVICE (Cont'd)

9.1 DESCRIPTION (Cont'd)

MISSOURI
Public Service Commission

- (G) GTE Business/Residence Line 800 Service is the furnishing of facilities in accordance with the regulations and schedule of charges specified in this tariff. GTE Business/Residence Line 800 Service rates set forth herein are in payment for the service furnished between the calling and called stations.
- (H) GTE Business/Residence Line 800 Service is furnished subject to the availability of the appropriate equipment and facilities.
- (I) GTE Business/Residence Line 800 Service may only be provided by the Telephone Company.
- (J) The term "Service Terminating Arrangement" denotes company-provided equipment which terminates GTE Business/Residence Line 800 Service at a customer's premises. The service terminating arrangement provides a clearly delineated interface which facilitates the design, isolation and testing of GTE Business/Residence Line 800 Service. Where a protective connecting arrangement is required, the service terminating arrangement is provided as a part of the protective connecting arrangement.
- (K) All rates and charges quoted in this tariff provide for the furnishing of service when suitable facilities are available or where the construction of the necessary facilities does not involve unusual costs. When the revenue to be derived from the service does not warrant the Telephone Company assuming the unusual costs of providing the necessary construction, the customer may be required to pay all or a portion of such costs and to contract for the service for a sufficient period to warrant the construction, depending upon the circumstances in each case.

9. GTE BUSINESS/RESIDENCE LINE 800 SERVICE (Cont'd)

9.2 LIMITATIONS OF SERVICE

MISSOURI
Public Service Commission

(A) Dial type telecommunications associated with a GTE Business/Residence Line 800 Service access line are calls dialed and completed without the assistance of a Telephone Company operator, except that a Telephone Company operator will:

- Reestablish a call which has been interrupted after the called number has been reached, or
- Reach the called telephone number where facilities are not available for customer dial completion.

(B) The Company does not undertake to transmit messages, but offers the use of its facilities for communications between customers. GTE Business/Residence Line 800 Service does not include calling to or from stations not within the same LATA, person-to-person, collect, conference or other calls requiring operator handling except as provided in the preceding.

(C) Connection to Other Services

(1) GTE Business/Residence Line 800 Service is not represented as adapted for connection to other services of the Company, facilities of OCCs, or to customer-provided facilities. Connections of communications systems provided by the customer may be made; however, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections. The service contemplates the provision of satisfactory transmission only between the access line and the called or calling station.

(2) Regulations, rates and charges for the facilities used to connect customer-provided terminal equipment or customer-provided communications systems are set forth in Section 7 of the Telephone Company's General and Local Exchange Service Tariff.

(D) Obligation of the Customer

Public Service Commission

- (1) The agents and employees of the Telephone Company shall have the right to enter the premises of a customer at any reasonable hour for the purpose of installing, inspecting or repairing the services of the Telephone Company or upon termination of the service, for the purpose of removing such services.
- (2) The Telephone Company undertakes to maintain and repair the facilities which it furnishes to customers. The customer shall be responsible for damages to facilities of the Telephone Company caused by negligence or willful act of the customer or authorized users. The customer or authorized user may not rearrange, disconnect, remove or attempt to repair, or permit others to rearrange, disconnect, remove or attempt to repair any equipment installed by the Telephone Company except upon written consent of the Telephone Company.
- (3) The customer is responsible for providing a suitable supply of commercial power, including outlets, when and where required by the Telephone Company for the operation of any equipment on the customer's premises.
- (4) The customer is required to reimburse the Telephone Company for any loss through theft of the equipment or apparatus on the customer's premises.
- (E) GTE Business/Residence Line 800 Service is furnished upon the condition that the customer obtain adequate service to permit its use without creating excessive overflows and incompletions or otherwise interfering with this or any other service rendered by the Telephone Company. The Telephone Company, without incurring any liability, may terminate or refuse to furnish GTE Business/Residence Line 800 Service to any customer who fails to comply with said conditions, subject only to provisions in Section 2, Termination of Service of the Telephone Company's General and Local Exchange Service Tariff.

9.3 APPLICATION OF MONTHLY RATES AND CHARGES (Cont'd)

MISSOURI
Public Service Commission

(A) Timing of Calls (Cont'd)

- (4) All messages completed in one billing period through GTE Business/Residence Line 800 Service will be bulk billed a minimum of 30 seconds per message.
- (B) The minimum service period for GTE Business/Residence Line 800 Service is one month.
- (C) Usage is subject to a Minimum Average Time Requirement (MATR) of 30 seconds per completed call in each rate period for each billing period. This means that if the average duration per call in any rate period during each billing cycle is less than 30 seconds, billing will be based on an average duration of 30 seconds per call.
- (D) The monthly charges for GTE Business/Residence Line 800 Service are determined as follows:
- (1) Determine the total number of calls for each GTE Business/Residence Line 800 Service number.
- (2) Determine the equivalent hours rounded to the nearest tenth by applying the MATR as described in 9.3(C).
- (3) Determine total actual hours used, rounded to the nearest tenth of one hour.
- (4) Determine the chargeable hours which is the greater of (2) or (3).
- (5) Multiply the chargeable hours by the usage charge shown in 9.5, rounded to the next highest cent.
- (6) Determine the charge for each GTE Business/Residence Line 800 Service number by multiplying the monthly rate per GTE Business/Residence Line 800 Service number shown in 9.4(A) and 9.4(B) by the quantity of GTE Business/Residence Line 800 Service numbers in service for that given month.
- (7) Determine the total charges by adding the amounts developed in (5) and (6) preceding.
