4. SERVICE AND RATE DESCRIPTION (Continued).3 Private Line Service@ (C)

Private Line Service provides dedicated circuits which connect distant locations on the Carrier's network. This is a non-switched point-to-point service over fully dedicated lines at a fixed monthly rate. These facilities are offered in numerous configurations depending on the individual subscriber's needs. These circuits are dedicated to a subscriber for his exclusive use 24 hours per day. Facilities are offered to meet the particular transmission needs of the subscriber. The following services are currently available under Private Line Service: T-1 Service and CLEARLINE 1.5 Service, Clearline Digital Data Services, Clearline Voiceband, Clearline Fractional 1.5 and Clearline 45 Service.

.1 T-1 Service

T-1 Service provides simultaneous transmission of digital signals at a speed of 1.544 mbps. There are three elements considered during pricing of the T-1 Service: distance between points-of-presence (POPs), access arrangements, and equipment. Rates for these elements are set forth in Section 5.3.

- .1 T-1 Access is offered to business subscribers who choose to utilize T-1 Service. Each access via T-1 provides a direct digital transmission connection at 1.544 mbps. This facility will provide that equivalent of 24 voice grade circuits for a T-1 grade circuit for T-1 Service. Rates are set forth in Section 5.3.

T-1 Service is not offered to new customers or as a new service to existing customers after October 1, 1988.

800 Services are virtual banded inbound toll services which permit calls to be completed at the subscriber's location without charge to the calling party. Access to the service is gained by dialing a ten digit telephone number (800-NXX-XXXX) which will terminate at the subscriber's location. Calls may originate and terminate from locations within the state of Missouri. The following options are available under 800 Services: DIRECT 800, Ultra 800SM, FÖNLINE 800SM and Residential 800SM.

Both DIRECT 800 and Ultra 800 calls are originated via normal shared use facilities and are terminated via dedicated access lines or T-1 access lines between the subscriber's premises and Sprint's POP in the terminating location. FÖNLINE 800 and Residential 800 calls are terminated via the subscriber's local exchange service access lines. The "800" Service options differ in pricing to benefit subscribers of different usage levels.

Residential 800 Service* is a flat-rated service designed for residential customers. (N)
Charges are based on duration of the call. Calls will be billed in one-minute increments.

Complementary residential 800* provides residential customers of participating local exchange carrier's 800 service a seamless inbound service for intrastate, interstate and international calling. Customers must subscribe to the 800 service of the local exchange carrier which will be the Responsible Organization through Sprint. (N)

Charges for DIRECT 800 and FÖNLINE 800 Service are based on duration of the call, rate period when the call terminates at the subscriber's location, and total amount of monthly usage within each service group for each rate period. After the initial 18 second minimum, calls will be billed in six second increments.

Charges for Ultra 800 are based on duration of the call and rate period when the call terminates at the subscriber's location.

Per-minute usage rates for 800 Services are set forth in Rate Schedule Section 4. All calls except for FÖNLINE 800 and Residential 800 service are subject to a 30-second minimum average time requirement per service group.

INTERCITY TELECOMMUNICATIONS SERVICES**4. SERVICE AND RATE DESCRIPTION (Continued)****RECEIVED****.5 VPN**

APR 21 1994

VPN provides the functionality and capabilities of a private network through the use of shared transmission facilities and is operated by a single, software-controlled management system. It interconnects large volume users, usually at the PBXs, through dedicated access lines with the Sprint network POPs. **MISSOURI Service Commission**

VPN service is virtually banded. A single circuit can carry traffic to and/or from any mileage band. The rates are automatically applied to the actual traffic originating from a specific location based upon the rate step in which the traffic terminates.

The following call types and features are available to VPN:

Call Types

- 1) On-Net to On-Net calling provides the "private network" type of calls (7-digit dialing) between locations linked by dedicated access.
- 2) On-Net to Off-Net calling provides dedicated access WATS type calls (10-digit dialing) which terminates to off-network locations via the public switched network.
- 3) Off-Net to On-Net calling provides dialing from remote locations originating via the public switched network to On-Net (dedicated access) locations.
- 4) Off-Net to Off-Net calling provides switched access originated calling that terminates via the public switched network.

Features

1) Route Advance

In the event that an On-Net call cannot be completed because all of the dedicated access lines are in use at the terminating location, the 7-digit On-Net number can be converted to the 10-digit Off-Net number of the busy location and the call can be completed via the public switched network. Charges for Route Advance are found in Rate Schedule Section 5.5.

2) Forced Route Advance

An Off-Net location can be assigned a 7-digit On-Net number with Forced Route Advance. The 7-digit On-Net number will be converted to the 10-digit Off-Net number of the Forced Route Advance location and the call can be completed via the public switched network. Charges for Forced Route Advance are found in Rate Schedule Section 5.5.

3) VPN FONCARD

VPN FONCARD Service offers the capability to allocate long distance costs to individual users that access the Sprint network from a single location or multiple locations. The users may access the Sprint network via an inbound "800" number. Rates applicable to VPN FONCARD Service are located in Rate Schedule Section 5.5.

.6 Miscellaneous Services

Rates and charges for Miscellaneous Services are set forth in Rate Schedule Section .6.

.1 Directory Assistance (DA)

Sprint provides the service of connecting customers to a nationwide Directory Assistance operator for a per-call charge as described in Section 6.1.1 of this tariff for intrastate information requests. Customers can receive up to two numbers per request. In order to obtain two numbers, the customer must request two numbers once the customer reaches the live operator. The fee applies whether or not the Directory Assistance operator furnishes the requested telephone number(s), e.g., the requested telephone number is unlisted, non-published or no record can be found. Requests for information other than telephone numbers will be charged for as requests for telephone numbers. (T) (T) (T)

A credit allowance for Directory Assistance will be provided upon request if a customer experiences poor transmission quality, is cut-off, receives an incorrect telephone number, or misdials the intended Directory Assistance number.

National Directory Assistance Service gives a customer the option of completing a call to the called station telephone number received from the Directory Assistance operator without hanging up and originating a new call. National Directory Assistance Service is offered when a customer requests intrastate Directory Assistance. A call completion charge applies in addition to the Directory Assistance per-call charge if the customer accepts the offer. When two numbers are requested from Directory Assistance only the second call can be completed. The call completion fee will not apply if the call cannot be completed. Charges for this service are set forth in Section 6.1.1.

When a Sprint Operator assists with a Directory Assistance call the charges as set forth in Section 6.2.1 will apply.

Calls placed to Directory Assistance utilizing a FONCARD will incur both the FONCARD connection fee as well as the applicable Directory Assistance per-call charge. Missouri Public

.6 Affinity Member Program

The Affinity Member Program is a benefit package which allows individual users who are members or employees of participating trade associations, professional organizations, business entities, affiliated franchises, or buying groups not organized expressly for the purpose of qualifying to receive the Affinity Member Program discounts.

The discount levels are determined by the monthly revenue commitment of the participating group or entity. Each end-user is billed separately for usage charges and the invoice received from Sprint will show all appropriate discounts.

If the group or entity does not meet the monthly revenue commitment within nine (9) months from the initiation of the program, or if having qualified, fails to maintain the monthly revenue commitment for four (4) consecutive months, the members or employees of the program will become subject to the normal rates for the service provided in the Rate Schedule Rate Schedule Section of the tariff.

.7 Airlines/Sprint Partnership Program

The Airlines/Sprint Partnership Program is an agreement entered into between Sprint and Alaska Airlines, Trans World Airlines, American West Airlines, Asiana (N) Airlines and Northwest Airlines frequent flyers of these airlines who are new or (N) existing Sprint residential Dial-1 customers are eligible to receive additional frequent flyer miles.

Sprint Prepaid Calling Card Service is an add-on to the interstate offering. Prepaid Calling Card Service allows a customer to pay a fixed dollar amount in advance for long distance calling over Sprint's network. The customer will use the toll free number on the card to access Sprint's network. The customer can place intrastate, interstate, and international direct dial calls. A flat per-minute cost of a call will be deducted on a real-time basis as the card is used until the full amount of the card is exhausted. The same per minute rate applies when the card is refreshed unless otherwise stated in this tariff. The customer will be notified in advance of the exhaustion of the card. The rates paid by the customer until the card is exhausted will be those in effect at the time the card is purchased. Calls placed from a rotary phone will default to a Sprint Operator for call dialing only. The expiration date is printed on the card. Customer who purchase the TeleDime Prepaid Calling Card**, Sprint Retail Prepaid Calling Card, Option E***, Option I, Option R, the US/International Prepaid Phone Card – Asian, Sprint/Git 'n Go POSA Express Prepaid Calling Card, Sprint Kum and GO Prepaid Calling Card, Sprint/QuikTrip Prepaid Calling Card II, Sprint/TelSouth Surcharge Prepaid Calling Card, Sprint/Advanced Communications Prepaid Calling Card will incur a per-call connection fee, Sprint/Ace Cash Express Prepaid PhoneCard II, or the Sprint/Ace Cash Express Prepaid PhoneCard III.

.8 Instant FONCARDsm

The Instant FONCARD will allow a customer to pay a fixed dollar amount in advance for long distance calling over Sprint's network. The customer will use the 800 number on the card to access Sprint's network. The customer can place intrastate, interstate, and international direct dial calls. A flat per-minute cost of a call will be deducted on a real-time basis as the card is used until the full amount of the card is exhausted. The customer will be notified in advance of the exhaustion of the card. The rates paid by the customer until the card is exhausted will be those in effect at the time the card is purchased. The expiration date is printed on the card. The following types of calls may not be completed with the Instant FONCARD:

CANCELLED

- * Calls to 700, 800 and 900 numbers
- * Calls to Directory Assistance
- * Operator Assistance calls
- * Conference calls
- * Calls requiring time and/or charges

Instant FONCARD service is available twenty-four hours a day, seven days a week. The cards will be offered to customers on a first come, first serve basis and will not be offered in combination with any other Sprint product.

.9 Collector's Prepaid FONCARDsm

Sprint will provide prepaid FONCARD service using cards where the card itself has a value (e.g., includes a picture of a licensed property or because of the materials used in the card) that is distinct from the value of the telecommunications service. The value of the telecommunications service (in minutes or dollars) will be indicated visible on the card prior to purchase. Cards may be used for both domestic and international services, or may be limited to domestic only.
