4. SERVICE AND RATE DESCRIPTION (Continued).6 Miscellaneous Services (Continued).8 Prepaid Calling Card Services

Effective September 30, 2008, STi Prepaid, LLC is the provider of service for all Sprint Communications Company, L.P. prepaid phone cards as set forth in this tariff. The intrastate rates will remain in effect for at least twelve months after this date. (N)  
(N)

Sprint Prepaid Phone Card Service is an add-on to the interstate offering. Individual cards are specified in Rate Schedule 5.6.9 of this tariff. Prepaid Phone Card Service allows a customer to pay a fixed dollar amount in advance for long distance calling over the Company's network. Prepaid phone cards may be plastic, a receipt, or a virtual card on the Internet. The customer uses a toll free number on the card to access the Company's network. The customer can place intrastate, interstate and international direct dial calls.

One-minute increments of usage rates will be deducted on a real-time basis as the card is used until the full amount of the card is depleted unless specified elsewhere. For one-minute usage rate cards, fractional minutes are rounded up to the next full minute. The rates for all prepaid phone cards apply 24 hours a day, seven days a week.

The rates in effect at the time a customer purchases a card are the rates which will be in effect until the card is depleted. Certain cards are eligible for recharge. When a card is eligible for recharge, the same per minute rates apply unless otherwise stated in this tariff. A customer recharges the card by purchasing additional dollar increments by calling the toll free number on the back of the card. The customer must pay with a major credit card. The dollar amount will be added to the card once the credit card has been verified. Only one purchase is permitted within a 24 hour period and that single purchase cannot exceed \$100.

The customer will be notified in advance of the depletion of the card. The expiration date or policy is stated on the back of the phone card. The Voice Response Unit advises the caller when there is one minute remaining on the card.

Directory Assistance calls may be placed with prepaid phone cards for which a Directory Assistance rate is specified. Calls placed from a rotary phone will default to a Company Operator or to a speech recognition utility for call dialing only. Connection Fees and Surcharges, if applicable, are listed with each individual card for which they apply and are assessed.

.20 Promotional Prepaid FONCARD Service

(N)

The Promotional Prepaid FONCARD Service allows customers to pay in advance for cards which entitle the holder to rights of usage on Sprint's fiber optic network for specified amounts of interLATA and intraLATA calling per card through the expiration date printed on the back of the card. This Prepaid FONCARD service will be used for the customers' promotional purposes only and the cards will be distributed primarily through the customers' outlets and products. Promotional Prepaid FONCARD usage is given away to end users at no charge. However, in some instances, the customer purchasing the Promotional Prepaid FONCARD may charge a flat charge to end users to defray its costs associated with the promotion and distribution of the card. In some cases, the promotional card will have a designated collectable value (for example, due to limited quantities or unique production values). In these cases, the collectable dollar value may be printed on the face of the card and the long distance value (in dollars or minutes) will be printed on the card back. All advertising and promotional materials, which refer to the customer and Sprint, shall be jointly approved, and the name of both the customer and Sprint shall be displayed on all cards. Sprint's name shall be displayed on all merchandising or advertising supporting the Promotional Prepaid FONCARD.

In some instances, the Promotional Prepaid FONCARD will indicate a dollar value. The domestic usage associated with the card equals the dollar value divided by \$0.30, rounded down to a whole number of minutes.

Promotional Prepaid FONCARD Service has a minimum purchase of 5,000 cards/50,000 minutes for the domestic calling designated card and a minimum of 5,000 cards/50,000 units/domestic minutes for the combined domestic and outbound international designated card. The service will be accessed using the toll free number on the cards. Direct-dial calls may be placed using the personal identification number on the card. Each call is calculated to the next whole minute and a flat per-minute cost of a call will be deducted on a real-time basis as the card is used until the full amount of the card is exhausted. Customer service will be provided by Sprint. The per-minute rates charged to the customer, which are based on annual volumes, are set forth in Rate Schedule 6.21 following.

(N).22 Sprint Rewards Program

The Sprint Rewards Program is a loyalty program available to existing Sprint residential customers. Members of the Sprint Rewards Program will earn reward points for every dollar of Sprint qualifying charges, which can be redeemed as described herein. The program is not available to Sprint employees or to any Sprint customer presently enrolled in the Cool Rewards, Airline Partnership or Cash Back programs.

This program will be available to existing Sprint customers whose average monthly bill is \$50 or more of Sprint qualifying usage from qualifying services and who (1) are contacted by Sprint, (2) receive marketing material pertaining to this plan, or (3) contact Sprint to enroll in this program.

After being in the program for 12 months, members will be re-qualified for eligibility in the program. If, during the previous 12 month period, the member's average monthly bill was below the \$50 threshold, the member will remain in the program but the member will be ineligible to earn additional rewards points. In such cases, the member will have six months to redeem the reward points already earned. After this six month period, Sprint will requalify the member again and if the member's average monthly usage during the previous 12 month period averages \$50 or more, the member is re-entered into the program and will begin earning rewards points again. If, however, after the six month period the member is still below the \$50 threshold, the member will be dropped from the program and all existing rewards points will be forfeited.

Members will earn 20 points for every dollar of Sprint qualifying charges from qualifying services. Qualifying charges are defined as all monthly recurring charges, usage charges and service charges. Qualifying services include all long distance Dial-1, toll free, collect, and FONCARD usage, net of all applicable credits and discounts. Qualifying charges do not include taxes, surcharges, Carrier Line charges, Universal Service charges, or equipment charges.

After accessing the service, customers can place these calls by speaking the number or destination/name from the customer's personal directory. The system will repeat the number or name/destination to the customer, for confirmation, and will then place the call to the selected destination.

.2 Use of Service

Once the customer says a number, name or destination, the system will activate and dial the appropriate telephone number. This service is only available where technically feasible. See Section 6.20.1 for applicable rates.

.29 In-State Access Recovery Charge

Services provided pursuant to this tariff are subject to an In-State Access Recovery charge. The In-State Access Recovery charge will be assessed monthly on all Dial 1 Sprint accounts for which local service is not provided by a Sprint company. This charge is based on access fees that Sprint pays to local phone companies. See Section 6.21.1 for the applicable charge.
