PREFACE

TARIFF FORMAT

Sheet Numbering

Sheet numbers appear in the upper right hand corner of the page. Sheets are numbered sequentially in each Section. When a new sheet is added between existing sheets with whole numbers, a numeric character is added. For example, a new sheet added between sheets 4 and 5 would be 4.1.

Sheet Revision Numbers

Revision numbers also appear in the upper right hand corner of the sheet. These numbers are used to determine the most current sheet version on file. For example, a fourth revised sheet cancels a third revised sheet.

Numbering Sequence

There are nine levels of alpha-numeric coding. Each level is subservient to its previous higher level. The following is an example of the numbering sequence used in this tariff.

2.
2.1.
2.1.1.
2.1.1.A.
2.1.1.A.1.
2.1.1.A.1.(a)
2.1.1.A.1.(a)I.

LOCAL EXCHANGE SERVICES

PREFACE

DEFINITIONS

Certain terms used generally throughout the tariff is defined below.

Advance Payment: Part or all of a payment required before the start of service.

Authorized User: A person, firm or corporation which is authorized by the Customer or joint user to be connected to the service of the Customer or joint user, respectively.

Bit: The smallest unit of information in the binary system of notation.

CCS: One hundred call seconds or one hundred seconds of telephone conversation. One hour of telephone traffic is equal to 36 CCS (60 x 60=3600 divided by 100=36) which is equal to one erlang.

Central Office: A switching unit providing telecommunication services to the general public, designed for terminating and interconnecting lines and trunks.

Communications Services: The Company's intrastate regulated telecommunications services.

Customer: The person, firm or corporation which purchases service and is responsible for the payment of charges and compliance with the Company's regulations.

Dial Pulse or ("DP"): The pulse type employed by rotary dial station sets.

Direct Inward Dial or ("DID"): Provides capability for direct inward dialing to a PBX without attendant assistance.

Direct Outward Dial or ("DOD"): Provides recognition, by the exchange telephone network, of the capability of a PBX for direct outward dialing to an outside station without attendant assistance.

LOCAL EXCHANGE SERVICES

PREFACE

DEFINITIONS

Dual Tone Multi-Frequency or ("DTMF"): The pulse type employed by tone dial station sets.

Duplex Service: Service which provides for simultaneous transmission in both directions.

Exchange Access Line: All of the Company's Central Office equipment and outside plant facilities that are needed to connect the serving Central Office up to and including the Company-provided Network Interface or equivalent

Exchange Area

An Exchange Area is the geographical area served by a Rate Center.

The Company concurs with the Incumbent Local Exchange Carriers' exchange areas and exchange maps listed in their respective Local Exchange Tariffs which are on file.

Fiber Optic Cable: A thin filament of glass with a protective outer coating through which a light beam carrying communications signals may be transmitted by means of multiple internal reflections to a receiver, which translates the message.

Ground Start: Describes the signaling method between the PBX/key system interface and the Company's switch. It is also a request for service.

In-Only: A service attribute that restricts outward dial access and routes incoming calls to a designated answer point.

Individual Case Basis: A service arrangement in which the regulations, rates and charges are developed base don the specific circumstances of the case.

Joint User: A person, firm or corporation which is designated by the Customer as a user of services furnished to the Customer by the Company and to whom a portion of the charges for the service will be billed under a joint user arrangement as specified in the Company's tariff.

LOCAL EXCHANGE SERVICES

PREFACE

DEFINITIONS

Kbps: Kilobits per second, denotes thousands of bits per second.

LATA: A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

Local Exchange Service: The furnishing services to the Company's customers within an exchange for local calling. This service also provides access to and from the telecommunications network for long distance calling.

Loop Start: Describes the signaling between the terminal equipment or PBX/key system interface and the Company's switch. It is the signal requesting service.

Mbps: Megabits, denotes millions of bits per second.

Multi-Frequency ("MF"): An inter-machine pulse-type used for signaling between telephone company switches, or between telephone company switches and PBX/key systems.

Network: Refers to the Company's facilities, equipment, and services provided under this tariff.

Out-Only: A service attribute which restricts DID.

P.nn: The grade of service for a telephone system. The digits following the P, i.e., nn, indicate the number of calls per hundred that are blocked by the system. It is a goal or measure of an event. In the example AP.01", means one call in a hundred can be blocked, so the system is designed to meet this criterion.

LOCAL EXCHANGE SERVICES

PREFACE

DEFINITIONS

Primary Basic Exchange Service: The first business basic exchange lines at a Customer's premises, and the first two business basic exchanges access lines at a business premises, that consist of a dial tone line and the associated usage service.

Private Branch Exchange (PBX) Service: An arrangement which comprises manual and/or automatic common equipment, wiring and station apparatus, and which provides for interconnection of main station lines associated with an attendant position and/or common equipment located at the Customer's premises or extended to another Customer's premises of the same Customer. PBX service provides for centralized processing of exchange access by stations through groups of Central Office trunks, WATS lines, etc., or with other communication systems through voice D circuits connected to the common equipment. Intercommunications between stations through the common equipment is an inherent feature of the system.

Point of Connection: Also abbreviated "POC.": A location designated by the Company for the connection of Customer-provided wiring and terminal equipment to the services offered under the tariffs of the Company.

Port: A connection to the Company's switching network with one or more voice grade communications channels, each with a unique network address (telephone number), dedicated to the Customer. Each port is equipped with a Terminal Interface.

Premises: The space occupied by a Customer or authorized user in a building or buildings or contiguous property (except railroad rights-of-way, etc.) not separated by a highway.

Primary Distribution Node: A location on the Company's switching network, designated by the Company as an aggregation and interconnection point.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

LOCAL EXCHANGE SERVICES

PREFACE

DEFINITIONS

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or the tariffs of the Company, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and Customer may mutually agree on a substitute Service Commencement Date.

Service Order: The written request for Network Services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth herein and pursuant to the tariffs of the Company, but the duration of the service is calculated from the Service Commencement Date.

Shared: A facility or equipment system or subsystem that can be used simultaneously by several Customers.

Terminal Interface: The method of physical connection between a Company-provided service and a Customer's or User's transmission cable, inside wiring, or terminal equipment. Depending upon the service ordered by the Customer, there may be a choice of terminal interfaces. The Customer is responsible for ordering a terminal interface that is compatible with the Customer's or User's terminal equipment. All terminal interfaces will be provided by industry-standard connectors as specified in or authorized by Subpart F of Part 68, Title 47, Code of Federal Regulations.

Two Way: A service attribute that includes a combination of DID and DOD capabilities.

User: A Customer, Joint User, or any other person authorized by a Customer to use service provided to the Customer under a Company tariff.

LOCAL EXCHANGE SERVICES

1. APPLICATION OF TARIFF

1.1 Application

1.1.1 General

This tariff applies to the furnishing of Local Exchange Services by TCG Kansas City, Inc. ("TCG") within the State of Missouri. Local Exchange Services are furnished for the use of end-users in placing and receiving local telephone messages within a local calling area. Entities desiring access to the Company network for the purpose of originating or terminating other forms of communication may obtain such access pursuant to the Company's Access and Interconnection Tariff.

This tariff applies only for the use of the Company's services for communications within local and intraLATA calling areas. This includes the use of TCG Kansas City, Inc.'s network to complete an end-to-end local communication; and to obtain access to the intrastate services offered by other service providers.

The provision of local exchange telecommunications service is subject to existing regulations specified in the tariffs of TCG Kansas City, Inc., and may be revised, added to, or supplemented by superseding issues.

All offered service contained herein is subject to available facilities and authorization from the local municipalities in the jurisdiction where the service is offered.

Services under this Tariff may be offered and billed under the name of the Teleport Communications Group Operating Company serving the customer's location, or under the name of a subsidiary or affiliate, including but not limited to AT&T Corp., AT&T Communications, and any AT&T affiliates authorized to provide you with AT&T services prior to November 17, 2005. Services may be offered singly or in bundles with services offered by Teleport Communications Group Operating Companies or their affiliates.

LOCAL EXCHANGE SERVICES

2. GENERAL REGULATIONS

2.1 Undertaking of the Company

2.1.1 General

The Company undertakes to provide the services offered in this tariff on the terms and conditions and at the rates and charges specified herein.

Local Exchange Services consist of any of the services offered pursuant to this tariff, either individually or in combination. Each service is offered independent of the others, unless otherwise noted. Service is offered via the Company's facilities in combination with resold services provided by other certificated carriers.

Services, features and functions will be provided where facilities, including but not limited to, billing capability, technical capability and the ability of the Company to purchase underlying services, features and functions and/or unbundled network elements ("UNEs") (as that term is defined by applicable law), either alone or in combination (including a combination of unbundled switching with other UNEs), are available. The Company reserves the right to withdraw any service provided pursuant to this tariff or to modify its terms and conditions, upon 30 days notice, in the event that changes occur (including regulatory changes) which affect either the availability of facilities to the Company, or the terms and conditions upon which they are obtained. The foregoing is in addition to all other existing rights retained by AT&T to modify or withdraw its services at any time.

The Company's obligation to furnish service, features and/or facilities is also dependent upon its ability to provide, secure and retain, without unreasonable expense to the Company (a) suitable facilities and rights for construction and maintenance of the necessary circuits and equipment, (b) suitable space for its plant and facilities in the building where service is or is to be provided, (c) facilities for interconnection form alternate suppliers.

In any action between the parties to enforce any provision of the tariffs of the Company, the prevailing party shall be entitled to recover its legal fees and court costs from the non-prevailing party in addition to other relief a court may award.

LOCAL EXCHANGE SERVICES

2. GENERAL REGULATIONS

2.1 Undertaking of the Company (Cont'd)

2.1.2 Terms and Conditions

Customers may be required to enter into written service orders which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff. The Customer will also be required to execute any other documents as may be reasonably requested by the Company, in connection with the provisioning of Local Exchange Service.

At the expiration of the initial term specified in each service order, or in any extension thereof, service shall continue on a month to month basis at the then current month to month rates unless terminated by either party. Any termination shall not relieve the Customer of its obligation to pay any charges incurred under the service order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the service order shall survive such termination.

Except as may otherwise be stated in this tariff, service is provided on the basis of a minimum period of at least one month, 24-hours per day. For the purpose of computing charges in this tariff, a month is considered to have 30 days.

The tariffs of the Company shall be interpreted and governed by the laws of the State of Missouri without regard to its conflict of laws provision.

2.1.3 Notification of Service-Affecting Activities

The Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of the Company's business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements, and routine preventive maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

2. GENERAL REGULATIONS

2.1 Undertaking of the Company (Cont'd)

2.1.4 Provision of Equipment and Facilities

- A. The Company will use reasonable efforts to make available services to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer with the regulations contained in this tariff. The Company does not guarantee availability by any such date and shall not be liable for any delays in commencing service to any Customer.
- B. The Company shall use reasonable efforts to maintain facilities and equipment used to provide services that it furnishes to the Customer. The Customer may not, nor may the Customer permit others to, rearrange, disconnect, remove, attempt to repair, or otherwise interfere with any of the facilities or equipment installed by the Company, except upon the written consent of the Company.
- C. The Company may substitute, change, or rearrange any equipment or facility at any time, but will not thereby alter the technical parameters of the service provided to the Customer without advance notification to the Customer.
- D. Equipment the Company provides or installs at the Customer premises for use in connection with the services the Company offers shall not be used for any purpose other than that for which the Company provided it.
- E. The Customer shall be responsible for the payment of service charges, as set forth herein, for visits by the Company's agents or employees to the premises of the Customer when the service difficulty or trouble report results from the use of equipment or facilities provided by any party other than the Company, including but not limited to the Customer.

2. GENERAL REGULATIONS

2.1 Undertaking of the Company (Cont'd)

2.1.4 Provision of Equipment and Facilities

F. The Company shall not be responsible for the installation, operation, or maintenance of any Customer-provided communications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities offered under this tariff and to the maintenance and operation of such facilities. Subject to this responsibility, the Company shall not be responsible for:

1. The transmission of signals by Customer-provided equipment or for the quality of, or defects in, such transmission; or

2. The reception of signals by Customer-provided equipment.

G. Service may be connected to the services or facilities of other communications carriers only when authorized by, and in accordance with, the terms and conditions of the other communications carrier that are applicable to such connections.

2. GENERAL REGULATIONS

2.1 Undertaking of the Company (Cont'd)

2.1.6 Customer Equipment

A Customer may transmit or recover information or signals via the facilities of the Company.

A. Station Equipment

Customer-provided terminal equipment on the Customer premises, and the electric power consumed by such equipment, shall be provided by and maintained at the expense of the Customer. Conformance of Customer-provided station equipment with part 68 of the FCC Rules is the responsibility of the Customer..

The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents carried on Company-provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring must be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or other persons. If the Company, in its sole discretion, reasonably determines that additional protective equipment is required to prevent such damage or injury, it shall be provided at the Customer's expense.

B. Interconnection of Facilities

Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing Local Exchange Services and the channels, facilities, or equipment of others shall be provided by the Company, at the Customer's expense.

Local Exchange Services may be connected to the services or facilities of other communications carriers only when authorized by and in accordance with the terms and conditions of this Company's Tariff and the tariffs of the other communications carriers which are applicable to such connections.

2. GENERAL REGULATIONS

2.1 Undertaking of the Company (Cont'd)

2.1.6 Customer Equipment (Cont'd)

C. Inspections

Upon reasonable notification to the Customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the Customer is complying with the requirements set forth in the section for the installation, operation, and maintenance of Customer-provided facilities, equipment and wiring in the connection of Customer-provided facilities and equipment to Company-provided facilities and equipment.

If the protective requirements for Customer-provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within ten days of receiving this notice, the Customer must take corrective action and notify the Company of the action taken. If the Customer fails to do this, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment and personnel from harm.

A Customer, joint user, or authorized user shall not represent that its services are provided by the Company, or otherwise indicate to its Customers that its provision of services is jointly with the Company, without the written consent of the Company. The relationship between the Company and Customer shall not be that of partners or agents for one or the other, and shall not be deemed to constitute a partnership or agency agreement.

D. Tests and Adjustments

Upon suitable notice, the Company may make such tests, adjustments, and inspections as may be necessary to maintain the Company's facilities in satisfactory operating condition. No interruption allowance will be credited to the Customer for the period during which the Company makes such tests, adjustments, or inspections.

2. GENERAL REGULATIONS

2.1 Undertaking of the Company (Cont'd)

2.1.7 Prohibited Uses

The services the Company offers shall not be used for any unlawful purpose or for any use as to which the Customer or User has not obtained all required governmental approvals, authorizations, licenses, consents and permits.

The Company may require a Customer or User immediately to shut down its transmission of signals if said transmission is causing interference to others.

A Customer or User may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit a Customer to transfer its existing service to another entity if the existing Customer has paid all charges owed to the Company for regulated communications services. Such a transfer will be treated as a disconnection of existing service and installation of new service, and non-recurring installation charge.

2.1.8 Non-Routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours and/or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

2. GENERAL REGULATIONS

2.1 Undertaking of the Company (Cont'd)

2.1.9 Ownership of Facilities

Title to all facilities provided in accordance with the tariffs of the Company remains with the Company, its agents or contractors. The Customer shall not have, nor shall it assert, any right, title or interest in all the fiber optic or other facilities and associated equipment provided by the Company.

2.1.10 Optional Rates and Information Provided to the Public

The Company will promptly advise Customers who may be affected of new, revised or optional rates applicable to their service. Pertinent information regarding the Company's services, rates and charges shall be provided directly to Customers, or shall be available for inspection at the Company's local business address.

2.1.11 Continuity of Service

In the event of prior knowledge of an interruption of service for a period exceeding one day, the Customers will, if feasible, be notified in writing, by mail, at least one week in advance.

2. GENERAL REGULATIONS

2.2 Liability of the Company

2.2.1 Service Liability

- A. The Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit by a Customer or by any others, for damages associated with the installation, provision, preemption, termination, maintenance, repair or restoration of a service, and subject to the provisions following, the Company's liability, if any, shall not exceed an amount equal to the proportionate charge for the service for the period during which the service was affected. In no event shall the Company be liable for special, reliance, consequential, or other such damages. This liability for damages shall be in addition to any amounts that may otherwise be due the Customer under this tariff as a Credit Allowance for Interruptions.
- B. The Company is not liable for any act or omission of any other communications provider which furnishes a portion of a service.
- C. The Company is not liable for damages to a premises resulting from the furnishing of service including the installation and removal of equipment or facilities and associated wiring, unless the damage is caused by the Company's negligence.
- D. The Company shall be indemnified, defended, and held harmless against any claim, loss or damage arising from the use of service offered under this tariff, involving:
 - 1. Claims for libel, slander, invasion of privacy or infringement of copyright arising from any communication;
 - 2. Claims for patent infringement arising from the Customer or authorized user combining or using the service furnished by the Company in connection with facilities or equipment furnished by others; or
 - 3. All other claims arising out of any act or omission of others in the course of using services provided pursuant to this tariff.

2. GENERAL REGULATIONS

2.2 Liability of the Company (Cont'd)

2.2.1 Service Liability (Cont'd)

- E. The Company does not guarantee or make any warranty with respect to its services when used in an explosive atmosphere. The Company shall be indemnified, defended and held harmless by the Customer and authorized user from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by any other party or person(s), and for any loss, damage or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal presence, condition, location or use of any installation, operation, location or use of any installation so provided. The Company reserves the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this paragraph as a condition precedent to such installations.
- F. No license under patents (other than the limited license to use) is granted by the Company or shall be implied or arise by estoppel, with respect to any service offered under this tariff. The Company will defend the Customer and authorized user against claims of patent infringement arising solely from the use by the Customer or authorized user of services offered under this tariff and will indemnify such Customer or authorized user for any damages awarded based solely on such claims.
- G. The Company shall not be liable for any delay or failure of performance or equipment due to causes beyond its control, including but not limited to: acts of God, fire, flood, explosion or other catastrophes; any law, order, regulation, direction, action, or request of the United States Government, or of any other government, including state and local governments having or claiming jurisdiction over the Company, or of any department, agency, commission, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or of any civil or military authority; national emergencies; insurrections; riots; wars; unavailability of rights-of-way or materials; or strikes, lock-outs, work stoppages, or other labor difficulties.
- H. The Company shall not incur any liability, direct or indirect, to any person who dials or attempts to dial the digits "911" or to any other person who may be affected by the dialing of the digits "911".

LOCAL EXCHANGE SERVICES

2. GENERAL REGULATIONS

2.2 Liability of the Company (Cont'd)

2.2.2 Temporary Suspension for Repairs

The Company shall have the right to make necessary repairs or changes in its facilities at any time and will have the right to suspend or interrupt service temporarily for the purpose of making the necessary repairs or changes in its system. When such suspension or interruption of service for any appreciable period is necessary, the Company will give Customers who may be affected as reasonable notice thereof as circumstances will permit, and will perform the work with reasonable diligence, and if practicable at times that will cause the Customer the least inconvenience. When the Company is repairing or changing its facilities, it shall take appropriate precautions to avoid unnecessary interruptions of communications or Customer's service.

2.2.3 Credit Allowance for Interruptions

Interruptions in service, which are not due to the negligence of, or noncompliance with the provisions of the tariffs of the Company by, the customer or of an authorized or joint user, or the operation or malfunction of the facilities, power or equipment provided by the Customer, will be credited to the Customer as set forth below for the part of the service that the interruption affects.

A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under its tariffs. An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

2.2 Liability of the Company (Cont'd)

2.2.3 Credit Allowances for Interruption (Cont'd)

A. Credit allowances shall be calculated as follows:

1. Interruptions of 24 Hours or Less

<u>Length of Interruption</u>	<u>Interruption Period To be Credited</u>
Less than 4 hours	None
4 hours up to but not including 8 hours	1/3 Day
8 hours up to but not including 12 hours	1/2 Day
12 hours up to but not including 16 hours	2/3 Day
16 hours up to but not including 24 hours	One Day

Two or more service interruptions of the same type to the same line/equipment of 2 hours or more during any 24 hour period shall be considered as one interruption.

2. Interruptions Over 24 Hours Interruptions over 24 hours will be credited 4 hours for each 4 hour period or fraction thereof. No more than one full day's credit will be allowed for any period of 24 hours.

LOCAL EXCHANGE SERVICES

2. GENERAL REGULATIONS

2.2 Liability of the Company (Cont'd)

2.2.4 Governmental Authorizations

The provision of Service is subject to and contingent upon the Company obtaining and retaining such approvals, consents, governmental authorizations, licenses and permits, as may be required or be deemed necessary by the Company. The Company shall use reasonable efforts to obtain and keep in effect all such approvals, consents, authorizations, licenses and permits that may be required to be obtained by it. The Company shall be entitled to take, and shall have no liability whatsoever for, any action necessary to bring the Services into conformance with any rules, regulations, orders, decisions, or directives imposed by the Federal Communications Commission or other applicable agency, and the Customer shall fully cooperate in and take such action as may be requested by the Company to comply with any such rules, regulations, orders, decisions, or directives.

2.2.5 Violation of Regulations

When any terminal equipment or communications system is used with Local Exchange Services in violation of any of the provisions of this tariff, the Company will take immediate action, based on the circumstances, to protect its services or interests, including disconnection of the service, and will promptly notify the Customer of the violation. The Customer shall discontinue such improper use of the terminal equipment or communications system or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such use has ceased or that the violation has been corrected. Failure of the Customer to discontinue such use or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in disconnection of the Customer's service until such time as the Customer complies with the provisions of this Tariff.

2.2.6 Privacy

All communications between customers are considered confidential in nature. The Company will take reasonable action to minimize the potential access of other entities to those communications. Operators or employees of the Company will not listen to any conversation between customers except when an operating necessity. Operators shall not repeat or divulge the nature of any local or long distance conversation, nor divulge any information inadvertently overheard.

2. GENERAL REGULATIONS

2.3 Obligations of the Customer

2.3.1 Customer Responsibilities

A. The Customer shall be responsible for:

1. The payment of all applicable charges pursuant to this tariff.

The Customer is responsible for the payment of any charges related to access to or use of intra- or inter-LATA toll services in order to originate or terminate calls on a 1+ basis or to receive 8YY service. The Customer is solely liable for charges assessed by AT&T or other providers for such services.

2. Damage to or loss of the Company's facilities or equipment caused by the acts or omissions of the Customer or the noncompliance by the Customer with these regulations, or by fire or theft or other casualty on the Customer premises, unless caused by the negligence or willful misconduct of the employees or agents of the Company;
3. Providing at no charge, as specified from time to time by the Company, any needed personnel, equipment or facilities, space, and power to operate Company facilities and equipment installed on the premises of the Customer, and the level of heating and air conditioning necessary to maintain the proper operating environment on such premises;
4. Obtaining, maintaining, and otherwise having full responsibility for all rights-of-way and conduit necessary for installation of associated equipment or facilities used to provide Local Exchange Services to the Customer from the cable building entrance or property line to the location of the equipment or facilities space described above. Any costs associated with obtaining and maintaining the rights-of-way described herein, including the costs of altering the structure to permit installation of the Company- provided equipment or facilities, shall be borne entirely by, or may be charged by the Company to the Customer. The Company may require the Customer to demonstrate its compliance with this section prior to accepting an order for service;

2.3 Obligations of the Customer (Cont'd)

2.3.1 Customer Responsibilities (Cont'd)

A. The Customer shall be responsible for: (Cont'd)

5. Providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which Company employees and agents shall be installing or maintaining the Company's facilities and equipment. The Customer may be required to install and maintain Company facilities and equipment within a hazardous area if, in the Company's opinion, injury or damage to the Company's employees or property might result from installation or maintenance in such area by the Company. The Customer shall be responsible for identifying, monitoring, removing and disposing of any hazardous material (e.g. asbestos) prior to any construction or installation work;
6. Complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses and permits as may be required with respect to the location of Company facilities and equipment in any Customer premises or the rights-of-way for which the Customer is responsible under this section; and granting or obtaining permission for Company agents or employees to enter the premises of the Customer for the purpose of installing, inspecting, maintaining, repairing, or upon termination of service as stated herein, removing the facilities or equipment of the Company;
7. Not creating or allowing to be placed any liens or other encumbrances on the Company's equipment or facilities.

2. GENERAL REGULATIONS

2.3 Obligations of the Customer (Cont'd)

2.3.2 Claims

With respect to any service or facility provided by the Company, the Customer shall indemnify, defend, and hold harmless the Company from and against all claims, actions, damages, liabilities, costs and expenses, including reasonable attorney's fees for:

- A. Any loss, destruction, or damage to property of the Company or any third party, or the death or injury to persons, including but not limited to, employees or invitees of either party, to the extent caused by or resulting from the negligent or intentional act or omission of the Customer, its employees, agents, representatives or invitees; or
- B. Any claim, loss, damage, expense or liability for infringement of any copyright, patent, trade secret, or any proprietary or intellectual property right of any third party, arising from any act or omission by the Customer, including, without limitation, use of the Company's services and facilities in a manner not contemplated by the agreement between the Customer and the Company.

The Company shall be indemnified and saved harmless by the Customer against claims for libel, slander, fraudulent or misleading advertisement, or infringement of copyright arising directly or indirectly from the material transmitted over its facilities or the use thereof; and against all other claims arising out of any act or omission of the Customer in connection with the services and facilities provided by the Company.

2. GENERAL REGULATIONS

2.3 Obligations of the Customer (Cont'd)

2.3.3 Resale and Sharing

Any service provided under the Company tariffs may be resold to or shared with other persons at the option of Customer, except as provided in this tariff. Customer remains solely responsible (a) for all use of services ordered by it or billed to its telephone number(s) pursuant to the tariffs of the Company, (b) for determining who is authorized to use its services, and (c) for notifying the Company of any unauthorized use. Business rates apply to all service that is resold or shared.

2.3.4 Joint Use Arrangements

Joint use arrangements will be permitted for all services available for resale and sharing pursuant to the Company tariffs. From each joint use arrangement, one member will be designated to be the Customer responsible for the manner in which the joint use of the service will be allocated. The Company will accept orders to start, rearrange, relocate, or discontinue service only from the Customer. Without affecting the Customer's ultimate responsibility for payment of all charges for the service, each joint user shall be responsible for the payment of the charges billed to it.

2.3.5 Transfers and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the services and facilities provided by the Company without the written consent of the other party and any appropriate authorizations, if necessary, except that the Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company, (b) pursuant to any sale or transfer of substantially all the assets of the Company; or (c) pursuant to any financing, merger or reorganization of the Company.

2. GENERAL REGULATIONS

2.3 Obligations of the Customer (Cont'd)

2.3.6 Liability for Unauthorized Use of the Network

A. Unauthorized Use

Unauthorized use of the Network occurs when: (1) a person or entity that does not have actual, apparent, or implied authority to use the Network, obtains the Company's services provided under this Tariff; or (2) a person or entity that otherwise has actual, apparent, or implied authority to use the Network, makes fraudulent use of the Network to obtain the Company's services provided under this Tariff, or uses specific services that are not authorized.

The following activities constitute fraudulent use:

1. Using the Network to transmit a message, locate a person, or otherwise give or obtain information, without payment for the service;
2. Using or attempting to use the Network with the intent to avoid payment, either in whole or part, of any of the Company's tariffed charges by either rearranging, tampering with, or making connections not authorized by this Tariff to any service components used to furnish the Company's services or using fraudulent means or devices, tricks, schemes, false or invalid numbers, false credit devices or electronic devices;
3. Toll Free callers using the Network with the intent of gaining access to a Customer's outbound calling capabilities on an unauthorized basis; and
4. Using fraudulent means or devices, tricks, schemes, false or invalid numbers, false credit devices or electronic devices to defraud or mislead callers.

Customers are advised that use of telecommunications equipment and services, including that provided under this Tariff, carries a risk of various forms of telecommunications fraud (including, but not limited to, toll and PBX fraud perpetrated by Users who gain access to a Customer's facilities, account numbers, security or authorization codes, etc.). Customers should take all necessary steps to restrict access to their facilities, including the equipment and services provided hereunder, and to detect and prevent unauthorized use of the equipment and services provided by the Company under this Tariff.

2.3.6 Liability for Unauthorized Use of the Network (Cont'd)

B. Liability for Unauthorized Use

1. Except as provided for elsewhere in this Tariff, the Customer is responsible for payment of all charges for services provided under this Tariff furnished to the Customer or User. This responsibility is not changed due to any use, misuse, or abuse of the Customer's service or Customer-provided equipment by Users or other third parties, the Customer's employees, or the public.
2. The Customer is responsible for payment of all outbound call charges arising from the calls placed to a Customer's Toll Free Service number, whether or not calls are authorized or fraudulent, where the User gains access to the Customer's outbound calling equipment and services.
3. The Customer is liable for all costs incurred as a result of unauthorized use of the Network, including service charges and any direct, indirect, special, incidental, reliance, consequential, exemplary or punitive charges.
4. The Customer is responsible for payment of any charges related to the suspension and/or termination of service, and any charges for reconnection of service, incurred as a result of unauthorized use of the Network.

C. Liability for Calling Card Fraud

1. The Customer is liable for the unauthorized use of the Network obtained through the fraudulent use of a Company Calling Card, provided that the unauthorized use occurs before the Company has been notified.
2. The Customer must give the Company notice that unauthorized use of a Company Calling Card has occurred or may occur as a result of loss, theft or other reasons. For the purposes of this section, "notice" occurs when the Company receives a written confirmation that unauthorized use of a Company Calling Card has occurred or may occur as a result of loss, theft or other reasons.
3. The Company may, but is not required to, advise the customer of abnormal calling patterns or other possible unauthorized use of Company Calling Cards assigned to the customer. In addition, the Company may, but is not required to block calls on Company Calling Card authorization codes which the Company believes to be unauthorized or fraudulent.

D. Liability for Credit Card Fraud

1. The Customer is liable for the unauthorized use of the Network obtained through the fraudulent use of a Credit Card, provided: (1) the Credit Card is an accepted credit card, and (2) the unauthorized use occurs before the Company has been notified.

An accepted credit card is any credit card that a cardholder has requested or applied for and received, or has signed, used, or authorized another person to use to obtain credit. Any credit card issued as a renewal or substitute in accordance with this paragraph is an accepted credit card when received by the cardholder.

2. The liability of the Customer for unauthorized use of the Network by Credit Card fraud will not exceed the lesser of \$50 or the amount of money, property, labor, or services obtained by the unauthorized user before notification to the Company.
3. The Customer must give the Company written notice that unauthorized use of a Credit Card has occurred or may occur as a result of loss, theft or other reasons. For the purposes of this section, "notice" occurs when the Company receives a written confirmation that unauthorized use of a Credit Card has occurred or may occur as a result of loss, theft or other reasons.

2. GENERAL REGULATIONS

2.4 Payments and Charges

2.4.1 Establishment and Reestablishment of Credit

The Company will conduct a credit investigation of each commercial service Customer or applicant prior to accepting the service order, Customer deposit or advance payment. A Customer whose service has been discontinued for non payment of bills for any telecommunications service(s) provided by AT&T will be required to pay all bills due the Company for telecommunications services or make a reasonable deferred payment arrangement and to re-establish credit before service is restored or any service started.

If service is established and it is subsequently determined that the applicant is indebted to the Company for service previously furnished, the Company may suspend or terminate such service until satisfactory arrangements have been made for the payment of the prior indebtedness.

2. GENERAL REGULATIONS

2.4 Payments and Charges (Cont'd)

2.4.2 Billing and Collection

The Customer is responsible for payment of all charges for equipment or facilities and services furnished by the Company to the Customer.

The Company will establish a monthly billing date for each Customer account and shall bill all charges incurred by, and credits due to the Customer under this tariff. Nonrecurring charges are due and payable within 30 days after the date an invoice is mailed to the Customer by the Company. Recurring charges are billed monthly in advance of the month in which service is provided, except where prohibited by law. Usage sensitive charges are billed monthly for usage incurred by the Customer during the preceding billing period(s). Bills are due by the payment due date shown on the bill.

When service does not begin on the first day of the billing cycle, or end on the last day of the billing cycle, the charge for the fraction of the billing cycle in which service was furnished will be calculated on a pro rata basis, except as otherwise expressly provided in this tariff.

Usage for Prime Services is timed and rated per call in increments specified in the applicable service tariffs. Timing begins with the completion of the connection and ends with the termination of the connection. Partial increments will be rounded up to the next full increment on a per call basis and partial cents will be rounded to the next whole cent, on a per call basis.

Billing of the Customer by the Company will begin on the Service Commencement Date, which is the first day following the date on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in the Service Guides of the Company or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.

When a Customer reschedules the effective service date of an order less than thirty (30) days prior to the originally requested service date, the Customer may be charged a rescheduling charge equal to a maximum of one hundred percent (100%) of the non-recurring charges per arrangement, per reschedule. If a Customer reschedules more than thirty (30) days after the originally scheduled installation date, Monthly Recurring Charges may be charged beginning thirty-one (31) days after the original installation date.

2. GENERAL REGULATIONS

2.4 Payments and Charges (Cont'd)

2.4.3 Disputed Bills

The Customer is responsible for notifying the Company of any charges in dispute and the specific basis of such dispute. The Company reserves the right to require such notice to be in writing. All charges not in dispute shall be paid by the Customer by the payment due date. Upon notification of a dispute, the Company shall undertake an investigation of the disputed charges. At the conclusion of the investigation, the Company shall notify the Customer of any amount determined by the Company to be correctly charged and such amount shall become immediately due and owing. Amounts determined by the Company to be correctly charged shall also be subject to the late payment charge specified in this Tariff.

The Customer must provide the Company with written notice of the dispute within one hundred and twenty (120) days from the bill date, otherwise, the charge will be considered correct and binding.

Any Customer who has a dispute shall be advised by the Company that the Customer may file a formal or informal complaint with the Missouri Public Service Commission.

Missouri Public Service Commission
P.O. Box 360
200 Madison Street
Jefferson City, MO 65102

2.4.4 Advance Payments

The Company may require a Customer or applicant to make an advance payment as a condition of continued or new service. The Company reserves the right to require from an applicant for service, advance payments of recurring and nonrecurring charges, estimated usage charges, and other charges and guarantees in such amount as may be deemed necessary by the Company for safeguarding its interests. In addition, where special construction is involved, advance payment of the construction charges quoted, may be required at the time of application. The advance payment will be applied to any indebtedness for the service and facilities for which the advance payment is made.

A Customer whose service has been discontinued for nonpayment of bills will be required to pay the unpaid balance due carrier and may be required to pay reconnect charges.

2. GENERAL REGULATIONS

2.4 Payments and Charges (Cont'd)

2.4.5 Deposits for Business Customers

The Company may require an applicant or customer to make a suitable cash deposit to be held by the Company as a guarantee of the payment of charges for service. Such deposit shall not exceed an estimated bill for one billing period, plus two months estimated toll. After service has been established and experience demonstrates that the amount of the outstanding deposit is not suitable to safeguard the interests of the Company, the Company may require an adjustment of the deposit not exceeding the charges which it is estimated will accrue for a period of two months. When service is terminated, any balance of the deposit remaining after deduction of all sums due the Company will be returned to the customer, or the deposit may be returned at any time previous thereto, at the option of the Company.

A deposit does not relieve the customer from compliance with the Company's regulations as to advance payments and payment for service, nor constitutes a waiver or modification of the regulations pertaining to the discontinuance of service for nonpayment of any sums due the Company for the service rendered.

A Customer whose service has been discontinued by the Company for non-payment of bills, and who wishes to restore service with the Company, will be required to pay the unpaid balance due the Company and may be required to pay restoral charges and any applicable installation charges.

2. GENERAL REGULATIONS

2.4 Payments and Charges (Cont'd)

2.4.7 Late Payment Charge

The Company may apply a Late Payment Charge if any portion of the Customer's payment is received by the Company after the payment due date or if any portion of the payment is received by the Company in funds which are not immediately available, providing billing capability exists.

The late factor shall be 1.0% per month unless an applicable law or regulation specifies a lower interest rate to be charged or portion thereof applied from the 31st calendar day after payment date to and including the date that the Company actually receives the payment. The Late Payment Charge shall be assessed monthly, based on the delinquent balance maintained on the account at the time.

2.4.8 Charge Increases

The Company reserves the right to increase charges for Services provided to the customer, regardless of any term commitment, as a result of (a) expenses incurred by the Company reasonably relating to regulatory assessments stemming from an order, rule or regulation of any regulatory authority or court having competent jurisdiction; (b) other governmental charges or fees; c) charges or payment obligations imposed on the Company related to termination of domestic or international calls to mobile numbers; or (d) reductions in amounts other carriers are required to pay to the Company or increases in the amount the Company is required to pay to other carriers. Customers with tariffed based contracts will be held to the terms and conditions of their contract until such contract is expired.

2.4.10 Assignment and Changes of Phone

- A. The Customer has no property right in the telephone number nor any right to continuance of service through any particular Central Office, and the Company may change the telephone number or Central Office designation of a Customer whenever it considers it desirable in the conduct of its business.
- B. An applicant for telephone service may request a specific telephone number, and the requested telephone number will be assigned to the applicant only under the following terms and conditions:
 1. The telephone number is located in the Central Office serving the applicant's premises, or if not, the applicant agrees to pay mileage charges as in the Access Service Tariff.
 2. For business service, the telephone number has not been previously assigned to another Customer within the three-hundred and sixty-day period preceding the applicant's request for service of the life of the directory listing of the telephone number (whichever is greater); or if the number has been assigned to another Customer within the preceding three-hundred and sixty-day period, that Customer consents to the assignment of the number to the applicant.
 3. The Customer is not requesting a change from business to residence service.
 4. In a case where existing service is continued for a new Customer the telephone number may be retained by the new Customer subject to the rules mentioned above. In addition, where the applicant is applying for business service, it must be a different entity from and in no way connected with or related to the Customer to whom the number was assigned within the previous three-hundred and sixty-day period or life of the directory listing of the telephone number (whichever is greater).
 5. The above rules also apply to a request for a specific number by an existing Customer.

2.4.11 Duplicate Bill Charge

Subject to Company retention policies, availability of the bill(s), and ability of the Company to retrieve the bill(s), a customer may request a paper copy of their bill(s). A Duplicate Bill Charge may apply upon a customer's request for duplicate copies of their telephone bill(s) in accordance with the charges specified following, unless stipulated differently in the customer's contract. This service will be available where billing and technology exist.

The Duplicate Bill Charge will not be applied in the following instances:

1. When a customer is currently subscribing to a service to receive additional copies of their bills;
2. When customers request a copy of the bill because of non-receipt of an initial bill after new connect, transfer of change of address orders;
3. When customers have not received a bill due to Company error in the address of the bill;
4. When a customer requests a copy of the current monthly bill or final bill.

The Duplicate Bill is mailed via standard US mail only. A per bill copy charge applies as specified in the Price List.

With respect to any claim or suit, by a customer or others, for damages arising from delays, errors or omissions, or the failure to provide bill copies, Company liability, if any, shall not exceed the amount paid for the service.

2. GENERAL REGULATIONS

2.5 Cancellation, Discontinuance, Refusal, Suspension and Changes

2.5.1 Cancellation of Service

A. Cancellation of Service Order

Applications for service are non-cancellable unless the Company otherwise agrees. Where the Company permits the Customer to cancel an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below.

Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it would otherwise not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun.

Where the Company incurs an expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs incurred, less net salvage applies.

The charges described above will be calculated and applied on a case-by-case basis.

2. GENERAL REGULATIONS

2.5 Cancellation, Discontinuance, Refusal, Suspension and Changes
(Cont'd)

2.5.2 Discontinuance of Service

The Company may discontinue or refuse to furnish any and/or all service(s) to the Customer or Applicant for service without incurring any liability if the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities, assets or services, or to comply with any governmental requirement or prohibition.

If a Customer (or any reseller or intermediary in the sales chain between the Customer and an end user) fails to comply with the terms of service or with any applicable federal, state, or municipal law or regulation, the Company may, on written notification to the Customer, immediately deny requests for additional service and/or suspend, restrict or discontinue providing services to the non-complying Customer. If the non-compliance is not cured to Company's reasonable satisfaction within 30 days after the date of notification, the Company may discontinue the service upon five days notice to the Customer. Company may pursue any other available remedies with respect to the conduct that constitutes non-compliance.

The discontinuance of service(s) by the Company pursuant to this Section does not relieve the Customer of any obligation to pay the Company for charges due and owing for service(s) furnished up to the time of discontinuance. In addition, the Company may declare all future monthly and other charges which would have been payable by the Customer during the remainder of the term for which such services would have otherwise been provided to the Customer, to be immediately due and payable.

In the event the Company incurs fees or expenses, including attorney's fees, in collecting or attempting to collect any charges owed the Company, the Customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

LOCAL EXCHANGE SERVICES

2. GENERAL REGULATIONS

2.5 Cancellation, Discontinuance, Refusal, Suspension and Changes
(Cont'd)

2.5.2 Discontinuance of Service (Cont'd)

- A. The Company may without incurring any liability, discontinue or suspend service immediately pursuant to the following:

Customer violates any material term or condition for furnishing service

1. The Customer provides false information to the Company regarding the Customer's identity, address, credit-worthiness, past or current use of communications services, or its planned use of the Company's service(s); or
2. The Customer states that it will not comply with a request of the Company for security for the payment for service(s) or advance payments; or
3. The Customer uses service to transmit a message, locate a person or otherwise give or obtain information without payment for the service; or
4. The Customer uses, or attempts to use, service with the intent to avoid the payment, either in whole or in part, of the charges for the service by:
 - (a) Using or attempting to use service by rearranging, tampering with, or making connections to the Company's service not authorized by Company; or
 - (b) Using tricks, schemes, false or invalid numbers, false credit devices, electronic devices; or
 - (c) Any other fraudulent means or devices.
 - (d) The use of profane or obscene language.
 - (e) The use of the service of the Company for a message or messages, anonymous or otherwise, if in a manner reasonably expected to frighten, abuse, torment, or harass another.

LOCAL EXCHANGE SERVICES

2. GENERAL REGULATIONS

2.5 Cancellation, Discontinuance, Refusal, Suspension and Changes
(Cont'd)

2.5.2 Discontinuance of Service (Cont'd)

- B. Upon the Customer's nonpayment of any amounts owing to the Company for services found herein, the Company may, by giving ten (10) days prior written notice to the Customer, discontinue or suspend service without incurring any liability.
- C. Upon condemnation of any material portion of the facilities used by the Company to provide service to the Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend service without incurring any liability.
- D. Upon any governmental prohibition or requirement, alteration of the services to be provided or any violation of an applicable law or regulation, the Company may with or without prior written notice discontinue service without incurring any liability.

2.5.3 Application of Partial Payments

If a Customer continues to pay all current bills, defined as that portion of the amount owed by the Customer for services contained herein that is not more than 30 days overdue, the Company shall not discontinue service for non-payment of a past due amount for the Company's services when the Customer has entered into an amortization agreement with the Company. Payments for current bills shall first be credited to the Company's Basic Local Exchange service. Past due amounts collected under the amortization schedule will first be applied by the Company to eliminating any over-due payments for Basic Local Exchange service. A reasonable period of amortization of past due amounts shall be three months for business service. Amortization is not appropriate unless the past due amount of the Customer is greater than twice the average monthly bill for the class of service to which the Customer belongs over the last six months for the use of the Company's serviced contained in this tariff.

LOCAL EXCHANGE SERVICES

2. GENERAL REGULATIONS

2.5 Cancellation, Discontinuance, Refusal, Suspension and Changes
(Cont'd)

2.5.4 Termination Liability

A. Facilities

The Customer will furnish the Company with forty-five (45) days prior written notice should it desire to terminate an application or contract, in whole or in part, for which the initial application or contract period is in excess of one month at the same location.

Existing customers who have not renewed their contracts prior to the effective date of this tariff will be subject to these notice requirements. New customers who sign a contract on or after the effective date are subject to these notice requirements. Upon the Customer's discontinuance of a term agreement for facilities prior to the expiration of the agreed upon term, the termination liability will be equal to the monthly charge multiplied by the number of months remaining on the contract - discounted for present value of 6%.

B. Usage

The Customer will furnish the Company with forty-five (45) days prior written notice should it desire to terminate an application or contract, in whole or in part, for which the initial application or contract period is in excess of one month at the same location. Existing customers who have not renewed their contracts prior to the effective date of this tariff will be subject to these notice requirements. New customers who sign a contract on or after the effective date are subject to these notice requirements. In the event that a customer has a term commitment for usage and disconnects service prior to the expiration of the usage term, the termination liability with respect to minutes of use charges shall be a monthly usage charge applied for the remaining months of the usage contract - discounted for present value of 6%. The monthly usage charge will be determined by calculating the average monthly usage of the first 6 months of the term. In the event that a customer disconnects within the first 6 months of their usage term, the liability usage charges will be calculated by averaging total usage dollars divided by the number of months activated.

2. GENERAL REGULATIONS

2.5 Cancellation, Discontinuance, Refusal, Suspension and Changes
(Cont'd)

2.5.4 Termination Liability

C. Termination Liability

In the event that one or more Local Services are terminated prior to the completion of the Minimum Retention Period, a Service Termination Charge will apply. For Local Services that are terminated with less than twelve months remaining to be completed in the Minimum Retention Period for that Local Service, a Service Termination Charge equal to three months recurring charges will apply. For Local Services that are terminated with between twelve and twenty-three months remaining to be completed in the Minimum Retention Period for that Local Service, a Service Termination Charge equal to six months recurring charge will apply. For Local Services that are terminated with twenty-four or more months remaining to be completed in the Minimum Retention Period for that Local Service, a Service Termination Charge equal to nine months recurring charges will apply.

2.5.5 Changes in Service

If the Customer makes or requests material changes in circuit engineering, equipment or facility specifications, service parameters, premises locations, or otherwise materially modifies any provision of the application for service, Customer's installation fee shall be adjusted accordingly.

2.5.6 Assignment or Transfer of Service

The Customer may not assign or transfer its rights or duties in connection with the services and equipment or facilities provided by the Company without the written consent of the Company. The Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company, (b) pursuant to any sale or transfer of substantially all the assets of the Company, or (c) pursuant to any financing, merger or reorganization of the Company.

2. GENERAL REGULATIONS

2.5 Cancellation, Discontinuance, Refusal, Suspension and Changes
(Cont'd)

2.5.7 Restoration of Service

If a customer's service is restored after having been suspended and/or disconnected but a Company service order to terminate such service has not been completed when such service is restored, the Customer may be required to pay a restoration of service charge.

When a Customer's service has been disconnected and the service has been terminated through the completion of a Company service order, service may be re-established only upon receipt of an application of new service.

Service initiated after the discontinuance for non-payment will be subject to the standard nonrecurring charges for new service. Service that has been re-established may require the assignment of a new telephone number.

If any Company service has been suspended, restricted or discontinued for nonpayment, service will be re-established upon receipt of all charges due, including charges for services and facilities during a period of restriction or suspension and including a service restoration fee. If the Customer has a history of payments returned for insufficient funds, the Company may require payment by cash, money order or certified check. If such payment is made by personal check, restoration of service will be effected upon bank clearance of the check.

2. GENERAL REGULATIONS

2.6 Notices and Communications

The Customer shall designate on the Service Order an address to which the Company shall mail or deliver all notices and other communications, except that Customer may also designate a separate address to which the Company's bills for service shall be mailed.

The Company shall designate on the Service Order an address to which the Customer shall mail or deliver all notices and other communications, except that the Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.

All notices or other communications required to be given pursuant to this tariff will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following placement of the notice, communication, or bill with the U.S. Mail or a private delivery service, postage prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first.

The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications, or billing.

2. GENERAL REGULATIONS

2.7 Provision for Certain Local Taxes and Fees

2.7.1 General

Customer will pay all sales, use, gross receipts, excise, access, bypass or other local, state and Federal taxes, charges or surcharges, however designated, imposed on or based upon the provision, sale or use of the Services (excluding taxes on the Company's net income). Such taxes will be separately stated on the applicable invoice.

2.7.2 Allocation

Any assessments, franchise fees, privilege, license, occupation, excise, or other similar fees or taxes, whether in a lump sum or at a flat rate, or based on receipts, or based on poles, wire or other utility property units, imposed upon the Company by any governmental authority shall be added pro rata, insofar as practical, to the rates and charges stated in the Company's standard schedules, in amounts which in the aggregate for the Company's Customers of any political entity shall be equal to the amount of any such fee or tax upon the Company. Company shall, so long as any such tax or fee is in effect, add to the bills of the Customers in such political entity pro rata on the basis of the revenue derived by Company from each such Customer, an amount sufficient to recover any such tax or fee and may list the amount separately on the bill.

2.7.3 Additional Surcharges

The Company may include surcharges on the customer's bill as required by the Missouri Public Service Commission, the state government pursuant to state law or the federal government.

2. GENERAL REGULATIONS

2.8 Special Construction and Special Arrangements

Subject to the agreement of the Company and to all of the regulations contained in the tariffs of the Company, special construction and special arrangements may be undertaken on a reasonable efforts basis at the request of the Customer. Special arrangements include any service or facility relating to a regulated telecommunications service not otherwise specified under tariff, or for the provision of service on an expedited basis or in some other manner different from the normal tariff conditions. Special construction is that construction undertaken:

- 1) where facilities are not presently available, and there is no other requirement for the facilities so constructed;
- 2) of a type other than that which the Company would normally utilize in the furnishing of its services;
- 3) over a route other than that which the Company would normally utilize in the furnishing of its services;
- 4) in a quantity greater than that which the Company would normally construct;
- 5) on an expedited basis;
- 6) on a temporary basis until permanent facilities are available;
- 7) involving abnormal costs; or
- 8) in advance of its normal construction.

2.8.1 Basis for Charges

Where the Company furnishes a facility or service on a special construction basis, or any service for which a rate or charge is not specified in the Company's tariffs, charges will be based on the costs incurred by the Company and may include: (1) non-recurring type charges; (2) recurring type charges; (3) termination liabilities; or (4) combinations thereof. The agreement for special construction will ordinarily include a minimum service commitment based upon the estimated service life of the facilities provided.

2. GENERAL REGULATIONS

2.8 Special Construction and Special Arrangements (Cont'd)

2.8.2 Basis for Cost Computation

The costs referred to in 2.8.1 preceding may include one or more of the following items to the extent theft are applicable:

- A. cost installed of the facilities to be provided including estimated costs for the rearrangements of existing facilities. Cost installed includes the cost of:
 - 1) equipment and materials provided or used,
 - 2) engineering, labor and supervision,
 - 3) transportation,
 - 4) rights of way, and
 - 5) any other item chargeable to the capital account;
- B. annual charges including the following:
 - 1) cost of maintenance;
 - 2) depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;
 - 3) administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items;
 - 4) any other identifiable costs related to the facilities provided; and
 - 5) an amount for return and contingencies.

2.8.3 Termination Liability

- A. To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of the customer.
- B. The maximum termination liability is equal to the total cost of the special facility as determined under 2.8.1, proceeding, adjusted to reflect the predetermined estimate net salvage, including any reuse of the facilities provided.
- C. The maximum termination liability as determined in paragraph A. shall be divided by the original term of service contracted for by the Customer (rounded up to the next whole number of months) to determine the monthly liability. The Customer's termination liability shall be equal to this monthly mount multiplied by the remaining unexpired term of service (rounded up to the next whole number of months), discounted to present value at six (6) percent, plus applicable taxes.

2. GENERAL REGULATIONS

2.9 Application of Rates

The regulations set forth in this Section govern the application of rates for services contained in the tariffs of the Company.

2.9.1 Rates Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- A. Usage is timed and rated per call in increments specified in the applicable service tariffs.
- B. Timing begins with the completion of the connection and ends with the termination of the connection.
- C. Partial increments will be rounded up to the next full increment on a per call basis and partial cents will be rounded to the next whole cent on a per call basis.

LOCAL EXCHANGE SERVICES

2. GENERAL REGULATIONS

2.9 Application of Rates (Cont'd)

2.9.2 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

- A. Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in Bellcore's Local Exchange Routing Guide, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated access line), the Company will apply the Rate Center of the Customer's main billing telephone number, or that of the rate center closest to the location at which the customer receives service from the Company.
- B. The airline distance between any two Rate Centers is determined as follows:
 - 1) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced Bellcore document.
 - 2) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
 - 3) Square each difference obtained in step (2) above.
 - 4) Add the square of the "V" difference and the square of the "H" difference obtained in step (3) above.
 - 5) Divide the sum of the squares by 10, round to the next higher whole number if any fraction is obtained.
 - 6) Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.
 - 7) Formula =

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

2. GENERAL REGULATIONS

2.10 Classification of Customers and Users

Service is classified as business service where the use is primarily or substantially of a business, professional, institutional, or otherwise occupational nature. Business rates apply at the following locations, among others:

- In offices, stores and factories, and in quarters occupied by clubs, lodges, fraternal societies, schools, colleges, libraries, hospitals and other business establishments.
- In the residence of a practicing physician, dentist, veterinarian, surgeon or other medical practitioner who has no service at business rates at another location.
- In the residence location where there is substantial business use of the service and the Customer has no service elsewhere at business rates.

LOCAL EXCHANGE SERVICES

3. SERVICE AREAS

3.1 Exchange Areas

An exchange is a geographically defined area established by the Company for the administration of telecommunications service. TCG follows the Exchange Area boundaries as defined in the applicable tariffs of Southwestern Bell Telephone Company in the establishment of local calling areas. Local calling areas define the exchanges Customers may call without a toll charge.

Exchange Access Services are provided in limited geographic areas. PrimeOne local calling is provided at no additional charge in conjunction with the provision of the network access services listed in Section 9.1.

This tariff applies to the following Southwestern Bell Telephone Company exchanges:

Archie	Lee's Summit
Belton	Leavenworth
Blue Springs	Liberty
East Independence	Nashua
Excelsior Springs	Parkville
Farley	Raytown
Gladston	Richmond
Grain Valley	Smithville
Greenwood	South Kansas City

LOCAL EXCHANGE SERVICES

3. SERVICE AREAS

3.2 Local Calling Areas

3.2.1 Local Calling Area Exchanges

The Company concurs with SWBT's Area Exchanges and Extended Area Service calling are as listed in its Local Exchange Tariff. Exchange Areas for all Customers whose premises are located in the SWBT territory will be the same as SWBT's service areas except where noted by service or rate element. For those exchanges where the local calling scope defined in SWBT's Local Exchange Tariff includes subscribers or Customers of a specific service, the term subscriber or Customer is defined as those Customers that subscribe to the service specified from SWBT, or its concurring carriers and/or a resold version of that service from another provider.

Local Service and/or Exchange Areas for this state are concurrent with those defined in the AT&T Local Exchange Services tariff, Section 3.1.

3.2.2 Maps

The Company concurs with SWBT's Local Exchange Maps reflecting base rate areas, exchange area, and zone area boundaries which are part of its Local Exchange Tariff.

4. SPECIAL ARRANGEMENTS

4.1 Customer Specific Pricing Plans

Customer Specific Pricing Plans are available for provision of: (1) Dedicated, non-switched, private line and special access services, (2) Central office-based switching systems which substitute for customer premise, private branch exchange (PBX) services, and (3) Any business service offered in the exchange in which basic local telecommunications service offered by the incumbent local exchange telecommunications company has been declared competitive under Section 392.245 RSMo., and any retail business service offered to an end user in a non-competitive exchange.

Unless otherwise provided in the customer contract, the rules and regulations found in Section 2 of this tariff apply to all Customer Specific Pricing Plans. Customer Specific Pricing Plan arrangements will be provided to the Commission on a proprietary basis upon request.

4.2 Temporary Promotional Programs

The Company may establish temporary promotional programs to introduce present or potential Customers to a service not previously received by Customers. During specific promotional periods, an offer may be made to reduce non-recurring charges on a non-discriminatory basis, up to the full amount, for optional products and services. Unless specifically approved elsewhere, this offer will not apply to single basic exchange access lines. Written notice of such offerings will be provided to the Public Service Commission for approval.

LOCAL EXCHANGE SERVICES

5. EMERGENCY NUMBER SERVICE (911)

5.1 Emergency Telephone Service

- 5.1.1 The Telephone Company is obligated to supply the E-911 service provider in the Company's service area (the E-911 service provider) with information necessary to update the E-911 database at the time the Telephone Company submits customer orders to the local exchange company whose service is being resold pursuant to these tariffs.
- 5.1.2 At the time the Telephone Company provides basic local service to a customer by means of the Telephone Company's own cable pair, or over any other exclusively owned facility, the Telephone Company will be obligated to make the necessary equipment or facility additions in the 911 service provider's equipment in order to properly update the database for 911.
- 5.1.3 The Telephone Company will be obligated to provide facilities to route calls from the end users to the proper PSAP. The Telephone Company recognizes the authority of the E-911 customer to establish service specifications and grant final approval or denial of service configurations offered by the Telephone Company.
- 5.1.4 The Telephone Company will collect 911 surcharges and remit all surcharge revenue to the appropriate governmental entity pursuant to RSMO.190.310.

6. SUPPLEMENTAL SERVICES

6.1 Features

6.1.1 General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases.

6.1.2 Description of Features

2 B-Channel Transfer on PRI

Allows a controller that is interfaced over an ISDN PRI to initiate the transfer of one of its calls to another call so that the two end-users are connected to each other within the switch and the two PRI B-Channels to the controller are released.

Automatic Identified Outward Dialing

Automatic Identified Outward dialing is a feature that automatically provides you with an accurate record of all toll calls made by each line.

Automatic Route Selection-Basic

Automatic Route Selection-Basic is a preset pattern of routing calls originating by a station user to selected Interexchange carriers or dedicated facilities.

Backup D Channel

Backup D Channel automatically takes over for a failed D channel in case of trouble. This is purchased as part of a 23B+Backup D PRI Arrangement.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Blocking Service

Blocking service is a feature that permits Customers to restrict access from their telephone line to various discretionary services. The following blocking options are available.

A. Outbound Blocking Options

1. Option A: 976-Like NXXs and 500 Area Code Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs and 500 prefixes (i.e., 500-XXX-XXXX) from being placed.
2. Option B: Option A plus 976 NXX Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs, 976 NXX and 500 prefixes from being placed.
3. Option C: Option B plus 900 Area Code Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs and 976 NXX; and the 500 and 900 prefixes from being placed.
4. Option D: Option C plus International Calls (011, 01) Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs and 976 NXX; the 500 and 900 prefixes; and international calls beginning with the "011" & "01" dialing prefixes from being placed.
5. Option E: Option D plus Directory Assistance Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs and 976 NXX; the 500 and 900 prefixes; international calls beginning with the "011" & "01" dialing prefixes; and local and IntraLATA toll Directory Assistance calls (calls to 411 and customer NPA-555 will be blocked if selected) from being placed.
6. Option F: Option E plus InterLATA Long Distance Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs and 976 NXX; the 500 and 900 prefixes; international calls beginning with the "011" & "01" dialing prefixes; local and IntraLATA toll Directory Assistance calls; and InterLATA long distance calls from being placed.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

A. Outbound Blocking Options (Cont'd)

7. Option G: Option F plus IntraLATA Toll Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs and 976 NXX; the 500 and 900 prefixes; international calls beginning with the "011" & "01" dialing prefixes; local and IntraLATA toll Directory Assistance calls; InterLATA long distance calls; and local calls marked by the switch as IntraLATA toll calls from being placed.
8. Option H: Option A plus 0+ Call Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs; the 500 prefixes; and automated operator assisted calls, including card calls, that require the party to enter the billed party number after dialing zero from being placed.
9. Option I: Option A plus 0- Call Blocking - allows the subscriber to block all calls beginning with the 976-Like NXXs; the 500 prefixes; and non-automated operator assisted calls including card calls, busy line verify and emergency breakthrough calls from being placed.

B. Inbound Blocking Options

1. Third Number Billed and Collect Call Restriction - provides the subscriber with a method of denying all 3rd number billed and collect calls to a specific telephone number provided the transmitting operator checks their validation data base.

C. Regulations

Blocking Service is available where equipment and facilities permit.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Call-by-Call Service Selection (CBC)

Call-by-Call Service Selection provides an option to the Dedicated B Channel Configuration allowing B channels to be configured to access multiple services on a per-call basis. With this optional feature, separate facilities are not needed for individual services such as DID, DOD, and business dial tone lines. The customer premises equipment signals the local serving central office as to what type of services to access for each call.

Call Forwarding

Call Forwarding, when activated, redirects attempted terminating calls to another Customer specific telephone number. The Customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding.

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding is billed for the forwarded leg of the call.

Call Forwarding-Busy

This feature allows the Customer to designate a telephone number to which their calls will be forwarded to in the event that their number is already in use. The Customer assumes financial responsibility for all calling charges generated by the use of this feature.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Call Forwarding-Don't Answer

This feature allows the Customer to designate a telephone number to which their calls are forwarded to after a predetermined time with no answer. The Customer assumes financial responsibility for all calling charges generated by the use of this feature.

Call Forwarding-Variable

This feature enables a Customer to program their telephone to forward their calls to another telephone number. The Customer must activate and deactivate this feature. The Customer assumes financial responsibility for all calling charges generated by the use of this feature.

Call Hold

The Call Hold feature allows a Customer to put any in-progress call on hold by flashing the switch-hook and dialing a code. This frees the line to allow the Customer to make an outgoing call to another number. Only one call per line can be on hold at a time.

Call Park

Call Park allows a station line to park a call against its own line number. The parked call can be retrieved from any station line by dialing a feature code and the line number against which the call is parked.

Call Pickup

Call Pickup allows a station line to answer incoming calls to another station line within a defined call pickup group. Call pickup is provided on individual station lines within a Customer group.

Call Return

This feature automatically redials the number of the last person who called you. Each time this feature is activated, the user will be charged regardless if the called party answers. Any calls completed with this service will be subject to local, toll or long distance charges as appropriate.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Call Transfer

Call Transfer allows a subscriber to transfer an established call to any other line without requiring the assistance of and operator or attendant. The user is responsible for all usage charges associated with the transferred call for the duration of the call.

Call Transfer Enhanced

Call Transfer Enhanced allows a station line user to transfer any established call to another station line inside or outside the Customer group without the assistance of an attendant.

Call Waiting

The Call Waiting feature enables a Customer already on a call to be notified of another call by the sound of a Call Waiting tone. The Customer depresses the switch-hook to answer the new call, placing the original call on hold. It will also permit the Customer to alternate between both callers by depressing the switch-hook.

Call Waiting-Cancel

The Cancel Call Waiting feature enables a Customer to deactivate the Call Waiting feature. Cancel Call Waiting is activated (i.e., CCW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call.

Call Waiting-Dial

Call Waiting-dial permits a station line to impose call waiting on a busy station line by dialing the call waiting feature activation code, followed by the station number. This feature is an originating line feature that is applicable to calls within the established user group only.

Call Waiting-Incoming

Call Waiting-Incoming allows an incoming call to a busy station line to be held waiting while a signal is directed towards the busy station line user.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Call Waiting-IntraGroup

Call Waiting-IntraGroup permits both incoming calls and calls originating from within the system to activate the call waiting feature.

Call Waiting-Originating

Call Waiting-Originating allows a station line user to impose call waiting on a busy station line.

Calling Party Number (CPN)

Calling Party Number allows the user to have access to the directory number of the calling party. Provision of per-call and line blocking capabilities is a function of the customer premises equipment and is the responsibility of the customer. CPN will forward the calling party number to the extent that the CPN is forwarded to the company by the LEC or IXC.

Caller ID-Number only

Caller ID displays the phone number that an incoming call is being placed from. The phone number is shown on the built-in displays of telephones that are equipped for this feature, or on separate Caller ID devices. Caller ID displays the complete 10-digit phone number for every incoming call, except when the call comes from areas where the feature is not supported, or if the caller has elected to make their phone number unavailable to Caller ID.

Caller ID with Name

This feature permits the display of a listed name associated with the telephone number from which the call is being made. The name and number will be delivered to a Customer-provided display device.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Caller ID Blocking

Blocking options are available to the calling party to prevent their Caller ID from being displayed on the called party's telephone number display.

Selective Blocking is designed to allow the customer the option to block delivery of their telephone number on a per call basis. Customers may control the delivery of their telephone number by dialing *67 (1167 on rotary dial phones) before dialing the telephone number they are calling. Blocking does not work when dialing 800/888 and 900 services and 911 emergency services.

Complete Blocking will automatically block a calling party's telephone number from being transmitted on all calls. However, the calling party can choose to override Complete Blocking and transmit their number on selected calls by pressing *82 (1182 rotary phones) before dialing the number. Blocking does not work when dialing 800/888 and 900 services and 911 emergency services.

The Selective and Complete blocking options are provisioned at no charge to Customers who order Caller ID Service. However, any request to change the option will incur a feature change charge.

LOCAL EXCHANGE SERVICES

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Direct Inward Dialing

Direct Inward Dialing allows incoming calls from the local exchange and long distance networks to reach an individual line or group of lines in the system without the assistance of an attendant.

Direct Outward Dialing

Direct Outward Dialing permits lines of the system to gain access to the local exchange and long distance network without the assistance of an attendant by dialing an access code.

Directed Call Pickup with Barge-in

Directed Call Pickup with Barge-in allows a station line user to answer a call that is ringing any other line within the same Customer group. If the called station line has already been answered, the initiating station line may barge-in to the answered call and be connected into a 3-way call.

Directed Call Pickup without Barge-in

Directed Call Pickup without Barge-in allows a station line user to answer a call that is ringing any other line within the same Customer group. If the called station line has already been answered, the initiating station line will be connected to a reorder tone.

Distinctive Call Waiting Tones

Distinctive Call waiting Tones permits a called station line user to determine whether an incoming waiting call is external or internal to the Customer group by providing different tone cadences for both occurrences.

Distinctive Ringing

Distinctive Ringing allows a unique pattern of ringing to permit the Customer to distinguish between IntraGroup and Direct Inward Dialing calls.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Incoming Call Redirect (ICR)

A. General

Incoming Call Redirect (ICR) provides automated redirection of incoming calls to a pre-designated back-up site during T1 or PBX failures or when all trunks are busy. This option is available with PrimeXpress Network Service, PrimePlex PRI Service or Prime Digital Trunk Service only.

ICR can redirect all or only pre-selected DID numbers, depending on the Customer's application. Calls are redirected to another set of telephone numbers (Destination Numbers), and can route to the LEC trunks at the same location or distant locations. A separate route index will be set up for the redirection of selected DID numbers. Redirected calls will route to a single number at the pre-designated back-up site, and will deliver the original calling number if the back-up site is configured for PRI and Calling Party Number. It is the responsibility of the Customer to obtain any necessary permissions for the use of any Destination Number.

If ICR is ordered in two or more sites that provide back up to one another, the back up telephone number cannot be a number which can be redirected.

ICR is limited to a maximum of ten simultaneous redirected calls per T1, a maximum of twenty four simultaneous calls for trunk groups of one to four T1's, and a maximum of forty eight simultaneous calls for trunk groups of five T1's or more. A maximum of two (2) trunk groups per location can be equipped with ICR.

Customers will be responsible for all usage charges associated with redirected calls.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Incoming Call Redirect (ICR) (Cont'd)

B. Application of Rates

Incoming Call Redirect rates consist of a non-recurring and a monthly recurring charge per T1, a local usage charge per redirected call, and a nonrecurring charge per change or group of changes requested in a Customer's listing of Redirected Numbers or Destination Numbers.

Per subscribed Rate Center, the Customer is required to subscribe to a sufficient number of trunks so as to not degrade the Company's network below an incoming call completion rate of 99%. The call completion rate is based on an average of the busy hours occurring during the Customer's busiest hours during the billing cycle. Once the service has been established, the Company may require the Customer to increase the number of trunks to satisfy the call completion criteria listed above. Subject to the availability of facilities, Customers may request the PrimeConnect Option to be provisioned from a Rate Center other than that normally assigned by the Company. Rates for this arrangement will be on an Individual Case Basis.

C. Rates and Charges

See the Price List.

LOCAL EXCHANGE SERVICES

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Intercept

Routes incoming exchange calls made to a non-networking line to an announcement machine.

Line Hunting

Circular Hunting allows a call directed to a busy station configured in a circular hunt arrangement, to be directed to any station within the group until such time as a station becomes available.

Terminal Hunting routes a call in a pre-arranged linear pattern until it reaches the last number in the series. If that last number is busy, the incoming caller receives a busy signal.

Line Treatments

Provides the capability to allow or deny individual station line features. The treatments can be arranged to control all calls originating or terminating on station lines.

Loudspeaker Paging Access

Permits station line users to access Customer-provided loudspeaker paging equipment by dialing an access code. The Customers equipment will dictate the type of termination that is provided by the Company. One access method could be the termination of a Company line on a standard jack interface. This assumes the paging equipment has a line card termination. In this method of operation users would dial the Company line for access to the paging facilities. Another method of access to paging equipment is a four wire trunk side dedicated leased line which requires an access level or dial code in the Company line. Users will dial this to access the paging equipment.

6. SUPPLEMENTAL SERVICES

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Message Waiting Indicator

Interrupt dial tone.

Multiple Facility Signaling Control

Multiple Facility Signaling Control allows the D channel of one PRI Arrangement to provide signaling for up to 20 PRIs terminating on a switch module. Multiple Facility Signaling control requires Backup D Channel.

Original Called Number (OCN)

Original Called Number, which must be ordered for specific PRI ISDN trunks, places the callers original dialed digits into the OCN field of the selected ISDN message for inbound calls which have been forwarded one or more times. These ISDN messages, containing OCN information, will be transmitted over the designed Data-Channels (D-Channels, primary, secondary, and back-up) on the ISDN trunk.

Remote Access to Call Forwarding

This feature allows a customer to activate/deactivate the automatic transfer of their incoming calls to another telephone number. Users subscribing to RACF must also have or subscribe to Call Forward Variable feature. RACF requires a local dial-in telephone number be provided to the customer. Customer used a four-digit PIN to access the call forwarding feature. The user gains remote access to the Call Forwarding Variable feature from a touch-tone telephone at a remote location.

Remote Call Forwarding

Remote Call Forwarding the customer to establish a local phone number in another city, and have all calls to that number automatically forwarded to a different number. The calls that are forwarded from the remote location will ring on the customer's phone just like any other call.

Repeat Dialing

This feature allows the user to redial the last number dialed. Each time this feature is activated, the user will be charged regardless if the called party answers. Any calls completed with this service will be subject to local, toll or long distance charges as appropriate.

6.1 Features (Cont'd)

6.1.2 Description of Features (Cont'd)

Speed Calling

This feature allows the Customer to use 1-digit Speed Calling to complete calls. This is accomplished by assigning a 1-digit number to frequently called numbers. Up to 8 numbers can be stored.

Station Message Detail Recording-Direct Output (Basic)

Station Message Detail Recording-Direct Output (Basic) permits the capturing of call detail information by the switch and passing this information to a call accounting system.

Station-to-Station Dialing

Station-to-Station Calling allows Customer group stations to complete calls to other stations without the assistance of an attendant.

Three Way Calling

This feature allows the Customer to connect a third party call to an existing two-way call and form a 3-way call.

Touch Tone (DTMF)

Touch Tone provides for the originating of calls by means of instruments equipped for tone-type address signaling over special central office facilities.

6.2 Directory Assistance Service

6.2.1 General

Customers and Users of the Company's End User Network Access Services may obtain directory assistance in determining and obtaining telephone numbers within the NPA in which they subscribe to such service by calling the Directory Assistance operator.

6.2.2 Application of Rates

Directory Assistance charges apply for all requests for which the Company's facilities are used. Each number requested is charged as shown below. Requests for information other than telephone numbers will be charged the same rate as shown for the applicable request for telephone numbers.

A Directory Assistance call charged to a calling card or commercial calling card or to a third number will be billed the appropriate operator charge, plus the charge for Directory Assistance.

No charge applies for:

- (1) Calls for Directory Assistance originating from coin telephones.
- (2) Calls for Directory Assistance from Users who have requested exemption for the Directory Assistance Charge because they are unable to use telephone directories due to physical or mental limitations. To obtain such exemption, the Customer shall provide the name, address, telephone number and nature of the limitation for each individual requiring the exemption. Information contained on the exemption records shall be treated as confidential by the Company. The Customer shall notify the Company when the need for an exemption no longer exists.

6.3 Directory Listings

6.3.1 General

Customers shall provide the Company with information for all Directory Listings.

The Company will include the Customer's Main Listings in the white and yellow page directories and offer Additional Listings to the Customer at an additional charge(s). The Customer must identify its Non-Published and Non-Listed business telephone numbers for directory purposes.

The Company is not liable for damages arising from errors or omissions in the making up or printing directories or, in the submission or specification of listing information for purposes of Directory Assistance or other industry databases, or in accepting Listings as presented by the Customer.

If a Customer that subscribes to the Company's Local Exchange Services under this tariff for the purpose of resale to other Parties wishes to obtain Directory Listings for its end users, the Customer must provide the Company with all information necessary for such listings in the form required by the Company. The Company will not accept such information directly from the Customer's end users, and will not gather such information for the Customer. The Company shall not be liable to the Customer's end users for any damages arising from errors or omissions in connection with such Directory Listings.

6.3 Directory Listings (Cont'd)

6.3.1 General (Cont'd)

A. Main Listings

The Customer will receive one free Main Listing, per location, in the alphabetical section of the directory that serves the Customer's location. Business Customers will receive a single white page and a single yellow page listing.

B. Additional Listings

The term Additional Listing denotes any white page listing, regardless of form, in addition to the Main Listing. A monthly rate applies for each Additional Listing. Additional Listings may be any of the following:

1. If the Customer is a partnership or a firm, names of partners or members of the firm;
2. If the Customer is a corporation, name of officers of the Corporation;
3. For any business establishment, names of associated or employees of the establishment or other listings as agreed to by the Company.

Additional Listings also may be the bona fide names of firms or corporations, which the Customer owns or controls or is duly authorized to represent, or names under which business are regularly conducted.

6. SUPPLEMENTAL SERVICES

6.3 Directory Listings (Cont'd)

6.3.2 Non-Published Listings

A. General

Non-Published telephone numbers are not listed in directories or Directory Assistance records available to the general public.

B. Regulations

The Company will enable incoming calls only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim of emergency the calling party may present. The acceptance by the Company of the Customer's request to refrain from publishing his/her telephone number in the directory does not create any relationship or obligation, direct or indirect, to any other person than the Customer.

In addition to, and not in limitation of, the provisions in Section 2.2.1, the Company's liability, if any, for its gross negligence or willful misconduct or the right of the Customer to seek any legal remedy available for the same is not limited by this tariff. In the absence of gross negligence, or willful misconduct with respect to any claim or suit brought by, or other legal remedies available to, the Customer for damages associated with publishing the telephone number of a Non-Published Listing in the directory or disclosing said Listings to any person, the Company's liability, if any, shall not exceed the monthly charges which the Customer may have incurred for that Non-Published Listing for the affected period.

Except as provided above, the Customer indemnifies and holds the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, the publication of the Non-Published Listing or the disclosing of said Listing to any person.

6. SUPPLEMENTAL SERVICES

6.3 Directory Listings (Cont'd)

6.3.3 Non-Listed Listings

A. General

Non-Listed telephone numbers are not listed in the directories but are included in Directory Assistance records available to the general public.

B. Regulations

The acceptance by the Company of the Customer's request to refrain from publishing his/her telephone in the directory does not create any relationship or obligation, direct or indirect, to any other person than the Customer.

In addition to, and not in limitation of, the provisions in Section 2.2.1, the Company's liability, if any, for its gross negligence or willful misconduct or the right of the Customer to seek any legal remedy available for the same is not limited by this tariff. In the absence of gross negligence or willful misconduct with respect to any claim or suit brought by, or other legal remedies available to the Customer for damages associated with publishing the telephone number of Non-Listed Listing in the directory, the Company's liability, if any, shall not exceed the monthly charges which the Customer may have incurred for that Non-Listed Listing for the affected period.

Except as provided above, the Customer indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of the Non-Listed Listing.

6.3.4 Installation/Change Charge

An Installation/Change Charge is a non-recurring charge applicable to customer-requested changes of a Non-Published or Non-Listed listing. This charge also applies to the installation of a Non-Published or Non-Listed listing after the initial installation of the Customer's local service. Changes to published listings may be subject to an Installation/Change Charge.

6. SUPPLEMENTAL SERVICES

6.4 Local Operator Service

6.4.1 Non-Optional Local Operator Services

The following operator services are non-optional and will be provided in applicable situations as listed below.

Non-optional operator services include, but are not limited to:

- A. Calls made by inmates at penal institutions or other correctional facilities who are not permitted to use coins when placing calls at coin operated or coinless telephones or who are required to use an operator's services to complete a call because of the rules or regulations of said institutions or facilities.
- B. Calls made by individuals who identify themselves as disabled to the extent that they are functionally unable to complete a call (for example, unable to use rotary dial or Touch-Tone pad) without operator assistance. These calls include those made with telecommunications devices for the deaf.
- C. Operator - assisted call reconnection for disconnection or poor transmission, and operator-handled credit requests.
- D. Directory assistance, including calls to 411 or 1-NPA-555-1212.
- E. Emergency services, including calls made to operators by customers seeking emergency assistance from authorized emergency agencies.

LOCAL EXCHANGE SERVICES

6. SUPPLEMENTAL SERVICES

6.4 Local Operator Service (Cont'd)

6.4.1 Non-Optional Local Operator Services (Cont'd)

- G. Credit card calls, also known as calling-card station-to-station calls. This includes credit card or calling-card calls made via 800 service, 950, or 10XXX access.
- H. Collect local or long distance calls.
- I. Local or long distance third party billing calls.
- J. Person-to-person calls.
- K. Operator services provided to customers where the use of an operator is required in order to obtain a particular service or in order to complete a call and where no individualized or select call processing is provided.

Non-optional operator services also include the provision of those services through the use of synthesized voices rather than through a live operator.

6.4.2 Rates for Operator Services

Local calls may be completed or billed with the live or mechanical assistance by the Company's operator center. Calls may be billed collect to the called party, to an authorized 3rd party number, to the originating line, or to a valid authorized calling card. Local calls may be placed on a station to station basis or to a specified party (see Person to Person), or designated alternate. Usage charges for local operator assisted calls are those usage charges that would normally apply to the calling party's service and will be equal to or less than those rates charged by the dominant telephone service provider. In addition to usage charges, an operator assistance charge applies to each call:

6. SUPPLEMENTAL SERVICES

6.5 Busy Verification and Interrupt Service

6.5.1 General

Upon request of a calling party, the Company will verify a busy condition on a called line. An operator will determine if the line is clear or in use and report to the calling party. In addition, the operator will intercept an existing call on the called line if the calling party indicates an emergency and requests interruption.

6.5.2 Rate Application

A. A Verification Charge will apply when:

1. The operator verifies that the line is busy with a call in progress, or
2. The operator verifies that the line is available for incoming calls.

B. Both a Verification Charge and an Interrupt Charge may apply when the operator verifies that a called number is busy with a call in progress and the Customer requests interruption. The operator will interrupt the call advising the called party of the name of the calling party and the called party will determine whether to accept the interrupt call. Charges will apply whether or not the called party accepts the interruption.

C. No charge will apply when the calling party advises that the call is from an official public emergency agency.

6. SUPPLEMENTAL SERVICES

6.6 Customer Requested Service Suspensions

6.6.1 At the request of the Customer the Company will suspend incoming and outgoing service on the Customer's access line for a period of time not to exceed one year. The equipment is left in place and directory listings are continued during the suspension period without change. At the Customer's request the Company will provide the Customer with an intercept recording referring callers to another number.

6.6.2 The company will assess a lower monthly rate for Customer Requested Service Suspension as noted below. However, any mileage charges, monthly cable charges or monthly construction charges are still due, without reduction during the period of suspension.

Period of Suspension Charge

-
- First Month or Partial Month Regular Monthly Rate (no reduction)
 - Each Add'l. Month (one year limit) 1/2 Regular Monthly Rate

6. SUPPLEMENTAL SERVICES

6.7 Connection Charges

6.7.1 Restoral Charge

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment but before cancellation of the service, as deemed in Section 2 of this Tariff.

6.7.2 Moves, Adds and Changes

The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.

The Customer will be assessed a charge for any move, add or change of a Company service. Move, Add and Change are defined as follows:

- Move: The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.
- Add: The addition of a vertical service to existing equipment and/or service at one location.
- Change: Change - including rearrangement or reclassification - of existing service at the same location.

Changes to a billing name or address will be assessed a non-recurring charge.

6.8 Charges Associated with Premises Visit

6.8.1 Terms and Conditions

The Customer may ask for an estimate or a firm bid before requesting a Company technician to visit the Customers' premises. When an estimate is provided, the estimate is not binding on the Company and the charge to be billed will be based on the actual time (measured in 1/2 hour increments) and materials charges incurred. When a firm bid is provided at Customer request, the charge to be billed is the amount quoted to the Customer for the work requested. Special Construction charges are identified in Section 2.8 of this tariff.

6.9 Added Labor Charge

6.9.1 Description

In situations where a PrimeXpress or PrimePlex PRI Customer reports a trouble to the Company for clearance and is subsequently informed that no reported trouble has been found in the Company's facilities, the Customer shall be responsible for payment of an Added Labor Charge if the Customer still requests the dispatch of Company personnel to the Customer's site. An Added Labor Charge will be applied as shown below for the period of time from when Company personnel are dispatched to the Customer's premises to when the work is completed.

No charges will apply if the reported trouble is found to be in Company facilities. Failure of Company personnel to detect the reported trouble in Company facilities will result in no charge to the Customer if the reported trouble is discovered in the Company facilities at a later date.

6.9.2 Rate Regulations

Rates are applied in the 6-minute increments. Customers will be charged a minimum charge based on the Minimum Hours shown below. Fractions of 6-minute increments will be rounded up to the next whole 6-minute increment.

Business hours are defined as 8:00 am up to but not including 6:00 pm, Monday through Friday (non-holiday). Non-business hours are defined as 6:00 pm up to but not including 8:00 am, Monday through Friday and all day Saturday and Sunday.

Non-business hour rates will apply to the following holidays: New Year's Day (January 1), Independence Day (July 4), Labor Day, Thanksgiving Day, and Christmas Day (December 25), and on legal holidays when New Year's, Independence, or Christmas Day holidays fall on dates other than January 1, July 4, or December 25 respectively.

6.9.3 Minimum Hours

LOCAL EXCHANGE SERVICES

6. SUPPLEMENTAL SERVICES

6.10 Non-Recurring Charges

6.10.1 Installation Charge

The Company's Local Exchange Services are subject to a non-recurring Installation Charge on a per-line or per-trunk basis unless otherwise specified.

6.10.2 Service Order Charge

Requests for ordering, connecting, installing, changing or moving of telecommunications services that relate to the Company's local exchange services under this tariff are subject to non-recurring Service Order Charges on a per order basis. Service Order Charges do not apply to disconnection of service.

6.10.3 Line/Trunk Move or Add with Dispatch Charge

Adds and moves to an existing Local Service line or trunk that requires dispatch of Company personnel to a Customer location are subject to non-recurring charges on a per-site, per-hour basis, with a one hour minimum charge per site, beginning from the time when the Company's employee or contractor enters the Customer's location. Charges are rounded to the nearest work hour with a 1 hour minimum.

6.10.4 Feature Change Charge without Dispatch

Feature Change Charges, which do not require dispatch of company personnel to change a feature or group of features, are applied to an existing Local Service line/trunk when the customer requests to add or change a feature. This charge is assessed per-line/per-trunk, and per each occurrence. Feature changes are those that affect the functionality or characteristics of telecommunication services for business lines/trunks.

6.10.5 Multiple Feature Change Charge with Dispatch

Multiple Feature Change Charge, which require dispatch of company personnel to a single site to change a feature or group of features, are applied to an existing line/trunk, on a per-site and per-hour basis, when a customer requests to add or change a feature. This charge is assessed per-line/per-trunk, and per each occurrence. Feature changes are those that affect the functionality or characteristics of telecommunication services for business lines/trunks.

LOCAL EXCHANGE SERVICES

6. SUPPLEMENTAL SERVICES

6.10 Non-Recurring Charges

6.10.6 Record Order Charge

A Record Order Charge is applied to existing Local Service Customers who initiated a change to their billing records, including but not limited to a suspension of services, change in mailing address of billing party, change in name of billing party, or an addition or change of IntraLATA calling plan services. Changes to such information will be charged a record order charge on a per request basis.

6.10.7 Change Order Charge

A Change Order Charge applies when a Customer requests for a change in its telecommunications services after the initial installation. The Change Order Charge applies on a per change basis.

6.10.8 Expedite Order Charge

An Expedite Order Charge applies when a Customer requests for installation in less than the Company standard of 30 days (from date of order to commencement of service). The Expedite Order Charge applies on a per expedite order basis.

6.10.9 Primary Interexchange Carrier (PIC) Change Charge

A PIC Change Charge is a non-recurring charge. It applies to existing Local Service Customers who request a change in their PIC designation for pre-subscription of IntraLATA service. The charge is applied on a per-line or per-trunk basis. When both the IntraLATA and InterLATA designation is changed at the same time, only one PIC change charge applies.

The PIC Change Charge applies to the following services contained in this tariff: PrimePath Lines and Trunks, PrimePath Lines on INCS, Prime Digital Trunks, Integrated Prime Digital Trunks, Prime Digital Trunks on INCS, Integrated PrimePath Lines and Trunks, Integrated PrimePath NBX, PrimePath NBX and PrimeNBX.

See the Price List for PIC Change Charge.

LOCAL EXCHANGE SERVICES

7. END USER NETWORK ACCESS SERVICES

7.1 Introduction

The Company undertakes to provide end users with network access services as described in this tariff. End User Network Access Service provides a Customer with the ability to connect its terminal equipment, inside wiring, or transmission facilities to the Company's switched network for the origination and reception of telephonic communications, and includes optional features designed to facilitate the use or expand the functionality of communications services. Services may be provided by the use of the Company's own facilities, by resale of services provided by other telephone companies, or by a combination of these methods.

Each End User Network Access Service is provided in the form of a Port (with an integral Terminal Interface) which corresponds to one or more analog, communications channels. End User Network Access services are designed to transmit any electrical signal within the nominal frequency range of 300 to 3000 Hz. Customers may transmit any form of signals, including data transmissions, that are compatible with the transmission parameters of the service, but the Company does not warrant that the services will be suitable for any purpose other than voice communication.

All of the Company's transmission facilities will meet all technical and service standards set by the Commission. At a minimum, connection to the Company's End User Network Access Service provides:

- Dual tone multi frequency signaling capability on the local access line;
- Facsimile and data transmission of at least 2400 bits per second on analog access lines served from the public switched network when the Customer uses modulation demodulation devices rated for such capability;
- Transmission insertion loss (as measured at the interface with the Company's network at the Customer's location and including any losses in central office equipment) that does not exceed 8.5 dB 1000 +/- 20 HERTZ on all local access lines;
- Circuit noise from the network interface at the Customer's premises to and including the central office termination at a level not exceeding 25 dBrnC for individual lines of less than 30,000 feet in length. For lines exceeding 30,000 feet, the measured circuit noise will not exceed 30 dBrnC.

LOCAL EXCHANGE SERVICES

7. END USER NETWORK ACCESS SERVICES

7.2 Access to Public Switched Network Services

End User Network Access Services provide a Customer with one or more voice-grade Port connections to the Company's switched network, each of which enables the Customer to:

- A. Receive calls from other stations on the public switched telephone network;
- B. Access the Company's Local Calling Services as specified in Section 9 of this tariff, Directory Assistance Services as specified in the Section 6, intraLATA toll services as specified in Section 9, and unregulated services offered by the Company;
- C. Access (at no additional charge) the Company's operators and business office for service related assistance; access toll-free telecommunications services such as 800 NPA; and access 9-1-1 service for emergency calling;
- D. Customers may presubscribe to another provider's interLATA services in order to originate interLATA calls on a 1 + basis or to receive 800 service from such provider, or may access other providers' intraLATA and interLATA services by dialing the provider's Carrier Identification Code. The Customer is solely liable for charges assessed by other providers for their services; and
- E. Originate calls to the Dual Party Relay Service (DPRS) which enables deaf, hard-of-hearing or speech-impaired persons using Telephone Devices for the Deaf (TDDs) or similar devices to communicate freely with the hearing population not using TDDs and vice versa. The Company does not impose any charge to end users for access to DPRS; however, persons using this service are liable for applicable per-call charges specified in the Company's tariffs. The Company will provide, at cost, a TDD device to each individual who is certified as deaf or severely hearing or speech impaired by a licensed physician, audiologist or qualified state agency.

7. END USER NETWORK ACCESS SERVICES

7.2 Access to Public Switched Network Services (Cont'd)

- F. End User Network Access services may not be used to originate calls to Community Information Services (i.e., 976 blocking and similar services for which a charge is imposed in addition to the ordinary local usage charge) offered by other licensed Exchange Service providers within the Customer's local calling area.
- G. End User Network Access services are provided through a Terminal Interface at a Company-designated Point of Connection, or through a standard demarcation point established by another service provider. The Customer is responsible for providing the appropriate transmission facilities, cabling or wiring between the Point of Connection or demarcation point and its premises. Depending upon the service ordered by the Customer, there may be a choice of Terminal Interfaces. In such cases, the Customer is responsible for specifying a Terminal Interface which is compatible with the Customer-provided transmission facilities, cabling, wiring, or terminal equipment.
- H. Each End User Network Access service corresponds to one or more analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time.

7. END USER NETWORK ACCESS SERVICES

7.3 Interconnection of Interstate Facilities

7.3.1 Points of Connection

- A. Services terminate at a Point of Connection established by the Company. The Point of Connection will ordinarily be located in the same building as the Customer's or User's Premises; however, a Customer may elect to be served by a Point of Connection in a different building, in which case the Customer is responsible for providing or obtaining, at its own expense, the necessary wire or cable to connect its Premises to the Point of Connection. In a multi-tenant building, the Point of Connection will ordinarily be established in a common area of the building such as an equipment room or wire closet. Customers may connect their transmission facilities, cabling, wiring or terminal equipment to the Company's network at the Point of Connection.
- B. The Company will establish a Point of Connection upon request within a building, campus, or other Customer premises located in a Company-served exchange area, if in the Company's opinion it can recoup its up-front capital cost, ongoing operational cost and provide a fair return to shareholders from the revenue stream derived from the new Point of Connection. A Point of Connection may be established at any location where the preceding conditions are not satisfied, subject to the rates, terms, and conditions applicable to Special Construction as specified in this tariff.

LOCAL EXCHANGE SERVICES

9. PRIMEONE LOCAL AND PRIMEPLUS INTRALATA TOLL SERVICES

9.1 LATA Calling Services

9.1.1 Description

LATA Calling Services allow for the origination and termination of calls within local and toll calling areas from listed exchanges. Local and Toll calling plans are marketed under the brand names of PrimeOne and PrimePlus services respectively, and are provided in conjunction with connection to the Company's network via the access lines listed:

- PrimePath Business Line
- PrimeXpress Network Service
- PrimeNBX Service
- PrimePath NBX Service
- PrimePlex PRI Service
- Prime Link Service

9.1.2 Timing of Messages

- A. Unless other wise indicated, all calls are timed in 6 (six) second increments following the first 18 (eighteen) seconds.
- B. For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.
- C. For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.
- D. Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
- E. Calls originating in one time period and terminating in another will be billed the rates in effect at the beginning of six second increments.
- F. For collect calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.

LOCAL EXCHANGE SERVICES

9. PRIMEONE LOCAL AND PRIMEPLUS INTRALATA TOLL SERVICES

9.3 PrimePlus IntraLATA Toll Service

A. Description

PrimePlus IntraLATA Toll Service is furnished for telephone communication between telephones in different local calling areas within a LATA in accordance with the regulations and schedules of charges specified in this tariff.

The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided.

B. Rating of Calls

Rating of PrimePlus IntraLATA Toll Service calls is based on the duration of the call. Call duration is based on regulations found in Section 9.1.2.

IntraLATA rates between points are based on the airline distance between rate centers. In general, each point is designated as a rate center; certain small towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest.

IntraLATA calling is offered by the Company to business Customers under the retail product name "PrimePlus".

9. PRIMEONE LOCAL AND PRIMEPLUS INTRALATA TOLL SERVICES

9.3 PrimePlus IntraLATA Toll Service (Cont'd)

C. PrimeOne/PrimePlus Usage Discount

Customers who commit to 1, 2, or 3 year term commitments are eligible to receive the discounts shown below on their PrimeOne and PrimePlus usage charges. Discounts are calculated based on the term commitment and are applied to the total amount of qualifying revenue in a billing period. Customers whose combined PrimeOne and PrimePlus monthly usage exceeds \$100,000.00 will not be eligible for discounts under this plan.

At the end of the Customer's term commitment, the Customer will convert to month-to-month pricing at tariff rates in effect at that time. For services requiring a one-year term commitment, the Customer will receive one-year term rates at tariff rates in effect at that time unless the Customer notifies the Company in writing thirty (30) days prior to the expiration of the Customer's term plan of their intent to discontinue service.

Customers who discontinue service prior to the end of their term commitment will be assessed an early termination charge equal to their average monthly usage charges times the number of months remaining on their term commitment. The average monthly usage will be determined by calculating the Customer's total PrimeOne and PrimePlus usage charges for the first six full months of service and dividing by six. If the Customer has been in service less than six months, the average monthly usage will be determined by calculating the Customer's total usage charges and dividing by the number of months the Customer has been in service.

Customers may discontinue service prior to the end of their term commitment without liability if they migrate to another Company local service offering with a term commitment equal to or greater than their current term commitment.

Usage Discounts are as specified in the Price List.

There are no time of day discounts.

LOCAL EXCHANGE SERVICES

10. PRIMEPATH SERVICE

10.1 Description

PrimePath Business Line Services provide a Customer with one or more analog voice-grade telephonic communications channel that can be used to place or receive one call at a time. Prime Path Business Lines are provided for connection of Customer-provided single-line terminal equipment such as station sets or facsimile machines. PrimePath Business Line Service is offered either as Business Lines, Key Lines or Business Trunk.

Customers utilizing PrimePath Business Line Services must subscribe to a sufficient number of access lines to handle adequately the volume of traffic offered (received or originated) without interfering with any of the services offered by the Company. The number of access lines required to handle adequately such traffic will be determined by Company measurements. In the event that an inadequate number of lines cause interference, the Company shall have the right to discontinue service without prior notification to the Customer.

10.2 Service Charges

Non-recurring Charges apply to various Customer requests on a per order basis. Requests for ordering, connecting, installing, changing or moving of telecommunications services that relate to business lines, key lines, or business trunks. Service Order charges will apply to initial service orders and subsequent orders on a per request basis.

In addition to the standard Service Order Charge, the charges described in Section 6.10 of this tariff, will apply for applicable work performed by the Company after initial installation.

LOCAL EXCHANGE SERVICES

10. PRIMEPATH SERVICE

10.3 Standard Business Line

Standard Business Lines are analog lines with the ability to originate and terminate voice telephone calls.

10.4 Standard Business Line - Key Line

Key Lines are analog lines designed to be used with Customer provided key system equipment. Calling features are not available with Key Lines.

10.5 Business Trunks

Business Trunks are designed to handle high traffic volumes associated with connection to Customer provided Private Branch Exchange (PBX) equipment or capable key system. The Customer may opt to utilize Business Trunks for outgoing calls only (DOD), incoming calls to an attendant (One-way in Local Trunk), incoming calls without utilizing an attendant (DID) or a combination of both incoming calls to an attendant and outgoing calls (Two-way Combo). Direct Inward Dialing (DID) services allows incoming calls to be terminated directly to an End User behind a PBX or capable Key System. When DID service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

10.6 Features

The following features are available with PrimePath Service, and the descriptions of the features are found in Section 6.1 of this tariff:

- Call Forward Busy
- Call Forward No Answer
- Call Forward Variable
- Call Transfer
- Call Waiting/Call Waiting Cancel
- Caller ID
- Caller ID With Name
- Distinctive Ring Service
- Remote Access to Call Forwarding
- Remote Call Forwarding
- Speed Calling (8-Code)
- Three Way Calling

10. PRIMEPATH SERVICE

10.7 PrimePath Easy Rate

PrimePath Easy Rate is a business line package that includes PrimePath business lines with unlimited local usage, Touch Tone, and a set of optional features for a single monthly recurring price. PrimePath Easy Rate is limited to PrimePath analog business lines. This plan is not available on PrimePath Key Lines, PrimePath Trunks, Prime Digital Trunks, PrimeXpress, PrimePlex, PrimeConnect or any services on INCS, Integrated Access, AT&T ACCU-Ring, AT&T UltraAvailable Ring, DEF, or any other local service offering.

Customers must meet the following eligibility criteria and adhere to the restrictions in order to qualify for and maintain PrimePath Easy Rate Service:

- 1) Customers must agree to purchase a minimum of 100 PrimePath Easy Rate lines and must sign a PrimePath Easy Rate Certification Form identifying each location and telephone number that will be subscribed to the offer.
- 2) PrimePath Easy Rate lines may all be in one location or may be distributed across multiple locations where this service is available.
- 3) A customer's PrimePath Easy Rate lines can not be ordered or provisioned at the same location (service address) as the same customer's PrimePath Standard lines, if any.
- 4) A customer's PrimePath Easy Rate charges can not be billed on the same account as the same customer's PrimePath Standard lines, if any.
- 5) Customers that commit to a term plan for PrimePath Easy Rate must maintain all lines on the plan for the duration of the term, and are subject to a minimum retention period equal to the term commitment.

Customers with existing PrimePath Standard lines may change those lines to PrimePath Easy Rate and may add or move features as long as all above listed criteria is met. The non-recurring Service Order Charges and any Feature Change Charges (associated with features included in the PrimePath Easy Rate offer) will be waived at the time of the change from PrimePath Standard lines to PrimePath Easy Rate. Future changes will result in the billing of standard non-recurring charges as listed in this tariff.

LOCAL EXCHANGE SERVICES

11. PRIMEXPRESS NETWORK SERVICE

11.1 General

PrimeXpress Network Service provides dedicated digital connections from an end user's premises to Business Calling service and to services provided by interexchange carriers that have interconnected to the Company's switch. PrimeXpress Network Service is delivered to the customer's premise at DS1 (1.544 Mbps) rate. A PrimeXpress facility may be provided as stand-alone service or provisioned over an existing or new AT&T ACCU-Ring DS3 facility or Ultravailable Ring (UVN) facility. PrimeXpress Network Service is available in one, two or three-year term commitments.

The Customer may opt to utilize PrimeXpress Network Service for outgoing calls only (DOD), incoming calls only (DID) or a combination of both inbound and outbound calls. When the Customer elects to utilize PrimeXpress Network Service for both inbound and outbound calls, they may choose Combo service which allows incoming calls to an attendant only or they can elect to utilize DID/DOD service which allows incoming calls to be terminated directly to an End User behind a PBX or capable Key System. When DID or DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

PrimeXpress Network Service trunks configured for Inbound and Outbound calling functionality that, upon detection by The Company, exceed 90% utilization for inbound calling will be subject to the rates, terms and conditions for the PrimeConnect Option.

11. PRIMEXPRESS NETWORK SERVICE

11.2 PrimeConnect Option

Digital PrimeXpress Network Service can be configured to support high volumes of inbound calling. This option will support a maximum of two rate centers per facility or trunk group within the Company-designated service area.

PrimeConnect is intended solely for the purposes of providing local and intraLATA toll calling into or out of the PrimeConnect facility. In the event that local and intraLATA toll calls placed into or out of the PrimeConnect facility become subject to additional charges imposed by connecting carriers or by regulation, the Company reserves the right to modify the facility rate charges for traffic into or out of the facility upon 30 days written notice to the Customer. The Customer has the option to accept the rate change(s) or terminate the contract without penalty, unless specifically bound to specific commitments associated with capital recovery, special construction, or other issues written into the Customer's contract or agreement with the Company over and above the normal terms and conditions of the contract or agreement.

11.3 Features

The following features are available with PrimeXpress Network Service, and the descriptions of the features are found in Section 6.1.

LOCAL EXCHANGE SERVICES

12. PRIME DIGITAL TRUNK SERVICE

12.1 Description

Prime Digital trunk (PDT) is a fractional digital switched service that provides trunk connections from an end user's Private Branch Exchange or capable Key System to the Company Switch Port. Prime Digital Trunk is delivered via a DS1 (1.544 Mbps) facility providing up to 23 voice-grade DS0 communications channels. Prime Digital Trunk is available on a 1, 2, or 3 year term commitment.

The Customer may opt to utilize Prime Digital Trunk service for outgoing calls only (DOD), incoming calls only (DID), or a combination of both inbound and outbound calls. When the Customer elects to utilize Prime Digital Trunk for both inbound and outbound calls, they may choose Two-Way service which allows incoming calls to an attendant only or they can elect to utilize DID/DOD service which allows incoming calls to be terminated directly to an end user behind a PBX or capable Key System. When DID or DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

Per subscribed Rate Center, the Customer is required to subscribe to a sufficient number of trunks or channels so as not to degrade the Company's network below an incoming call completion rate of 99 percent. The call completion rate is based on an average of the busy hours occurring during the Customer's busiest hours during the billing cycle. Once the service has been established, the Company may require the Customer to increase the number of PDT trunks or channels to satisfy the call completion criteria listed above.

12.2 Rate Regulations

The following rate elements apply to Prime Digital Trunk service:

- A. Per Active Channel (PAC) charge - monthly recurring charge applicable to each active DS0 channel. A minimum of 12 PACs must be ordered per PDT facility.
- B. Non-recurring installation charges are applicable for each DS0 channel.

12.3 Features

The following features are available with Prime Digital Trunk Service, and the descriptions of the features are found in Section 6.1 of this tariff.

- Incoming Call Redirect (ICR)

12.4 Rates and Charges

LOCAL EXCHANGE SERVICES

13. INTEGRATED PRIME SERVICE

13.1 Description

Integrated Prime Service provides Local Voice Services on a Customer's spare capacity AT&T channelized Static Integrated Network Access (SINA) or Frame Relay T1 or Frame Relay T1 access channels. The SINA or Frame Relay T1 or Frame Relay T1 access arrangement will include Local Prime Services via Integrated PrimePath Lines and Trunks, Integrated PrimePath NBX analog lines and Integrated Prime Digital Trunks.

- * The Integrated PrimePath NBX service component is not available, either under this tariff section or through any Company Contract Tariff or contract referencing this tariff section, to new or existing Customers who did not have it on order on or before June 28, 2004. Existing term plan customers with contracts for Integrated PrimePath NBX in effect or on order prior to June 28, 2004 may continue under their existing terms and condition, and may move, add or change stations at their existing locations, but may not add new locations unless otherwise specified in their contracts. Customers with contracts that expired on or before June 28, 2004, will be placed on month-to-month tariff rates as of June 28, 2004, subject to the termination schedule stated below. Customers with contracts that expire after June 28, 2004, will be placed on month-to-month tariff rates upon the expiration of their existing contract, unless otherwise specified in the contract, subject to (and unless otherwise provided in) the termination schedule stated below.

Integrated PrimePath NBX services will be terminated based on the schedule set forth below:

- A. Customers with contracts that expired on or before June 28, 2004, will have two (2) years from this date to migrate to a different service, as their service will be terminated on that date;
- B. Customers with contracts expiring in 2004 or 2005 will have two (2) years from contract expiration to migrate to a different service, as their service will be terminated on that date;
- C. Customers with contracts expiring in 2006 will have one (1) year from contract expiration to migrate to a different service, as their service will be terminated on that date;
- D. Customers with contracts expiring in 2007 or beyond must migrate to a different service on or before contract expiration, as their service will be terminated on contract expiration.

Early termination penalties will be waived for Integrated PrimePath NBX customers wishing to terminate their Integrated PrimePath NBX service and migrate to a different service prior to their contract expiration.

LOCAL EXCHANGE SERVICES

13. INTEGRATED PRIME SERVICE

13.1 Description (Cont'd.)

The service provides direct inward dialing capability as well as outward calling capabilities. Service charges are billed on a monthly basis, and are based on the service area in which the Customer is located. The features and corresponding rates available for use with PrimePath, PrimePath NBX and Prime Digital Trunks are also available for use with Integrated Prime Service. Monthly recurring and non-recurring line charges are as specified in the Price List. There is no minimum channel size requirement for Integrated Prime Service.

Integrated PrimePath services provide a Customer with one or more analog voice-grade telephonic communications channel(s) that can be used to place or receive one call at a time. Integrated PrimePath is provided for connection to Customer-provided single-line terminal equipment such as station sets or facsimile machines. Integrated PrimePath is offered either as business lines, key lines, or business trunks. Customers utilizing Integrated PrimePath services must subscribe to a sufficient number of access lines to handle adequately the volume of traffic offered (received or originated) without interfering with any of the services offered by the Company.

Integrated Prime Digital Trunks (PDT) is a fractional digital switched service that provides trunk connections from an end user's Private Branch Exchange or capable Key System to the Company Switch Port. The Customer may opt to utilize Integrated PDT service for outgoing calls only (DOD), incoming calls only (DID), or a combination of both inbound and outbound calls. When the Customer elects to utilize Integrated PDT for both inbound and outbound calls, they may choose Two-Way service which allows incoming to an attendant only or they can elect to utilize DID/DOD service which allows incoming calls to be terminated directly to an end user behind a PBX or capable Key System. When DID or DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. Per subscribed Rate Center, the Customer is required to subscribe to sufficient number of trunks or channels so as not to degrade the Company's network below an incoming call completion rate of 99 percent. The call completion rate is based on an average of the busy hours occurring during the Customer's busiest hours during the billing cycle. Once the service has been established, the Company may require the Customer to increase the number of Integrated PDT trunks or channels to satisfy the call completion criteria listed above.

LOCAL EXCHANGE SERVICES

13. INTEGRATED PRIME SERVICE

13.1 Description (Cont'd.)

Integrated PrimePath NBX is a central office-based analog communications Centrex service available to customers who do not wish to own and operate a PBX. Features and functions normally resident in the PBX are resident in the central office switch (DMS and 5ESS), and are subscribed to by the customer. Rather than purchasing DID/DOD trunks and numbers between the Local Serving Office (LSO) and a PBX, the customer subscribes to AT&T's CO-based service. The service provides direct inward dialing capability.

1. Customers subscribing to this service must have AT&T channelized SINA T1 or Frame Relay T1 with spare channels and M24 Multiplexing, and must have CPE Multiplexor equipment that provides voice trunk and/or channel signaling.
2. Channel Bank is not included with Integrated Prime Service.
 - a. For AT&T Integrated Prime Digital Trunks, The Customer's M24/Channel Bank must provide a T1 interface to the Customer's digital trunk interface in the PBX.
 - b. For AT&T Integrated PrimePath Trunks, Customer's M24/Channel Bank must provide DS-0 analog connections to an analog trunk card. The Local Network Service interface to the customer will be the SINA T1 or Frame Relay T1 interface.
 - c. For AT&T Integrated PrimePath Lines and AT&T Integrated PrimePath NBX analog lines, Customer's M24/Channel Bank must provide individual analog line side interface to each of the customer's station equipment such as single line telephone sets. The Local Network Service interface to the customer will be the SINA T1 or Frame Relay T1 interface.
3. Customers subscribing to this service are required to pay the monthly recurring rates for Integrated Prime Service as specified below whether or not all implemented, optional, or enhanced features are activated at the time of initial installation of Integrated Prime Service. A non-recurring charge will apply when a customer elects to activate any implemented or optional feature subsequent to initial installation. Optional features carry an additional monthly recurring charge and an additional initial installation fee.

A customer may elect to subscribe to Integrated Prime Service optional features at initial installation or subsequent to initial installation, subject to the applicable recurring and additional non-recurring charges.

13. INTEGRATED PRIME SERVICE

13.1 Description (Cont'd.)

4. If the service is terminated in whole or in part by the customer after initial installation, but prior to the completion of the service period, the customer shall be liable for the charges applicable for the remaining contract period. The formula for such charges is number of lines times number of months remaining times line rate.
5. If customer adds lines after initial installation during the time of the contract and these additional lines consist of less than or equal to 50% of the original order, the additional lines are contracted at the same rate as the initial lines, but the contract termination date shall be the original contracted date.
6. If a customer adds lines after installation during the time of the contract and these additional lines in total consist of more than 50% of the original order, then a new contract must be executed with a new termination date and at the current tariffed rate for all lines.
7. Customers relocating within the same Company metropolitan service area where Integrated Prime Service is available may continue on the same contract, subject to additional installation and service order charges.
8. Customers extending service beyond the contract period without a new contract will automatically renew on a month-to-month basis at the highest available line, feature and usage rates associated with Integrated Prime Service.
9. Standard line treatment options for blocking apply to all lines, as well as standard 4 digit dialing plans for internal Integrated Prime Service system calling.
10. Enhanced features are available for an additional charge as described for PrimePath, PrimePath NBX or Prime Digital Trunks services.

16. PRIMENBX SERVICE

16.1 Description

PrimeNBX is a business access line service providing central office based functionalities in addition to access to the Public Switched Network. PrimeNBX lines are available in analog or digital formats depending on the Customer's premise equipment. PrimeNBX allows intercommunication service on a 4-digit basis in addition to access to and from the exchange network without Customer attendant assistance.

- * PrimeNBX term plans are not available, either under this tariff section or through any Company Contract Tariff or contract referencing this tariff section, to new or existing Customers who did not have it on order on or before June 28, 2004. Existing term plan customers with contracts for PrimeNBX in effect or on order prior to June 28, 2004 may continue under their existing terms and condition, and may move, add or change stations at their existing locations based on availability of existing facilities, but may not add new locations unless otherwise specified in their contracts.

Customers with contracts that expire may continue to use the service on a month-to-month basis at their contract rates, terms and conditions, unless otherwise specified in the contract. Customers with expired contracts may also be able to change, upon notice to the Company, to month-to-month tariff rates, terms and conditions. All Customers with expired contract are subject to the limitations on moves, adds, and changes described above.

PrimeNBX services will be discontinued no later than December 31, 2012 and are subject to the provisions set forth below:

- A. There will be no contract renewals for customers with expired contracts, or who have terminated service.
- B. Customers must migrate to a different service on, or before the service discontinuance date.

Early termination fees will be waived for PrimeNBX customers wishing to terminate their PrimeNBX service and migrate to a different service prior to their contract expiration.

16. PRIMENBX SERVICE

16.1 Description (Cont'd.)

PrimeNBX lines are assigned a 7-digit telephone number and are provided with Direct Inward Dialing (DID) + Automatic Identification or Outward Dialing. PrimeNBX lines must be ordered at a minimum of 24 lines digital and 49 lines analog.

Customers may opt to utilize a Carrier Access Port Connection, which enables their Interexchange traffic to be routed between the Company's switch and the Customer's chosen Interexchange carrier via a dedicated DS0 or DS1 circuit. In such cases, the Customer's chosen Interexchange carrier will arrange for a DS0 or DS1 transport facility between its network and the Company's switch. For will charge the Customer nonrecurring and monthly recurring PrimeNBX Port charges.

17. PRIMEPATH NBX

17.1 Description

PrimePath NBX is a central office-based analog communications service over loop-start facilities for a retail end-user. The service provides direct inward dialing capability without the requirement of CPE such as a key system or PBX, as well as outward calling capabilities.

- * PrimePath NBX term plans are not available, either under this tariff section or through any Company Contract Tariff or contract referencing this tariff section, to new or existing Customers who did not have it on order on or before June 28, 2004. Existing term plan customers with contracts for PrimePath NBX in effect or on order prior to June 28, 2004 may continue under their existing terms and condition, and may move, add or change stations at their existing locations based on availability of existing facilities, but may not add new locations unless otherwise specified in their contracts.

Customers with contracts that expire may continue to use the service on a month-to-month basis at their contract rates, terms and conditions, unless otherwise specified in the contract. Customers with expired contracts may also be able to change, upon notice to the Company, to month-to-month tariff rates, terms and conditions. All Customers with expired contract are subject to the limitations on moves, adds, and changes described above.

PrimePath NBX services will be discontinued no later than December 31, 2012 and are subject to the provisions set forth below:

- A. There will be no contract renewals for customers with expired contracts, or who have terminated service.
- B. Customers must migrate to a different service on, or before the service discontinuance date.

Early termination fees will be waived for PrimePath NBX customers wishing to terminate their PrimePath NBX service and migrate to a different service prior to their contract expiration.

LOCAL EXCHANGE SERVICES

17. PRIMEPATH NBX SERVICE

17.1 Description (Cont'd.)

Service charges are billed on a monthly basis, and are based on the service area in which the Customer is located. Standard, Implemented and Optional features are listed below. Standard features are provisioned on all lines and Implemented features are provisioned on all lines and Implemented features may be chosen on a per line basis at no additional recurring cost. Optional features are available for an additional per-month charge and one-time installation charge. Monthly recurring and non-recurring line and feature charges are shown below. A minimum of 10 PrimePath NBX lines per main customer location is required. Additional locations of the same customer within the same locally defined rate center may subscribe to the same PrimePath NBX system with a minimum of 6 PrimePath NBX lines where facilities permit. A PrimePath NBX system is associated with only one invoice. Customers must commit to at least a one-year term commitment; two year term plans are also available. Customers requiring more than 48 lines per any location may purchase Prime NBX Service where facilities permit and under current tariffs with Prime NBX features and rates.

- A. Customers subscribing to this service are required to pay the monthly rate for service as specified whether or not all implemented features are activated at initial installation. A non-recurring charge will apply when a customer elects to activate any implemented or optional feature subsequent to initial installation. Optional features carry an additional monthly recurring charge and an additional initial installation fee.
- B. A customer may elect to subscribe to PrimePath NBX optional features at initial installation or subsequent to initial installation, subject to the applicable recurring and additional non-recurring charges.

17. PRIMEPATH NBX SERVICE

17.1 Description (Cont'd.)

- C. If the service is terminated in whole or in part by the customer after initial installation, but prior to the completion of the service period, the customer shall be liable for the remaining contract period. The formula for such charges is number of lines times number of months remaining times line rate.
- D. If customer adds lines after initial installation during the time of the contract and these additional lines consist of less than or equal to 50% of the original order, the additional lines are contracted at the same rate as the initial lines, but the contract termination date shall be the original contracted date.
- E. If customers add lines after installation during the time of the contract and these additional lines in total consist of more than 50% of the original order, then a new contract must be executed with a new termination date and at the current tariffed rate for all lines.
- F. Customer's relocating within the same Company metropolitan service area where PrimePath NBX is available may continue on the same contract, subject to additional installation and service order charges.
- G. Customer's extending service beyond the contract period without a new contract will automatically renew on a month to month basis at the highest available line, feature and usage rates associated with PrimePath NBX.
- H. Standard line treatment options for blocking apply to all lines, as well as standard 4 digit dialing plans for internal PrimePath NBX system calling. "Assume dial 9" is NOT available with PrimePath NBX.
- I. Existing PrimePath NBX customers purchasing additional lines in excess of 48 lines per individual customer location for all locations may purchase Prime NBX at the same or greater term for all lines subject to availability, tariffs and new service agreement without termination liability under PrimePath NBX. Additional lines subject to Prime NBX installation and service order charges.

LOCAL EXCHANGE SERVICES

18. PRIMEPLEX PRI SERVICE

18.1 Description

PrimePlex PRI service is an optional service arrangement for local exchange access based on the Primary Rate Interface (PRI) arrangement of the Integrated Services Digital Network (ISDN). PrimePlex PRI is a high capacity access path for communications providing voice or data transmission over the Company's exchange network. A PrimePlex PRI facility may be provided as stand-alone service or provisioned over an existing or new AT&T ACCU-Ring DS3 or Ultravailable Ring facility.

18.2 Explanation of Terms

Circuit Switching

A switching technique in which an entire circuit or, in a digital switch equipped for ISDN, a specific selection of time slots is dedicated to a given call.

PrimePlex Primary Rate Interface (PRI)

PrimePlex PRI is an alternative for individual local exchange access loop services such as Direct Inward Dialing (DID), Direct Outward Dialing (DOD), and business dial tone lines. It can also be used as loop transport for circuit switched data applications. PrimePlex PRI is provisioned on the 1.544 megabits per second (Mbps) bandwidth and uses ISDN architecture of 23 B or bearer channels and 1 D or data channel. It can also be provisioned as 24 B channels when coupled with controlling D facilities on other PRI circuits and backup D facilities. PRI provides the Customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and imaging services via channelized transport. In addition, PrimePlex PRI provides the Customer with the service capabilities and features described herein.

Integrated Services Digital Network

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture that provides for the simultaneous access, transmission, and switching of voice, data, and imaging services. These functions are provided via channelized transport facilities over a limited number of standard user-network interfaces. The ISDN architecture consists of digital switching systems that connect Primary Rate Interface lines to their serving central office.

LOCAL EXCHANGE SERVICES

18. PRIMEPLEX PRI SERVICE

18.2 Explanation of Terms (Cont'd.)

Network Interfaces

ISDN Primary Rate Interface is comprised of a limited set of standard user-network interfaces. The PRI Customer Premises Equipment (CPE) located at the customer premises must be compatible with the network interface. This network interface is defined as follows:

The network interface is a metallic four-wire telephone loop interface between a switch equipped with ISDN and the Network Termination 2 (NT2). The NT2 is customer premises equipment required for providing physical compatibility in terminating telephone facilities at the customer premises.

PRI Line Group

A PRI Line Group is a group of channels which are designated as one of the following:

- Incoming Business Dial Tone Line Group
- Outgoing Business Dial Tone Line Group
- Two-Way Business Dial Tone Line Group
- Call-by-Call Service Selection Line Group

Only one Call-by-Call line group may be provisioned on a PrimePlex PRI Arrangement. Where available, up to two of the other line group types may be provisioned on a PrimePlex PRI Arrangement. The total number of line groups per PRI Arrangement is limited to four. The capability to assign other than Call-by-Call line groups varies by central offices switch type.

Primary Rate Access Facility

Primary Rate Access Facility provides a high capacity access path at a transmission speed of 1.544 megabits per second (Mbps) for communications between the Customer's premises and the serving central office. Each Primary Rate Access Facility supports one PrimePlex PRI arrangement.

LOCAL EXCHANGE SERVICES

18. PRIMEPLEX PRI SERVICE

18.2 Explanation of Terms (Cont'd.)

Primary Rate Interface Arrangement

PrimePlex PRI Arrangement is a service providing ISDN capabilities between the customer premises and the serving central office. The PRI Arrangement consists of 23 "B" channels and one "D" channel or 24 "B" channels which are defined as follows:

B Channel

The B Channel is a 64 kilobits per second (Kbps) channel used for information transfer between users. The B channel may be used in conjunction with circuit-switched service.

D Channel

The D Channel is a 64 kilobits per second (Kbps) channel that carries signaling and control for the B channels.

Software Defined Lines

Software Defined Lines are lines which are provisioned on the Primary Rate Access Facility by establishing their identity in central office translations. These lines physically ride on the 4-wire ISDN Primary Rate Access Facility.

Simulated Facility Group

A Simulated Facility Group is a software-defined register used to limit the number of simultaneous calls with specific attributes.

18.3 Customer Premise Equipment (CPE)

The CPE used by the customers subscribing to PrimePlex PRI must comply with ISDN Primary Rate Interface specifications as designated by the Company.

18. PRIMEPLEX PRI SERVICE

18.4 Service Capabilities

PrimePlex PRI provides the capability to:

- A. Transport Customer information in the form of circuit-switched voice or data up to 64 Kbps over any B channel.
- B. Allow, where available, one D channel to control up to 20 PRI Arrangements. In such cases, a single D channel in one PRI Arrangement handles all the signaling and control requirements of multiple PRI Arrangements to consist of 24 B channels.
- C. Allow B channels to be allocated for specific services, such as Direct Inward Dialing (DID) and Direct Outward Dialing (DOD), or configure channels to access multiple services on a Call-by-Call basis. All of the preceding services may be accessed on a Call-by-Call Service Selection basis, except two way lines which must be dedicated to specific channels.
- D. Allow the user to have access to the directory number of the calling party.

18.5 Conditions

This service is offered subject to the following conditions:

- A. PrimePlex PRI is only available from serving central offices equipped with the necessary facilities to provide PRI service. Feature availability and service capabilities are dependent on the facilities and digital technology providing the service.
- B. ISDN-compatible terminal equipment is required for operation. It is the Customer's responsibility to power and obtain such equipment.
- C. PrimePlex PRI service does not preclude customers from originating or receiving circuit-switched voice calls from inside or outside either their serving central office or their Local Exchange Area. Where facilities are available, Customers will be able to originate and receive circuit-switched data calls outside their serving central office.
- D. This tariff does not provide for the transmission of packet data on the B or D channels. Packet data is not offered on the B or D channels.

18.5 Conditions (Cont'd.)

- E. Existing local usage or MTS rates apply to circuit-switched voice and data calls. The Unlimited Usage Package is not available with PrimePlex PRI service.
- F. All PRI Arrangement configurations must have at least one 23B+D PRI Arrangement for signaling and control functions. A 23B+Backup D PRI Arrangement is required whenever more than 47 B channels are controlled by a single D channel.
- G. When more than one Company service is accessed over the same PrimePlex PRI Arrangement, Call-by-Call Service Selection may be required.
- H. Each line group is equipped with one telephone number. Additional numbers may be ordered in blocks of 20 as specified herein.
- I. Telephone numbers ordered in blocks of 20 and Individual Additional Telephone Numbers ordered from this Tariff may not be delivered on the same Simulated Facility Group or dedicated trunk group.
- J. The quantity of Individual Additional Telephone Numbers may not exceed the size of the trunk group or Simulated Facility Group to which they are assigned.
- K. PrimePlex circuit-switched data PRI is intended only for data calls, including video.
- L. At the Company's discretion, the Company may reconfigure the Customer's service from PrimePlex PRI to PrimeConnect Service if the Customer's PrimePlex PRI usage meets one or more of the following criteria: (1) equals or exceeds 90% utilization for inbound calling, (2) equals or exceeds an average call duration of 10 minutes per call, (3) equals or exceeds CCS loading of 32 CCS, and (4) equals or exceeds 300,000 minutes of use per PRI. The Customer will be charged rates for PrimeConnect Service as shown in the Price List. The Company reserves the right to audit the Customer's PrimePlex PRI usage for the above conditions.

LOCAL EXCHANGE SERVICES

18. PRIMEPLEX PRI SERVICE

18.8 Payment Options

A PrimePlex PRI customer may select a one-, two- or three-year term commitment. All PRI services and features at a given premises must be subscribed to the same payment option.

18.9 Additions to Service

During the contract period, the customer may add PRI services at the same monthly rate as specified in the initial contract. The contract period for these additional services will end coterminous with the initial contract.

18.10 Changes in Future Contract Rates

If the monthly rates on a contract are lowered, the subscriber may be allowed to cancel the existing contract without penalty, providing the subscriber signs up for a new contract of equal or greater monetary value. The subscriber will be subject to all terms, conditions, and prices of the new contract.

18.11 Renewal Options

Prior to the expiration of the existing contract period, a customer may extend the contract for another period without incurring termination liability charges. The new contract period must be for a period of time which is equal to or greater than the length of the original contract. The number of PRI arrangements must be equal to or greater than the number of arrangements contained in the original contract. The contract period effective date will be the date the customer signs the new contract.

Customers who terminate a term commitment for a stand-alone PrimePlex PRI facility and purchase a PrimePlex PRI facility provisioned on a new or existing AT&T ACCU-Ring facility for a term equal or greater to the time remaining on their current PrimePlex PRI term commitment will not be liable for early termination charges.

18. PRIMEPLEX PRI SERVICE

18.12 PrimePlex PRI High Volume Inbound Calling Option: PrimeConnect PRI

At the Company's discretion, the Company may reconfigure the Customer's service from PrimePlex PRI to PrimeConnect PRI Service if the Customer's PrimePlex PRI usage meets one or more of the following criteria: 1) supports a maximum of two rate centers per PRI facility or T1 trunk, 23B+1D channel, within the Company designated service area, 2) supports inbound calling only, 3) equals or exceeds an average call duration of 10 minutes per call, 4) equals or exceeds CCS loading of 32 CCS, and 5) equals or exceeds 200,000 minutes of use (MOU), per PRI, per month. The Customer will be charged rates for PrimeConnect PRI Service as specified in the Price List. The company reserves the right to audit the Customer's PrimePlex PRI usage for the above conditions.

A. The Customer is required to subscribe to a sufficient number of DS1 trunks at a maximum usage of 400,000 MOU so as to not degrade the Company network below an incoming call completion rate of 99%. The call completion rate is based on an average of the busy hours occurring during the Customer's busiest hours during the billing cycle. Once the service has been established, the Company may require the Customer to increase the number of PrimeConnect PRI trunks to satisfy the call completion criteria listed above.

B. PrimeConnect PRI Customer Access Requirements

PrimeConnect PRI supports inbound calling only, and does not include outbound calling to Operator Assisted Services, Special Service Codes, Special Access Codes or Carrier Access Codes. The customer is responsible for securing individual business lines, or other appropriate facilities, to access these services and/or codes, including:

- Conference calls
- Calls to Special Service Codes including 500, 700, 900, 976, N11 (where N = 2-9) or other special service codes that may be created, or
- Calls to "0" and "00"

19. PRIME ON INTEGRATED NETWORK CONNECTION SERVICE (PRIME ON INCS)

19.1 Description

Prime on INCS provides one of the following services: PrimeXpress, PrimePlex, Prime Digital Trunks, or PrimePath Lines over an Integrated Network Connection Service (INCS) access arrangement. Each individual Customer location must be in an area where AT&T has the necessary facilities.

19.2 Provisioning

The INCS access arrangement will connect to the Customer's premises via a T1 line. Customer must provide compatible customer premise equipment (CPE), and interfaces to support the local voice line and trunk applications.

19.3 Types of Service

Types of service delivery of INCS with the Prime services are as follows:

- A. PrimeXpress - delivered as 24 (twenty four) voice grade digital channels.
- B. PrimePlex - delivers current functionality, excluding the delivery of Switched Digital Service with 64 KBPS End-To-End through the network.
- C. Prime Digital Trunks - delivered as 5-23 voice grade digital channels. If 24 digital channels are required, a DS-1 Digital Facility must be used.
- D. PrimePath Lines - delivers switched local exchange service for customers with 5-24 analog DS0 PrimePath Line needs.

LOCAL EXCHANGE SERVICES

20. ALTERNATE ENHANCED REDIRECT SOLUTION (AERS)

20.1 Description

Alternate Enhanced Redirect Solution (AERS) will provide customers the ability to redirect incoming telephone numbers in the event their primary location is unavailable. AERS also provides the additional capability to redirect incoming traffic to a predefined redirect option within two minutes of completing the control call. Customers will be able to define and control how to route critical calls in the event of an emergency.

AERS provides the capability for the customer to predefine redirect telephone numbers for each incoming telephone number at their location. Calls can be redirected to any ten-digit North America Number Plan (NANP) telephone including toll-free numbers. The customer controls when to invoke and when to restore AERS via a telephone number or control activation number. However, the customer cannot revise the predefined redirect options without a service order.

The customer can create up to nine options including eight redirect options for each Customer Group. A Customer Group is a list of incoming telephone numbers and the customer can have up to 20 Customer Groups per customer location dependent on the total number of telephone numbers being redirected.

When a redirect option is invoked, all incoming telephone numbers within the Customer Group will be redirected to their respective numbers. Customers must use service orders to update Customer Group telephone numbers or redirect options within the Customer Group.

The location that receives the redirected calls must have sufficient lines and associated facilities to handle the estimated or actual number of calls without interfering with the exchange or toll service. In the event that there is interference with exchange or toll service, The Company reserves the right to disconnect any redirect option immediately.

The customer controlled redirect option is available for business lines and trunks as well as incoming telephone numbers to a PBX or other CPE.

LOCAL EXCHANGE SERVICES

20. ALTERNATE ENHANCED REDIRECT SOLUTION (AERS)

20.1 Description (Cont'd)

AERS calls must be redirected to a customer designated location or telephone number, an Interexchange carrier's point of presence, a voice mail system, an announcement, or an auto attendant system. A redirected telephone number cannot be used to trigger a call to be redirected to another redirecting telephone number.

It is the responsibility of the customer to obtain, when appropriate, any necessary permission of the party to whom the calls will be redirected. The Company assumes no liability to the customer for the redirecting of calls.

AERS is not to be used by customers to avoid toll charges. If a customer is using this service to avoid such charges, The Company reserves the right to disconnect the service immediately and bill all appropriate toll charges.

Charges for the call between customer numbers equipped with redirection and the number to which the calls are redirected are the responsibility of the customer. The customer will be billed on a usage per call/minutes of use (MOU) basis or flat rates based on MOU.

LOCAL EXCHANGE SERVICES

20. ALTERNATE ENHANCED REDIRECT SOLUTION (AERS)

20.2 Limitations

AERS supports redirection of incoming call traffic only. It does not provide an alternate means for outbound calling in the event there is a failure in the local loop. In addition, AERS will not protect against failures in the local serving office.

Due to technical limitations, AERS cannot redirect calls that are placed within internal company private network.

Example: An AERS customer whose Incoming Telephone Numbers (ITNs) are part of a private network could have calls from outside parties sent to the Redirected Telephone Number (RTN) for that ITN, but calls from other stations on the customer's private network (i.e. and employee in another office) would continue to be completed to the ITN.

Calls to ITNs that have been subscribed to a Terminating Switched Access Arrangement or Access Value arrangement cannot be redirected under AERS. Additionally, AERS may not be able to redirect calls in cases where the ITN is subject to authorization/account codes, Toll Deny, or similar dialing limitations for the origination of calls.

Each AERS Customer Group must be maintained for a minimum of twelve (12) full months of billing. In the event that an AERS Customer Group is terminated for any reason before completing a full twelve (12) months of billing, a Disconnect Charge as in the Price List, shall be applied for each such terminated Customer Group.

LOCAL EXCHANGE SERVICES

21. PRIMELINK SERVICE

21.1 Description

PrimeLink is an optional feature package available to business Customers of PrimePath, PrimeXpress, and PrimeNBX network access services. Non-recurring and monthly recurring charges for PrimeLink are applied on a per line or per trunk basis and are in addition to any applicable charges associated with network access services.

PrimeLink requires all Customer locations to be connected to the same Company switch. All Customer locations must be affiliated with each other under the same corporate entity and the Customer is responsible for the applicable PrimeLink flat rate feature charges. The Customer must subscribe to PrimeLink on all network access lines used for voice communications at each Customer location.

PrimeLink service is offered subject to the availability of required Company facilities and compatibility with Customer-Provided Equipment (CPE). Use of the PrimeLink features may result in the loss of ANI (Automatic Number Identification) or CPN (Calling Party Number) information associated with the originating caller.

PrimeLink provides the following services:

A. PrimeLink Abbreviated Digit Dialing

This allows abbreviated digit dialing between stations in different Customer locations, where all locations are part of the same wholly owned enterprise and are served by the same Company switch. Number of digits required for PrimeLink Abbreviated Digit Dialing is dependent upon the type of CPE.

B. PrimeLink Transfer

This allows users to transfer calls between stations in different Customer locations, where all locations are part of the same wholly owned enterprise and are served by the same Company switch. Availability of this feature is dependent upon the type of CPE.

C. PrimeLink 3-Way Calling

This allows users to initiate three-way calls with one outside party and one party at another Customer location, where both Customer locations are part of the same wholly owned enterprise and are served by the same Company switch. Availability of this feature is dependent upon the type of CPE.

	<u>1 Year</u>	<u>2 Year</u>	<u>3 Year</u>
- Per DS1 Facility	\$585.00	\$550.00	\$550.00

(M)

The following rates apply to trunks that the customer (T)(M)
subscribed to on or after December 1, 2008 and before December (T)(M)
28, 2011. The monthly recurring rates are only available on (T)(M)
those trunks until the customer moves or makes a change to (T)(M)
their service, or re-negotiates their term agreement and/or (T)(M)
contract. (T)(M)

Monthly Recurring Charges: (M)

	<u>1 Year</u>	<u>2 Year</u>	<u>3 Year</u>
- Per DS1 Facility	\$810.00	\$750.00	\$725.00

(M)

The following rates apply to trunks that the customer (N)
subscribes to on or after December 28, 2011. These rates are (N)
also applicable to trunks the customer subscribed to prior to (N)
prior to December 28, 2011 where, on or after December 28, (N)
2011, the customer has moved or made a change to their service, (N)
or has re-negotiated their prior term agreement and/or (N)
contract. (N)

Monthly Recurring Charges: (N)

	<u>1 Year</u>	<u>2 Year</u>	<u>3 Year</u>
- Per DS1 Facility	\$1,002.00	\$1,002.00	\$1,002.00

(N)

- * Also requires an AT&T ACCU-Ring facility and multiplexing.
** Initial installation charges will be waived for new customers,
or existing customers adding new locations (not applicable for
moves), where service is available, when Customer selects the
Company as the primary carrier for a local and IntraLATA toll
calling. If Customer terminates their Term Plan prior to
expiration, they will be billed the appropriate installation
charge.
