FOR

Alma
Community, Town or CityGENERAL SERVICES
CUSTOM CALLING SERVICES Missouri Public Service CommissionCUSTOM CALLING SERVICE

REC'D SEP 15 1999

A. General

1. Custom Calling Service consists of one or more of the listed features which provide special kinds of customer-controlled communications features from appropriately equipped central offices.

2. Conditions

Custom Calling Service may be provided on individual lines, key business lines and may not be provided in conjunction with coin telephone services.

3. Special Promotions

Alma Telephone Company may during certain promotional periods waive the non-recurring charge and/or monthly rates for a specific period of time to a customer who wishes to participate.

Any promotional waiver or discounted rate will apply only one time per customer for each service during the course of the promotional period.

Alma Telephone Company will notify the Commission in advance of these promotions, and obtain their approval.

4. Grade of Transmission

The grade of transmission of calls which are forwarded or added, may vary depending on the distance, routine and routing necessary to complete the call. Therefore, the normal grade of transmission is not guaranteed on any forwarded call.

B. The services are listed and then are generally described as follows:

Automatic Callback	Distinctive Ring/Directory Number
Automatic Recall	Speed Calling 8 and 30 number
Call Forwarding	Three Way Calling
Call Hold	Wakeup Call
Call Waiting	

1. Automatic Callback--This feature allows a customer to make a call to the last directory number called. The callback can be made if the called number was busy or idle and whether the call was answered or not.

MAY 19 1992

MO. PUBLIC SERVICE COMMISSION

A. GENERAL

1. Custom calling services are optional features that may be provided customers on a per-line basis. The Central Office must be appropriately equipped. Operating specifics may vary depending on Central Office Equipment type.
2. The Telephone Company may during certain promotional periods, waive or discount the service and equipment charges and/or monthly rates for a designated period of time to a customer who wishes to participate.
3. A promotional waiver or discounted rate will only apply one (1) time per customer for each service during the course of the promotional period. The Company will notify the Commission in advance of promotions, and obtain their approval.

B. The services are generally described as follows:

1. CALL FORWARDING

CANCELLED

OCT 25 1999

44723 #15

By
Public Service Commission
MISSOURI

Call forwarding permits a customer to transfer all incoming calls to another dialable telephone number. The customer pre-selects a second telephone number to which he wants all incoming calls to be automatically transferred. Calls may be transferred to a long distance message telecommunications point subject to the availability of the necessary facilities in the

B. Service Descriptions (Continued)

2. Automatic Recall--This feature allows a customer to place a call to the source of the last incoming call to the customer.
3. Call Forwarding--This feature allows a customer to transfer all incoming calls to another dialable telephone number.
4. Call Hold--This feature allows a customer to return the telephone's handset to its hook while a call is in progress.
5. Call Waiting--Provides a signal to a customer using the telephone that another call is being attempted to his number. The customer can "hold" the original call to answer the incoming call.
6. Distinctive Ring/Directory Number-- This feature allows a customer to receive a distinctive ringing pattern on a second directory phone number using the same equipment as the first phone number.
7. Speed Calling 8 and 30 number--This feature allows a customer to reach preset number by abbreviated dialing. The system allows the customer to alter his speed calling list.
8. Three Way Calling--This feature allows a customer to add a third party to an existing conversation. The Three Way Calling (TWC) feature is a software function and requires no additional equipment. The party initiating a three way call (the controller) may place one party on hold while dialing and talking to a second party. The controller may then include the held party in a three way connection. The added party may be dropped from the connection by a flash from the controller.

Multiple three way calls may be connected by "chaining" the calls, provided the chaining is done by a non-controlling party in an established three way call. The chaining function is restricted when the System Option "Three Way Calling Originator Only" option has been enabled.
9. Wakeup Call--This feature allows a wakeup call to be set up to ring a customer's telephone at a pre-programmed time.

CLASS SERVICE (Continued)

REC'D SEP 15 1999

B. Class Service Descriptions (Continued)

1. Calling Name Delivery--This feature allows the customer to associate a name with the calling number. The name is retrieved from a centralized database. If the calling party's name is not available, a letter "O" for out of area appears. If the name is restricted, a "P" for privacy is shown (the subscriber's equipment interprets the "O" and "P" and displays appropriate text.)
2. Calling Number Delivery--This feature allows the calling party Directory Number to be passed to the called party's line. The Directory Number is transmitted as a ten digit string. If the calling Directory Number is not available, a letter 'O' for out of area, or 'P' for privacy will be transmitted (the customer's equipment will interpret the 'O' and 'P' and display appropriate text).
3. Customer Originated Call Trace--This feature allows a customer to identify calling lines in order to determine the source of nuisance or threatening calls. After hanging up on a nuisance call, a user can invoke Customer Originated Trace by going off-hook, receiving dial tone, and then dialing the Customer Originated Trace access code *57 on Touch Tone phone (1157 rotary dial). A confirmation tone will be returned to indicate that the call has been traced successfully. Output is in the form of a maintenance log at telephone company. This feature does not work with automatic recall and call back.

The customer using the feature would be required to contact authorities for further action. The customer is not provided the traced number. The results of a successful trace will only be provided to law enforcement authorities with a subpoena.

Customer Originated Trace will trace only those calls which are originated from a location served by the Class network.

4. Enhanced Call Privileges--Consist of the following:

- a. Account Code -Forced--This feature prevents the use of a telephone by unauthorized individuals.
- b. Account Code-Verified--This feature is an account code that can be dialed by a customer when certain features or enhanced facilities are required (but which are not normally available to the customer). The account code can be entered by the customer at any telephone. The entry of the account code changes the service category of the customer to the service category (and its associated features) assigned to the account code. The facility restriction of the customer is also changed, when the account code is entered, to the restriction assigned to the account code. These changes only apply for the duration of the call.

CLASS SERVICE (Continued)

REC'D SEP 15 1999

B. Class Service Descriptions (Continued)

- c. Personal Account Code--This feature allows a customer to set up or change a personal account code (PAC) which can be used to invoke various service category options assigned to their line i.e., call restriction and enhanced call privileges.

CALLER ID

Caller ID is one of the products which Alma Telephone Company will offer. This feature enables the customer to view on a display unit the Calling Party Directory name and/or number (CPN) on incoming telephone calls.

When Caller ID is activated on a customer's line, the CPN of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

Per line blocking for the blocking of CPN will be available upon request, at no charge, only to the following entities for lines over which the official business of the agency is conducted, including those at the residences of employees/volunteers, where an executive officer of the agency registers a need for blocking and provides the required certification to Alma Telephone Company: a private, nonprofit, tax exempt, domestic violence intervention agencies and federal, state, and local law enforcement agencies. The CPN will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the customer by dialing an access code immediately prior to placing a call.

Line blocking customers can unblock their CPN information on a per call basis, at no charge, by dialing an access code (#82 on their Touch Tone pad or 1182 from a rotary phone) immediately prior to placing a call.

A customer may prevent the delivery of their calling name and or number to the called party by dialing an access code (#67 on their Touch Tone pad or 1167 from a rotary phone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge. If the calling party activates blocking, the CPN will not be transmitted across the line to the called party. Instead, Calling Line Identification customers will receive an anonymous indicator.. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of their name and telephone number. The blocking of CPN will not be provided on calls originating from Customer-Owned Pay Telephone Service. If the caller ID customer also subscribes to Anonymous Call Rejection, the calling party will be routed to a telephone company recording advising the caller that the called party will not accept calls whose CPN has been blocked.

OCT 26 1972

MISSOURI

A. SERVICE CONNECTION CHARGES

The term "Service Connection Charges" is used to define the non-refundable charge made for the establishment of a class of telephone service or subsequent additions to that service and are in addition to any other scheduled rates and charges normally applying under the Tariffs.

Service Connection Charges may be payable at the time application is made for the particular service or facility and prior to establishment of service, or upon presentation of a bill.

Service connection charges do not apply to:

1. "Public Pay Stations" established for the use of the general public (but not including Coin-Box Service at locations which are classed as Semi-Public.)
2. Directory Listings.
3. Service changed from a residence to a business classification, or vice versa.
4. Service re-established after the destruction or partial destruction of the subscriber's premises by means beyond the control of the subscriber whether at the same or another location. However, if service is established at a new location and the subscriber later moves back to the old location, the Service Connection Charge is applied in connection with the re-established service at the old location.

Notes:

MISSOURI
PUBLIC SERVICE COMMISSION

New installations and Outside Moves receive the same treatment for charge purposes. An Outside Move is where the subscriber's service is changed from one premise to another, including the change from one trailer house to another at an identical location.

	<u>Rate</u>
1. Installation of Service: charges apply where service is established to the Demarcation Point* at the subscribers premises	\$18.00
2. Transfer or Name Change where Service is in Place: charges apply where service in place is taken over by a new applicant and no change is made at the applicant's request in the type or location of the Demarcation Point*	\$ 9.00
3. Restoral of Service Charge after Suspension for which the Subscriber is Responsible.	\$ 9.00
4. Customer provided equipment when making a maintenance service call to customer premise and trouble is found in customer owned equipment, a \$10.00 trip charge will be made to the customer.	

* Demarcation Point - The point of connection, provided and maintained by the telephone company, at which the station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling this point of connection will generally be the modular jack incorporated into the customer side of the Network Interface Device (NID). The drop wire and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

Service Connections - Link Up Missouri

Applicability of Link Up Missouri Service Connection Program

1. The Link Up Missouri Service Connection Program is a Federal program applicable to eligible residential subscribers, as defined below, and designed to promote subscribership to the telephone network among low income residential households.

- a. Service Connection Charges, as set forth in this tariff¹, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent, not to exceed \$30.00. These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence.

2. Eligibility Requirements

The following requirements shall be used by the company to determine the eligibility of a subscriber for Link Up Missouri assistance.

- a. Subscribers must have lived at an address where there has been no telephone service for at least three months prior to the date that assistance is requested.
- b. Eligible subscribers must not have received this assistance within the last two years.
- c. Subscribers must not be a dependent for federal income tax purposes, unless the subscriber is more than 60 years of age.
- d. Subscriber is currently receiving MEDICAID/medical assistance payments from the State of Missouri, and has provided their Department of Social Services Client Number (DCN) to the Company.

Of the eligibility requirements listed above, items a, b, and c, will be certified by the subscriber, and item d. will be State certified by the Department of Social Services.

MISSOURI

An arrangement under which a subscriber is equipped with a coin collecting device, designed for a combination of subscriber and public usage, and will be furnished at the following types of locations.

1. At locations where the installation of a public telephone is not warranted but where there is an appreciable demand for service on the part of transients.
2. At locations where there is a collective use of the service by a relatively stable body of guests, members, employees, or occupants.
3. At any location where the demand for service is for a combination of transient and subscriber usage.

Booths for the housing of semi-public telephones are available as described under the Miscellaneous and Special Equipment Charges section of this tariff.

Subscribers to semi-public telephone service are entitled to regular listings in the Telephone Company's official directory and may advertise such numbers for incoming calls and business purposes subject to rules and regulations otherwise specified in this tariff.

Local Messages from Semi-Public Telephones are charged for at the rate shown above. Toll Messages are charged for at the rates applicable as approved by the Missouri

Payphone Service (Cont'd)

JAN 15 1997

A. General Regulations (Cont'd)

10. Installation Charges and the appropriate NID material charge apply when a premises visit is made for the sole purpose of installing a customer requested NID.
11. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
12. Off-Premise Extensions are not permitted.
13. Local messages from Payphones are charged at no higher than twenty-five (25) cents for each call. Upon implementation of the FCC rules preempting state regulations of payphone rates, this subsection will not apply.
14. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO Implemented coin lines.

B. Responsibility of the Customer

1. The Customer for the purposes of this tariff is defined as the Payphone Service Provider.
2. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible for complying with the requirements set forth in the American With Disabilities Act of 1990.

The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Registration Program. In addition, the customer must comply with the Missouri Public Service Commission's Rules and Regulations regarding the use of customer-provided pay telephones.

Lifeline and Disabled Programs

(N)

The Company fully participates in the Lifeline and Disabled Programs designed for qualifying low-income and disabled residential local exchange voice telephony service subscribers, respectively. Eligibility criteria and program requirements are identified in Missouri Public Service Commission rules. The maximum allowable monthly discount is provided to program participants based on federal and state funding support for the Lifeline program and solely state funding support for the Disabled program. Lifeline service is available with optional toll blocking or toll limitations service restricting access to 1+, 0+, or 0- dialed calls at no charge.

A customer must apply with the Company to participate in either program and submit proof of eligibility. Participants are limited to one program benefit per household. In addition an applicant must agree to certain conditions and responsibilities including but not limited to a requirement to annually verify continued eligibility to the Lifeline program. If an applicant makes false statements or fails to comply with program requirements then the subscriber will be de-enrolled from the program.

Service will not be disconnected for non-payment of charges unless the subscriber fails to pay charges directly related to voice telephony service.

Lifeline (Low-Income) Program

A. General Regulations

1. Lifeline service is a discounted voice telephony service available to qualifying residential subscribers.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. A Lifeline subscriber's voice telephony service will not be disconnected for non-payment of charges unless the subscriber fails to pay charges directly related to voice telephony service.
4. Lifeline service is available with optional toll blocking or toll limitation service restricting access to 1+, 0+ and 0- dialed calls at no charge.
5. A household is limited to one discount. A Lifeline subscriber cannot receive additional discounts for Lifeline service from another provider or through the Missouri Disabled program.

B. Eligibility and Subscriber Requirements

1. An applicant must submit a completed application form along with proof of meeting one of the following eligibility criteria:
 1. Missouri HealthNet (Medicaid)
 2. Food Stamps
 3. Supplemental Security Income (SSI)
 4. Federal public housing assistance (Section 8)
 5. Low Income Home Energy Assistance Program
 6. Temporary Assistance for Needy Families
 7. National School Free Lunch Program;
 8. The customer's income, as defined in 47 CFR Section 54.400(f), is at or below 135% of the Federal Poverty Guidelines, effective June 1, 2012.

LIFELINE SERVICE

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single party residence service.
2. Lifeline service is a reduction in the monthly local service charges normally paid by qualifying low-income consumers. Eligible Lifeline subscribers will receive a total reduction of their basic local rate for residential one party service \$10.00*. The components of the reduction to basic residential one-party rates are as follows:

State reduction in local rate:	\$3.50*
Federal baseline Lifeline reduction:	\$6.50*

The Federal baseline lifeline reduction shall be used to waive the consumers federal End- User Common Line charge.
3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
 - b. Toll blocking is offered to Lifeline subscribers at no charge.

B. Eligibility Requirements

1. An applicant must meet all of the following criteria in order to qualify for Lifeline Service.
 - a. To qualify for Lifeline the consumer must participate in one of the following programs:
 1. Medicaid
 2. Food Stamps
 3. Supplemental Security Income (SSI)
 4. Federal public housing assistance
 5. Low Income Home Energy Assistance Program
 6. Temporary Assistance to Needy Families*
 7. National Free Lunch Program*
2. The customer must sign, under penalty of perjury a document certifying:
 - a. He/she is receiving benefits from one of the programs in B.1 above.
 - b. Name of the program(s) from which they are receiving benefits.
 - c. That he/she will notify the company if he/she no longer participates in the program(s) named in a. preceding.
3. The premises at which the residence service is requested must be the applicant's principal place of residence.

**Lifeline (Low-Income) Program
Eligibility and Subscriber Requirements**

2. A Lifeline subscriber must agree to notify the company within 30 days if:
 - i. The subscriber's household receives multiple discounts through either the Lifeline program and/or the Missouri Disabled program.
 - ii. The subscriber fails to meet eligibility criteria.
3. A Lifeline subscriber agrees to respond in a timely manner to annual requests to verify continued eligibility.
4. False statements made by a Lifeline subscriber or failure to comply with Lifeline service subscriber obligations will result in de-enrollment from the program.
5. The Lifeline subscriber's address must be the subscriber's permanent address. If the Lifeline subscriber's address is temporary then the subscriber must verify the subscriber's address every 90 days.

Missouri Disabled Program

A. General Regulations

1. The Missouri Disabled program offers a \$3.50 discount for voice telephony service to qualifying residential subscribers.
2. A household is limited to one discount. A subscriber cannot receive additional discounts from the Missouri Disabled program or through the Lifeline program.

B. Eligibility and Subscriber Requirements

1. An applicant must submit a completed application form along with proof of meeting one of the following eligibility criteria:
 - 1) Federal Social Security Disability benefits.
 - 2) Federal Supplemental Security income.
 - 3) Veterans Administration Disability benefits.
 - 4) State blind pension pursuant to Section 209.010 to 209.160 RSMo
 - 5) State aid to blind persons pursuant to Section 209.240 RSMo
 - 6) State supplemental payments pursuant to Section 208.030, RSMo Section 660.100.2 RSMo 2000.

4. There is only one telephone line servicing the residential premises. The residence premises household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment.

1. Missouri USF Low-Income Assistance

- A. **General-** A low-income customer is any customer who requests or receives residential essential local telecommunications service and who has been certified by the Department of Social Services (DSS) as economically disadvantaged. Qualified individuals will receive discounted services under either the low-income assistance or the disabled assistance program.
- B. **Regulations-** Low income assistance is available to all residential customers who demonstrate, by self certifying with the company under penalty of perjury, that they are eligible for support by participation in:
 1. Medicaid
 2. Food stamps
 3. Supplementary Security Income (SSI)
 4. Federal Public Housing Assistance or section 8
 5. Low Income Home Energy Assistance Program (LIHEAP)
 6. Temporary Assistance to Needy Families*
 7. National Free Lunch Program*
- C. **Eligible Services-** Essential local telecommunications service is defined as two (2) way switched voice residential service within a local calling scope as determined by the commission, comprised of the following services and their recurring charges:
 1. Single line residential service, including touch-tone dialing and any applicable mileage or zone charges
 2. Access to local emergency services, including, but not limited to, 911 service established by local authorities
 3. Access to basic local operator services
 4. Access to basic local directory assistance
 5. Standard intercept service
 6. Equal access to Inter-Exchange Carriers consistent with rules and regulations of the FCC
 7. One (1) standard white pages directory listing
 8. Toll blocking or toll control for qualifying low-income customers
- D. **Support Amount-** Customers eligible under the established criteria can receive a discount from their bill for essential local telecommunications service equal to the amounts approved by the Missouri Public Service Commission and the Federal Communications Commission. The amount of combined federal and state lifeline support for any customer will not exceed the sum of the federal Subscriber Line Charge (SLC) and the recurring charges for essential local telecommunications services (including the basic service rate, Touch-Tone calling charge, extended area service additive, and mileage additives, if any).

2. Missouri USF Disabled Assistance

- A. **General-** A disabled customer, or a dependent, is a customer who requests or receives residential essential local telecommunications service, as defined in section 1(c) of this tariff, and meets the eligibility requirements set forth in this tariff.

LIFELINE SERVICES (CONTINUED)

- B. **Regulations-** Disabled assistance is available to all residential customers who demonstrate, by self certifying with the company under penalty of perjury, that they, or a dependant, are totally and permanently disabled or blind and receiving any of the following:
- 1) Federal Social Security Disability benefits.
 - 2) Federal Supplemental Security income benefits
 - 3) Veterans Administration benefits
 - 4) State blind pension pursuant to Section 209.010 to 209.160 RSMo
 - 5) State aid to blind persons pursuant to Section 209.240 RSMo
 - 6) State supplemental payments pursuant to Section 208.030, RSMo Section 660.100.2 RSMo 2000.
- C. **Support Amount-** Customers eligible under the established criteria can receive a discount equal to the amount approved by the Missouri Public Service Commission from their bill for essential local telecommunications service. The amount of state lifeline support for any customer will not exceed the recurring charges for essential local telecommunications services (including the basic service rate, Touch-Tone calling charge, extended area service additive, and mileage additives, if any.)

SERVICE CONNECTION-LINK UP MISSOURI

A. General Regulations

The Link Up Missouri Service Connection Program is a Federal Lifeline assistance program applicable to eligible residential subscribers, as defined below, and designed to promote subscribership to the telephone network among low income residential households.

1. Service Connection Charges, as set forth in this tariff*, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent, or \$30.00, whichever is less. These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence.
2. The customer may defer payment on up to \$200 of the above charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. Payments shall be equally paid over a twelve month period.
3. A qualifying low-income customer may choose with 1. or 2., or both 1. and 2. as described above.
4. Link up assistance is available for a second or subsequent time only for a principal place of residence with an address different from the residence address where assistance was previously provided.
5. The premises at which the residence service is requested must be the applicant's principal place of residence.
6. There is only one telephone line serving the residence premises. The residence premises household (or dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment.
7. Link Up will not be furnished on a Foreign Exchange Service.

F. MISCELLANEOUS AND SPECIAL EQUIPMENT (continued)

20. Joint user rate is to be applied where a telephone is installed as an extension from an existing main station telephone and serves a different identity. The same telephone number will be used for both parties and a directory listing will be furnished each party.

The monthly rate will equal one-half of the main station rate plus extension station line mileage where applicable. Regular installation of telephone charge will apply.

The subscriber with the existing main station line to which the joint user is added will be responsible for payment of all charges accruing to the joint user subscriber in the event the joint user subscriber fails or refuses to pay for such services as provided for elsewhere in this schedule.

21. Seasonal and Vacation Rate service is provided to residence customers whose requirements for telephone service are less than that which might normally be provided in any 12 month period. Customer's line will be placed on intercept for the period of such service and no changes will be made in the customer's listing in the local directory or in the equipment on the customer's premises. No service either to or from the customer is contemplated during the interval this rate applies.

The monthly rate will be based upon 50% of the basic rate for the basic and associated additional services suspended for a minimum of 30 days and a maximum of 120 days. One reconnection per calendar year will be allowed without charge.

22. Fees or Taxes to be Billed to Customers

When any municipality imposes upon the Company any license, occupation, or other similar charge or tax applicable to service by the Company to the customer, or imposes a charge or tax based upon a percentage of gross receipts, net receipts, or revenues from sale of telephone service by the Company, the charges for local service to customers within such municipality shall be increased by an amount equal to each such customer's proportionate part of any such charge or tax, and such amount shall be shown separately on the customer's bill.

F. MISCELLANEOUS AND SPECIAL EQUIPMENT (cont'd)

23. Special Assemblies of Equipment, or Services not Covered
By this Tariff.⁽¹⁾

A. Special assemblies of equipment, and other items of a service for which provision is not otherwise made in this tariff may be provided where practicable, if not detrimental to any of the services furnished by the Company.

1. The charge for such facilities may be in the form of an installation charge, a monthly charge, a termination charge or any combination thereof, and will include, when applicable, one or more of the following estimated expense items associated with the special equipment or service provided:

- a. maintenance expense
- b. depreciation expense - including reusable and non-recoverable items
- c. administration expense
- d. taxes - including Federal Income Tax
- e. any other specific items of expense that may be associated with the facility provided
- f. a reasonable return on investment

2. The estimated installation cost used in the derivation of the various expense items shall include the following:

- a. material
- b. material overhead
- c. installation labor
- d. installation labor overhead

B. A contract may be requested by the Telephone Company for such special service, for such period of time as may be agreed upon by the Company and the customers.

C. Copies of the cost derivation in (A) and Contract (B) required, shall be submitted to the Missouri Public Service Commission.

(1) Limited Availability. See General Rules and Regulations Section, paragraph D, 1st Revised Sheet 50-9.

MESSAGE TOLL SERVICE CONCURRENCE

Message Toll Service

The Company concurs in the rates, charges and regulations governing intrastate intra-LATA Message Toll Service as set forth in Southwestern Bell Telephone Company's tariff for such service, on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law.

Message Toll Service Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

ACCESS SERVICES TARIFF CONCURRENCE

DEC 27 1983

Access Services

Access services are those services which are described in Section 1.1, et seq., of the Access Services Tariff of Southwestern Bell Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules, regulations and system of charges specified in the Access Services Tariff filed by Southwestern Bell Telephone Company and approved by the Missouri Public Service Commission.

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provision has been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Southwestern Bell Telephone Company's Access Services Tariff at the rates and charges and pursuant to the terms and conditions specified therein. The Company's concurrence in Southwestern Bell Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

MISSOURI
Public Service Commission

The rates included in the following rate categories for intrastate intraLATA access service are interim and subject to refund only to the extent required to comply with the Commission's Orders in Case No. TO-92-306:

Intrastate IntraLATA Carrier Common Line Access

Switched Access Service

Local Transport

End Office

Interest will be paid on any calculated refund amount from the due date of the bill rendered which includes the amount to be refunded until the payment of said amount. Interest will be paid at a rate equal to the prime rate (as published in the Wall Street Journal) less one percent. The interest rate will be adjusted semi-annually based on the rate in effect on the first business day after December 31 and June 30.
