VIA ELECTRONIC FILING

Mr. Morris Woodruff, Secretary
Missouri Public Service Commission
P.O. Box 360
Jefferson City, MO 65102

**RE: Liberty Utilities (Midstates Natural Gas) Corp. d/b/a Liberty
Weather Normalization Adjustment Rider (“WNAR”)**

Dear Judge Woodruff:

I am providing herewith to the Missouri Public Service Commission for filing, in electronic form, the following revised tariff sheets:

Form 13 - P.S.C. MO. No. 2, 6th Revised Sheet No. 67.2;
Form 13 - P.S.C. MO. No. 2, 6th Revised Sheet No. 67.3;
Form 13 - P.S.C. MO. No. 2, 6th Revised Sheet No. 67.4; and
Form 13 - P.S.C. MO. No. 2, 6th Revised Sheet No. 67.5.

These revised tariff sheets, which have an issue date of February 26, 2021, and an effective date of April 1, 2021, are designed to reflect the April adjustment made pursuant to Liberty’s WNAR for the six month period ending March 31, 2021. The rates are calculated semiannually to adjust for actual heating degree days as they differ from the normal levels and are effective for twelve months.

The WNAR adjustment is \$0.02796 for residential customers in the Northeast and West Districts, \$0.03704 for residential customers in the Southeast District, \$0.01267 for small general service customers in the Northeast and West Districts, and \$0.01231 for small general service customers in the Southeast District. Redlined tariff sheets are being provided to Staff and OPC.

Liberty’s WNAR tariff states that the Company shall determine the Semiannual Reconciliation Rate (“SRR”) based on the over- or under-billing during the twelve month billing of each Current Semiannual WNA (“CSWNA”) and SRR using the effective CSWNA and SRR rates and nine months actual sales and three months projected sales. This filing includes Liberty’s CSWNA reconciliation for the twelve month period ending March 31, 2021. This CSWNA reconciliation establishes the SRR rates to be effective April 1, 2021. The SRR adjustment is

\$0.01635 for residential customers in the Northeast and West Districts, \$0.01744 for residential customers in the Southeast District, \$0.00773 for small general service customers in the Northeast and West Districts, and \$0.00560 for small general service customers in the Southeast District.

Compared to currently existing rates, and assuming normal usage, the WNAR adjustment would increase the average monthly bill of the typical residential customer by approximately: \$0.67 per month, or 1.13%, in the Northeast District; \$0.62 per month, or 1.08%, in the West District; and \$0.58 per month, or 1.32%, in the Southeast District. Bill impacts may be less or more depending on a customer's actual usage, which is primarily affected by weather.

Please bring this filing to the attention of the Commissioners and the appropriate Commission personnel, and please do not hesitate to contact me with any questions or concerns.

Sincerely,

Diana Carter
