

**MISCELLANEOUS SERVICES****10.7 Remote Call Forwarding****10.7.1 Description**

Remote Call Forwarding (RCF) provides the subscriber with a "local" 7- or 10-digit number telephone number, which can be used by callers outside of the subscriber's exchange. Calls appear to the calling party to be local in nature. Calls to the RCF number are automatically forwarded to another telephone number designated by the RCF subscriber. The RCF number can be in either a different exchange (remote) or another central office within the same exchange (local).

**10.7.2 General Regulations**

- A. RCF is subject to the availability of Company facilities and compatibility with customer facilities and configuration. Transmission quality is dependent upon distance and routing of the forwarded call and is not suitable for data.
- B. Terminating stations must have incoming call capability.
- C. Additional paths can be ordered to handle multiple calls to the RCF number, as long as there are adequate customer facilities to handle multiple calls at the terminating end.
- D. The RCF subscriber is responsible for all charges between the RCF number and the terminating number, including toll.
- E. The caller is responsible for charges between the originating number and the RCF number.
- F. One directory listing per access path ordered is provided without charge for the telephone directory associated with the RCF number. Additional listings may be ordered as specified in the Directory Listings section of this tariff.
- G. Account codes cannot be placed on the terminating number. Caller ID information may not be available on the terminating end. Distinctive ringing is not available on incoming calls.
- H. The terminating line cannot be a residential line.

**10.7.3 Rates**

	<u>Monthly Rate</u>	<u>Non-recurring Charge</u>	
RCF, per Access Path	\$16.85	\$15.41	(CR)
Flat-rated Usage, per Access Path	\$7.85	N/A	(CR)

**10.7.4 Application of Rates**

- A. The non-recurring charge (NRC) will not apply on outside moves of service if there is no telephone number change.
- B. The NRC applies to change the RCF number or the change the number to which calls are forwarded, or to change both numbers at the same time.
- C. Only one NRC applies if more than one Access Path is ordered at the same time.
- D. The Unmeasured Usage charge applies for calls being remotely forwarded to a termination point within the same flat-rated calling scope as the Local RCF number.
- E. The minimum contract period is one month.

**MISCELLANEOUS SERVICES****10.8 Association Package<sup>(1)</sup>**

(AT)

**10.8.1 Description**

The Association Package is an optional pricing plan which makes available special pricing to qualifying associations and to bona fide members of qualifying associations. Associations and association members will receive special rates for local service and long distance. In order to qualify for the Association Package, associations and members must meet eligibility requirements as specified in this Tariff.

**10.8.2 Member Regulations**

- A. The Association Package is available only to business customers who qualify for Gabriel service as defined in this Tariff.
- B. Members must be located in Gabriel's service area.
- C. Members of participating associations must be able to provide proof of valid association membership.
- D. Each member will execute an individual Term Service Agreement with the Company and is considered to be a customer separate from the association.

**10.8.3 Association Regulations**

- A. An eligible association is defined as a for-profit or not-for-profit entity whose members promote a common trade, profession, service, or cause.
- B. Participating associations must be pre-qualified by Gabriel and complete a participation agreement to be eligible to participate in the program.
- C. Associations must make available to Gabriel on a quarterly basis membership lists with names, telephone numbers, and addresses to confirm membership of potential customers and support marketing efforts.
- D. Associations must agree to endorse Gabriel and inform members of the Association Package.
- E. Associations have no liability for individual members.
- F. Associations will receive quarterly lists from Gabriel regarding members who have ordered the Association Package.

**10.8.4 Rates**

Local Voice Service	5% discount off monthly recurring charges for these voice services: Single Business Lines; Key System Service; PBX Trunk Service; ISDN-PRI; and T-1 AdvantEdge <sup>sm</sup> PBX Service channels/Interface
Long Distance Service	\$.0683 per minute for both inbound and outbound dedicated domestic long distance in the 48 contiguous states.

(CR)

**10.8.5 Application of Rates**

- A. The 5% discount on voice services applies only to the services listed above.
- B. Rates apply to contract terms of one, two, and three years.
- C. Calling Card and international toll rates are not included in the Package.
- D. These rates can be combined with other pricing plans unless otherwise noted in this Tariff.

# MISCELLANEOUS SERVICES

## 10.9 Third Party Switched Service

Effective 10/20/06, standard access line service offered by NuVox under the terms of this tariff but provisioned via dial-tone obtained from a third party vendor will be increased by \$8.42 per line per month in light of increased costs to NuVox.

## 10.10 NuVox SoftPhone

NuVox SoftPhone provides the capability to make voice calls using software loaded on a computer located at the customer's premises where unchannelized VoIP broadband service is provisioned to allow for full capacity data transmission. NuVox SoftPhone includes assignment of a local telephone number and 911 capability. For intrastate long-distance calls placed using NuVox SoftPhone, a rate of \$.0485 per minute (or other applicable rate plane) will apply. No additional charge applies to local calls made using NuVox SoftPhone. Important information pertaining to and instructions for obtaining the software for NuVox SoftPhone are available at the NuVox website (CR)

## 10.11 Major Account Plan

Existing major account customers with more than \$8000 in billed monthly recurring revenue will receive a discount off of the January, 2007 rate increase (which otherwise is 3.99%) in the form of a cap which limits the increase to 2.5% above the applicable pre-existing rate. (AT)

Gabriel<sup>sm</sup> AdvantEdge Service – Obsolete <sup>(1)</sup> ~~Missouri Public Service Commission~~ (AT)

REC'D FEB 17 2000

11.1 Description

Gabriel AdvantEdge Service offers specialized pricing and/or service arrangements for business customers. Gabriel's MultiService Access Interface uses state-of-the art facilities to integrate voice, data and internet communications. Gabriel's Service Access Interface uses state-of-the-art facilities to provide voice communications. Special dedicated toll pricing is available only with AdvantEdge arrangements described in this section. Gabriel AdvantEdge Service is subject to the availability of Company facilities and compatibility with customer lines/trunks and premises equipment.

11.2 Payment Plan

The minimum contract period is one year. During the contract period, fixed rates (recurring and non-recurring) are not subject to Company initiated rate changes. Interface nonrecurring charges can be spread over a maximum of 12 months in equal monthly payments. Any customer terminating a contract prior to the end of the term is liable for paying 100% of the remaining balance of recurring and non-recurring charges for the entire term contracted. These remaining payments are due immediately.

GABRIEL<sup>SM</sup> MILLENNIUM BUSINESS SERVICESMissouri Public  
Service Commission12.1 Single Business Lines

REC'D FEB 17 2000

12.1.1 Description

The Single Business Line is an analog, loop-start line that can be connected to a single device, e.g., a single telephone line set (2500 set compatible), fax, or modem. Single Business Lines cannot be used to serve multi-line devices such as key systems or PBXs. Single Business Lines do not support hunting.

12.1.2 Standard Features

- Touch-tone
- 900 Number Blocking

12.1.3 Optional Features

- The Select Feature Package, described in 12.3 following, can be added to Lines, subject to CPE compatibility.
- Individual Business Telephone Features can be added to Single Business Lines, subject to the regulations and rates specified in section 6.

12.2 Key System Service12.2.1 Description

Key System Service is an analog, loop start facility that is provided on a multi-line basis. Key System Service is intended for use with most key systems.

12.2.2 Standard Features

- Touch-tone
- Hunting
- 900 Number Blocking

12.2.3 Optional Features

- The Select Feature Package, described in 12.3 following, can be added to Key System Service on a per line basis, subject to CPE compatibility.
- Individual Business Telephone Features can be added to Key System Service on a per line basis, subject to the regulations and rates specified in section 6.

GABRIEL<sup>SM</sup> MILLENNIUM BUSINESS SERVICES  
Missouri Public  
Service Commission12.3 Select Feature Package

REC'D FEB 17 2000

12.3.1 Description

The Select Feature Package is an optional package of Business Telephone Features, individually described in Sections 1 and 6, which can be added to Single Business Lines and Key System Service.

12.3.2 Features

- All Select Features Packages come with Caller ID and Call Forward – Variable.
- Customers select three of the following additional features as part of their customized package: Auto Redial; Call Forward – Busy; Call Forward – Don't Answer; Call Forward – Busy/Don't Answer; Call Return; Call Waiting; Priority Call; Remote Access to Call Forwarding; Speed Dialing 30; Three-Way Calling; or Toll Restriction.
- Business Telephone Features are subject to availability of Company facilities and compatibility with central office equipment, customer line, and premises equipment. When multiple features are activated on the same line, some features will take precedence over others.

12.4 PBX Trunk Service12.4.1 Description

PBX Trunk Service is an analog, analog DID, digital, or digital DID facility provided on a per DS-0 channel basis. PBX Trunk Service is intended for use with most PBXs and some key systems.

12.4.2 Standard Features

- Signaling
- Hunting
- 900 Number Blocking
- Directionality: DID, DOD or two way, as specified by the Customer
- Automatic Number Identification

12.4.3 Optional Features

- Analog Direct Inward Dialing
- Digital Direct Inward Dialing

12.6 Payment Plan

REC'D FEB 17 2000

Customers pay a fixed monthly rate for a specified contract term. The customer may choose a 1, 2 or 3 year contract. During the course of the contract, fixed rates (recurring and non-recurring) are not subject to Company initiated rate changes. All nonrecurring charges can be spread over a maximum of 12 months in equal monthly payments. Any customer terminating a contract prior to the end of the term is liable for paying 100% of the remaining balance of recurring and non-recurring charges for the entire term contracted. These remaining payments are due immediately.

GABRIEL<sup>SM</sup> MILLENNIUM BUSINESS TOLL SERVICES**RECEIVED**13.1 Description**MAY 15 2000**

Toll rates in this section are available only to customers who purchase Gabriel Millennium Business Services and ISDN-PRI as described in Sections 12 and 14.

**MO. PUBLIC SERVICE COM (CT)**

Toll service is furnished for telephone communication between telephones in different local calling areas within the state in accordance with the regulations and schedules of charges specified in this Tariff. Toll charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff. Directory Assistance and Operator Services surcharges apply to toll calls as appropriate. Services include dedicated outbound, dedicated inbound, and calling card services. Dedicated toll is provided to customers who receive local and long distance service from the Company. Federal surcharges apply to toll calls as specified in the Company's FCC tariffs.

Dedicated outbound toll service offers customers outbound, "1+" dialed long distance calling from the their presubscribed location for calls originating and terminating in the State of Missouri.

Dedicated inbound toll service offers customers an inbound toll service for calls originating and terminating in the State of Missouri. This service enables a caller to contact the inbound toll service customer without the caller incurring toll charges. Calls are usually placed by dialing a toll free "8XX" number.

Calling Card service allows the customer to place calls from lines other than the customer's presubscribed location and charge the call to the presubscribed location. The customer may place calls from any touch-tone telephone by dialing a toll free "8XX" number, entering a calling card number, personal identification code, and the called telephone number. Calling card charges appear on the customer's monthly bill.

13.2 Timing of Messages

13.2.1 Dedicated outbound and inbound toll service calls are timed in 6-second increments with a 60-second minimum. Calling Card service calls are timed in 1 minute increments.

13.2.2 For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

13.2.3 For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified. <sup>(1)</sup>

13.2.4 Call timing ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

**FILED****JUN 14 2000****MISSOURI

Toll service is furnished for telephone communication between telephones in different local calling areas within the state in accordance with the regulations and schedules of charges specified in this Tariff. Toll charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff. Directory Assistance and Operator Services surcharges apply to toll calls as appropriate. Services include dedicated outbound, dedicated inbound, and calling card services. Dedicated toll is provided to customers who receive local and long distance service from the Company. Federal surcharges apply to toll calls as specified in the Company's FCC tariffs.

Dedicated outbound toll service offers customers outbound, "1+" dialed long distance calling from their presubscribed location for calls originating and terminating in the State of Missouri.

Dedicated inbound toll service offers customers an inbound toll service for calls originating and terminating in the State of Missouri. This service enables a caller to contact the inbound toll service customer without the caller incurring toll charges. Calls are usually placed by dialing a toll free "8XX" number.

Calling Card service allows the customer to place calls from lines other than the customer's presubscribed location and charge the call to the presubscribed location. The customer may place calls from any touch-tone telephone by dialing a toll free "8XX" number, entering a calling card number, personal identification code, and the called telephone number. Calling card charges appear on the customer's monthly bill.

13.2 Timing of Messages

13.2.1 Dedicated outbound and inbound toll service calls are timed in 6-second increments with a 60-second minimum. Calling Card service calls are timed in 1 minute increments.

13.2.2 For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

13.2.3 For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified. <sup>(1)</sup>

13.2.4 Call timing ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

**GABRIEL<sup>SM</sup> INTEGRATED SERVICES DIGITAL NETWORK - Missouri Public  
PRIMARY RATE INTERFACE (ISDN- PRI) Service Commission**14.1 Description

REC'D JUN 30 2000

ISDN-PRI provides access to and from the Public Switched Telephone Network for circuit-switched voice communications. ISDN-PRI uses ISDN architecture to provide an end-to-end digital DS-1 circuit. It employs a 1.544 mbps facility and typically provides the customer with twenty-three B channels and one D channel. B channels can be used for voice and data communications. The D channel provides out-of-band signaling and control of the B channels. Gabriel ISDN-PRI service is a two-way flat monthly service for business customers (CT)

The provision of ISDN-PRI is subject to availability of Company facilities and compatibility with customer facilities and equipment. The local calling area specified in paragraph 4.2.2 applies to ISDN-PRI. Applicable distance sensitive charges will apply as noted in this Tariff. Other ancillary features listed in the Company's tariffs which are compatible with ISDN-PRI can be provided under the rates and terms noted.

ISDN-PRI service includes the ISDN Interface; the ISDN Port; and trunks. Optional features are described below.

14.2 Optional Features

Backup D Channel: Provides enhanced survivability of ISDN-PRI links by providing automatic takeover for a failed D channel.

Calling Name and Number Delivery Interface: Delivers calling party telephone number/and or listed name (where technically available) to the called party. Caller ID regulations and features, as defined in Section 5 of this tariff, apply to ISDN.

Dynamic Channel Allocation (DCA): Enables a customer to designate the quantity of call types to be allocated within previously provisioned criteria for either DID or DOD services. This feature is also known as call-by-call service selection. The customer must specify the total number of channels assigned to the DCA arrangement and the maximum number of channels allocated per call type within the arrangement.

Direct Inward Dialing (DID): This service routes incoming calls directly to a station, bypassing the central answering point.

**GABRIEL<sup>SM</sup> INTEGRATED SERVICES DIGITAL NETWORK (ISDN)  
PRIMARY RATE INTERFACE (PRI)****RECEIVED****MAY 15 2000****14.2 Payment Plan**

Customers pay a fixed monthly rate for a specified contract term. The customer may choose a 1, 2 or 3 year contract. During the course of the contract, fixed rates (recurring and non-recurring) are not subject to Company initiated rate changes. All nonrecurring charges can be spread over a maximum of 12 months in equal monthly payments. Any customer terminating a contract prior to the end of the term is liable for paying 100% of the remaining balance of recurring and non-recurring charges for the entire term contracted. These remaining payments are due immediately.

GABRIEL<sup>SM</sup> OFF-NET SERVICES15.1 General**MISSOURI  
Public Service Commission**

The services in this tariff section are made available to customers exclusively under off-network resale or UNE-P arrangements. Customers who order Gabriel Off-Net Services will not draw dial tone from the Company's physical network. Customers ordering Gabriel Off-Net Services are bound by the rules and regulations specified in Section 2 of this Tariff.

The Company concurs with the product descriptions and associated regulations for exchange access lines, vertical features and services as set forth in Southwestern Bell Telephone Company's General Exchange and Local Exchange tariffs, and approved by the Missouri Public Service Commission or applicable law. This concurrence does not extend to any provisions of Southwestern Bell Telephone Company's tariffs that are specifically related to service descriptions, such as provisions included in Section 2 of this Tariff. Additionally, the Company does not concur with rates in Southwestern Bell's tariffs and does not make available all products and services in Southwestern Bell's tariffs.

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears such cancellation is in the best interest of the Company and/or its customers.

15.2 Applicability

This tariff applies to the provision of off-net resale telecommunications services specified herein to customers in Southwestern Bell Telephone Company exchanges, which are located in Southwestern Bell Telephone Company's authorized service area within the state. State-wide rate groups associated with Gabriel Off-Net Services are defined by Southwestern Bell. Tariff reference: SWBT Missouri Local Exchange No. 17, Local Exchange No. 24 and General Exchange No. 35.
