VIA EFIS

Secretary
Missouri Public Service Commission
Governor Office Building
200 Madison Street
Jefferson City, MO 65101

Dear Secretary,

Enclosed herewith for filing with the Missouri Public Service Commission are the revised substitute tariff sheets, P.S.C. MO. No. 7, Revised Sheet No. 13.2 of the eastern Missouri operating division of Spire Missouri Inc. d/b/a Spire (the "Company") and P.S.C. MO. No. 8, Revised Sheet No. 13.2 of the western Missouri operating division of Spire Missouri Inc. d/b/a Spire (the "Company"). These revised tariff sheets, which have an issue date of August 31, 2018, and an effective date of October 1, 2018, to reflect the Weather Normalization Adjustment Rider ("WNAR") of the Company as provided by Sheet Nos. 13 through 13.2 of the Company's tariffs.

The WNAR for Spire East is $-\$0.00053$ and the WNAR for Spire West is $\$0.001$. Such WNAR rates are calculated semiannually to adjust for actual heating degree days as they differ from the normal levels and are effective for twelve (12) months.

Compared to currently existing rates, and assuming normal usage, the WNAR rider for Spire East would decrease the average monthly bill of the typical residential customer by about $\$0.04$ per month, or 0.0%. Such bill impacts may be less or more depending on a customer's actual usage, which is primarily affected by weather.

Compared to currently existing rates, and assuming normal usage, the WNAR rider for Spire West would increase the average monthly bill of the typical residential customer by about $\$0.06$ per month, or 0.1%. Such bill impacts may be less or more depending on a customer's actual usage, which is primarily affected by weather.

Sincerely,

/s/ Glenn W. Buck
