SECTION 2 - DEFINITIONS

Certain terms used generally throughout this tariff are described below.

Advance Payment

Part or all of a payment required before the start of service.

Access Services

The Company's interstate telephone services offered pursuant to this tariff.

Authorized User

A person, firm or corporation which is authorized by the customer or joint user to be connected to the service of the customer or joint user, respectively.

Commission

The Missouri Public Service Commission.

Company or Telseon

The term "Company" denotes Telseon Carrier Services, Inc.

Customer

The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with the Company's regulations.

Dedicated or Private Line

A facility or equipment system or subsystem set aside for the sole use of a specific customer.

End User or User

Any person or entity that obtains the Company's services provided under this Tariff, regardless of whether such person or entity is so authorized by the Customer.

ICB or Individual Case Basis

A service arrangement in which the regulation, rates and charges are developed based on the specific circumstances of the case.

SECTION 2 - DEFINITIONS (Cont'd)Network

Refers to the Company's facilities, equipment, and services provided under this Tariff.

Network Service

Intrastate communications service providing one-way and/or two-way information transmissions originating from points within the State of Missouri.

Service Commencement Date

The first date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and the Customer may mutually agree on a substitute Service Commencement Date. If the Company does not have an executed Service Order from a Customer, the Service Commencement Date will be the first date on which the service or facility was used by a Customer.

Service Order

The written request for dedicated services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date. Should a Customer use the Company's dedicated service without an executed Service Order, the Company will then request the Customer to submit a Service Order.

Shared

A facility or equipment system or subsystem that can be used simultaneously by several Customers.

User

A customer, joint user, or any other person authorized by a customer to use service provided under this tariff.

SECTION 4 - REGULATIONS

4.1 Undertaking of the Company

4.1.1 Scope

The Company undertakes to furnish dedicated services in accordance with the terms and conditions set forth in this Tariff. Applications for initial or additional service made verbally or in writing become a contract upon the establishment of the service or facility.

4.1.2 Shortage of Facilities

All service is subject to the availability of suitable facilities. The Company reserves the right to limit the length of communications or to discontinue furnishing services when necessary because of the lack of transmission medium capacity or because of any causes beyond its control.

4.1.3 Terms and Conditions

- A) Service is provided on the basis of a minimum period of at least one month, 24-hours per day. For the purpose of computing charges in this Tariff, a month is considered to have 30 days.
- B) Customers may be required to enter into written Service Orders which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this Tariff. Customers will also be required to execute any other documents as may be reasonably requested by the Company.
- C) In any action between the parties to enforce any provision of this Tariff, the prevailing party shall be entitled to recover its legal fees and court costs from the non-prevailing party in addition to other relief a court may award.
- D) This Tariff shall be interpreted and governed by the laws of the State of Missouri regardless of its choice of laws provision.

SECTION 4 - REGULATIONS (Cont'd)

4.5 Customer Deposits and Advance Payments

4.5.1 Advance Payments

To safeguard its interests, the Company may require a Customer to make an Advance Payment before services and facilities are furnished. The Advance Payment will not exceed an amount up to two months of estimated monthly usage charges. In addition, where special construction is involved, the Advance Payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. The Advance Payment will be credited to the Customer's initial bill. An advance payment may be required in addition to a deposit.

4.5.2 Deposits

- A) To safeguard its interests, the Company may require the Customer to make a deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:
- 1) two months' service based on the average bill during the preceding twelve (12) months, or, in the case of new applicants for service, the average monthly bill for new subscribers within a customer class; or
 - 2) the charges that would apply for the minimum payment period for a service or facility which has a minimum payment period of more than one month; except that the deposit may include an additional amount in the event that a termination charge is applicable.

- B) A deposit may be required in addition to an Advance Payment.
- C) When a service or facility is discontinued, the amount of a deposit, if any, with accrued interest will be applied to the Customer's final account and any balance remaining will be refunded within 21 days of the rendition of such final bill. If the amount of the deposit is insufficient to cover the balance due to the Customer's account, the Company retains the right to collect any amounts owing after the deposit has been applied plus any costs related to the collection of any remaining balance.
- D) It shall bear interest at a rate which is equal to one percent (1%) above the prime lending rate as published in the Wall Street Journal. This rate shall be adjusted annually on December 1 using the prime lending rate, as published in the Wall Street Journal on the last business day of September of each year, plus one percent (1%). The interest shall be credited annually upon the account of the customer or paid upon the return of the deposit, whichever occurs first. Interest shall not accrue on any deposit after the date on which a reasonable effort has been made to return it to the Customer. Records shall be kept of efforts made to return a deposit;
- E) Upon satisfactory payment of all undisputed charges during the last twelve (12) billing periods, it shall with accrued interest be promptly refunded or credited against charges stated on subsequent bills.

Missouri Public Service Commission
MISSOURI4.6.1 Payment for Service

The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer.

A) Taxes

The Customer is responsible for payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges or surcharges (however, designated) (excluding taxes on the Company's net income) imposed on or based upon the provision, sale or use of Network Services. All taxes and local taxes (i.e. gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates. All charges other than taxes and franchise fees will be submitted to the commission for prior approval.

4.6.2 Billing and Collection of Charges

The Customer is responsible for payment of all charges incurred by the Customer or other users for services and facilities furnished to the Customer by the Company.

- A) Non-recurring charges are due and payable within 30 days after the date of the invoice.
- B) The Company shall present invoices for Recurring Charges monthly to the Customer, in advance of the month in which service is provided, and Recurring Charges shall be due and payable within 30 days after the date of the invoice. When billing is based upon Customer usage, usage charges will be billed monthly for the preceding billing period.
- C) When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.

Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.
- E) If any portion of the payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, then a late payment penalty shall be due to the Company. The late payment penalty shall be the portion of the payment not received by the date due, multiplied by a late factor. The late factor shall be the lesser of:
- 1) a rate of 1.5 percent per month; or
 - 2) the highest interest rate which may be applied under state law for commercial transactions.
- F) The Customer will be assessed a charge of twenty-five dollars (\$25.00) for each check submitted by the Customer to the Company which a financial institution refuses to honor.
- G) If service is disconnected by the Company in accordance with Section 4.6.4 following and later reinstalled, service will be subject to all applicable installation charges. If service is suspended by the Company and later restored, service will be subject to all applicable restoration charges.

The various types of Carrier service offerings are described below. Carrier services are billed at predetermined monthly rates. Recurring charges are billed in advance of the month in which service is preformed. In addition, the optional features and any extraordinary installation costs other than recurring and non-recurring charges may apply as described herein. Customers requesting these services may subscribe to services on a month-to-month basis, or on an individual case basis as described in Section 5.7.

5.2 Service Configurations

There are two types of service configurations over which Carrier's services are provided: point-to-point and multipoint service.

5.2.1 Point-To-Point Service

Point-To-Point Service connects two Customer-designated premises, either on a directly connected basis, or through a hub where multiplexing functions are performed.

5.2.2 Multipoint Service

Multipoint Services connect three or more Customer designated premises through a Carrier hub. There is no limitation on the number of locations connected via multipoint service. However, when more than three points are provided in tandem, the quality of service may be degraded. Multipoint service may be provided where technically possible. If Carrier determines that the requested characteristics for a multipoint service are not compatible, the Customer will be advised and given the opportunity to change the order within 60 days.

5.3 Service Descriptions and Technical Specifications

by XD-03-0173
Public Service Commission
MISSOURI

The following service descriptions and technical specifications will apply to Carrier's services. When references to SBC Technical Publications on file with the State of Missouri Public Service Commission are made for performance criteria, the criteria will be considered objectives for Carrier's performance. In no case should the reference to these SBC standards be construed as creating any warranties on the part of Carrier. Technical publications are available for review by the Customer upon request.

5.3.1 DS-1 Service

DS-1 Service, or Digital Signal Level 1 Service, is a channel for the transmission of 1.5644 Mbps or 2.048 Mbps data. Intermediate bit rate channels in multiple increments of either 56 kbps or 64 kbps up to 1.5644 Mbps are also available. The actual bit rate and framing format is a function of the channel interface selected by the Customer. DS-1 Channels are provided between Customer designated locations and between Customer designated locations and a Carrier's hub.

5.3.2 DS-3 Service

DS-3 Service, or Digital Signal Level 3 Service, is a channel for the transmission of 44.736 Mbps data or higher. The actual bit rate and framing format is a function of the channel interface selected by the Customer. DS-3 Channels are provided between Customer designated locations and/or between Customer designated locations and a Carrier's hub. DS-3 service is provided with an electrical interface.

As an option, this service may be provided to a Customer with an optical interface at the Customer's premises. Services with this option will terminate in Carrier's Optical Line Terminating Equipment (OLTE) located in Carrier's hub. The OLTE located at the Customer's premises is subject to the mutual agreement of the parties, and must be compatible with the OLTE located in Carrier's hub. The optical interface option is available only where facilities permit, and is offered on an Individual Case Basis (ICB).

5.3.3 DS-3 (X3), (X9), or (X12), (X24) Services

DS-3 services may be ordered in multiples of 3 (X3), 9 (X9), or 12 (X12) (X24). These services are offered in the same configuration as DS-3 service (i.e. either electrical or optical interface), and with the same technical specifications. These services will be provided initially on an ICB.

5.3.4 Fractional DS-1 Service (NOC)

Fractional DS-1 service consists of 2 to 24 DS-0 or DDS channels between two Customer designated locations, utilizing DS-1 level facilities, and multiplexing arrangements.

5.3.5 Dark Fiber Services

Dark Fiber facilities shall normally be installed using single mode, fiber optic facilities suitable for provisioning point-to-point communications, transmitting at Customer specified bandwidths. Multimode fiber, at the Customer's request, may be used depending upon facilities availability. These Dark Fiber facilities are available only where sufficient facilities are provided in Company's network, and charges will be provided on an ICB, as filed with the Commission. Dark Fiber will be offered in capacities of one strand and above, with the fiber terminating on a standard optical patch panel. As Company does not provide the electronics, Company cannot test and monitor the facilities. When available, pricing will be on a per strand per mile basis.

When provided, the type of facility and the route of the facility will be determined by Company. Company makes no guarantee or warranty of the suitability of Dark Fiber for purposes intended by the Customer.

5.3.6 Dim Fiber Services

XD-03-0173

Public Service Commission
MISSOURI

Dim Fiber is a service that permits the Customer to utilize a portion of Company's bandwidth in increments that are traditionally non-standard telephony bandwidths, such as 4 Mbps, 10 Mbps, 16 Mbps, or 100 Mbps. Dim Fiber service is offered only where facilities permit, and may be offered with custom multiplexing equipment or utilizing Customer provided equipment. Dim Fiber will be priced based on the capacity and the multiplexing services required. As Company may not provide the electronics, Company may not test and monitor the facilities.

When provided, the type of facility and the route of the facility will be determined by Company. When the Customer provides the electronics, Company makes no guarantee or warranty of the suitability of Dim Fiber for purposes intended by the Customer.

5.3.7 M13 Multiplexing (ICB)

An arrangement that converts a 44.736 Mbps into 28 DS-1 channels using digital time division multiplexing.

5.3.8 DS-1 to DS-0 Multiplexing

An arrangement that converts a 1.544 Mbps channel into 24 channels for use with Voice Grade Facilities or DDS.

5.3.8 Customer Provided Equipment

Customer provided terminating equipment such as CSUs, multiplexers, and other terminating equipment may, at the Customer's request, be provided by the Customer, at the Customer's expense. Carrier makes no guarantees or warranties as to the performance of Customer provided equipment.

5.4 Rate Categories

There are six rate categories that may apply to Carrier's Services.

NOV 23 2002

XD-03-0173

Public Service Commission
MISSOURI

5.4.1 Channel Terminations

The Channel Termination Rate Category provides for the communications path between a Customer designated premises, and another Customer designated premises. Included as part of the Channel Termination is a standard channel interface arrangement which defines the technical characteristics associated with the type of facilities to which the Carrier's service is to be connected, and the type of signaling capability (if any). One channel Termination charge applies per Customer designated premises at which the service is terminated.

5.4.2 Channel Mileage

The Channel Mileage Rate Category provides for the transmission facilities between two or more Customer designated premises. The Channel Mileage Rate Category is not applied to services that are less than one V&H computed mile (as described in Section 5.6 of this tariff), unless specified. Channel Mileage is portrayed in mileage bands. There are two rates that apply for each band, i.e., a flat rate per band and a rate per mile.

5.4.3 Optional Features and Functions

The Optional Features and Functions Rate Category provides for optional services which may be added to a Carrier's service to improve its quality or characteristics to meet specific communications requirements. These services are not necessarily identifiable with specific equipment, but rather represent the end result in terms of performance characteristics which may be obtained. These characteristics may be derived using various combinations of equipment.

SECTION 5 - SERVICE DESCRIPTIONS (Cont'd)5.4 Rate Categories (Cont'd)5.4.4 Extraordinary Charges

From time to time, customers may request special services not addressed specifically by rate elements in this tariff, or services to locations that may cause Carrier to incur extraordinary expenses not contemplated in the provision of standard service offerings. These costs include, but are not limited to:

- Additional construction costs
- Building space rental or rights-of-way costs
- Additional equipment
- Special facilities routing

In these cases, the Customer will be billed additional charges computed on an ICB. Special services not addressed in this tariff shall be approved by the Commission prior to the provision of such service.

5.4.5 Volume Discounts

Discounts for specified dollar volumes of traffic to a specific location or aggregate dollar volumes may apply, as specified in this tariff, to customers that subscribe to substantial volumes of Carrier's services.

5.4.6 Term Discounts

Customers will be eligible for discounts for executing agreements for services for 1 to 7 years, as specified in this tariff.

5.6 Regulations and Computations of Mileage

Airline mileage, used in connection with determining rates for the Channel Mileage element, is obtained by using the "V" and "H" coordinates assigned to each point as set forth in the National Exchange Carrier Association Tariff FCC No. 4. This procedure is also referenced in the AT&T Tariff FCC No. 10. To determine the airlines distance between any two locations, proceed as follows:

1. Utilize the "V" and "H" coordinates for each Customer designated location.
2. Obtain the difference between the "V" coordinates of each of the locations. Obtain the difference between the "H" coordinates.
3. Square each difference obtained in step 5.6.2 above.
4. Add the square of the "V" difference and the "H" difference obtained in step 3 above.
5. Divide the sum of the square by 10. Round to the next higher whole number if any fraction is obtained.

SECTION 5 - SERVICE DESCRIPTIONS (Cont'd)5.7 Contract Rates - Special Pricing Arrangements - ICB

5.7.1 In lieu of the rates otherwise set forth in this tariff, rates and charges, including minimum usage, installation, special construction and recurring charges for Carrier's services may be established at negotiated rates on an ICB, taking into account the nature of the facilities and services, the costs of construction and operation, the volume of traffic, the length of service commitment by the Customer, and use of facilities by other customers. Such arrangements shall be considered Special Pricing Arrangements, the terms of which will be set forth in individual Customer contracts. However, unless otherwise specified, the terms, conditions, obligation and regulation set forth in this tariff shall be incorporated into, and become a part of, said contract, and shall be binding on Carrier and Customer. Specialized rates or charges will be made available to similarly situated customers on a non-discriminatory basis. All special Pricing Arrangements, including ICB, shall be filed with the Commission.

5.7.2 In addition to any rate or charge established by the Carrier, the Customer will also be responsible for any recurring or non-recurring charges imposed by local exchange telephone companies incurred by or on behalf of the Customer in establishing and maintaining service. Such charges may be billed by the Carrier or directly by the local exchange company, at the Carrier's option.

5.7.3 Private line services will be made available to customers in a non-discriminatory manner. Rates for interexchange and local exchange, dedicated access, private line, non-switched services will be determined on an individual case basis (ICB). ICB rates will be structured to recover the company's cost of providing the service and will be made available to the Missouri Public Service Commission staff upon request on a proprietary basis. ICB rates will not be used for switched services.

5.8 Taxes5.8.1 Sales, Use, and Excise Taxes

In addition to all recurring, non-recurring, usage or special charges, Customer shall also be responsible for and shall pay all applicable federal, state and local sales, use and excise taxes.

5.9 Temporary Promotional Programs

The Carrier may establish temporary promotional programs, wherein it may waive or reduce recurring or non-recurring charges, to introduce a present or potential Customer to a service not previously received by the Customer. The terms of promotional programs will be filed with the Commission subject to the requirements of applicable law, except if the promotion is to reduce rates. Such promotions will go into effect upon seven days' prior notice to the Commission.
