TARIFF FORMAT

REC'D MAY 26 1999

- (A) Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- (B) Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Missouri Public Service Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14.
- (C) Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).

Section 1—TECHNICAL TERMS AND ABBREVIATIONS

Certain terms used generally throughout this tariff are described below.

REC'D MAY 26 1999

Advance Payment

Part or all of a payment required before the start of service.

Communications Services

The Company's intrastate telephone services offered pursuant to this tariff.

Company

KMC Telecom III, Inc., the issuer of this tariff.

Customer or Aggregator

The person, firm, or corporation which orders service for the Company's communications services and is responsible for the payment of charges and compliance with the Company's regulations.

Dedicated Inbound Calls

Refers to calls that are terminated via dedicated access facilities connecting the Customer's premises and the Company's Point of Presence (POP). This service is offered to the extent facilities are available and where the Company and the Customer jointly arrange for the establishment of dedicated access facilities connecting the Customer's trunk-compatible PBX or other suitable equipment to the Company's POP. The Customer shall be responsible for all costs and charges associated with the dedicated access facilities.

Dedicated Outbound Calls

Refers to service that is offered to the extent facilities are available in those cases where the Company and the Customer jointly arrange for the establishment of dedicated access facilities connecting the Customer's trunk-compatible PBX or other suitable equipment to the Company's POP. The Customer shall be responsible for all costs and charges associated with the dedicated access facilities.

Joint User

REC'D MAY 26 1999

A person, firm or corporation which is designated by the Customer as a user of services furnished to the Customer by the Company, and to whom a portion of the charges for service will be billed under a joint user arrangement as specified herein.

LATA

A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the National Exchange Carrier Association, Inc. Tariff FCC No. 4.

Recurring Charges

The monthly charges to the Customer for services, facilities and equipment which continue for the agreed upon duration of the service.

Service Commencement Date

The first date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and the Customer may mutually agree on a substitute Service Commencement Date.

Service Order

The written request for communications services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

REC'D MAY 26 1999

2.1.1 Application

- (A) This tariff applies to intrastate interexchange communications services furnished by KMC Telecom III, Inc. (hereinafter the "Company") to business customers within the State of Missouri in accordance with the conditions set forth below. This tariff applies only for the use of the Company's services for communications between and among points within the State of Missouri. These services may be provided in conjunction with the Company's interstate telecommunications services which are provided under the Company's Federal tariff.
- (B) Services offered under this tariff are not offered for the purpose of completing calls between two points within the same local calling area or metropolitan exchange area, as defined in the tariffs of the Local Exchange Telecommunications Company or Companies serving those points.
- (C) Presubscribed services are provided from all converted equal access end offices within the State of Missouri where the Company has a point of presence (POP) within the LATAs. Other products will be provided in areas as specified for each product in Section 4 of this tariff.
- (D) The operator services are furnished to authorized users of the Company's LDS service and to users accessing public telephones presubscribed to the Company and to patrons, patients, students, and other authorized users of the station telephone or other facilities of privately owned coin operated telephone station providers, hotels, motels, hospitals, airports, colleges, universities, and other customers.

2.1.2 Scope

The Company undertakes to furnish communications services in accordance with the terms and conditions set forth in this tariff.

2.1.3 Shortage of Facilities

All service is subject to the availability of suitable facilities. The Company reserves the right to limit the length of communications or to discontinue furnishing services when necessary because of the lack of transmission medium capacity or because of any causes beyond its control.

2.1.4 Terms and Conditions

- (A) Service is provided on the basis of a minimum period of at least one month, 24-hours per day. For the purpose of computing charges in this tariff, a month is considered to have 30 days.
- (B) Customers may be required to enter into written service orders which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff. Customer will also be required to execute any other documents as may be reasonably requested by the Company.

- (A) The services the Company offers shall not be used for any unlawful purpose or for any use for which the Customer has not obtained all required governmental approvals, authorization, licenses, consents and permits.
- (B) The Company may require applicants for service who intend to use the Company's offering for resale and/or for shared use to file a letter with the Company confirming that their use of the Company's offerings complies with relevant laws and regulations, policies, orders, and decisions.
- (C) The Company may require a Customer to immediately shut down its transmission if such transmission is causing interference to others.
- (D) A customer, joint user, or authorized user may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit a Customer to transfer its existing service to another entity if the existing Customer has paid all charges owed to the Company for regulated communications services. Such a transfer will be treated as a disconnection of existing service and installation of new service, and non-recurring installation charges as stated in this tariff will apply.

2.4.2 Inspections

- (A) The Company may, upon notification to the Customer, at a reasonable time, make such tests and inspections as may be necessary to determine that the requirements regarding the equipment and interconnections are being complied with the installation, operation and maintenance of Customer-provided equipment and in the wiring of the connection of Customer channels to Company-owned facilities.
- (B) If the protective requirements in connections with Customer-provided equipment are not being complied with, the Company may take such action as necessary to protect its facilities and personnel and will promptly notify the Customer by registered mail in writing of the need for protective action. In the event that the Customer fails to advise the Company within 10 days after such notice is received or within the time specified in the notice that corrective action has been taken, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities and personnel from harm. The Company will upon request 24 hours in advance provide Customer with a statement of technical parameters that the Customer's equipment must meet.

2.7.1 Payment for Service

The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer.

Taxes

The Customer is responsible for payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges or surcharges (however, designated) (excluding taxes on the Company's net income) imposed on or based upon the provision, sale or use of Network Services. All taxes are listed as separate items and are not included in the quoted rates. imposition of other non-tax surcharges or fees are subject to prior commission approval. All charges and surcharges other than taxes and franchise fees must have prior Commission approval.

2.7.2 Billing and Collection of Charges

The Customer is responsible for payment of all charges incurred by the Customer or other users for services and facilities furnished to the Customer by the Company.

- (A) Non-recurring charges are due and payable within 30 days after the date of the invoice.
- (B) The Company shall present invoices for Recurring Charges monthly to the Customer, in advance of the month in which service is provided, and Recurring Charges shall be due and payable within 30 days after the date of the invoice. When billing is based upon customer usage, usage charges will be billed monthly for the preceding billing period.

2.8 Allowances for Interruptions in Service

REC'D MAY 26 1999

Interruptions in service, which are not due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer or the operation or malfunction of the facilities, power or equipment provided by the Customer, will be credited to the Customer as set forth in 2.8.1 for the part of the service that the interruption affects.

2.8.1 Credit for Interruptions

- (A) A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this tariff. An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- (B) For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

Unauthorized use of the Network occurs when a person or entity that does not have actual, apparent, or implied authority to use the Network, obtains the Company's services provided under this tariff.

2.10.2 Liability for Calling Card Fraud

- (A) The Customer is liable for the unauthorized use of the Network obtained through the fraudulent use of a Company calling card, provided that the unauthorized use occurs before the Company has been notified.
- (B) A Company calling card is a telephone calling card issued by the Company at the Customer's request, which enables the Customer or user(s) authorized by the Customer to place calls over the Network and to have the charges for such calls billed to the Customer's account.
- (C) The Customer must give the Company written notice that an unauthorized use of the Company calling card has occurred or may occur as a result of loss, theft or other reasons.
- (D) The Customer is responsible for payment of all charges for services furnished to the Customer or to users authorized by the Customer to use service provided under this tariff. REC'D MAY 26 1999

Where charges for service are specified based on the timing of calls, such as the duration of a telephone call, the following rules apply:

3.1.1 When Billing Charges Begin and Terminate For Phone Calls.

The customer's long distance usage charge is based on the actual usage of the Company's network. Usage begins when the called party picks up the receiver, (i.e. when 2 way communication, often referred to as "conversation time," is possible). When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when the calling or called party hangs up.

3.1.2 Billing Increments

Unless otherwise specified in this tariff, the minimum call duration for billing purposes is 1 minute for a connected call. Calls beyond 1 minute are billed in 1 minute increments.

3.1.3 Per Call Billing Charges

Billing will be rounded up to the nearest penny for each call.

3.1.4 Uncompleted Calls

There shall be no charges for uncompleted calls.

Where the charges for service are specified based upon distance, the following rules apply:

- 3.2.1 Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is set of geographic coordinated. as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as dedicated 800 or WATS access line), the Company will apply the Rate Center of the Customer's main billing telephone number.
- 3.2.2 The airline distance between any two Rate Centers is determined as follows:
- (A) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced NECA tariff.
 - (B) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.

REC'D MAY 26 1999

A) Description

KMC Long Distance Service (LDS) is a communications service which is available for use by customers twenty-four (24) hours a day. Customers may originate LDS from locations served by the Company, and may terminate in all locations within the State of Missouri. Operator, KMC Calling Card, and Directory Assistance services are available to Customers of the Company's LDS service subject to the provisions of Sections 3.4.3 and 4.3 of this tariff.

LDS calls will be billed in 6 second increments with an initial billing period of 6 seconds.

The service is offered in two variations depending upon the method the Customer employs to gain access to the Company's network for use of the service:

Switched LDS is offered in Feature Group D (FGD) exchanges where the Customer's local telephone lines are presubscribed by the local exchange company to the Company's LDS service, such that "1+" interLATA calls are automatically routed to the Company's network.

Dedicated LDS is offered to the extent facilities are available in those cases where the Company and the Customer jointly arrange for the establishment of dedicated access facilities connecting the Customer's trunk-compatible PBX or other suitable equipment to the Company's POP. The Customer shall be responsible for all costs and charges associated with the dedicated access facilities.

B) Commitment Levels and Term Plans

LDS is available on a month to month basis or on an optional 1, 2, or 3 year term plan. Discounts off the base rates are available to the Customer according to the commitment level and term plan selected by the Customer. The commitment level is calculated from the monthly total usage generated from the following Company products: shared and dedicated domestic and interstate and intrastate outbound and inbound service, intraLATA, and calling card. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the total usage amount calculation, as well as usage charges from Directory Assistance and Operator Service.

Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's discounted rate and the higher rate associated with the lower volume.

A Customer who terminates a term plan in the 1st year prior to the term's expiration will be required to pay in one lump sum an amount equaling the selected monthly commitment level times the number of months remaining in the term, plus an amount equal to any promotional credit, or discount, or waiver, if applicable, that was provided to the Customer.

A Customer who terminates a term plan in the 2nd or 3rd year prior to the term's expiration will be required to pay 35% an amount equaling the selected monthly commitment level times the number of months remaining in the term, plus an amount equal to any promotional credit, or discount, or waiver, if applicable, that was provided to the Customer.

3.4.2 KMC Toll Free ServiceA) Description

KMC Toll Free Service is an inbound communications service which permits calls to be completed at the Customer's location without charge to the calling party. Access to the service is gained by dialing a ten (10) digit telephone number (800+ NXX-XXXX) which will terminate at the Customer's location. Calls may originate from any location within the State of Missouri and may terminate at the Customer's location.

Toll Free Service will be billed per call based on the duration of the call. Each call will be billed in 6 second increments with an initial billing period of 6 seconds. Usage discounts apply to aggregate monthly interstate and intrastate usage.

Toll Free Service is offered in two variations depending upon the method the Customer employs to access the Company's network for use of the service:

Switched Toll Free service calls are originated via normal shared use facilities and are terminated via the Customer's local exchange service access line.

Dedicated Toll Free service calls are originated via normal shared use facilities and are terminated via dedicated access facilities connecting the Customer's premises and the Company's POP. This service is offered to the extent facilities are available and where the Company and the Customer jointly arrange for the establishment of dedicated access facilities connecting the Customer's trunk-compatible PBX or other suitable equipment to the Company's POP. The Customer shall be responsible for all costs and charges associated with the dedicated access facilities.

(C) Advanced Features

The following Advanced Features are available:

Extended Call Coverage: Extended call coverage allows reception of toll free calls from Canada (or any subset of 15 Canadian Area Codes).

Call Area Selection: Allows end users to specify where toll free calls can be received.

Geographic Routing: Calls originating from a specific region can be routed to a particular location.

Day of Week/Month/Year Routing: Calls to a single toll free number are routed to different termination points based on the day of the week.

Holiday Routing: Calls to a single toll free number are routed to various termination points based on holidays/events. Customer must have Day of Week Routing to use this feature. Up to 15 single day holidays and three ranges (composed of up to 10 consecutive days) can be specified for a calendar year.

Time of Day Routing: Calls are routed to various termination points based on the time of the day. Offers customer flexibility when receiving calls from different time zones throughout the day.

Percent Allocation Routing: Calls are routed to two or more terminating locations based on a customer specified percentage. This allows incoming toll free traffic to be balanced among multiple service centers.

Call Distributor: Allows dedicated access customers to spread incoming toll free traffic evenly over three dedicated access lines in a trunk group. The default setting will be "most idle." The customer can choose "least idle," "ascending," or "descending."

Route Completion: Allows customers to re-route dedicated access traffic to predefined alternate routing groups which minimizes revenue loss due to busy lines.

DNIS (dialed number identification service): Identification of a specific dialed toll free number when toll free numbers terminate into the same location.

(A) Operator Service

Operator Service is available to users of the Company's LDS service and to users accessing presubscribed public payphones or customer provided stations for operator-assisted calls. In addition to usage charges, each operator call will be assessed a charge(s) as set forth in Section 4.3.1 of this tariff. The methods available to the Customer for accessing the Company's operator depends upon the type of LDS:

Presubscribed LDS users and presubscribed public payphones or customer provided stations may dial "00"; or dial "0+" the called interLATA telephone number (NPA+XXX-XXXX)" for long distance calling assistance from the equal access (FGD) areas.

Dedicated LDS users may dial "00" or "0+".

3.4.3 Miscellaneous Services (Cont'd)(C) Bill-to-Calling Card (BCC) Service

Bill-to-Calling Card Service allows users of touch-tone telephones connected to the Company's LDS services to charge calls to their local exchange company (LEC) calling card. In addition to standard LDS, the BCC charge, as set forth in 4.3.3 applies when users complete calls by entering both the called number and their LEC calling card number without the assistance of an operator; in addition, Operator charges will apply as set forth in 4.3.1, if operator assistance is required. For BCC calls to Directory Assistance, the appropriate charges set forth in 4.3.4 will apply in addition. The Company accepts only LEC calling cards which it can identify as valid. Charges for BCC calls will appear on the user's LEC bill.

(D) Directory Assistance (DA)

Company will connect LDS Service Customers to Directory Assistance (DA) for a fee as set forth in Section 4.3.4. A credit allowance for DA will be provided upon request if the Customer experiences poor transmission quality, is cut-off, receives an incorrect telephone number, or misdials the intended DA number (NPA+ 555-1212).

3.4.4 Special Promotions

Company may from time to time engage in special promotional service offerings designed to attract new customers or to promote existing services. Such promotional service offerings shall be subject to specific dates, times (not to exceed one year), and/or locations, and shall be subject to prior notification to and approval by the Commission. The Company will provide written notice to the Commission no less than seven (7) days prior to the beginning of each promotion period identifying the promotion, specifying the terms of the promotion, the location and dates of the promotion.

3.4.5 Special Service Arrangements

Customer-specific service arrangements, which may include engineering, installation, construction, facilities, assembly and/or other special services, may be furnished in addition to existing tariff offerings. Rates, terms, and conditions plus any additional regulations, if applicable for the special service arrangements will be developed upon the customer's request. Unless otherwise specified, the regulations for the special service arrangements are in addition to the applicable regulations specified in other sections of this tariff. The necessary tariff revisions will be filed to reflect the special service arrangements.

3.4.6 Private Line Services

Private line service provides non-switched, dedicated point-to-point connection between locations designated by the Customer. This rate category includes transmission at speeds of DS-1 and DS-3. Where the Company utilizes local exchange company (LEC) local loops to originate and terminate Company circuits, the Customer may be responsible for the recurring and non-recurring LEC charges for such local loops. At the option of Company, such LEC charges may be billed and collected by Company or, alternatively, may be billed by the LEC directly to Customer and paid by Customer directly to the LEC. Rates for Private Line Service will be in accordance with Section 4.5 of this Tariff.

REC'D MAY 26 1999

A telephone toll message which is communicated using a telecommunications device for the deaf (TDD) by properly certified hearing or speech impaired persons or properly certified business establishments or individuals equipped with TDDs for communicating with hearing or speech impaired persons will receive, upon request, credit on charges for certain intrastate toll calls placed between TDDs. The credit to be given on a subsequent bill for such calls placed between TDDs will be equal to applying the evening rate during business day hours and the night/weekend rate during the evening rate period. Discounts do not apply to surcharges or per call add on charges for operator service when the call is placed by a method that would normally incur the surcharge.

4.4.2 Operator Assistance for Handicapped Persons

Operator station surcharges will be waived for operator assistance provided to a caller who identified him or herself as being handicapped and unable to dial the call because of a handicap.

4.4.3 Directory Assistance for Handicapped Persons

There is no charge for Directory Assistance for the first 50 calls in a monthly billing period from handicapped persons. Such persons must contact the Company for credit on their directory assistance calls.

4.4.4 Discounts for Telecommunications Relay Service

For intrastate toll calls received from the telecommunications relay service, there will be a 50 percent discount off the applicable rate for a voice non relay call except that where either the calling or called party indicates that either party is both hearing and visually impaired, the call will be discounted 60 percent off the applicable rate for a voice non relay call. The above discounts apply only to time-sensitive elements of a charge for the call and shall not apply to per call charges such as a credit card surcharge.

4.5 Individual Case Basis (ICB) Arrangements

For special situations, rates for Private Line Service will be determined on an ICB basis and specified by contract between the Company and Customer. Rates for ICB services will be structured to recover the Company's cost of providing the services. Terms of specific ICB contracts will be made available to the Commission upon request on a proprietary basis.
