For the \$50, \$200, \$750 and \$2000, the maximum total monthly credit will be \$1,000 per customer. The \$4000 minimum commitment level customer's maximum monthly credit will be \$2000 per customer. The free usage will not contributed to the minimum monthly commitment for the customers at the \$50 level. This promotion cannot be added to any new customer locations once the enrollment period has expired. This promotion is available through December 31, 1997, unless sooner changed or canceled by Sprint.

6. Promotional Offerings (Continued)Sprint Clarity InterLATA Choice Promotion

MO. PUBLIC SERVICE COMM

Beginning April 24, 1998, Sprint Clarity customers enrolling in a Sprint Clarity 1, 2 or 3 year Maximum Value Plan ("MVP") can receive an additional 10% discount on their Sprint Clarity Missouri InterLATA switched and dedicated voice service usage charges. Customers enrolling in this promotion will receive this discount for the duration of the term of their Sprint Clarity MVP.

In order to be eligible for this promotion, customer must designate Sprint as its "Exclusive Telecommunications Service Provider" and, as such, award 100% (excluding usage at volume levels currently under contract with another carrier upon execution of this promotion and networks established for redundancy as long as backup carrier is used only in the event of a Sprint outage, and only for the period of that outage) of its long distance communications services to Sprint. If, during any month of the term, customer fails to award such traffic to Sprint, customer will not receive any further promotional discounts, and all subsequent charges for Sprint Clarity services will be based upon standard tariff rates and discounts. In addition, Sprint will bill the customer for the promotional discounts received under this promotion during any billing months that Sprint was not the customer's Exclusive Telecommunications Service Provider.

In order to be eligible for this promotion, the customer must be one of the following:

- (a) a new Sprint Clarity customer, or (b) an existing Sprint Clarity MVP customer with
- (i) less than three months remaining on their existing one year Sprint Clarity MVP, or (ii) less than six months remaining on their existing two year Sprint Clarity MVP, or (iii) less than nine months remaining on their existing three year Sprint Clarity MVP. Existing customers

must subscribe to a new Sprint Clarity MVP of equal or greater term than their previous Sprint Clarity MVP. New and existing customers must commit to purchase ("Purchase Commitment") at least \$36,000 of Sprint Clarity services during each year of their new MVP. If customer fails to meet its Purchase Commitment during any year of its new MVP, customer will be billed the difference between its actual Sprint Clarity service usage charges and Purchase Commitment.

The above discount is calculated after all standard tariff discounts have been applied. This promotion may be used by business customers for commercial use only. This promotion cannot be used in conjunction with any other promotion applicable to Sprint Clarity InterLATA usage in Missouri. This promotion cannot be used in conjunction with any Affinity discount program. This promotion is available at customer's associated locations only. This promotion is applicable only to the first \$75,000 of total net voice service usage per month per Sprint Clarity customer. This promotion is available through March 31, 1998 unless sooner changed or canceled by Sprint. Switched service must be activated by April 30, 1998 and dedicated service must be activated by June 30, 1998.

REC'D SEP 15 1998

Beginning October 15, 1998, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$50 commitment level non-term, 1-year or 2-year term plan and enrolled or enrolling in the Business Sense Credit Promotion are eligible to receive a promotional rate of \$0.148 per minute on their Missouri in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage.

Additionally, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$200, \$500, \$750, \$2,000, or \$4,000 commitment level non-term, 1-year or 2-year term plan and enrolled or enrolling in the Business Sense Credit Promotion are eligible to receive a promotional rate of \$0.12 per minute on their Missouri in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage. Sprint Business Sense customers who are currently enrolled in a Business Sense Term or non-term Plan will receive this promotional rate for 24 invoices or until customer terminates its Business Sense Service.

In order to be eligible for this promotion, customer must (i) designate Sprint as its "Exclusive Telecommunications Service Provider" and (ii) activate or have activated its Business Sense service by placing or receiving at least one call within 90 consecutive days of enrollment in a Business Sense term or non-term commitment level plan. This promotion cannot be combined with any other promotion applicable to Business Sense Intrastate usage except for the Business Sense Credit Promotion. The per minute promotional rate is in lieu of standard tariff rates and discounts and is available through December 31, 1998 unless sooner changed or canceled by Sprint. New customer locations added after December 31, 1998 are not eligible for this promotion. This promotion is applicable only to the first \$10,000 of total net IntraLATA voice service usage per month per customer. This promotion may be used only by business customers only for commercial use and only at customer's associated locations.

Exclusive Telecommunications Service Provider means that Sprint shall be awarded 100% (excluding usage at volume levels currently under contract with another carrier on the execution of this promotion and networks established for redundancy as long as backup carrier is used only in the event of a Sprint outage, and only for the period of that outage) of its long distance communications services to Sprint. If during any month of the term, customer fails to award such traffic to Sprint, customer will not receive any further promotional discounts and all subsequent charges for Sprint services will be based upon standard tariff rates and discounts. In addition, Sprint will bill the customer for the promotional discounts received under this promotion during any billing months that Sprint was not the customer's Exclusive Telecommunications Service Provider.

6. Promotional Offerings (Continued)Missouri Business Sense Intrastate Promotion

(N)

Beginning January 1, 1999, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$50 commitment level non-term, 1-year or 2-year term plan are eligible to receive a promotional rate of \$0.148 per minute on their Missouri in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage. Additionally, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$200, \$500, \$750, \$2,000, or \$4,000 commitment level non-term, 1-year or 2-year term plan are eligible to receive a promotional rate of \$0.12 per minute on their Missouri in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage. Sprint Business Sense customers who are currently enrolled in a Business Sense term or non-term Plan will receive this promotional rate for 24 invoices or until customer terminates its Business Sense Service.

In order to be eligible for this promotion, customer must (i) designate Sprint as its "Exclusive Telecommunications Service Provider" and (ii) activate or have activated its Business Sense service by placing or receiving at least one call within 90 consecutive days of enrollment in a Business Sense term or non-term commitment level plan. This promotion cannot be combined with any other promotion applicable to Business Sense Intrastate usage except for the "Business Sense Credit Promotion" or Affinity discounts. The per minute promotional rate is in lieu of standard tariff rates and discounts and is available through March 31, 1999 unless sooner changed or cancelled by Sprint. New customer locations added after March 31, 1999 are not eligible for this promotion. This promotion is applicable only to the first \$10,000 of total net Intrastate voice service usage per month per customer. This promotion may be used only by business customers only for commercial use and only at customer's associated locations.

"Exclusive Telecommunications Service Provider" means that customer will award Sprint 100% (or any amount as may be specified in the promotional tariff) of its and its Affiliated Locations long distance telecommunications service. "Affiliated Locations" for purposes of this paragraph means those locations for which customer either purchases, controls or directs the purchases of long distance telecommunications service on the promotion's effective date. Customer's total volume of long distance telecommunications service will not include: (i) any binding commitments that customer or any of its Affiliated Locations may have with another interexchange carrier on the promotion's effective date; or (ii) service that is routed to another carrier, but only during the period of any Sprint Service outage. The amount of these commitments will be deducted from Customer's total amount of long distance telecommunications service when measuring customers' compliance with this provision. If during any month of the term of the promotion, customer fails to award its long distance telecommunications service to Sprint, customer will not receive any further promotional discounts and all subsequent charges for Sprint services will be based upon standard tariff rates

Additionally, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$200, \$500, \$750, \$2,000, or \$4,000 commitment level non-term, 1-year or 2-year term plan are eligible to receive a promotional rate of \$0.12 per minute on their Missouri in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage. Sprint Business Sense customers who are currently enrolled in a Business Sense Term or non-term Plan will receive this promotional rate for 24 invoices or until customer terminates it's Business Sense Service.

In order to be eligible for this promotion, customer must (i) designate Sprint as its "Exclusive Telecommunications Service Provider" and (ii) activate or have activated its Business Sense service by placing or receiving at least one call within 90 consecutive days of enrollment in a Business Sense term or non-term commitment level plan. This promotion cannot be combined with any other promotion applicable to Business Sense Intrastate usage except for the Business Sense Credit Promotion. The per minute promotional rate is in lieu of standard tariff rates and discounts and is available through October 31, 1999, unless sooner changed or canceled by Sprint. New customer locations added (C)(N) after September 30, 1999 are not eligible for this promotion. This promotion is applicable only to the (N) first \$10,000 of total net in-state voice service usage per month per customer. This promotion may be used only by business customers only for commercial use and only at customer's associated locations.

Exclusive Telecommunications Service Provider means that Sprint shall be awarded 100% (excluding usage at volume levels currently under contract with another carrier on the execution of this promotion and networks established for redundancy as long as backup carrier is used only in the event of a Sprint outage, and only for the period of that outage) of its long distance communications services to Sprint. If during any month of the term, customer fails to award such traffic to Sprint, customer will not receive any further promotional discounts and all subsequent charges for Sprint services will be based upon standard tariff rates and discounts. In addition, Sprint will bill the customer for the promotional discounts received under this promotion during any billing months that Sprint was not the customer's Exclusive Telecommunications Service Provider.

If a customer's Business Sense Service Agreement, upon which this promotion is based, is terminated, customer shall reimburse Sprint for all promotional credits or discounts received in connection with the promotion enrollment (in addition to termination liabilities associated with the termination of the Business Sense Service Agreement), unless such termination is permitted without liability as specified in the Business Sense Agreement. Sprint will bill customer in accordance with the promotional rates only during the months in which customer complies with all eligibility requirements and other provisions of this promotion. In the event that the customer fails to comply with the eligibility requirements for the applicable promotion Sprint may discontinue the promotion to the customer and charge the applicable tariff rates.
