TARIFF FORMAT

MISSOURI

Public Service Commission

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the PSCM. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the PSCM follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

MISSOURI
Public Service Commission

NATN may refuse or discontinue service under the following conditions provided that, unless otherwise stated, the Customer shall be given 15 days notice to comply with any rule or remedy any deficiency:

- (a) For non-compliance with or violation of any State, municipal, or Federal law, ordinance or regulation pertaining to telephone service.
- (b) For use of telephone service for any other property or purpose than that described in the application.
- (c) For neglect or refusal to provide reasonable access to NATN or its agents for the purpose of inspection and maintenance of equipment owned by NATN or its agents.
- (d) For noncompliance with or violation of Commission regulation or NATN's rules and regulations on file with the Commission, provided five (5) days' written notice is given before termination.
- (e) For nonpayment of bills, provided that suspension or termination of service shall not be made without five (5) days written notice to the Customer.
- (f) Without notice in the event of Customer or Authorized User use of equipment in such a manner as to adversely affect NATN's equipment or service to others.
- (g) Without notice in the event of tampering with the equipment or services owned by NATN or its agents.

- (h) Without notice in the event of unauthorized or fraudulent use of service. Whenever service is discontinued for fraudulent use of service, NATN may, before restoring service, require the Customer to make, at his or her own expense, all changes in facilities or equipment necessary to eliminate the illegal use.
- (I) Without notice when necessary for the Company to comply with any order or request of any governmental authority having jurisdiction.
- (j) For periods of inactivity over sixty (60) days.
- (k) When any governmental or regulatory condition imposed upon NATN materially and negatively impacts the financial viability of the service, as determined by NATN in its best business judgment.

2.12 Interruption of Service

Credit allowances for interruptions of service which are not due to the Carrier's testing or adjusting, to the negligence of the Customer, or to the failure of channels, equipment or communications systems provided by the Customer, are subject to the general liability provisions set forth in Section 2.4 herein. It shall be the obligation of the Customer to notify Carrier immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, Customer shall ascertain that the trouble is not within his or her control.

The Company will provide a credit equal to one minute of applicable service for calls that are interrupted or subject to inadequate transmission. Credits will not be issued when an interruption or service deficiency is not reported to the Company or is caused by the failure of power, equipment or systems not provided by the Company.

3.2 Timing of Calls

MISSOURI
Public Service Commission

- 3.2.1 Long distance usage charges are based on usage of NATN's service. Usage timing begins upon receipt of answer supervision from the called party at the distant end. Call duration timing will commence from that point.
- 3.2.2 Chargeable time for a call ends upon disconnection by either party.
- 3.2.3 In calculating the total time for a particular call, any fraction of the last increment of use, is rounded up to the next higher increment.
- 3.2.4 Minimum call durations, usage measurements and rounding increments are specified on a per-product basis in Section 4 of this tariff.
- 3.2.5 No charges apply for incomplete calls. If a Customer believes he or she has been incorrectly billed for an incomplete call, the Company will, upon notification, investigate the circumstances of the call and issue a credit when appropriate.

Public Service Commission**

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as listed in NECA FCC Tariff No. 4 and defined by BellCore (Bell Communications Research), in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.
- Step 2: Obtain the difference between the "V" coordinates of each of the serving wire centers. Obtain the difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.5.4 NATN Operator ServicesMISSOURI
Public Service Commission

NATN Operator Services are available to subscriber locations which offer their telephones for the use of the transient public. NATN provides the following billing arrangements for End Users of NATN's Operator Services:

a) Customer Dialed Calling/Credit Card

This is a service whereby the end user dials all of the digits necessary to route and bill the call without any operator assistance. Such calls may be billed either to a telephone company issued calling card or a commercial credit card.

b) Operator Station

This is a service whereby the caller places a non-person-to-person call with the assistance of an operator (live or automated). When placing an operator station call, the caller is connected to a non-specified individual at the terminating end. Such calls may be billed to a calling card, credit card, the called number (collect) or a valid third party telephone number.

c) Person-to-Person

This is a service whereby the person originating the call specifies to NATN's operator a particular person to be reached, or a particular person, station, room number, department, or office to be reached through a PBX attendant. Person-to-person calls may be billed to a calling card, credit card, the called number (collect) or a valid third party telephone number.

3.5.4 NATN Operator Services (Continued)

When providing Operator Services to end users, the Missouri Public Service Commission Company will:

- 1) Audibly and distinctly state the company's identity at the beginning of each call, with a second identification before connecting the call and before a charge is incurred by the end user.
- 2) Permit end users to terminate a call at no charge before the call is completed.
- 3) Immediately disclose, at no charge to the end user, the rates or charges for a call, how the charges will be billed or collected, and how complaints about charges or practices will be resolved.
- 4) Refrain from billing charges for unanswered calls.
- 5) Refrain from "splashing" a call unless: the end user requests to be transferred to another provider of operator services; the end user is informed prior to incurring charges that the rate for the call may differ from the usual rate charged for a call from the same location and the end user then consents to be transferred.
- 6) Will not block access to other carriers via any form of 10XXX access other than 10XXX-1; and, will withhold compensation to call aggregators (on a location-by location basis) who fail to comply with this regulation.
- 7) Will provide end users, at no charge, information on how to access an alternative carrier, including "800" or "950" numbers, access codes, or referral to specific alternative carriers.

- 8) Bill the end user within 90 days of the date service was provided.
- 9) Not include as part of service, any surcharge imposed on Carrier by a call aggregator.
- 10) Immediately transfer or redirect, at no charge, all emergency calls initiated by dialing "0" or "911" to the Local Exchange company or the appropriate emergency response agency.
- 11) Allow only tariff charges approved by the Commission, or otherwise allowed by law for the provision of operator services, to appear on billings rendered by local exchange companies (LECs) on behalf of the company and will not collect locations surcharges imposed by traffic aggregators.
- 12) Arrange for listing of its name on a LEC's billing of the Company's charges, if the LEC has multi-carrier listing capability.
- 13) Employ reasonable calling card verification procedures which are acceptable to the companies issuing the calling cards. In order to control fraud, the Company may refuse to accept calling cards which it determines to be invalid or cards which it is unable to verify.

3.5.24 NATN Debit Card Service

MO. PUBLIC SERVICE COMM
(N)

3.5.24.1 General Description

Debit Card Service allows Customers to place direct dialed calls between locations within the state of Missouri. Customers access the NATN network by dialing a Toll Free (i.e. "800/888) number or other access dialing sequence and entering a Personal Account Code. The Company's system informs the Customer of the Available Usage Balance remaining in his/her Debit Account and prompts the Customer to place a call by entering a destination telephone number. Network usage for calls placed is deducted from the Available Usage Balance in the Customer's account on a real time basis as the call progresses. Customers purchase a Debit Card which assigns each Customer a Debit Account, provides each Customer with a Personal Account Code and lists instructions for accessing and using Carrier's service. Debit Cards are available in varying denominations.

Purchase of a Debit Card entitles the Customer to use the NATN network for a number of minutes equivalent to the card denomination divided by the effective per minute rate. The Customer's right to utilize network usage within a given Debit Account expires one year after issuance and activation of the Debit Card associated with that Debit Account number. No minimum service period applies. Payment for Debit Card Services and any Available Usage in a Customer's Debit Account is nonrefundable. Any unused balances will be applied toward renewal value of the card account.

Debit Card service rates are not distance or time of day sensitive. Holiday discounts do not apply. Network usage for Debit Card Calls is deducted from the Available Usage Balance.

4.2.1 Discounts for Hearing Impaired Customers MISSOURI
Public Service Commission

A telephone toll message which is communicated using a telecommunications device for the deaf (TDD) by properly certified hearing or speech impaired persons or properly certified business establishments or individuals equipped with TDDs for communicating with hearing or speech impaired persons will receive, upon request, credit on charges for certain intrastate toll calls placed between TDDs. The credit to be given on a subsequent bill for such calls placed between TDDs will be equal to applying the evening rate during business day hours and the night/weekend rate during the evening rate period. Discounts do not apply to surcharges or per call add-on charges for operator services when the call is placed by a method that would normally incur the surcharge.

4.2.2 Emergency Call Exemptions

The following calls are exempted from all charges: Emergency calls to recognizable authorized civil agencies including police, fire, ambulance, bomb squad and poison control. NATN will only handle these calls if the caller dials all of the digits to route and bill the call. Credit will be given for any billed charges pursuant to this exemption on a subsequent bill after verified notification by the billed Customer within thirty (30) days of billing.

**MISSOURI
Public Service Commission**

NATN reserves the right to charge the 1½% per month of any past due balance. In the event that the Company incurs fees or expenses, including attorney's fees, collecting or attempting to collect, any charges owed to the Company, the Company may charge the Customer all such fees and expenses reasonably incurred.

4.4 Return Check Charge

NATN reserves the right to charge \$25 for checks returned for insufficient funds. Any applicable return check charges will be assessed according to the terms and conditions of the billing entity (i.e. local exchange company and/or commercial credit card company) and pursuant to Missouri law and Commission regulations.
