TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 8 and 9 would be 8.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right hand corner of each page. These numbers are used to determine the most current sheet revision on file with the Missouri Public Service Commission. For example, the 3rd revised Sheet 8 cancels the 2nd revised Sheet 8. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets - When a tariff filing is made with the Missouri Public Service Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk(*). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Missouri Public Service Commission.

SECTION 2 - RULES AND REGULATIONS

2.1 Undertaking of Company

Company services and facilities are furnished for intrastate communications originating at specific points within the state of Missouri under the terms of this Tariff.

Company installs, operates, and maintains the communications services provided hereunder in accordance with the terms and conditions set forth under this Tariff. It may act as the subscriber's agent for ordering access connection facilities provided by other carriers or entities, when authorized by the subscriber, to allow connection of a subscriber's location to the Company point of presence.

The company's services are provided on a monthly basis, unless ordered on a longer term basis, and are available twenty-four hours per day.

2.2 Limitations

2.2.1 Service is offered subject to the availability of facilities and the provisions of this Tariff.

2.2.2 Company reserves the right to discontinue furnishing service, or limit the use of service necessitated by conditions beyond its control; or when the subscriber is using the service in violation of the law or the provisions of this Tariff.

2.2.3 All facilities provided under this Tariff are directly controlled by Company and the subscriber may not transfer or assign the use of the services or facilities, except with the express written consent of the Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of the services or facilities.

(N)

1. Customer bills for telephone service are due upon receipt, unless otherwise specified by this tariff or by contract. A Customer is in default unless payment is made on or before thirty days past the due date.
2. A late payment charge of one and one-half percent (1.5%) per monthly billing period may be applied to all past due amounts, including arrears and unpaid late payment charges.
3. The Company reserves the right to assess a return-check charge of \$20.00 whenever a check or draft presented for payment of service is not accepted by the institution on which it is written. This charge applies each time a check is returned to the Company for insufficient funds.
4. Deposits of an amount equal to one month's estimated charges may be collected from Customers or potential Customers whose credit or payment history is unsatisfactory or unknown to the Company. Deposits will be collected and maintained in accordance with the rules of the Commission.
5. In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owned to the Company, the Company may charge the Customer all such fees and expenses reasonably incurred.

SECTION 3 - DESCRIPTION OF SERVICE3.1 Operator Services

Operator Services is a generic term used to describe both automated and live operator assisted (T)
calling. The Types of Charges are listed in Section 2.6 above. The company provides its (D)
subscribers with a method of allowing users to make long distance calls from the subscriber's
location. Several billing options are made available to the user, along with a quote of the associated
charges upon request.

3.2 Timing of Calls

The Billed Party's long distance usage charge is based on the actual usage of the Company's
network. Usage begins when the called party picks up the receiver. Usage ends when either party
hangs up. Uncompleted calls and unaccepted calls are not billed. All calls with fractional durations
are rounded to the next higher minute.

3.3 Calculation of Distance

Usage Charges for mileage sensitive services are based on the airline distance between rate centers
associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by industry standard, vertical and horizontal
coordinate calculations. The distance is calculated by taking the squared differences in the vertical
coordinates and the horizontal coordinates, adding the two together, and dividing the sum by ten.
The square root of this number is the distance of the call.

3.4 Emergency Services Calling Plan

Message toll telephone calls, to governmental service agencies as set forth in (A) following, having primary or principal responsibility with respect to the provision of emergency services to persons or property from which the call is made, meeting the definition and criteria of an emergency call as set forth in (B) following, are offered at no charge to the customer.

- (A) Governmental fire fighting, State Highway Patrol, Police, and emergency squad services (as designated by the appropriate governmental agency) qualify as governmental emergency service agencies provided they answer emergency service calls on a personally attended (live) twenty-four (24) hour basis, three hundred sixty-five (365) days a year, including holidays.
- (B) An emergency is an occurrence or set of circumstances in which conditions pose immediate threat to human life, property, or both and necessitate that prompt action be taken. An emergency call is an originated call of short duration to a governmental emergency service agency in order to seek assistance for such an emergency.

Connect America's Debit Card allows customers to pay a fixed dollar amount in advance for long distance calling using the Company's service. Customers must dial an access code from touch tone phones to use the service. Card accounts are decremented for each minute or fractional minute of use as set forth below. As calls are placed, charges for the call are deducted on a real-time basis until the full amount of the card is exhausted. Customers will be notified in advance of the exhaustion of the card. An expiration date, if applicable, is printed on the card. Calls are measured and accounts are decremented in full minute increments.

Debit card calls are limited to direct dial calls. Other calls types (including, but not limited to, calls to 700 or 900 numbers or directory assistance) may be blocked.

Debit Card service is available for use twenty-four hours a day, seven days a week. Taxes are included in the rate stated below.

A Debit Card account is established upon receipt of payment by the Company. The Company reserves the right to determine acceptable types of payment.

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1987 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.
