### Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Broadview Networks Holdings, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Broadview Networks Holdings, Inc. and Subsidiaries (the "Company") as of December 31, 2006 and 2005 (Successor Company) and the related consolidated statements of operations, stockholders' equity (deficiency) and cash flows for the years ended December 31, 2006 and 2005, for the period from March 1, 2004 to December 31, 2004 (Successor Company) and for the period from January 1, 2004 to February 29, 2004 (Predecessor Company). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Broadview Networks Holdings, Inc. and Subsidiaries at December 31, 2006 and 2005 (Successor Company) and the consolidated results of its operations and its cash flows for the years ended December 31, 2006 and 2005, for the period from March 1, 2004 to December 31, 2004 (Successor Company) and for the period from January 1, 2004 to February 29, 2004 (Predecessor Company), in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, the Company changed its method of accounting for stock-based compensation effective January 1, 2006.

### Notes to Consolidated Financial Statements

December 31, 2006 (In thousands, except share information)

#### 1. Organization and Description of Business

Broadview Networks Holdings, Inc. (the "Company,"), formerly Bridgecom Holdings, Inc., is an integrated communications company whose primary interests consist of its whollyowned subsidiaries, Broadview Networks, Inc. ("BNI"), Bridgecom Holdings, Inc. ("BH"), and Corecomm-ATX Inc., competitive local exchange carriers. The Company also provides phone systems and other customer service offerings through its subsidiary, Bridgecom Solutions Group, Inc. ("BSG"). The Company was founded in 1996 to take advantage of the deregulation of the U.S. telecommunications market following the Telecommunications Act of 1996. The Company has one reportable segment, which provides domestic wireline telecommunications services consisting of local and long distance voice services. Internet, and data services to commercial and residential customers in the northcast United States.

#### Change of Ownership

In November 2003, BH ("Predecessor Company") entered into a merger agreement with MCG Capital Corp. ("MCG"), Telecomm North Corp. (a wholly-owned subsidiary of MCG) and certain stockholders of BH. The transaction closed in March 2004. Under the terms of the agreement, Telecomm North Corp. acquired 100% of BH's shares, buying out all other stockholders. The surviving company continued to carry the name Bridgecom Holdings, Inc. ("Successor Company") until the January 2005 merger with BNI became effective at which time the Company began doing business under the name Broadview Networks Holdings, Inc.

In October 2004, the Company entered into a merger agreement with BNI and subsidiaries, the principal stockholders of BNI and MCG, 100% owners of BH, which closed and became effective in January 2005. As a result of the merger and certain related transactions, MCG became the owner of 60% of the voting power of the Company's capital stock and approximately 40% of the Company's capital stock on a fully diluted basis, excluding options reserved but not issued under the Company's employee stock incentive plan as of January 14, 2005. BH was considered to be the acquirer for accounting purposes.

In June 2006, the Company entered into a merger agreement with ATX Communications, Inc. ("ATX") and its shareholders and Leucadia National Corporation which closed and became effective in September 2006. The Company was considered to be the acquirer for accounting purposes.

### 2. Significant Accounting Policies

### **Basis of Presentation**

The consolidated financial statements include the accounts of the Company and its whollyowned subsidiaries. All significant intercompany transactions have been eliminated in consolidation. As a result of the mergers effective September 29, 2006, January 14, 2005 and March 3, 2004, the consolidated financial statements of the Company reflect the acquisitions under the purchase method of accounting in accordance with the Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 141, *Business Combinations* ("SFAS 141"). For periods following the March 3, 2004 acquisition, the consolidated statements of the Company are presented as "Successor." For periods preceding the March 3, 2004 acquisition, the consolidated financial statements are presented as "Predecessor."

### **Revenue Recognition**

The Company's revenue is derived primarily from subscriber usage and fixed monthly recurring fees. Such revenue is recognized in the month the actual services and other charges are provided and costs are incurred, with deferral of revenue and prepayment of those monthly charges that are billed in advance. Services rendered for which the customer has not been billed are recorded as unbilled revenues until the period such billings are provided. Cable and wiring revenues are recognized when the Company provides the services.

Unbilled revenue included in accounts receivable represents revenue for earned services, which was billed in the succeeding month and totaled \$5,306 and \$3,681 as of December 31, 2006 and 2005, respectively.

Revenue from carrier interconnection and access amounting to \$15,028 and \$14,843 in the years ended December 31, 2006 and 2005, \$4,706 for the ten months ended December 31, 2004 and \$990 for the two months ended February 29, 2004, respectively, is recognized in the month in which service is provided.

### 2. Significant Accounting Policies (continued)

### Costs of Revenue

Costs of revenue include direct costs of sales and network costs. Direct costs of sales include the costs incurred with telecommunication carriers to render services to customers. Network costs include the costs of fiber and access, points of presence, repairs and maintenance, rent and utilities of the telephone, internet data network, as well as salaries and related expenses of network personnel. Network costs are recognized during the month in which the service is utilized. The Company accrues for network costs incurred but not billed by the carrier.

#### Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. A significant portion of cash balances are maintained with several high credit quality financial institutions, which are members of the FDIC.

#### **Restricted** Cash

Restricted cash represents the balance of cash that ATX was required to set aside for the purpose of paying certain claims and administrative expenses.

### Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are reported at their outstanding unpaid principal balances reduced by an allowance for doubtful accounts. The Company estimates doubtful accounts based on historical bad debts, factors related to the specific customers' ability to pay, percentages of aged receivables and current economic trends. Allowances for doubtful accounts are recorded as selling, general and administrative expenses. The Company writes off accounts deemed uncollectible after efforts to collect such accounts are not successful.

Notes to Consolidated Financial Statements (continued)

(In thousands, except share information)

### 2. Significant Accounting Policies (continued)

### **Property and Equipment**

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The estimated useful life is three years for computer equipment, five years for furniture and fixtures, and seven years for network equipment. Leasehold improvements are amortized on a straight-line basis over the shorter of their estimated useful lives or the related lease term. Capitalized software costs are amortized on a straight-line basis over the estimated useful life, typically two years. Construction in progress includes amounts incurred in the Company's expansion of its network. The amounts include switching and co-location equipment, switching and co-location facilities design and co-location fees. The Company has not capitalized interest to date since the construction period has been short in duration and the related imputed interest expense incurred during that period was insignificant. When construction of each switch or co-location facility is completed, the balance of the assets is transferred to network equipment and depreciated in accordance with the Company's policy. Maintenance and repairs are expensed as incurred.

#### Impairment of Long-lived Assets

The Company accounts for the impairment of long-lived assets in accordance with the provisions of SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* ("SFAS 144"). SFAS 144 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company compares the carrying amount of the asset to the estimated undiscounted future cash flows expected to result from the use of the asset. If the carrying amount of the asset exceeds estimated expected undiscounted future cash flows, the Company records an impairment charge for the difference between the carrying amount of the asset and its fair value.

### **Goodwill and Other Intangible Assets**

The Company accounts for goodwill and other intangible assets in accordance with SFAS No. 142, *Goodwill and Other Intangible Assets* ("SFAS 142"), whereby goodwill is not subject to amortization over its estimated useful life. Rather, goodwill is subject to at least an annual assessment for impairment by applying a fair-value-based test.

### Notes to Consolidated Financial Statements (continued)

(In thousands, except share information)

### 2. Significant Accounting Policies (continued)

Additionally, an acquired intangible asset should be separately recognized if the benefit of the intangible asset is obtained through contractual or other legal rights, or if the intangible asset can be sold, transferred, licensed, rented or exchanged, regardless of the acquirer's intent to do so.

### Third Party Conversion Costs

The Company currently capitalizes third party conversion costs incurred to provision customers to its network. These costs include external vendor charges, but exclude costs incurred internally. At January 1, 2006, the Company changed the third party conversion costs amortization period from two to four years. The Company believes that an amortization period of four years more properly reflects the expected life of its current customer base. The effect of changing this estimate in useful life was a reduction in depreciation expense of \$2,951 for the year ended December 31, 2006.

#### Debt Issuance Costs

The costs related to the issuance of long-term debt are deferred and amortized into interest expense over the life of each debt issuance.

### Significant Vendor

The Company purchases approximately 79% of its telecommunication services from one vendor. Accounts payable and accrued expenses in the accompanying consolidated balance sheets include \$28,244 and \$29,053 as of December 31, 2006 and 2005, respectively, due to this vendor.

### Notes to Consolidated Financial Statements (continued)

#### 2. Significant Accounting Policies (continued)

### Income Taxes

The Company recognizes deferred income taxes using the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred income taxes are recognized for differences between the financial reporting and tax bases of assets and liabilities at enacted statutory tax rates in effect for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. In addition, valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized.

#### Stock-Based Compensation

Effective January 1, 2006, the Company began recording compensation expense associated with stock options and other forms of equity compensation in accordance with SFAS No. 123R, *Share-Based Payment* ("SFAS 123R"), using the prospective method (as permitted under SFAS No. 148, *Accounting for Stock-Based Compensation–Transition and Disclosure*) to all new awards granted, modified or settled after January 1, 2003. SFAS 123R eliminates the ability to account for stock-based compensation transactions using the intrinsic value method under Accounting Principles Board Opinion No. 25 ("APB 25"), *Accounting for Stock Issued to Employees*, and instead generally requires that such transactions be accounted for using a fair value based method.

As permitted under SFAS 123R, the Company uses the Black-Scholes-Merton ("BSM") option-pricing model to determine the fair value of stock-based awards. The BSM model is consistent with the option-pricing model the Company used to value stock-based awards granted prior to January 1, 2006.

#### Software Development Costs

The Company capitalizes the cost of internal use software in accordance with Statement of Position 98-1, Accounting for the Cost of Computer Software Developed or Obtained for Internal Use ("SOP 98-1"). SOP 98-1 provides guidance for the accounting for computer software developed or acquired for internal use, including the requirement to capitalize certain costs and amortization of these costs. Costs for preliminary stage projects are expensed as incurred while application stage projects are capitalized.

### 2. Significant Accounting Policies (continued)

The latter costs are typically internal payroll costs of employees associated with the development of internal use computer software. The Company commences amortization of the software on a straight-line basis over the estimated useful life, typically two years, when it is ready for intended use.

During the years ended December 31, 2006 and 2005, the Company capitalized approximately \$2,184 and \$1,759 of software development costs, respectively, which are included in property and equipment. Amortization expense related to these assets was approximately \$2,768 and \$3,712 for the years ended December 31, 2006 and 2005, respectively. No software development costs were capitalized for the ten months ended December 31, 2004 and the two months ended February 29, 2004.

#### Advertising

The Company expenses advertising costs in the period incurred and these amounts are included in selling, general and administrative expenses. Advertising expenses approximated \$536 and \$584 for the years ended December 31, 2006 and 2005, \$54 for the ten months ended December 31, 2004 and \$3 for the two months ended February 29, 2004, respectively.

#### Disputes

The Company accounts for disputed billings from carriers based on the estimated settlement amount of disputed balances. The estimate is based on a number of factors including historical results of prior dispute settlements with the carriers and is periodically reviewed by management to reassess the likelihood of success. Actual settlements may differ from estimated amounts (see Note 15).

#### Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and

liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Management periodically reviews such estimates and assumptions as circumstances dictate. Actual results could differ from those estimates.

#### Comprehensive Income

Comprehensive income represents the change in net assets of a business enterprise during a period from non-owner sources. For the years ended December 31, 2006 and 2005, the ten months ended December 31, 2004 and the two months ended February 29, 2004, the Company's net loss was the only item of other comprehensive income.

#### Accounting for Derivatives and Hedging Activities

The Company had interest rate swap derivatives for a period in 2005 and 2006. These derivatives were not designated as a hedge for accounting purposes. As a result, the change in the fair value of the derivatives totaling \$762 for the year ended December 31, 2005 was recorded in expense. There was no liability on the consolidated balance sheet at December 31, 2005 and the derivates expired during the year ended December 31, 2006 with no effect on the consolidated statement of operations. The Company has no outstanding derivative transactions at December 31, 2006.

#### 3. Recent Accounting Pronouncements

### Uncertainty in Income Taxes

In July 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes ("FIN 48"). FIN 48 requires the use of a two-step approach for recognizing and measuring tax benefits taken or expected to be taken in a tax return and disclosures regarding uncertainties in income tax positions. The Company is required to adopt FIN 48 effective January 1, 2007. The cumulative effect of initially adopting FIN 48 will be recorded as an adjustment to opening retained earnings in the year of adoption and will be presented separately. Only tax positions that meet the more likely than not recognition threshold at the effective date may be recognized upon adoption of FIN 48. The Company is currently evaluating the impact of FIN 48 and does not expect the adoption as of January 1, 2007 to have a material impact on its consolidated financial position or results of operations.

#### Fair Value Measurements

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurement* ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in accounting principles generally accepted in the United States and establishes a hierarchy that categorizes and prioritizes the sources to be used to estimate fair value and expands disclosure about fair value measurements. The Company is required to adopt SFAS 157 effective January 1, 2008 on a prospective basis. The Company is currently evaluating the impact this new standard will have on its consolidated financial position and results of operations.

These liabilities were accounted for in accordance with Emerging Issues Task Force ("EITF") 95-3, *Recognition of Liabilities in Connection with a Purchase Business Combination* ("EITF 95-3"). The balance of such liabilities was approximately \$1,810 as of December 31, 2006 and is expected to be paid in 2007.

*Customer Relationships:* The Company's customer base is composed of subscribers to the Company's various telecommunications services. The multi-period excess earnings method, a variant of the income approach, was utilized to value the customer base intangibles.

The customer relationship intangible is amortized over the average expected life of the customer relationship of four years based on the Company's historical disconnect statistics. The unamortized balances are evaluated for potential impairment based on future estimated cash flows when an impairment indicator is present.

*Trademark:* The Company's trademark was valued using a variant of the income approach, referred to as the relief from royalty method.

The Company has assumed the trademark intangible will generate cash flows for the Company for an indefinite period of time. Accordingly, no amortization expense has been recorded for this intangible. This intangible will be evaluated periodically to determine whether events and circumstances continue to support an indefinite useful life and will be tested at least annually for impairment

#### **Revolving \$25,000 Senior Credit Facility**

On August 23, 2006, the Company entered into a five year, Revolving \$25,000 Senior Credit Facility ("Revolving Credit Facility"). Any outstanding amounts under this facility are subject to a borrowing base limitation based on an advance rate of 85% of the amount of eligible receivables, as defined. The loans bear interest on a base rate method or LIBOR method, in each case plus an applicable margin percentage, at the option of the Company. Interest on the LIBOR loans is paid on a monthly or quarterly basis, and interest on the base rate loans is paid on a quarterly basis. The Company did not have any borrowings outstanding on the Revolving Credit Facility at December 31, 2006.

The Revolving Credit Facility also has a sublimit of \$9,000 for the issuance of letters of credit. On the consummation of the ATX acquisition in August 2006, \$7,802 of letters of credit were issued in lieu of vendor security deposits. Such amount was outstanding at December 31, 2006.

The parent company of these subsidiaries has no independent assets or operations and the guarantees are full and unconditional and joint and several.
