Collocation

PSC Mo. No. 8
Local Network Access Services

Application of Other Pricing

Pre-ordering:

“CLEC Account Establishment” is a one-time charge applied the first time that Charter orders any service.

“Customer Record Search” applies when Charter requests a summary of the services currently subscribed to by the End User Customer.

Ordering:

“Initial Service Order” (ISO) applies to every Local Service Request (LSR).

A “Simple” ISO charge applies to every LSR submitted that contains 1 – 9 numbers.

A “Complex” ISO charge applies to every LSR submitted that contains in excess of 10 or more numbers.

“Subsequent Service Order” applies to any modification to an existing LSR.

“Manual Ordering Charge” applies in addition to the ISO charge for every LSR that is submitted manually where an electronic interface for such LSR is available.

Custom Handling (These NRCs are in addition to any Pre-ordering or Ordering and Provisioning NRCs):

“Service Order Expedite” applies if Charter requests service prior to the standard due date intervals. Additional time and material charges may also apply if expedite is accepted.

“Coordinated Conversion” applies if Charter requests notification and coordination of service cut-over prior to the service becoming effective.

“Hot Coordinated Conversion (1st Hour)” applies if Charter requests real-time coordination of a service cut-over that takes one hour or less.

“Hot Coordinated Conversion (per add’l ¼ Hour)” applies, in addition to the Hot Coordinated Conversion (1st Hour), for every 15-minute segment of real-time coordination of a service cut-over that takes more than one hour.
