In the Matter of the Application of)
Kansas City Power & Light Company)
For a Variance from the Commission's) Case No. EE-2003-0282
Rule Requiring Separate Metering for)
the Bishop Spencer Place.)

**SUPPLEMENTAL
APPLICATION FOR VARIANCE**

COMES NOW Kansas City Power & Light Company ("KCPL") and pursuant to 4 CSR 240-2.060 (1) and (14) and 4 CSR 240-20.050(2), supplements its application to state additional facts and to request an order granting a variance from the requirements contained in KCPL Tariff Sheet No. 1.19, Section 5.03(b). In support of its application as supplemented, KCPL alleges and states:

1. KCPL is a corporation organized and existing under and by virtue of the laws of the State of Missouri, with its principal office at 1201 Walnut, Kansas City, Missouri 64106-2124. KCPL's Certificate of Good Standing was provided in Case No. EF-2002-315 and is incorporated herein by reference.

2. KCPL holds Certificates of Convenience and Necessity from the Commission to transact business as an electric public utility in certain areas of the State of Missouri and is principally engaged in the generation, transmission, distribution and sale of electric power and energy.

3. Communications in this matter should be addressed to:

Michael A. Rump
Senior Attorney
Great Plains Energy Services

Telephone: (816) 556-2483
Telecopy: (816) 556-2787
Email: mike.rump@kcpl.com

4. KCPL has heretofore filed with this Commission a certified copy of the Articles of Consolidation under which it was organized and of all amendments thereto.

5. KCPL has no pending action or final unsatisfied judgments or decisions against it from any state or federal agency or court, which involve customer service or rates, which has occurred within three (3) years of the date of the Application, except as identified on Exhibit 1 hereto. No annual report or assessment fees are overdue.

6. KCPL requests a variance from the separate metering requirement of 4 CSR 240-20.050(2) and a variance from the requirement contained in Tariff Sheet No. 1.19, Section 5.03(b) prohibiting the redistribution of electric service through the use of a master meter for multiple occupancy premises for the Bishop Spencer Place located at 4301 Madison Avenue, Kansas City, Missouri 64111. The owner of the Bishop Spencer Place has requested master metering for this project.

7. The Bishop Spencer Place has an existing apartment building, with 155 residents over the age of sixty, in independent living apartments, assisted living suites or nursing home facilities. The existing building has individually metered rooms. Bishop Spencer Place pays all utilities except for individual resident telephone service.

8. The Bishop Spencer Place plans on expanding its facility with a new eight story, 126-unit apartment building. There will be a large common area on the first and second floors consisting of an auditorium, arts and crafts room, grill bistro, computer room, exercise room, beauty shop and activity areas. All apartments in the new building will be for independent living for residents over the age of sixty. There will be a central heating and cooling system for the apartments. Bishop Spencer Place will pay all utilities except for individual resident telephone service.

9. The owner of this project has requested that one meter be installed to serve the new building. Except for the individual resident telephone service, the owner will be responsible for the payment of the bills for each apartment and the common facilities. Separate metering will increase initial construction costs and obstruct the intentions of the owner.

10. The owner has estimated that separate metering each apartment as opposed to master metering the building would result in additional expenditures of approximately \$87,000 or \$701.61 per apartment. A copy of the owner's estimate is attached hereto as Exhibit 2. In Case No. EO-2000-251, concerning a variance from the separate metering requirement for the Bickford House, KCPL estimated its costs to be \$49.40 per apartment for separate metering, which would be an additional cost of \$6,125.60 in the present case. KCPL supports the owner's request for the metering of the project because of the overall cost-benefits.

WHEREFORE, for the above and foregoing reasons, Kansas City Power & Light Company respectfully requests a variance from the separate metering requirement of 4 CSR 240-20.050(2) and from the requirements in Tariff Sheet No. 1.19, Section 5.03(b) prohibiting the redistribution of electric service to allow master metering for the new apartment building to be constructed by the Bishop Spencer Place.

EXHIBIT 1

The following is a list of Applicant's pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this application:

1. GST Appeal of Missouri Public Service Commission Decision; Case No. EC-99-553 in the Circuit Court of Cole County, Missouri; Docket No. 00CV324891; further appealed to the Court of Appeals of the Western District of Missouri by GST.
2. Hawthorn Station Incident Investigation before the Missouri Public Service Commission; Case No. ES-99-581.
