John Van Eschen
Manager, Telecommunications Department
Missouri Public Service Commission
P. O. Box 360
Jefferson City, Missouri 65102-0360

Dear Mr. Van Eschen:

The 2007 Video Services Providers Act ("the Video Act") requires that AT&T Missouri file an annual report regarding its progress made toward complying with the requirement that it provide access to its video service to at least 25% of the households in its telecommunications service area within three years of the date it began providing video service, and to not less than 50% of such households within six years.¹

The Commission authorized AT&T Missouri to provide video service effective November 16, 2007, in Case No. KA-2008-0112, and AT&T Missouri began providing video service in the Kansas City, Missouri area on the same day. Pursuant to the above-referenced reporting requirement, this is to advise that, as of November 16, 2011, AT&T Missouri provided access to its video service to approximately 42% of the households situated in AT&T Missouri's telecommunications service area.

Very truly yours,

A handwritten signature in black ink that reads "Craig A. Unruh".

Craig A Unruh

¹ However, AT&T Missouri is not required to meet the 50% requirement until two years after at least 30% of the households with access to AT&T Missouri's video service subscribe to the service for six consecutive months.
