Revenue reporting clarifications:

Total Company Revenue (Column B) = Missouri Intrastate revenue in Column A + Interstate revenues + International revenues.

IVoIP revenue: If unable to distinguish Missouri Jurisdictional revenue in Column A then a safe harbor percentage can be applied to total revenue that corresponds to the FCC's safe harbor percentage.

Retail non-switched private line service revenue: All of a customer's non-switched private line service revenue can be reported in Column B if 10% of more of the customer's private line network traffic is considered interstate traffic.

About reporting line quantities:

1. Report line quantities for basic local telecommunications service and/or IVoIP service as those terms are defined in 386.020(4) and (23).

For non-channelized facilities, filers are instructed to use a good-faith estimate of the number of voice grade equivalent lines used for voice service.
3. Exchange refers to areas as listed in ILEC tariffs. *(Exchanges are not always the same as rate centers, wire centers and central offices.)*
4. Per 392.550(7)(c) IVoIP line quantities must be filed on a confidential basis. See instructions for how to file annual report information on a confidential basis.
