Subject: Cypress Communications Operating Company Inc. 2002 Missouri Public Service Commission Annual Report

Dear Ms. Browne,

Thank you for submitting the 2002 Competitive Local Exchange Carrier (CLEC) and Interexchange Telecommunications Carrier (IXC) Annual Reports. I have reviewed the reports and according to our records the responses to page 1 item 2. a. effective date of the CLEC certification is February 25, 2001 and 2. b. effective date of the IXC certification is December 22, 2000. Please include this information in any future annual report submissions.

In addition, the 2004 annual report form used to complete the 2002 annual reports includes specific information requests on page 4, item 11 for 2004 and 2005 federal and state low-income and disabled USF subscribers. While it is perfectly acceptable to provide the 2002 information on the 2004 annual report form, the responses you provided on page 4, item 11 were not required for 2002 and the response to the number of Missouri disabled subscribers, 2003, appears to be an error since no revenues were reported for 2002.

Please call or email if you have any questions.

Sincerely,

Janis E. Fischer
