Subject: RE: Bethesda Health Group, Inc. - STS - 2009 MO PSC Annual Report - Review Complete

Thank you for submitting your 2009 Annual Report to the Missouri Public Service Commission. The initial review of your 2009 report has been completed and no procedural errors or omissions were identified during this review with the exception of the page designations of P at the bottom right-hand corner of each page. However, the Public box was checked to indicate that this document is public.

On 5/14/10, this issue was discussed via e-mail with [Ryan Curry](#), the [annual report contact](#) for the company. At that time [he](#) indicated that the company had intended the document be considered a Public submission and that a Public designation was acceptable. **Therefore, the report will be entered in the Commission's system as Public, if this is NOT correct, please notify me immediately.**

Since no other problems exist at this time, your report has been accepted and placed on file with the Commission. This report was only reviewed for procedural errors and omissions and is not a financial statement attested to by the Commission.

While your report has been initially accepted by the Commission, further reviews are possible based upon the types of information provided. Should a subsequent review reveal deficiencies not previously identified, you will be notified of the deficiencies and actions you are required to take.

The above response is for informational purposes only and **DOES NOT REQUIRE A COMPANY RESPONSE**, however, if you have any questions, please feel free to contact me. When contacting the Commission concerning your report, please reference the following identification number: **BMAR-2010-1319**.

Sincerely,
Nikki Senn

Subject: Bethesda Health Group, Inc. - STS - 2009 MO PSC Annual Report

Thank you for submitting your 2009 Annual Report to the Missouri Public Service Commission for the above-referenced company.

During the initial review it was noted that Public is checked on the cover page, but a P is marked at the bottom of the pages. I understand the confusion, however, P stands for proprietary not public. Since the other documents required for filing information as non-public were not provided, I am assuming that you would like the security status to remain as Public for this document.

Please confirm that the document should be available to the public or notify me immediately if the security should be changed. I will complete my review of the annual report submission after receiving your response.

Thank you,
Nikki Senn
