John Van Eschen  
Manager, Telecommunications Department  
Missouri Public Service Commission  
P. O. Box 360  
Jefferson City, Missouri 65102-0360

Dear Mr. Van Eschen:

The 2007 Video Services Providers Act requires that Southwestern Bell Telephone Company d/b/a AT&T Missouri (“AT&T Missouri”) file an annual report regarding its progress made toward complying with the requirement that it provide access to its video service to at least 25% of the households in its telecommunications service area within three years of the date it began providing video service, and to not less than 50% of such households within six years.<sup>1</sup>

The Commission authorized AT&T Missouri to provide video service effective November 16, 2007, in Case No. KA-2008-0112, and AT&T Missouri began providing video service in the Kansas City, Missouri area on the same day. Pursuant to the above-referenced reporting requirement, this is to advise that, as of November 16, 2009, AT&T Missouri provided access to its video service to approximately 27% of the households situated in AT&T Missouri’s telecommunications service area thus meeting the initial requirement to provide access to its video service to at least 25% of the households in its telecommunications service area by November 16, 2010.

Sincerely,

A handwritten signature in blue ink that reads "Craig A. Unruh".

Craig A. Unruh

---

<sup>1</sup> However, AT&T Missouri is not required to meet the 50% requirement until two years after at least 30% of the households with access to AT&T Missouri’s video service subscribe to the service for six consecutive months.
