Dear Mr. Rauch:

Enclosed please find original and 14 copies of Joint Application of Union Electric Company and Black River Electric Cooperative for approval of a territorial agreement. Due to the voluminous nature of the exhibits we have attached exhibits to only the original and 3 copies of the application. If further exhibits are required they will be provided.

We have furnished the Office of Public Counsel with two complete copies of the application.

Thank you for your attention.

Sincerely yours,

Case No. EO-95-400

**JOINT APPLICATION**

COMES NOW Union Electric Company ("UE") and Black River Electric Cooperative, Inc. ("Cooperative"), hereinafter referred to collectively as "Applicants", and for their Joint Application to the Missouri Public Service Commission ("Commission"), pursuant to Sections 394.312 and 416.041, RSMo. (1994), for an order approving Applicants' Territorial Agreement and approving a change in electric suppliers, state as follows:

1. Applicant UE is an electrical corporation rendering electric utility service to the public in the State of Missouri under regulation by the Public Service Commission of Missouri ("Commission"). Applicant Cooperative is a Chapter 394 cooperative corporation engaged in distribution of electric energy and service to its members within the state of Missouri.

**3. Subject to the terms and conditions of an Agreement, known as a "Territorial Agreement" between UE and Cooperative, Applicants have specifically designated the boundaries of the exclusive electric service area of each electric service supplier for service in all or portions of Cape Girardeau, Dent, Iron, Madison, Perry, Reynolds, St. Francois, Scott, Stoddard, Washington, and Wayne Counties, which are more particularly described in the Territorial Agreement. Applicants have attached a copy of the Agreement to this Application as Exhibit A. A metes and bounds description of the exclusive electric service area of Cooperative established by the Territorial Agreement and a map depicting that service area are part of Exhibit A and are incorporated into this Application. The exclusive electric service area of Company is described as all of certain counties except for the areas designated as the exclusive service area of Cooperative in those counties.**

4. A certified copy of the resolution of the Board of Directors of Cooperative authorizing the consummation of the transaction contemplated by this Joint Application is attached hereto as Exhibit B and made a part hereof for all purposes. A certified copy of the resolution of the Board of Directors of Company authorizing the consummation of the transaction contemplated by this Joint Application is attached hereto as Exhibit C and made a part hereof for all purposes.

5. The Company has a copy of its Articles of Incorporation on file with the Commission. A certified copy of Cooperative's Articles of Incorporation is attached hereto as Exhibit D.

6. The Company will need a certificate of public convenience and necessity for certain areas it proposes to serve pursuant to the Agreement. Company will be filing an application for such a certificate with the Commission. The Cooperative has statutory authority in the areas it proposes to serve.

7. The following is a list of Rural Electric Cooperatives which serve in the vicinity of the territorial agreement area and the counties in which they serve:

**Crawford Electric Cooperative: Crawford, Dent, Franklin, Gasconade, & Washington.**

**Citizens' Electric Cooperative: Ste. Genevieve, Perry and North Cape Girardeau.**

**Scott-New Madrid-Mississippi Electric Cooperative: Scott, New Madrid, Mississippi, Stoddard, Bollinger & Cape Girardeau.**

**Ozark Border Electric Cooperative: Bollinger, Butler, Carter, Dunklin, New Madrid, Oregon, Reynolds, Ripley, Shannon, Stoddard & Wayne.**

**Howell-Oregon Electric Cooperative: Howell, Oregon, Shannon, Ozark, Douglas & Texas.**

**Intercounty Electric Cooperative: Crawford, Dent, Gasconade, Maries, Phelps, Pulaski, Shannon, Texas & Wright.**

8. The following is a list of the municipal electric supply systems operated within the area covered by the Agreement: Fredericktown and Farmington.

9. The Territorial Agreement is in the public interest because it requires the exchange of certain electric facilities and establishes exclusive service territories for the two electric suppliers. The establishment of exclusive service territories will eliminate duplication of electric service facilities and concentrate the electric service territories of the parties, increasing economic efficiencies and benefiting the public safety and aesthetics of the community.

This Agreement will also allow electric service customers to know with certainty the supplier of their electric service.

10. Company will still have occasion to construct, operate and maintain facilities in the electric service territory of the Cooperative as described in the Territorial Agreement. Company will continue to have service responsibilities beyond the boundaries of the Agreement unaffected by the terms of the Agreement. In general, Company will need the authority to construct, operate and maintain facilities through the electric service area of Cooperative. In particular, UE requires a finding of the Commission that the territorial agreement will not impair the Company's existing certificates of public convenience and necessity except as specifically limited by the Agreement.

11. The exchange of customers will require each party to final bill its customers to be transferred to the other party. As a new customer of the other party, the transferred customer will have no incentive to pay the final bill. Therefore, the parties request the Commission waive the application of its Billing Practices Rule and authorize the parties to disconnect the service of a customer for his or her failure to pay the final bill of the other party.

12. A Tax Impact Statement as required by section 393.190, RSMo. (1994), is attached hereto as Exhibit E.

13. Applicants will also require an order of the Commission granting them the authority to switch suppliers of electric service for those customers to be exchanged pursuant to the Territorial Agreement. Lists of customers to be exchanged by Union Electric and Black River are attached hereto as Exhibits F and G.

14. The Commission's fee required by 4 CSR 240-21.010 is submitted herewith.

**WHEREFORE**, Applicants respectfully request that the Public Service Commission of Missouri issue its order:

(a) Finding the designated electric service areas to be not detrimental to the public interest and approving the Territorial Agreement;

(b) Authorizing Applicants to perform in accordance with the terms and conditions of the Agreement, Exhibit A to the Joint Application;

(c) Finding that this Agreement shall not impair the Company's certificates of convenience and necessity except as specifically limited by the Agreement.

(d) Waiving the Commission's Billing Practices Rule and allowing the parties to disconnect electric service to a customer for failure to pay the final bill of the other party.

(e) Granting Applicants the authority to change electric service providers for certain customers pursuant to the terms of the Territorial Agreement.

**TERRITORIAL AGREEMENT**

**FILED**  
**MAY 31 1995**  
**MISSOURI**  
**PUBLIC SERVICE COMMISSION**

**THIS AGREEMENT is entered into between Union Electric Company, hereinafter referred to as "Company," and Black River Electric Cooperative, Inc., hereinafter referred to as "Cooperative."**

**WHEREAS, Company is authorized by law to provide electric service within the State of Missouri, including all or portions of Cape Girardeau, Washington, Wayne, Scott, St. Francois, Stoddard, Iron and Reynolds Counties; and**

**WHEREAS, Cooperative is authorized by law to provide electric service within the State of Missouri, including all or portions of Washington, Wayne, Dent, Crawford, Madison, Iron, Perry, St. Francois and Reynolds Counties; and**

**WHEREAS, the Missouri Legislature has authorized electrical corporations and rural electric cooperatives to enter into written territorial agreements; and**

**WHEREAS, Company and Cooperative desire to promote the orderly development of the retail electric service within portions of the above referenced counties in Missouri, to avoid wasteful duplication and to minimize disputes which may result in higher costs in serving the public;**

**NOW, THEREFORE, Company and Cooperative, in consideration of the mutual covenants and agreements herein contained, agree as follows:**

**1. For purposes of this Agreement:**

**a. "Customer" includes any natural person, firm, association, partnership, business trust, public or private corporation, political subdivision or any agency, board, department or bureau of the state or federal government or any other legal entity which**

has requested or is receiving electric service. Any customer who has requested or is receiving electric service at one structure shall be a new and different customer at each structure at which electric service has been requested.

b. "Structure" is defined as an agricultural, residential, commercial, industrial or other building or a mechanical installation, machinery or apparatus but shall not include customer-owned meter wiring. "Structure" shall include a contiguous addition to or expansion of a previously existing structure and a replacement of a previously existing structure.

c. "Company" shall mean Union Electric Company and any subsidiary or other corporate entity owned or controlled by Union Electric Company.

d. "Cooperative" shall mean Black River Electric Cooperative, Inc. and any subsidiary or other corporate entity owned or controlled by Black River Electric Cooperative, Inc.

e. "Customer service equipment" shall mean all lines or conductors operated at 30,000 volts or less, phase to phase; all transformers, regulators, capacitors, poles, equipment and installations connected thereto not located in a substation, necessary for the distribution of electricity through said lines or necessary for the support of said lines; and all rights, privileges, easements, appurtenances and immunities in land on which such lines, conductors, poles, equipment and installations are located.

f. "Transfer" shall mean grant, convey or assign any and all interests the transferor has in the customer service equipment and any and all rights to serve customers, free of any and all liens and liabilities, to the transferee. The parties

**understand this to be an exchange of property and service right and not a sale. Any reference herein to transferor or transferee shall apply to both parties in their capacity in effecting such transfer or accepting such transfer, respectively.**

**2. As between the parties each shall have the exclusive right to furnish electric service to all electric consuming structures located within its respective territory described in paragraphs 3 and 4 of this Agreement, regardless of the size of the load or the characteristics of the customers' requirements. Neither party may furnish, make available, render or extend electric service to a structure or for use within the territory of the other party either directly, indirectly or through a subsidiary corporation or other entity controlled by the party, in whole or in part, excepting sales to each other.**

**3. The electric service area of Company shall be all of Cape Girardeau, Iron, Reynolds, Scott, St. Francois, Stoddard and Washington counties, except such portion thereof as is described by metes and bounds in Exhibit 1 to this Agreement and as illustrated by the map marked Exhibit 2, both exhibits being incorporated herein by reference and made a part of this Agreement as if fully set out verbatim.**

**Cooperative shall transfer all of its customer service equipment and customers located within Company's service area to Company on a date to be set by the parties not more than one (1) year after the effective date of this Agreement. Company shall thereafter provide electric service to all existing and future customers located within its electric service area, and Cooperative shall not provide electric service to customers in Company's area. Notwithstanding Company's electric service area, Cooperative retains the right and facilities to continue to serve all customers identified in Exhibit 3.**

4. The electric service area of Cooperative shall be such area as is described by metes and bounds in Exhibit 1 and as illustrated by the map marked Exhibit 2 which are incorporated herein by reference.

Company shall transfer all of its customer service equipment and customers located within Cooperative's service area to Cooperative on a date to be set by the parties not more than one (1) year after the effective date of this Agreement. Cooperative shall thereafter provide electric service to all existing and future customers located within its electric service area, and Company shall not provide electric service to customers in Cooperative's area. Notwithstanding Cooperative's electric service area, Company retains the right and facilities to continue to serve all customers identified in Exhibit 4.

5. Customers and customer service equipment shall be transferred by identifiable lines or line segments by utilizing or installing metering points on each line segment and energizing the same to the account of the transferee pursuant to the Interchange Agreement between Associated Electric Cooperative and Company, entered into on June 28, 1978, as amended. Upon the transfer of a line, the transferee shall become the owner of the facilities thereon and responsible and liable for the condition of the facilities and service provided by such facilities and shall have unlimited access thereto. After the transfer, transferee shall indemnify, defend and hold transferor harmless against any loss, harm, claim or cost, including reasonable attorneys' fees, arising out of the possession or operation of the facilities, including but not limited to any personal

**injury to employees of the transferee and personal injury or property damage of persons not parties to this Agreement.**

**6. The location of a structure for purposes of this Agreement shall be the geographical location at which electric power and energy is used, regardless of the metering point or point of delivery. The first owner of a new structure located on or crossed by any mutual boundary line described in paragraphs 3 and 4 dividing the electric service territories of the parties shall be permitted to choose either party for permanent electric service, provided that the customer's meter is installed on the structure within that party's service area. Thereafter that party shall exclusively serve that structure.**

**7. The parties may agree on a case-by-case basis by an Addendum hereto to allow a structure to receive service from one party though the structure is located in the electric service area of the other.**

**Such Addendum referred to above shall be filed with the Missouri Public Service Commission with a copy to the Office of Public Counsel. There will be no filing fee for these addenda.**

**Each Addendum shall consist of a notarized statement identifying the structure, the party to serve the structure and the justification for the Addendum and indicate that the parties support the Addendum.**

**Each Addendum shall be accompanied by a notarized statement, signed by the customer to be served, which acknowledges such customer's receipt of notice of the contemplated electric service to be provided and that the Addendum represents an**

exception to the territorial boundaries approved by the Public Service Commission and shall indicate the customer's consent to be served by the service provided contemplated by the Addendum.

If the Staff, Office of Public Counsel, or the Commission on its own motion, do not submit a pleading objecting to the Addendum within twenty (20) days of the filing thereof, the Addendum shall be deemed approved. However, if a pleading in opposition to the Addendum is filed by the above listed parties, the Commission shall schedule an evidentiary hearing within ten (10) days to determine whether the Addendum should be approved.

Each party, pursuant to an executed Addendum, shall have the right to provide temporary service, as defined in Section 393.106 RSMo., until the Commission approves or disapproves the Addendum. No party shall be required to remove any facilities installed pursuant to an Agreement until the effective date of an Order of the Commission or a court regarding the removal of same. In any Order rejecting an Addendum, the Commission shall determine whether temporary service was provided pursuant to the Addendum in good faith. In the event the Commission determines that temporary service was provided in good faith, it may not disallow any expenditure made from any rates in any subsequent rate case.

8. This Agreement shall become effective upon approval by the Missouri Public Service Commission pursuant to Section 394.312, R.S.Mo. The term of this Agreement shall be perpetual. Performance of the parties is contingent upon all of the following having occurred no later than December 31, 1995 unless such condition is

**waived, extended or modified by agreement in writing signed by an officer of each party hereto:**

**a. All required approvals of the Cooperative's Board of Directors.**

**b. Approval of the transaction by the Public Service Commission of Missouri, including but not limited to, a waiver of provisions of the Utility Billing Practices Rule, 4 CSR 240-13.010 et seq., which would prohibit Company or Cooperative from discontinuing service for a customer's failure to pay a delinquent account owed to the other party;**

**c. Approval of the transaction, to the extent of its jurisdiction, by the Federal Energy Regulatory Commission.**

**d. Approval of this Territorial Agreement by M&A Electric Power Cooperative, Cooperative's wholesale power supplier, to the extent that its interests and liabilities may be affected.**

**e. Company reaching agreement with M&A Electric Power Cooperative and Associated Electric Cooperative regarding generation and transmission issues affected by this agreement, which shall be approved by the Federal Energy Regulatory Commission, to the extent of its jurisdiction.**

**f. Approval by the Missouri Public Service Commission of an Application for a Certificate of Public Convenience and Necessity by Company to own, operate and maintain the electric transmission and distribution facilities which the Company is acquiring pursuant to this Agreement.**

9. Continuing performance of the parties is contingent upon the following having occurred for each line segment prior to the transfer of the line segment unless such condition is waived, extended or modified by agreement in writing signed by an officer of each party hereto:

a. Approval of the transaction by the Rural Utility Services ("RUS") including the release of Cooperative's customer service equipment located within Company's electric service area from all liens held by RUS. Cooperative shall make a good faith effort to release the easements from all such liens.

b. Cooperative shall have obtained the release of Cooperative's customer service equipment located within Company's electric service area from all liens held by the National Rural Utilities Cooperative Finance Corporation and shall make a good faith effort to release the easements from all such liens.

c. Company shall have obtained the release of Company's customer service equipment located within Cooperative's electric service area from all liens created by the Company, including the lien of its Mortgage and Deed of Trust dated June 15, 1937, as supplemented, and shall make a good faith effort to release the easements from all such liens.

If reasonable grounds arise to believe that the transferor will be unable to perform the applicable conditions, the transferee may demand adequate assurance of performance. If the transferor fails to provide adequate assurance of performance to the transferee, the parties shall treat this agreement as void in its entirety and shall transfer

all facilities back to the original owner or shall negotiate a compromise transaction which is mutually agreeable.

10. The parties agree to undertake all actions reasonably necessary to implement this Agreement. This shall include, but not be limited to, the following:

a. Each party shall calculate, as of the date of transfer of a customer, the active and outstanding accounts receivable and unbilled revenues ("receivables"), including all amounts which have been billed to the customer as well as bill amounts which have been calculated but not yet rendered, for such customer the party was serving to the date of transfer. It shall then remit to the customer a final bill. If the party does not receive payment of the final bill within sixty (60) days of the date of its remittance, it may identify the other party as its agent to collect the accounts receivable. The other party may take such actions as may be necessary to collect the final bill, including but not limited to the disconnection of service. Any payments on said accounts received by the other party shall be remitted promptly to the party to which payment is due.

b. Security deposits and accrued interest existing at the time of transfer shall be credited to the customer on the final bill.

c. Transferor shall execute and deliver to the transferee bills of sale with accurate inventories of the facilities and assignments of existing easements, permits and licenses being transferred. Transferor shall also assign to transferee all joint use pole agreements and street light agreements for facilities or areas being transferred.

Such bills of sale and assignments of property rights or contracts shall be delivered concurrently with the actual transfer.

11. Transferor shall give to transferee prior to the date of transfer access to books, records, contracts and commitments of transferor related to the customer service equipment transferred in accordance with this Agreement and shall furnish transferee during such period with information concerning the transferor's affairs as transferee may reasonably request with respect to the various transactions contemplated herein. In the event any controversy or claim by or against either party arises out of this transaction or the subject matter hereof after closing, each party shall make available to the other copies of such relevant records as may reasonably be requested pertaining to the controversy or claim.

Transferee shall have the right to retain copies of all original accounting records, customer business records, operating manuals, maps and all other documents containing information about customer service equipment or customers transferred by this Agreement and normally maintained by transferor in the ordinary course of business.

Each party shall have the right, at its own expense, to make or to have the other party make copies of all such documents prior to the date of transfer.

12. All property exchanged is transferred and accepted AS IS and where they stand at the transferee's risk. Each party warrants only that it has the lawful right to transfer and dispose of the same and that it will warrant and defend the title thereto against all claimants whatsoever. No other warranties are given. THE PARTIES AGREE THAT THE IMPLIED WARRANTIES OF MERCHANTABILITY AND

**FITNESS FOR A PARTICULAR PURPOSE AND ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, ARE EXCLUDED FROM THIS AGREEMENT. Each party shall have the right to inspect the customer service equipment of the other party in its service area at any time.**

13. Each party will cooperate in presenting a joint application showing such transfer to be in the public interest. If the Public Service Commission of Missouri does not approve the provisions of this Agreement, then it shall be nullified and of no legal effect between the parties. Further, if any part of this Agreement is declared invalid or void by a Court or agency of competent jurisdiction, then the whole Agreement shall be deemed invalid and void. However, any customer service equipment transferred by bill of sale and assignment of rights pursuant to this agreement prior to the date of such court or agency decision shall remain the property of the transferee.

14. Neither the boundaries described by this Agreement nor any term of this Agreement may be modified, repealed or changed except by a writing mutually approved by the respective parties and by the Missouri Public Service Commission.

15. This Agreement shall be binding on the parties and all subsidiaries, successors, assigns and corporate parents or affiliates of Company and Cooperative.

16. Company has service territories outside of the areas covered by this Agreement. For service outside of the areas described by this Agreement, Company will continue to operate without regard to this Agreement.

17. This Agreement shall in no way affect either party's right to construct such electric distribution and transmission facilities within the designated electric service area

of the other as that party deems necessary, appropriate or convenient to provide electric service to its customers not inconsistent with the terms of this Agreement and as otherwise allowed by law.

18. This contract constitutes the entire agreement between the parties relating to the allocation of service rights in the territory described herein.

IN WITNESS WHEREOF, the parties have executed this Agreement this 28th day of April, 1995.

Sixth. The duration of this Association shall be perpetual.

Seventh. Upon dissolution or liquidation, the assets of this Association shall be applied first to pay liquidation expense, next to pay obligations of this Association other than dividends based upon capital stock or dividends based upon purchases by patrons of the Association; and the remainder of such assets shall be distributed in the following priority:

- (1) To pay any deferred dividends upon capital stock.
- (2) To pay any deferred dividends upon purchases by patrons.
- (3) Any remaining assets shall be distributed among the stockholders at the date of the dissolution or liquidation in proportion to their deferred dividends on purchases from the Association.
