

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the matter of the Joint Application)	
of City of Columbia, Missouri and Boone)	
Electric Cooperative for an order approving)	Case No. _____
the change in electric supplier for certain customers)	
for reasons in the public interest.)	

JOINT APPLICATION

COMES NOW, the City of Columbia, Missouri (“City”), a Missouri Home Rule city located in Boone County, Missouri, and Boone Electric Cooperative (“Cooperative”), hereinafter referred to collectively as “Applicants,” and for their Joint Application to the Missouri Public Service Commission (“Commission”), for an order approving Applicants’ proposed Customer Exchange Agreement which provides for a change in the electric supplier from Cooperative to City for twenty-nine (29) customer structures lawfully served by the Cooperative. Electric service to the twenty-nine (29) customers’ structures from Cooperative predates a Commission approved Territorial Agreement (Case #OA-89-130). The structures of the twenty-nine (29) customers served are located within the City's corporate boundaries and within the exclusive service territory of City as assigned by the Commission approved Territorial Agreement. Twenty-seven of the structures are residential and two are non-residential structures. The Applicants, pursuant to Sections 91.025 and 394.315 RSMo 2000, state as follows:

1. **The Applicants** -- City is a Home Rule municipality organized and existing under the Article VI, Section 19 of the Constitution of the State of Missouri, in good standing in all respects, with its principal office and place of business located at City of Columbia, 701 East Broadway, Columbia, Missouri 65201. City operates a municipal electrical utility engaged in the sale and distribution of electricity in the City of Columbia, Missouri, located in Boone County.

Cooperative is a corporation organized and existing under the laws of the state of Missouri and has its principal office at 1413 Rangeline, Columbia, Missouri 65205.

Cooperative is a Missouri corporation organized as rural electric cooperative corporation pursuant to Chapter 394 of the Revised Statutes of Missouri and is engaged in the distribution of electric energy and services to its members within Boone, Audrain, Callaway, Howard, Monroe and Randolph Counties in Missouri.

2. **Correspondence and Communication** -- Correspondence, communications, orders and decisions in regard to this Application should be directed to:

Mr. Todd Culley
General Manager/CEO
Boone Electric Cooperative
1413 Rangeline
Columbia, MO 65205

3. **Change in Supplier** – Cooperative supplies retail electric energy through permanent facilities to the twenty-nine customers' structures listed on the Customer Exchange Agreement, located within the City's corporate boundaries. Applicants are requesting to transfer from Cooperative to City these twenty-nine customers' structures in Boone County, and their related electric service accounts. The City and the Cooperative are interested in the customer exchange for reasons other than a rate differential. The Customer Exchange Agreement between

the City and Cooperative, is attached hereto as **Exhibit 1** and is hereby incorporated by reference and made a part hereof for all purposes. Attached to the Customer Exchange Agreement is the consents of twenty-seven (25) of the twenty-nine (29) customers with affected structures.

Applicants seek an order from the Commission approving a change in supplier as to all twenty-nine customers from Cooperative to City pursuant to Sections 91.025 and 394.315 RSMo 2000.

4. **The Customer Exchange** -- Applicants seek a Customer Exchange, which simply transfers the right of providing electric service to the twenty-nine customers' structures within the City's corporate boundaries from the Cooperative to the City. The twenty-nine customers' structures are, per the approved Territorial Agreement, within the exclusive service territory assigned to City. Applicants are not requesting any change to the existing service boundaries of either electric service provider as previously approved by Report and Order dated March 28, 1989 of the Commission in Case #OA-89-130, approving a Territorial Agreement between the City and Cooperative.

5. **Resolutions of Boards of Directors** -- A certified copy of the resolution of the Board of Directors of Cooperative authorizing the consummation of the transaction contemplated by this Joint Application is also attached hereto as **Exhibit 2**, is incorporated by reference and made a part hereof for all purposes.

A certified copy of the ordinance of the City Council of the City of Columbia, Missouri authorizing the consummation of the transaction contemplated by this Joint Application is attached hereto as **Exhibit 3**, is incorporated by reference and made a part hereof for all purposes.

6. **Certificate of Good Standing** – The Cooperative’s Certificate of Good Standing issued by the Missouri Secretary of State is attached hereto as **Exhibit 4**. The City of Columbia is a Home Rule city.

7. **Tax Impact Statement** – The exchange of these twenty-nine (29) customers will have a de minimis tax impact, if any. The transfer of service will simply involve discontinuing use of the line by the Cooperative to serve these twenty-nine customers' structures. The City intends, and as discussed below in paragraph 9, will upon approval of the Customer Exchange Agreement, purchase the portion of the Cooperative’s facilities used to service these twenty-nine (29) customers, upgrade these facilities or replace such facilities so as to provide electric service to these twenty-nine (29) customers as well as new structures to be built in the future in this vicinity.

8. **Right to Serve** -- The Cooperative is authorized by law to provide electric service within rural areas of the State of Missouri. The City of Columbia is authorized by law to provide municipally owned electric service within the City of Columbia, State of Missouri. The twenty-nine customers' structures that are the subject of the Customer Exchange Agreement are lawfully receiving permanent service from the Cooperative as such electric service from Cooperative predates a Commission approved Territorial Agreement (Case #OA-89-130) wherein the physical location of the twenty-nine (29) customer structures was assigned to the City as its exclusive service territory. Said Territorial Agreement provided that the City and Cooperative were each to continue providing electric service to those customers and structures each was serving as of the date of the agreement. The twenty-nine customers’ structures that are the subject of the Customer Exchange Agreement are lawfully receiving service from the Cooperative.

9. **The Customer Exchange is in the Public Interest** -- City and Cooperative desire to transfer the electric service of twenty-nine customers' structures located inside of the City's corporate boundaries from Cooperative to City. The electric distribution line serving these twenty-nine customers' structures was constructed in the 1960's and presently is in need of upgrades and reconstruction to assure reliable service into the future. The physical location of portions of the Cooperative line serving these twenty-nine customer structures is such that access for maintenance and restoration work is difficult and slow with current-day equipment and vehicles. The existing location of the electric line is also, so as to not be in violation of the NESC, preventing development of five (5) existing building lots. The City is in a good position to take over the service to the twenty-nine customers' structures as they have nearby facilities that are more than adequate to undertake the electric load and would not require substantial construction of new facilities by the City. The City could serve the existing and any new structures in the vicinity of these twenty-nine customers' structures more efficiently and economically than the Cooperative. This exchange will aid the City and Cooperative in the consolidation of facilities and bring efficiencies and savings to the City and Cooperative. This transfer will promote efficiencies in providing services to those remaining consumers served by the Cooperative, and it requires no duplication of electric service facilities. Furthermore, this transfer will improve safety in that it allows emergency personnel to know with certainty the supplier of electric service to the different structures in the area in which these twenty-nine customers' structures are located. This exchange is in the public interest for reason other than a rate differential.

10. **Judgments, Actions and Fees** -- City has no final unsatisfied judgments or decisions against it from any state or federal agency or court that involve customer service or

rates, which judgments or decisions have occurred within three (3) years of the date of this Joint Application. Further, City has no actions in state and federal agencies and courts involving customer service or rates. City has no annual report or assessment fees that are overdue to this Commission.

Cooperative also has no final unsatisfied judgments or decisions against it from any state or federal agency or court that involve customer service or rates, which judgments or decisions have occurred within three (3) years of the date of this Joint Application. Further, Cooperative has no actions in state and federal agencies and courts involving customer service or rates. Cooperative has no annual report or assessment fees that are overdue to this Commission.

WHEREFORE, City and Cooperative respectfully request that the Commission issue an order:

- (1) finding that the requested change in electric service provider as set forth by the Applicants in the Customer Exchange Agreement, which is attached as **Exhibit 1** hereto, is not detrimental to the public interest, and approving the Customer Exchange Agreement which provides for the change in electric supplier for the designated twenty-nine customer structures from Cooperative to City for reasons other than a rate differential; and

- (2) granting such other relief as is deemed necessary to accomplish the purposes of this Joint Application.

EXHIBIT 1
(CUSTOMER EXCHANGE AGREEMENT)

CUSTOMER EXCHANGE

Between

CITY OF COLUMBIA, MISSOURI

and

BOONE ELECTRIC COOPERATIVE

CUSTOMER EXCHANGE AGREEMENT

This Customer Exchange Agreement ("Agreement") is made and entered into as of the 11th day of July, 2014, by and between CITY OF COLUMBIA, MISSOURI (hereinafter "City") and BOONE ELECTRIC COOPERATIVE (hereinafter "Cooperative").

RECITALS

- A. City is authorized by law to provide municipally owned electric service within the City of Columbia, State of Missouri;
- B. Cooperative is authorized by law to provide electric service within the State of Missouri, including all of Boone County;
- C. City and Cooperative entered into a Territorial Agreement on October 17, 1988 which received approval by a March 28, 1989 Report and Order of the Missouri Public Service Commission with an effective date of April 7, 1989.
- D. The Missouri Legislature provides for a change in electric supplier from Cooperative to City pursuant to Sections 91.025 and 394.315 RSMo. 2000;
- E. City and Cooperative desire to transfer the electric service of twenty-nine (29) active customer structures located inside of the City's corporate boundaries from Cooperative to City;
- E. These 29 customers' structures are, pursuant to the terms of the PSC approved Territorial Agreement, lawfully receiving permanent electric service from the Cooperative;
- F. The Cooperative line serving these 29 customers is a radial line consisting of approximately 16 lights, 61 poles, and 29,600 feet of various sized primary conductor dating back to the 1960's;
- G. The location of the Cooperative distribution line serving these 29 customer structures is located such as to prevent development of five existing development lots that currently contain no structures. These five lots cannot be developed as any such construction would violate the applicable minimum approach distances as set forth in the NESC. Furthermore, the Cooperative line contains a grandfathered NESC violation involving the distribution line crossing over atop an existing structure;
- H. The City has nearby, adequate facilities and would be well placed to serve the 29 existing customer structures served by the Cooperative distribution line and any new structures constructed upon the five existing lots. The City's provision of service to the existing 29 structures and any new structures would not violate minimum approach distances, would be more efficient and economical than the options for similar service by the Cooperative; and

- I. By this Customer Exchange the City and Cooperative desire to promote the orderly development of the retail electric service within Boone County and in areas within the limits of the City, and to reduce the wasteful duplication of customer service equipment and offer an improved level of service to their respective customers. This Customer Exchange will also allow emergency personnel to know with certainty the supplier of electric service to the different structures in the area in which these 29 existing customers' structures are located.

AGREEMENT

For good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Parties agree to the following customer exchange:

1. Pursuant to Sections 91.025 and 394.315 RSMo 2000, City and Cooperative desire to transfer the electric service of twenty-nine (29) customers' structures located within the corporate boundaries of the City from Cooperative to City and when possible, with the agreement and consent of the affected customers. See **Attachment No. 1**, names and addresses of 29 affected consumers. Consent Affidavits from 25 of the 29 affected consumers is attached hereto as **Attachment 2** and contains each consenting customer's signature and service address. **Attachment No. 3** discussed below depicts the physical location of each customer subject to this Customer Exchange Agreement.

2. Pursuant to Sections 91.025 and 394.315 RSMo 2000, City and Cooperative desire to transfer exclusive electric service from Cooperative to City for the twenty-nine customers' structures at issue here, located along the Cooperative's facilities as described in **Attachment No. 3**, which are color coded maps showing the location of customers and facilities to be exchanged from the Cooperative to the City, and the requisite new facilities believed to be necessary by City to provide service to the exchanged customers.

The parties agree to transfer, upon receiving the appropriate Missouri Public Service Commission approval, the electric service from the Cooperative to City for the twenty-nine customers' structures at issue here. This exchange will aid the City and Cooperative in the consolidation of facilities and bring efficiencies and savings to the City and Cooperative. This transfer will promote efficiencies in providing services to those remaining consumers served by the City, and it requires no duplication of electric service facilities as the City intends to purchase the portion of the Cooperative's facilities used to service these twenty-nine customer structures, to upgrade these facilities, and use them to provide service to these twenty-nine customers as well as new structures to built in this vicinity in the future. Furthermore, this transfer will also improve safety in that it allows emergency personnel to know with certainty the supplier of electric service to the different structures in the area in which these twenty-nine customers' structures are located. The twenty-nine customers subject to the exchange will benefit as the City intends to upgrade lines and services to these structures, resulting in greater reliability and quality of service;

3. The parties agree to undertake all actions reasonably necessary to implement this Agreement. Cooperative and City will equally pay the cost of obtaining Missouri Public Service Commission approval of the proposed Customer Exchange. Each party will cooperate in presenting a joint application showing such Customer Exchange Agreement to be in the public interest. If the Public Service Commission does not approve the Customer Exchange, then it shall be nullified and of no legal effect between the parties, and the Cooperative shall continue to have the right to continue to serve the twenty-nine customers' structures at issue herein.

4. City and Cooperative will strive to obtain the consent of all 29 affected consumers. Failure to obtain the consent of all 29 customers shall not invalidate this Customer

Exchange Agreement and the parties shall jointly proceed with applying for approval of the intended customer exchange with the Public Service Commission regardless of the number of affected consumers granting their consent.

5. This Customer Exchange shall be binding upon the parties and all subsidiaries, successors in interest and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the parties have executed this Agreement this 11th day of July, 2014.

AFFIDAVIT of CONSENT

1. Angstasia Pottinger, the Affiant, being duly sworn upon my oath, do hereby certify that:

1. I am the Manager of the Powers Subdivision Well Pump, the lawful owner of a structure located at 4205 Wales, Columbia, Missouri and personally acquainted with the facts herein stated.

2. This structure is located within the city limits of Columbia, Missouri.

3. This structure is currently being served with electric service by Boone Electric Cooperative.

4. The electric distribution facilities serving the structure are of significant age, are located in an area that is hard to access and presently in need of costly upgrades and reconstruction to assure reliable service into the future. Replacement of the distribution facilities by Boone Electric Cooperative would not be in the public interest.

5. The City of Columbia's Water and Light Department has nearby electric distribution facilities that could serve the structure in a manner that would not require substantial construction of new facilities by the City of Columbia.

6. Provision of electric service by the City of Columbia to the structure would be more efficient and economical than the Cooperative upgrading and reconstructing its facilities; require no duplication of electric service facilities; and improve safety in that it would allow emergency personnel to know quickly and with certainty the supplier of electric service to my structure.

7. Boone Electric Cooperative, City of Columbia and I agree that the most economical and feasible solution would be to allow the City of Columbia's Water and Light Department to provide electric service to the structure and that such a change of supplier would be in the public interest.

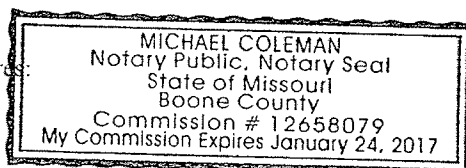

8. I hereby declare my support for the proposed customer exchange contemplated by the City of Columbia and Boone Electric Cooperative. Therefore, I request that the Missouri Public Service Commission order a change of electric supplier from my current electric service provider, Boone Electric Cooperative to the City of Columbia.

9. Further, Affiant sayeth naught.

COUNTY OF BOONE)

AFFIDAVIT of CONSENT

I, Lois Hobbs, the Affiant, being duly sworn upon my oath, do hereby certify that:

1. I am the lawful occupant of a residential structure located at 6 Scott Blvd, Columbia, Missouri.
2. This structure is located within the city limits of Columbia, Missouri.
3. This structure is currently being served with electric service by Boone Electric Cooperative.
4. The electric distribution facilities serving the structure are of significant age, are located in an area that is hard to access and presently in need of costly upgrades and reconstruction to assure reliable service into the future. Replacement of the distribution facilities by Boone Electric Cooperative would not be in the public interest.
5. The City of Columbia's Water and Light Department has nearby electric distribution facilities that could serve the structure in a manner that would not require substantial construction of new facilities by the City of Columbia.
6. Provision of electric service by the City of Columbia to the structure would be more efficient and economical than the Cooperative upgrading and reconstructing its facilities; require no duplication of electric service facilities; and improve safety in that it would allow emergency personnel to know quickly and with certainty the supplier of electric service to my structure.
7. Boone Electric Cooperative, City of Columbia and I agree that the most economical and feasible solution would be to allow the City of Columbia's Water and Light Department to provide electric service to the structure and that such a change of supplier would be in the public interest.
8. I hereby declare my support for the proposed customer exchange contemplated by the City of Columbia and Boone Electric Cooperative. Therefore, I request that the Missouri Public Service Commission order a change of electric supplier from my current electric service provider, Boone Electric Cooperative to the City of Columbia.
9. Further, Affiant sayeth naught.

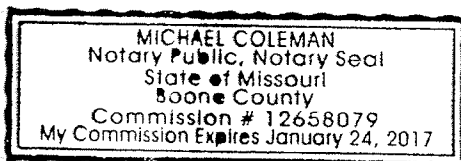

Lois Hobbs

Subscribed and sworn to before me, a notary public, this 20TH day of JUNE, 2013.

1. I am the lawful occupant of a residential structure located at 4416 W Broadway, Apt A, Columbia, Missouri.
2. This structure is located within the city limits of Columbia, Missouri.
3. This structure is currently being served with electric service by Boone Electric Cooperative.
4. The electric distribution facilities serving the structure are of significant age, are located in an area that is hard to access and presently in need of costly upgrades and reconstruction to assure reliable service into the future. Replacement of the distribution facilities by Boone Electric Cooperative would not be in the public interest.
5. The City of Columbia's Water and Light Department has nearby electric distribution facilities that could serve the structure in a manner that would not require substantial construction of new facilities by the City of Columbia.
6. Provision of electric service by the City of Columbia to the structure would be more efficient and economical than the Cooperative upgrading and reconstructing its facilities; require no duplication of electric service facilities; and improve safety in that it would allow emergency personnel to know quickly and with certainty the supplier of electric service to my structure.
7. Boone Electric Cooperative, City of Columbia and I agree that the most economical and feasible solution would be to allow the City of Columbia's Water and Light Department to provide electric service to the structure and that such a change of supplier would be in the public interest.
8. I hereby declare my support for the proposed customer exchange contemplated by the City of Columbia and Boone Electric Cooperative. Therefore, I request that the Missouri Public Service Commission order a change of electric supplier from my current electric service provider, Boone Electric Cooperative to the City of Columbia.
9. Further, Affiant sayeth naught.

BOONE ELECTRIC COOPERATIVE RESOLUTION OF THE BOARD OF DIRECTORS

I, Nathan Martin, do hereby certify that I am the Secretary of Boone Electric Cooperative (hereinafter called the "Cooperative"), the following is a true and correct copy of a resolution duly adopted by the Board of Directors of the Cooperative at its regularly scheduled meeting held on February 19, 2014 and entered in the minute book of the Cooperative; the meeting was duly and regularly called and held in accordance with the bylaws of the Cooperative, and said resolution has not been rescinded or modified.

RESOLVED, that the proposed Customer Exchange Agreement between Boone Electric Cooperative and the City of Columbia, Missouri (hereinafter called the "City"), substantially in the form presented to this meeting, be and the same is hereby approved; and

RESOLVED, that the proposed Contract for the purchase and sale of distribution facilities from the Cooperative to the City, substantially in the form presented to this meeting, be and the same is hereby approved; and

NOW THEREFORE BE IT RESOLVED, that the Officers of the Cooperative are hereby authorized and directed to act according to their best judgment to carry out the intentions of this resolution, said authority to include filing the appropriate Joint Application for Customer Exchange with the Missouri Public Service Commission as may be needed for the approval of said customer exchange and to comply with any Order issued by the Public Service Commission.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Cooperative this 19th day of February, 2014.

EXHIBIT 3
(CITY OF COLUMBIA ORDINANCE)

Introduced by McDavidFirst Reading 6-2-14Second Reading 6-16-14Ordinance No. 022091Council Bill No. B 150-14**AN ORDINANCE**

approving the transfer of customers and sale of facilities from Boone Electric Cooperative to the City of Columbia under the territorial agreement with Boone Electric Cooperative; authorizing a Customer Exchange Agreement with Boone Electric Cooperative; authorizing a Contract for Purchase and Sale of Distribution Facilities with Boone Electric Cooperative; authorizing the City Manager to make joint application to the public service commission and to take any other required actions with Boone Electric Cooperative for the exchange of customers; and fixing the time when this ordinance shall become effective.

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBIA, MISSOURI, AS FOLLOWS:

SECTION 1. The City Council hereby approves the transfer of twenty-nine (29) Boone Electric Cooperative customers to the City of Columbia, Missouri. The City Council hereby finds the mutual consent of the parties and that the transfer of utility service to be a benefit to both Boone Electric and the City of Columbia and to the public.

SECTION 2. The City Manager is hereby authorized to execute a Customer Exchange Agreement with Boone Electric Cooperative. The form and content of the agreement shall be substantially in the same form as set forth in "Attachment A" attached hereto.

SECTION 3. The City Manager is hereby authorized to execute a Contract for Purchase and Sale of Distribution Facilities with Boone Electric Cooperative. The form and content of the agreement shall be substantially in the same form as set forth in "Attachment B" attached hereto.

SECTION 4. The City Manager is authorized to make joint application to the Public Service Commission for any necessary approvals for the customer exchange and take any other required actions with Boone Electric Cooperative for the exchange of the customers.

SECTION 5. This ordinance shall be in full force and effect from and after its passage.

PASSED this 14th day of June, 2014.
