22.06 BUSINESS DEMAND RESPONSE

(continued)

Formatted: Font: 12 pt, Not Bold

Deleted: KANSAS CITY POWER & LIGHT COMPANY

ADDITIONAL PROGRAM OPTION: Market Based Demand Response (MBDR)

MBDR is offered as a separate Tariff outside of MEEIA. MBDR offers only qualified Business Demand Response Participants an additional opportunity to reduce their electric costs through participation with the Company in the wholesale Southwest Power Pool (SPP) energy market by receiving payment for providing their load reduction during high energy price periods. MBDR is available to Program Participants whose DR Resources are compliant with the SPP Tariff and SPP Marketplace Protocol requirements and can provide sustainable load reduction during market participation. An MBDR Participant has the option of committing their DR Resources to the SPP energy market unless the company has scheduled a potential Business Demand Response Curtailment Event for the same time period. Participation in MBDR authorizes the Company to offer the Customer's curtailment amount in the SPP Market and Participant compensation is based on any SPP settlement payments less MBDR fees. All SPP registration and technical requirements, market operating and settlement procedures, MBDR fees, etc. are details in Participants individual BMDR contract.

ADDITIONAL PROGRAM DETAILS:

Additional Program information and documents can be found at www.evergy.com/businessdr

RULES AND REGULATIONS ELECTRIC

22.06 RESERVED FOR FUTURE USE,

Deleted: KANSAS CITY POWER & LIGHT COMPANY

Deleted: 22.06 DEMAND RESPONSE INCENTIVE Deleted: ¶

Deleted: (continued)¶ CURTAILABLE LOAD:¶

Curtailable Load shall be that portion of a Customer's Estimated Peak Demand that the Customer is willing ¶ and able to commit for curtailment, and that the Company agrees to accept for curtailment. The Curtailable ¶ Load shall be the same amount for each month of the

contract. Under no circumstances shall the Curtailable ¶ Load be less than 25 kW. Curtailable Load is calculated as the difference between the Estimated Peak ¶

Demand as determined above, and the Firm Power Level.¶

SELF GENERATION:

Self-generation as a curtailment method is restricted to customers who can provide documentation validating¶ Compliance pursuant to Environmental Protection Agency ("EPA") regulations (summarized at ¶

www.epa.gov/ttn/atw/icengines/comply.html) that affect the use of reciprocating internal combustion engines.¶ CUSTOMER COMPENSATION:¶

Customer compensation shall be defined within each Customer contract. Timing of all payments/credits shall ¶ be specified in the curtailment contract with each

Customer. Payments shall be paid to the Customer by ¶ Company in the form of a check or bill credit as specified in the contract or by a Company-approved Aggregator ¶

as defined within the Customer's contract. The credits billing, operational, and related provisions of other applicable rate schedules shall remain in effect.¶

Compensation will include:¶

PROGRAM PARTICIPATION PAYMENT:

For each Curtailment Season, Customer shall receive a payment/credit based upon the incentive structure ¶ outlined within the contract term. The Program

Participation Payment for a Curtailment Season is equal to the per kilowatt of Curtailable Load rate as defined in the Customer's contract.¶ ¶

The Program Participation Payment will be divided by the number of months in the Curtailment Season and \P may be applied as bill credits equally for each month of the Curtailment Season or as a combined Participation \P

and Curtailment Event net payment check after the close of the DRI Season.¶

Curtailment Event Payment: The Customers may also receive an Event Payment for each Curtailment Hour ¶ during which the Customer's metered demand is less than or equal to his Firm Power Level.

NEED FOR CURTAILMENT: ¶

Curtailments can be requested for operational or economic reasons. Operational curtailments may occur when physical operating parameters approach becoming a constraint on the generation, transmission, or distribution systems, or to maintain the Company's capacity margin requirement. Economic curtailment may occur when the marginal cost to produce or procure energy, or the opportunity to sell the energy in the wholesale market, is greater than the Customer's retail price.¶

Deleted: KANSAS CITY POWER & LIGHT COMPANY

Deleted: 22.06 DEMAND RESPONSE INCENTIVE

Deleted: ¶

Deleted: (continued)

Deleted: ENERGY PURCHASE OPTION: At the Company's option and the Customer's request, during a Curtailment Event called for economic ¶

reasons, the Customer may purchase energy above its Firm Power Level from the Company at a price per¶ kilowatt-hour determined at the beginning of a Curtailment Event. A Curtailment Event Payment will not ¶

be paid to Customers for Curtailment Events where this option is used. Customer will not have the option¶ to purchase energy during a Curtailment Event called for operational reasons.¶

¶ PENALTIES:¶

Failure of the Customer to effect load reduction to its Firm Power Level or lower in response to any ¶ Company request for curtailment shall result in the

following reduction or refund of Program Participation¶ Payments and Curtailment Occurrence Payments for each such failure as follows:¶ ¶

Reduction of Program Participation Payment: Customer will receive reduced future Program Participation¶ Payments or a bill debit, in an amount equal to 150% of

the Program Participation Payment divided by the¶ Maximum Number of Curtailment Event Hours, the result

of which is multiplied by the percentage by ¶ which the Customer underperformed during a Curtailment Event Hour.¶

Any Customer who fails to reduce load to its Firm Power Level as described within their Customer \P

Contract may be removed from the program and/or be ineligible for this program for a period of two years¶ from the date of the third failure.¶

CURTAILMENT CANCELLATION:

The Company reserves the right to cancel a scheduled Curtailment Event prior to the start time of such \P Curtailment Event. However, if cancellation occurs with less than two hours of the notification period¶

remaining prior to commencement of a "urtailment Event, the canceled Curtailment Event shall be \P

counted as a separate occurrence with a zero-hour duration. ¶

" **1 TEST CURTAILMENT:** ¶
The Company reserves the right to request a Test Curtailment once each year and/or within three months after a Customer's failure to effect load reduction to its Firm Power Level or lower upon any Company request for curtailment. Test Curtailments do not count toward the Maximum Number of Curtailment Events. Customers will not be compensated for Test Curtailments.¶

¶ VOLUNTARY LOAD REDUCTION:¶ Customers served in this Program also will be served on the Voluntary Load Reduction Rider (Schedule VLR), subject to the paragraph entitled "Special Provisions for Customers Served on Schedule MP." A separate Contract for service on Schedule VLR is not required for customers served under this Program. ¶ ſ
