**NOTICE OF PUBLIC MEETING TO HEAR PRESENTATIONS
REGARDING IRP RULE REVISIONS**

August 14, 2009

For the past several months, the Public Service Commission’s Staff has hosted a series of workshops to consider changes to the Commission’s Integrated Resource Planning (IRP) regulation. That regulation requires Missouri’s investor-owned electric utilities to analyze their resource plans, resource acquisition strategies, and investment decisions with the intent to provide safe, reliable, and efficient energy services to the public at just and reasonable rates. Staff has asked the Commission to schedule a public meeting at which various parties will make brief presentations to the Commission regarding their suggestions on how the regulations should be revised.

The meeting will be held as follows:

Date: Monday , August 31, 2009
Time: 9:00 a.m.
Location: Governor Office Building
 Hearing Room 310
 200 Madison Street
 Jefferson City, MO 65102

The meeting and presentations will be transcribed and webcasted so they can be preserved. However, this is still an informal workshop proceeding. The presentations will not be sworn and will not be “on-the-record” as part of any official rulemaking proceeding.
