In the most recent legislative session, the General Assembly passed HB 142, which will affect renewable energy standard requirements and net metering standards. The Commission has created this working file to facilitate Staff's efforts to obtain input from interested stakeholders regarding the drafting of that rule.

Staff will present proposed rule amendments for the Commission's consideration by no later than April 8, 2014. To assist it in drafting those amendments, Staff will conduct one or more workshops to obtain stakeholder input. The time and location of the workshops will be established by Staff. The Commission invites all interested stakeholders to attend the workshops.
