² This column reflects the actual number of DS1 business UNE-P lines, not the voice grade equivalent for the lines.

³ This column reflects the actual number of 2-wire Digital business UNE-P lines, not the voice grade equivalent for the lines.

⁴ In calculating the business UNE-P voice grade equivalent totals, AT&T Missouri counted each 2-wire analog business UNE-P line as one (1) line, each 2-wire Digital business UNE-P line as two (2) voice grade equivalent lines, and each DS1 business UNE-P as 24 voice grade equivalent lines.

⁵ This column reflects the actual number of DS1 UNE-L lines, not the voice grade equivalent for the lines.

⁶ This column reflects the actual number of DS3 UNE-L lines, not the voice grade equivalent for the lines.

⁷ This column reflects the actual number of 2-wire Digital UNE-L lines, not the voice grade equivalent for the lines.

⁸ In calculating the UNE-L voice grade equivalent totals, AT&T Missouri counted each 2-wire analog UNE-L line as one (1) line, each 2-wire Digital UNE-L as two (2) voice grade equivalent lines, each DS1 UNE-L line as 24 voice grade equivalent lines, and each DS3 UNE-L line as 672 voice grade equivalent lines.
