Technology Services, LLC for Designation)
as a Telecommunications Carrier Eligible)
for Federal Universal Service Support)
Pursuant to the Telecommunications Act)
of 1996)

File No. TA-2019-0114

**ORDER GRANTING APPLICATION FOR DESIGNATION
AS AN ELIGIBLE TELECOMMUNICATIONS CARRIER**

Issue Date: December 12, 2018

Effective Date: January 11, 2019

On October 29, 2018, Barry Technology Services, LLC (“Barry”) requested designation by the Missouri Public Service Commission (“Commission”) as an Eligible Telecommunications Carrier (“ETC”) for the purpose of receiving federal universal service support funds under the Lifeline program and high-cost support under the Connect America Fund. Barry proposes to expand its current service area to the additional service area census block, where it has been allocated Connect America Fund Phase II support as an auction winner. Barry also seeks ETC status for the Lifeline/Disabled program for Barry, Newton, and MacDonald counties, in Missouri. Barry filed this application due to a recent award in a reverse auction for the Connect America Fund II (“CAF II”) held by the Federal Communications Commission (“FCC”).

The CAF II program is part of the FCC’s reform and modernization of its universal service fund support programs designed to accelerate the expansion of broadband services to rural areas, and to any areas which presently lack the infrastructure capable to support

at least 10/1 Mbps of fixed broadband services. The FCC held an auction to allocate funds to various companies which could further the goals of the CAF II program. The FCC requires each winning company to obtain ETC designation from its respective public utilities commission prior to receiving the allocated funds.

The Commission issued notice and set a deadline for intervention. No person or entity sought intervention in this matter, and no party has requested a hearing. On November 28, the Commission's Staff filed their *Recommendation*, which recommends that the Commission grant Barry's application.

The application is within the Commission's jurisdiction to decide.¹ Since no law requires a hearing, this is a non-contested case.² Non-contested cases do not require formal proceedings or hearings before the Commission, and as such, there is no evidentiary record.³ Consequently, the Commission bases its decision on the verified filings.

The federal Universal Service Fund was established in the Telecommunications Act of 1996 ("Act"). The stated purpose of the fund is to ensure that telephone customers in rural and high cost areas, as well as low-income customers, have access to quality telecommunications services at reasonable and affordable rates.⁴ To meet that goal, the Universal Service Fund redistributes money paid into the fund by telecommunications customers to telecommunications service providers who serve low-income customers or rural and high cost areas.

¹ 47 U.S.C. § 214(e)(2).

² Section 536.010(4), RSMo, defines a "contested case" as "a proceeding before an agency in which legal rights, duties or privileges of specific parties are required by law to be determined after hearing."

³ *Sapp v. City of St. Louis*, 320 S.W.3d 159, 163 (Mo. App. 2010).

⁴ 47 U.S.C. 254(b).

Before a telecommunications service provider is eligible to receive funding from the Universal Service Fund, it must be designated as an Eligible Telecommunications Company (“ETC”). Section 214(e)(6) of the Act provides, in pertinent part:

In the case of a common carrier providing telephone exchange service and exchange access that is not subject to the jurisdiction of a State commission, the Commission shall upon request designate such a common carrier that meets the requirements of paragraph (1) as an eligible telecommunications carrier for a service area designated by the Commission consistent with applicable Federal and State law.

Barry is authorized to do business in Missouri as a telecommunications provider, and is duly registered with the Commission. It is not delinquent or non-compliant with any Commission reporting or assessment requirements.

The Commission finds the assertions in the application and the *Recommendation* to be true. The Commission must grant Barry eligible telecommunications carrier designation if it satisfies all federal and state requirements.⁵ Based upon its independent and impartial review of the verified application and staff recommendation, the Commission finds that Barry has met all federal and state requirements and that it is in the public interest to grant the ETC application.

THE COMMISSION ORDERS THAT:

1. Barry Technology Services, LLC is designated as an eligible telecommunications carrier to receive federal universal service support funds under the Lifeline/Disabled program and high-cost support under the Connect America Fund, for the service area of Barry, Newton, and MacDonald counties in Missouri.

⁵ 47 U.S.C. § 214(e)(1),(2) and (6).

2. Barry Technology Services, LLC's current eligible telecommunications carrier designation is expanded to include the additional service area census blocks awarded to them in the CAF II Auction.

3. This order shall become effective on January 11, 2019.

4. This case shall be closed on January 12, 2019.

BY THE COMMISSION
