

Chapter 1: Executive Summary

Chapter 2: Planning Scenarios

| | |
|---|----|
| Highlights | 1 |
| 2.1 Scenarios and the Probability Tree..... | 1 |
| 2.2 Critical Dependent Uncertain Factors..... | 2 |
| 2.3 Assigning Subjective Probabilities | 4 |
| 2.4 Probability Tree Trimming..... | 6 |
| 2.5 Scenario Modeling..... | 7 |
| 2.5.1 Top-Down & Bottom-Up Models..... | 7 |
| 2.5.2 Top-Down Modeling: MRN Model | 10 |
| 2.5.3 Bottom-Up Modeling: NEEM Model | 12 |
| 2.5.4 Integrating MRN with NEEM | 15 |
| 2.5.5 Natural Gas Price Forecasts | 15 |
| 2.5.6 Coal Price Forecasts..... | 19 |
| 2.5.7 Emissions Price Forecasts | 25 |
| 2.5.8 Electricity Price Forecasts | 31 |
| 2.5.9 Nuclear Fuel Price Forecasts | 37 |
| 2.6 Supporting Tables | 43 |
| 2.7 Compliance References | 48 |

Chapter 2 – Appendix A: Subjective Probability Solicitation

Chapter 3: Load Analysis and Forecasting

| | |
|---|----|
| Highlights | 1 |
| 3.1 Energy Forecast | 1 |
| 3.1.1 Historical Database | 3 |
| 3.1.2 Service Territory Economy | 3 |
| 3.1.3 Economic Drivers | 8 |
| 3.1.4 Energy Forecasting | 9 |
| 3.1.5 Sensitivities and Scenarios | 17 |
| 3.1.6 Planning Case Forecast | 22 |

| | |
|--|----|
| 3.1.7 Forecast Results | 23 |
| 3.2 Peak and Hourly System Load Forecast | 31 |
| 3.2.1 Historical Peak and System Load | 32 |
| 3.2.2 Profile Shapes..... | 34 |
| 3.2.3 Peak Load Forecast..... | 40 |
| 3.2.4 Hourly System Load Forecast..... | 44 |
| 3.2.5 Forecast Results | 47 |
| 3.2.6 End Use Methodology Impact | 51 |
| 3.2.7 Peak Demand Weather Sensitivity | 53 |
| 3.3 Weather Normalization | 54 |
| 3.4 Future Research Projects..... | 56 |
| 3.5 Compliance References | 59 |

Chapter 3 – Appendix A: Supporting Tables

Chapter 4: Thermal Resources

| | |
|---|----|
| Highlights | 1 |
| 4.1 Existing Thermal Resources..... | 2 |
| 4.1.1 Existing Coal Resources | 2 |
| 4.1.2 Existing Peaking Resources..... | 5 |
| 4.1.3 Existing Nuclear Resource | 5 |
| 4.2 New Thermal Resources | 6 |
| 4.2.1 Coal and Gas Options | 6 |
| 4.2.2 New Nuclear Resource | 8 |
| 4.3 Transmission Interconnection..... | 12 |
| 4.4 Meramec Retirement | 14 |
| 4.5 Existing Plant Efficiency Options | 18 |
| 4.6 Power Purchase Agreements | 19 |
| 4.7 Supporting Tables | 20 |
| 4.8 Compliance References | 23 |

Chapter 4 – Appendix A: Fatal Flaw Analysis – Coal and Gas**Chapter 4 – Appendix B: Preliminary Screening – Coal and Gas****Chapter 5: Renewable and Storage Resources**

| | |
|--|----|
| Highlights | 1 |
| 5.1 Existing Renewable and Storage Resources..... | 2 |
| 5.2 Potential New Storage Resources..... | 4 |
| 5.3 Potential New Renewable Resources | 6 |
| 5.3.1 Potential Landfill Gas Projects | 6 |
| 5.3.2 Potential Hydroelectric Projects | 8 |
| 5.3.3 Potential Anaerobic Digestion Projects | 11 |
| 5.3.4 Potential Biomass Projects..... | 16 |
| 5.3.5 Potential Solar Resources..... | 27 |
| 5.3.6 Potential Wind Resources | 31 |
| 5.4 Renewable Supply..... | 34 |
| 5.5 Renewable Energy Standards | 36 |
| 5.5.1 Missouri RES | 39 |
| 5.5.2 Federal RES..... | 42 |
| 5.6 Compliance References | 46 |

Chapter 5 – Appendix A: Fatal Flaw Analysis – Energy Storage**Chapter 5 – Appendix B: Renewable Resource Characterization****Chapter 6: Transmission and Distribution**

| | |
|--|---|
| Highlights | 1 |
| 6.1 Transmission | 2 |
| 6.1.1 Existing System..... | 2 |
| 6.1.2 Regional Transmission Organization Planning..... | 2 |
| 6.1.3 Ameren Missouri Transmission Planning | 4 |
| 6.1.4 Cost Allocation Assumptions for Modeling | 7 |
| 6.2 Distribution..... | 9 |
| 6.2.1 Existing System..... | 9 |

| | |
|---|----|
| 6.2.2 System Inspection | 10 |
| 6.2.3 System Planning | 11 |
| 6.2.4 System Efficiency | 13 |
| 6.2.5 Peak Demand Reduction via Voltage Control | 15 |
| 6.2.6 Distributed Generation | 16 |
| 6.3 Smart Grid | 16 |
| 6.3.1 Smart Grid Overview | 16 |
| 6.3.2 Ameren Missouri's Smart Grid Plan | 18 |
| 6.3.2.1 Reliability Improvement | 18 |
| 6.3.2.2 Efficiency, Optimization, and Integration | 19 |
| 6.3.2.3 Customer Enablement & Use of Technology | 23 |
| 6.4 Compliance References | 26 |

Chapter 7: Demand-Side Resources

| | |
|---|----|
| Highlights | 1 |
| 7.1 Implementation Plan Summary..... | 1 |
| 7.1.1 Introduction | 1 |
| 7.1.2 Portfolio Programs | 2 |
| 7.1.3 Portfolio Overview | 4 |
| 7.1.4 Key Changes for Cycle 2..... | 5 |
| 7.2 The Planning Process | 12 |
| 7.2.1 DSM Market Potential Study | 13 |
| 7.2.2 Effects of Missouri Energy Efficiency Investment Act..... | 19 |
| 7.2.3 Cost-Effectiveness Defined | 24 |
| 7.2.4 Avoided Costs | 26 |
| 7.2.5 Overview of the EE Analysis | 30 |
| 7.2.6 Demand Response | 45 |
| 7.2.7 Rate Design | 54 |
| 7.2.8 Distributed Generation | 56 |
| 7.3 Implementation | 66 |
| 7.3.1 Implementation Model..... | 66 |

| | |
|--|-----|
| 7.3.2 Program Ally Network | 67 |
| 7.3.3 Outreach, Marketing and Communications | 68 |
| 7.3.4 Filing, Workforce Development, and Implementation Schedule | 70 |
| 7.4 Evaluation Measurement and Verification (“EM&V”) | 73 |
| 7.4.1 The EM&V Model | 73 |
| 7.4.2 Internal Verification and Quality Control | 78 |
| 7.4.3 EM&V Considerations | 78 |
| 7.5 Portfolio Framework | 79 |
| 7.5.1 Planning Objectives | 80 |
| 7.5.2 Portfolio Diversity and Flexibility | 81 |
| 7.6 Key Issues | 82 |
| 7.6.1 Motors | 82 |
| 7.6.2 Low Income Programs | 86 |
| 7.6.3 Integration with Natural Gas Programs | 88 |
| 7.6.4 Coordination with State Administered Programs | 89 |
| 7.6.5 Research & Development | 90 |
| 7.6.6 DSM in Ameren Missouri’s Facilities | 102 |
| 7.6.7 EISA’s Impact | 108 |
| 7.7 Risk & Uncertainty Analysis | 112 |
| 7.8 DSM Portfolios Considered | 115 |
| 7.8.1 Portfolio Descriptions | 115 |
| 7.8.2 Portfolio Impacts and Costs | 117 |
| 7.9 Compliance References | 124 |

Chapter 7 – Appendix A: DSM Program Templates

Chapter 7 – Appendix B: DSM Potential Study Executive Summary

Chapter 8: Environmental

| | |
|--|---|
| Highlights | 1 |
| 8.1 Overview | 1 |
| 8.2 Major Air Environmental Laws | 3 |

| | |
|---|----|
| 8.2.1 Current Laws..... | 3 |
| 8.2.2 Possible Future Air Environmental Initiatives | 6 |
| 8.3 Major Water Environmental Laws..... | 9 |
| 8.3.1 Current Laws..... | 9 |
| 8.3.2 Possible Future Water Environmental Initiatives | 10 |
| 8.4 Major Solid Waste Environmental Laws | 12 |
| 8.4.1 Current Laws..... | 12 |
| 8.4.2 Possible Future Solid Waste Environmental Initiatives | 13 |
| 8.5 Other Environmental Laws | 14 |
| 8.6 Tritium and Other Noble Gases | 15 |
| 8.6.1 Overview | 15 |
| 8.6.2 Current Radiation Protection Limits..... | 16 |
| 8.6.3 Possible Future Radiation Protection Limits..... | 18 |
| 8.7 Environmental Scenarios..... | 20 |
| 8.7.1 Moderate | 21 |
| 8.7.2 Aggressive | 22 |
| 8.8 Technology Characterization | 22 |
| 8.9 Compliance References | 24 |

Chapter 9: Modeling and Risk Analysis

| | |
|--|----|
| Highlights | 1 |
| 9.1 Alternative Resource Plans | 2 |
| 9.1.1 Resource Plan Model..... | 5 |
| 9.1.2 Preliminary Candidate Resource Plans..... | 7 |
| 9.2 Sensitivity Analysis | 13 |
| 9.2.1 Uncertain Factors..... | 13 |
| 9.2.2 Sensitivity Analysis Results..... | 18 |
| 9.3 Risk Analysis | 20 |
| 9.3.1 Risk Analysis Results..... | 20 |
| 9.3.2 Incorporating the Meramec Retirement Analysis..... | 22 |
| 9.3.3 DSM Portfolio Comparison..... | 23 |

| | |
|---------------------------------------|----|
| 9.3.4 Risk Analysis 2.0 Results | 24 |
| 9.4 Compliance References | 26 |

Chapter 9 – Appendix A: Supporting Tables

Chapter 10: Strategy Selection

| | |
|--|----|
| Highlights | 1 |
| 10.1 Decision Factors..... | 1 |
| 10.1.1 Demand-Side Resources Financing..... | 3 |
| 10.1.2 Large Investment Financing | 7 |
| 10.1.3 Environmental/Retirement..... | 11 |
| 10.2 Preferred Plan Selection..... | 12 |
| 10.3 Resource Acquisition Strategy..... | 15 |
| 10.3.1 Preferred Plan | 16 |
| 10.3.2 Contingency Planning | 16 |
| 10.3.3 Implementation Plan | 17 |
| 10.3.4 Monitoring Critical Uncertain Factors | 19 |
| 10.4 Compliance References | 21 |

Chapter 10 – Appendix A: Financing Analysis Results

Chapter 10 – Appendix B: Candidate Resource Plan Dashboards

Chapter 10 – Appendix C: Expected Value of Better Information

Chapter 10 – Appendix D: Resource Acquisition Strategy Approval
