Please describe the methods your agency considered or used to reduce the impact on small businesses (*examples: consolidation, simplification, differing compliance, differing reporting requirements, less stringent deadlines, performance rather than design standards, exemption, or any other mitigating technique*).

This amendment will require more specificity when a party seeks to intervene in a case before the Commission. Therefore, it should simplify processes and procedures at the Commission for any party to a case.

Please explain how your agency has involved small businesses in the development of the proposed rule.

This is an amendment to a procedural rule of the Commission. It is based on the experience of the Commission in processing its cases.

Please list the probable monetary costs and benefits to your agency and any other agencies affected. Please include the estimated total amount your agency expects to collect from additionally imposed fees and how the moneys will be used.

No monetary costs or benefits to this or any other agency. Zero fees or money collected as a result of this amendment.

Please describe small businesses that will be required to comply with the proposed rule and how they may be adversely affected.

This rule and the proposed amendment do not require any party to file a request to intervene. However, any party (which could be a small business) choosing to intervene in a Commission case will have to comply with this procedural rule by stating if it is unsure of the position it will take in a case (support or oppose the relief sought) then explain why

it cannot assert a position based on the initial filings and when such position could be asserted.

Please list direct and indirect costs (in dollars amounts) associated with compliance.

None identified.

Please list types of business that will be directly affected by, bear the cost of, or directly benefit from the proposed rule.

Investor-owned public utilities and their customers should benefit from this amendment because it will provide clarity in the contested case process and avoid delays in processing the case.

Does the proposed rule include provisions that are more stringent than those mandated by comparable or related federal, state, or county standards?

Yes___ No___X

If yes, please explain the reason for imposing a more stringent standard.

For further guidance in the completion of this statement, please see §536.300, RSMo.
