SOUTHWESTERN BELL TELEPHONE COMPANY
 SCHEDULE OF RATES
 FOR
WIDE AREA TELECOMMUNICATIONS SERVICE

Applying to its authorized intraLATA territories within the State of Missouri except as stated herein.

Southwestern Bell Telephone Company is serving as a primary toll carrier solely pursuant to the terms of the Conceptual Framework, Missouri Intrastate, IntraLATA Primary Carrier By Toll Center Plan, filed in Mo. P.S.C. Case No. TO-84-222 et al., on January 29, 1987, as modified by subsequent Commission orders in that case dated April 3, 1987, October 23, 1987 and December 11, 1987. Southwestern Bell Telephone Company hereby agrees to undertake the obligations of provider of last resort for WATS and 800 services in accordance with the Conceptual Framework, for the term of that agreement, and in accordance with said Commission orders. By filing this tariff and operating under its terms, Southwestern Bell Telephone Company does not concede that it has any obligation to so serve, absent the Conceptual Framework and said Commission orders.

Pursuant to the Commission's orders referenced above, charges for services governed by the Conceptual Framework will be made at rates shown in this tariff. Southwestern Bell Telephone Company specifically denies that, by virtue of its execution of any contract with any secondary carrier or by the filing of this or any tariffs which are applicable to services governed by the Conceptual Framework and rendered in exchanges in which Southwestern Bell Telephone Company is not the authorized local exchange provider, Southwestern Bell Telephone Company is undertaking to provide WATS and 800 services, professing to serve those exchanges listed below, or offering to provide WATS and 800 services to those exchanges.

WIDE AREA TELECOMMUNICATIONS SERVICE

1. All equipment in this Section, except as noted in Footnote (1), has been identified as Customer Premises Equipment (See Section 9 of the General Exchange Tariff, Explanation of Terms) and will be provided by the Telephone Company for use with new or existing service only so long as such equipment is available from Telephone Company inventory acquired prior to January 31, 1983.
2. The Telephone Company will continue to provide maintenance for the Telephone Company-provided Customer Premises Equipment described in Paragraph 1., subject to the availability of replacement parts and/or equipment.
3. The use and provision of Customer Premises Equipment described in Paragraph 1. is subject to filed tariffs.

AUG - 6 1982

1. All equipment in this Section, except as noted in Footnote (1), has been identified as Customer Premises Equipment (See Section 9 of the General Exchange Tariff, Explanation of Terms) and will be provided by the Telephone Company for use with new or existing service only so long as such equipment is available from Telephone Company inventory acquired prior to January 1, 1983.
2. The Telephone Company will continue to provide maintenance for the Telephone Company-provided Customer Premises Equipment described in Paragraph 1., subject to the availability of replacement parts and/or equipment.
3. The use and provision of Customer Premises Equipment described in Paragraph 1. is subject to filed tariffs.

CANCELLED

St. Louis, Missouri

No Supplement to this tariff will be issued except for the purpose of canceling this tariff.

Wide Area Telecommunications Service Tariff
14th Revised Sheet 1
Replacing 13th Revised Sheet 1

WIDE AREA TELECOMMUNICATIONS SERVICE

1. APPLICATION OF TARIFF

This Tariff applies to WATS furnished or made available by the Telephone Company over service components wholly within, or partly within, the State of Missouri and between points within the State of Missouri.

(CT) The services in this Tariff are competitively classified.

2. GENERAL REGULATIONS

2.1 Definitions

The following definitions pertain to Wide Area Telecommunications Service. Other terms used in this Tariff are found in the Explanation of Terms section of the General Exchange Tariff or in the definition portion of the Access Tariff.

CHANGE: The substitution of 800 Service for Outward WATS or vice versa.

COMPLEMENTARY SERVICE: (See Jointly Provided WATS Service)

HUNTING ARRANGEMENT: A grouping of 800 Service access lines arranged for the completion of a given call or arranged for overflow to or from another access line or group of access lines.

INTRALATA: Wide Area Telecommunications Service (WATS) where the originating service point location and the terminating service point location are all within the same Local Access and Transport Area (LATA).

JOINTLY PROVIDED WATS SERVICE: Jointly provided WATS Service is an arrangement between the Telephone Company and an interexchange carrier (IXC). In this arrangement the intraLATA usage will be carried by the Telephone Company and billed at the rates found in this Tariff, and the interLATA usage will be carried by the IXC and billed at the rates of the IXC. Outward WATS service may originate on a WATS Access Line, and 800 Service may terminate to a WATS Access Line or to local exchange lines. Jointly provided WATS service is also referred to as complementary service.

LOCAL ACCESS AND TRANSPORT AREA (LATA): The Local Access and Transport Area denotes a geographical area established for the administration of communications service. It encompasses designated local operating Telephone Company exchanges which are grouped to serve common social, economic and miscellaneous purposes.

WIDE AREA TELECOMMUNICATIONS SERVICE

1. APPLICATION OF TARIFF

MO. PUBLIC SERVICE COMMISSION

This Tariff applies to WATS furnished or made available by the Telephone Company over service components wholly within, or partly within, the State of Missouri and between points within the State of Missouri.

CANCELLED

The services in this Tariff were classified as transitionally competitive effective January 10, 1993.

MAR 29 2002

2. GENERAL REGULATIONS

MISSOURI
Public Service Commission

2.1 Definitions

The following definitions pertain to Wide Area Telecommunications Service. Other terms used in this Tariff are found in the Explanation of Terms section of the General Exchange Tariff or in the definition portion of the Access Tariff.

CHANGE: The substitution of 800 Service for Outward WATS or vice versa.

(AT) COMPLEMENTARY SERVICE: (See Jointly Provided WATS Service)

HUNTING ARRANGEMENT: A grouping of 800 Service access lines arranged for the completion of a given call or arranged for overflow to or from another access line or group of access lines.

INTRALATA: Wide Area Telecommunications Service (WATS) where the originating service point location and the terminating service point location are all within the same Local Access and Transport Area (LATA).

(CT) JOINTLY PROVIDED WATS SERVICE: Jointly provided WATS Service is an arrangement between the Telephone Company and an interexchange carrier (IXC). In this arrangement the intraLATA usage will be carried by the Telephone Company and billed at the rates found in this Tariff, and the interLATA usage will be carried by the IXC and billed at the rates of the IXC. Outward WATS service may originate on a WATS Access Line, and 800 Service may terminate to a WATS Access Line or to local exchange lines. Jointly provided WATS service is also referred to as complementary service.

LOCAL ACCESS AND TRANSPORT AREA (LATA): The Local Access and Transport Area denotes a geographical area established for the administration of communications service. It encompasses designated local operating Telephone Company exchanges which are grouped to serve common social, economic and miscellaneous purposes.

2. GENERAL REGULATIONS-(Continued)

2.1 Definitions-(Continued)

(MT) MaxiMizer 800^R: A registered mark of Southwestern Bell Telephone Company which denotes the
(MT) intraLATA 800 service provided to customers utilizing the telephone company's 800 data base.

MOVE: A change in location on the same premises of the customer's WATS access line.

MULTILINE TERMINATING SYSTEM: Switching equipment (i.e., PBX, Centrex, ACD, tandem switching equipment) and Key telephone-type systems which are capable of terminating more than one central office line, WATS access line, Private Line Service or communications system.

NON-JOINTLY PROVIDED WATS SERVICE: At the option of the interexchange customer (IC) providing interLATA service to the end user, the IC may choose to not jointly provide WATS Service with the Telephone Company. If the WATS Service is not jointly provided, the Telephone Company will bill long distance message rates for intraLATA calls originated on interLATA-only WATS Access Lines.

and Original Sheet 2.01

(CP) WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS--(Continued)

JAN 12 1983

2.1 Definitions--(Continued)

MISSOURI
Public Service Commission

SERVICE GROUP: The term "service group," as used in connection with Outward WATS, denotes one or more Outward WATS access lines terminated in the same multiline terminating system. When used in connection with 800 Service, it denotes the access lines arranged in the serving office equipment furnished by the Telephone Company as part of a given hunting arrangement.

TELEPHONE COMPANY: The Southwestern Bell Telephone Company.

WATS: The furnishing of service for dial-type telecommunications between a WATS access line and points within the State of Missouri. The WATS charges set forth in this Tariff are in payment for the service furnished between the calling and called stations.

WATS ACCESS LINE: A line from the customer's premises to a Telephone Company serving office which is provided for the purpose of completing WATS calls. Each such line will be arranged at the customer's option for either Outward WATS or 800 Service, but not for both.

2.2 Undertaking of Telephone Company

Transmitting Messages - The Telephone Company does not transmit messages but furnishes the use of its services to its customers for communications.

The design, maintenance and operation of Wide Area Telecommunications Service envisions that communications will originate or terminate at a WATS station for the purpose of communicating with stations in the specified service areas. Connections of communications systems provided by the customer or Other Common Carrier to WATS may be made. However, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

2.3 Availability of Service

Service is furnished subject to the availability of the service components required. The Telephone Company will determine which of those components shall be used and make modifications to those components at its option.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.2 Undertaking of Telephone Company

Transmitting Messages - The Telephone Company does not transmit messages but furnishes the use of its services to its customers for communications.

(CP)

The design, maintenance and operation of Wide Area Telecommunications Service envisions that communications will originate or terminate at a WATS service point for the purpose of communicating with service points in the specified service areas. Connections of customer premises equipment or communications systems or interexchange customer-provided premises equipment or communications systems to WATS may be made. However, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

2.3 Availability of Service

Service is furnished subject to the availability of the service components required. The Telephone Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.

2.4 Liability of Telephone Company

- A. In view of the fact that the customer has exclusive control of his communications over the services furnished him by the Telephone Company, and of the other uses for which service components may be furnished him by the Telephone Company and because of unavoidableness of errors incident to the services and to the use of such service components of the Telephone Company, the services and service components furnished by the Telephone Company are subject to the terms, conditions and limitations herein specified.
- B. The Telephone Company's failure to provide or maintain service under this Tariff shall be excused by labor difficulties, governmental orders, civil commotion, acts of God and other circumstances beyond the Telephone Company's reasonable control, subject to the interruption allowance provisions of this Tariff.
- C. With respect to any claim or suit, by a customer or by any others, for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission or service occurring in the course of furnishing service, channels or other service components, the Telephone Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the customer for the period during which such mistake, omission, interruption, delay, error or defect in transmission or service occurs and continues. This liability shall be in addition to any amounts that may otherwise be due to the customer under this Tariff as an allowance for interruptions. No other liability shall in any case attach to the Telephone Company in consideration of such interruptions. However, such mistakes, omissions, interruptions, delays, errors or defects in transmission or service which are caused or contributed to by the negligence or willful act of the customer or which arise from or in connection with the use of customer premises equipment or service components shall not result in the imposition of any liability whatsoever upon the Telephone Company.
- D. The Telephone Company shall be indemnified and saved harmless by the customer or customers against claims for libel, slander or the infringement of copyright arising directly or indirectly from the material transmitted over the service components or the use thereof, against claims for infringement of patents arising from combining with, or using in connection with, service components furnished by the Telephone Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with service components provided by the Telephone Company.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.4 Liability of Telephone Company-(Continued)

- (CP) E. When the lines of other telephone companies are used in establishing connections to service points not reached by the Telephone Company's lines, the Telephone Company is not liable for any act or omission of the other company or companies.
- (CP) F. The Telephone Company does not guarantee nor make any warranty with respect to service components provided by it for use in an explosive atmosphere. The customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer, or by any other party or person for any personal injury to or death of any person or persons and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said service components so provided.

The Company may require each customer to sign an agreement for the furnishing of such service components as a condition precedent to the furnishing of such equipment.

The customer shall furnish, install and maintain sealed conduit with explosion-proof fittings between the service components provided in an explosive atmosphere and points outside the hazardous area where connection may be made with regular service components of the Company. The customer may be required to install and maintain these service components within the hazardous area if, in the opinion of the Company, injury or damage to Company employees or property might result from installation or maintenance by the Company.

- (CP) G. The charges specified in this Tariff do not contemplate work being performed by the Telephone Company employees involved at a time when overtime wages apply, due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime be performed or interrupts work once begun, an additional charge based on the additional costs involved applies.

2.5 Limitation of Service

- (CP) A. WATS does not include person-to-person, collect, conference or other calls requiring operator handling, except that an operator will reach the called telephone number where service components are not available for customer dial completion.

Service Tariff
Original Sheet 5.1

WIDE AREA TELECOMMUNICATIONS SERVICE

(MT) 2. GENERAL REGULATIONS-(Continued)

2.6 Use of Service for Unlawful Purposes

The service is furnished subject to the condition that it will not be used for an unlawful purpose.

2.7 Suspension and Termination of Service for Cause

- A. The WATS Access Line may be suspended by the Telephone Company in accordance with the Suspension of Service Section of the General Exchange Tariff. For the purposes of administering this provision, the WATS Access Line is considered business service.
- B. Upon nonpayment of any sum due the Telephone Company, or upon a violation of any of the conditions governing the furnishing of service, the Telephone Company may, by notice in writing to the customer, without incurring any liability, forthwith discontinue the furnishing of said service. This written notice shall be sent or delivered to the customer five (5) days prior to the date of the proposed discontinuance. If in the judgment of the Telephone Company, unusual risk of financial loss exists, service may be discontinued after 48 hours' written notice has been furnished to the customer.
- C. 800 Service is furnished upon condition that the customer obtain adequate service to permit the use of this service without injurious effects upon it or any other service rendered by the Telephone Company. The Telephone Company may terminate or refuse to furnish 800 Service to any customer without incurring any liability if the use of the service would interfere with or impair WATS or any other service rendered by the Telephone Company, provided that in the case of a termination of service, at least five days have elapsed following written notification to the subscriber by mail or in person of the Telephone Company's intention to terminate the service for such cause.
- D. The rules and regulations as applied to billing and collection practices for services provided to customers are found in the Rules and Regulations Applying to All Customers' Contracts, Suspension of Service and Restoration of Service Sections of the Missouri General Exchange Tariff.
- (MT) E. The WATS Access Line may not be suspended at the customer's request.

2. GENERAL REGULATIONS-(Continued)

2.8 Use of the Service by the Customer

- A. The service is provided for use by the customer and may be used by others when so authorized by the customer, providing that all such usage shall be subject to the provisions of this Tariff.
- B. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes, but is not limited to:

(AT) 1. The placing or acceptance of a WATS call in response to any uncompleted long distance message call which was not completed in order to transmit or receive intelligence without the payment of the applicable long distance message charge.

(CT) 2. The obtaining, or attempting to obtain, or assisting another to obtain to attempt to obtain Wide Area Telecommunications Service by rearranging, tampering with or making connection with any service components of the Telephone Company or by any trick, scheme, false representation or credit device, or by or through any other fraudulent means or device whatsoever with intent to avoid the payment, in whole or in part, the regular charge for such service.

(CT) 3. The use of the service or service components of the Telephone Company a call or calls, anonymous or otherwise, if in a manner reasonably to frighten, abuse, torment or harass another.

4. The use of profane or obscene language.

5. The use of the service in such a manner as to interfere unreasonably the use of service by one or more other customers.

1.2 GENERAL REGULATIONS-(Continued)

1.2.5 Limitation of Service-(Continued)

WATS is not represented as adapted for connection to other services of the Telephone Company or to customer-provided systems. The service contemplates the provision of satisfactory transmission only between the access line and the calling or called station. The access line will be terminated only at a customer's premises located in the same serving exchange of the same state as that for which the rate applies.

1.2.6 Use of Service for Unlawful Purposes

The service is furnished subject to the condition that it will not be used for an unlawful purpose.

1.2.7 Termination of Service for Cause

1. Upon non-payment of any sum due the Telephone Company, or upon a violation of any of the conditions governing the furnishing of service, the Telephone Company may, by notice in writing to the customer, without incurring any liability, forthwith discontinue the furnishing of said service.
2. The rules and regulations as applied to billing and collection practices for services provided to residence customers are found in Sections 25 and 33 of the Missouri General Exchange Tariff.
- (AT) 3. Inward WATS (800 Service) is furnished upon the condition that, and only so long as, the customer subscribes to a sufficient number of access lines so that the calls placed to the customer will not at any time cause impairment, disruption or deterioration of the quality of inward WATS (800 Service) or any other telephone service furnished for the use of the public generally. The Telephone Company may terminate or refuse to furnish inward WATS (800 Service) to any customer, without incurring any liability therefor if the use of the service would interfere with or impair Wide Area Telephone Service or any other service rendered by the Telephone Company.

2. GENERAL REGULATIONS-(Continued)

2.9 Advance Payments

Applicants for service who do not have an account with the Telephone Company or whose financial responsibility is not a matter of general knowledge may be required to make an advance payment at the time of application equal to the Installation Charges, if applicable, and at least one month's estimated charges for the service desired.

The amount of the advance payment is credited to the customer's account as applying to any indebtedness under the contract.

2.10 Payment of Charges

- A. The customer is responsible for payment of all charges for service furnished. Charges are based on Tariff rates and regulations in effect at the time the service is furnished. Usage charges are billed at the end of the billing cycle. All other recurring charges are billed monthly in advance. All charges are due when the bill is rendered.
- B. The rules and regulations as applied to billing and collection practices for services provided to customers are found in the Rules and Regulations Applying to All Customer's Contracts, Suspension of Service and Restoration of Service Sections of the General Exchange Tariff.

(AT)

2.11 Deposits

The Telephone Company may require an applicant or a present customer to post a deposit in accordance with the provisions of the Rules and Regulations Applying to All Customers' Contracts Section of the General Exchange Tariff.

2.12 Defacement of Premises

The Telephone Company is not liable for any defacement of or damage to the premises of a customer resulting from the furnishing of service or the installation of the service components and associated wiring furnished by the Telephone Company on such premises or by the installation or removal thereof when such defacement or damage is not the result of negligence of the agents or employees of the Telephone Company.

2. GENERAL REGULATIONS-(Continued)

2.13 Theft of Service Components

The customer is required to reimburse the Telephone Company for any loss through theft of the service components on the customer's premises.

2.14 Cancellation of Application for Service

- A. Where an application for service is canceled by the applicant prior to the start of installation of service components, no charge applies.
- B. Where installation of service components has been started prior to the cancellation, Installation Charges apply.

2.15 Call Handling and Destination Features

The Call Handling and Destination Features described in the Common Line 800 Service section of this Tariff are also available for use with IntraLATA 800 Service that is terminated to a WATS Access Line.

(AT)

Call Handling and Destination Features are call routing features that are available for use with intraLATA 800 Service that utilizes the 800 Database of the Telephone Company. These features, excluding Originating Location Service, may not be used to make call routing decisions on an Interexchange Carrier's interLATA 800 Service.

(AT)

If the Telephone Company has been authorized by the Interexchange Carrier to accept orders for the Interexchange Carrier's call routing features, the Telephone Company may add the Interexchange Carrier's interLATA call routing information to the 800 database record. Authorization will be granted via a written agreement between the Telephone Company and the Interexchange Carrier. A copy of the agreement is available upon request.

2. GENERAL REGULATIONS-(Continued)

(CP) 2.19 Maintenance and Repairs

The Telephone Company undertakes to maintain and repair the service components which it furnishes to customers. The customer shall be responsible for damages to service components of the Telephone Company caused by the negligence or willful act of the customer. The customer may not rearrange, disconnect, remove or attempt to repair or permit others to rearrange, disconnect, remove or attempt to repair any service components installed by the Telephone Company except upon the written consent of the Telephone Company.

A nonrecurring Maintenance Service Charge of \$25.00 will apply for each repair visit to a customer's premises or the premises of any other customer where the service difficulty or trouble results from the use of customer premises equipment or service components.

2.20 Access to Customers' Premises

(CP) The agents and employees of the Telephone Company shall have the right to enter the premises of a customer at any reasonable hour for the purpose of installing, inspecting or repairing the service components of the Telephone Company or upon termination of the service for the purpose of removing such service components.

(CP) 2.21 Allowance for Interruptions

- A. Credit is allowed for interruption of the access line of 24 consecutive hours or more after being reported out of order. Interruption to the access line, not due to the negligence of the customer, is credited at one-thirtieth of the monthly charge for the access line for each 24 hours or major fraction thereof of interruption. The refund may be accomplished by a credit on a subsequent bill for WATS Service.
- B. Long Distance Telecommunications Service furnished at the customer's request when his Wide Area Telecommunications Service is interrupted is charged for at the Long Distance Telecommunications rates contained in the Long Distance Message Telecommunications Service Tariff.

Wide Area Telecommunications Service Tariff
1st Revised Sheet 9.01
Replacing Original Sheet 9.01

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.22 Special Construction

- A. Rates and charges for special construction will be provided as set forth in Section 14 of the Access Services Tariff.
- B. Special construction is that construction undertaken:
 - 1. Where service components are not presently available, and there is no other requirement for the service components so constructed.
 - 2. Of a type other than that which the Telephone Company would normally utilize in the furnishing of its services.
 - 3. Over a route other than that which the Telephone Company would normally utilize in the furnishing of its services.
 - 4. In a quantity greater than that which the Telephone Company would normally construct to serve the customer's needs.
 - 5. On a temporary basis until permanent service components are available.
 - 6. Involving abnormal costs.
 - 7. In advance of the normal construction on an expedited basis.
- C. A request for charges for special construction will be subject to a special Quotation Charge for the direct administrative and engineering costs associated with the preparation of that particular quotation. The amount of such charges will be credited to the account of the customer when an order for that particular special construction is received within 90 days of the quotation. The customer will authorize, through a designated representative, the request for a quotation before the Telephone Company undertakes any work involved in developing such quotations.

2.23 Billing Information

When WATS or a WATS-like service is provided by an Interexchange Customer, the Interexchange Customer is required to provide sufficient billing information so that the Telephone Company can bill the end user for intraLATA usage as provided for in this tariff. If sufficient billing information is not provided by the Interexchange Customer, the Interexchange Customer will be liable for the revenue associated with the intraLATA usage.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.24 Common Line 800 Service Regulations

Common Line 800 Service provides 800 Service utilizing the 800 Data Base of the Telephone Company. The 800 Service calls will be terminated over exchange telephone service facilities provided by the Telephone Company. Termination to Remote Call Forwarding Service is also permitted. Common Line 800 Service is not available for use with cellular telephone service, mobile telephone service, or pay telephone service.

(CT)

Area of Service defines the geographic locations within the state from which the customer wants to accept calls for a given 800 number.

If the customer wants an Area of Service which is larger than a single LATA, the customer must subscribe to exchange telephone service in each LATA in the Area of Service or arrange for an Interexchange Carrier to provide transport of the interLATA calls.

Only one 800 number will be assigned to terminate calls on any given exchange telephone service facility.

Customers of Common Line 800 Service may receive call detail information or summary usage information. Call detail information will be provided only in areas where facilities permit.

In the event that the customer's exchange telephone service goes out of service (for reasons other than negligence or a willful act of the customer), at the customer's request, the Telephone Company will change, at no charge, the customer's Common Line 800 account record to permit termination of the 800 service calls to an alternate facility.

Rates for Common Line 800 Service and its optional features can be found in Section 5 of this tariff.

The business subscriber to Common Line 800 Service will receive at no additional charge one Primary Listing and one Foreign Listing for each 800 number.

The Primary Listing must be in the subscriber's local directory, and the Foreign Listing must be in a directory in the subscriber's area of service. Additional Foreign Listings may be provided at the rates and charges as found in the Company's General Exchange Tariff.

2.24.1 Call Handling and Destination Features

Call Handling and Destination Features are features that are available for use with Common Line 800 Service that utilizes the 800 Data Base of the Telephone Company. The customer may subscribe to one or more of the features. These features include the following services:

- A. Originating Location Service - This feature will permit the customer to select territories from which they wish to receive calls based on the originating location of the call. All customers will receive this feature.
- B. Time of Day Service - This feature will permit the customer to have the terminating location of the 800 call vary based on the time of day the call is placed. (USOC: 8HFTD)
- C. Day of Week Service - This feature will permit the customer to have the terminating location of the 800 call vary based on the day of the week the call is placed. (USOC: 8HFDW)
- D. Traffic Allocation Service - This feature will permit the customer to have the 800 calls routed to multiple terminations based on a percentage of all 800 calls. (USOC: 8HFTA)
- E. Specific Day Routing Service - This feature will permit the customer to arrange the service so that the terminating location of the call is varied based on a specific day of the year. For example, calls placed on Christmas Day could be routed to a number different than the number that receives the calls the other 364 days of the year. (USOC: 8HFSD)
- F. Multiple Carrier Service - This feature will permit the customer to have multiple carriers for the interLATA 800 Service calls. Carrier selection will be based on Originating Location Service. (8HFMC)

2.25 Telecommunications Service Priority System

The priority provisioning and restoration of services offered under this tariff relative to the National Security Emergency Preparedness (NSEP) Telecommunications Service Priority (TSP) System shall be pursuant to the regulations and rates as delineated in P.S.C. Mo.-No. 38, Digital Link Services Tariff, Section 7.

For application in this tariff, such regulations, rates and charges shall be interpreted to apply on a "per request, per IntraLATA Access Line" basis.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.24 Common Line 800 service Regulations-(Continued)

2.24.2 Emergency Update Service

(RT)

Emergency Update Service provides the customer with a secondary call routing plan to be used in the event that the customer's primary call routing plan cannot be used. The intent of this service is to provide for call handling in the event of an unusual situation other than out of service exchange service as described in Paragraph 2.24. The Change Charge for Common Line 800 Service will apply to establish or subsequently change Emergency Update Service. The specific rate is dependent on the number of terminations involved in the Emergency Update Service plan. Once the service plan is established, there is no charge to activate the service, nor to change back to the primary call routing plan. (USOC: 8HFEU)

2.24.3 Unique Ring Signaling

A unique ringing signal is available as an option to Common Line 800 Service. A unique ringing signal will allow the customer to distinguish if the incoming call was placed by dialing the customer's 800 number or the customer's local exchange telephone number.

A unique ringing signal is available only where facilities permit.

This feature is not available for use on PBX trunks, or on local exchange facilities arranged for multi-line hunting.

There is no additional monthly charge for this feature. There is no additional nonrecurring charge if this feature is ordered on the initial installation of Common Line 800 Service. The change charges found in the Rates section of this Tariff apply when this feature is added subsequent to the initial installation of Common Line 800 Service.

For 60 days from the initial effective date of the tariff for this feature, existing Common Line 800 Service customers may add this feature without incurring the change charge. In addition, for 60 days following the availability of the feature in areas where facilities are not currently available, existing Common Line 800 Service customers may add the feature without incurring a change charge.

If the customer has the Common Line 800 Service configured for multiple terminations, unique ringing will be provided on only one termination. The termination with unique ringing must be in the Telephone Company's service area.

2. GENERAL REGULATIONS-(Continued)

2.24 Common Line 800 Service Regulations-(Continued)

2.24.4 Promotions

2.24.4.1 Common Line 800 5 Hour Plan Promotion

- A. For a period of 90 days, beginning on December 2, 1998 and ending on March 1, 1999, qualified business customers newly subscribing to a Common Line 800 5 Hour Plan will receive the following benefits:
- B. For a twelve (12) month subscription, new business customers will receive a one-time credit of \$60.00 (equal to 12 months of the monthly service charge of \$5.00). The credit will be applied to the customer's bill in the ninth month of service. Customers will remain responsible for all other costs associated with the selected plan.
- C. To qualify for the credit, a customer must agree to a 12 month subscription to the Common Line 800 5 Hour Plan. To remain qualified, a customer must maintain their subscription for 12 consecutive months. Each Billed Telephone Number will be treated individually. Customers with multiple locations/BTN may participate in this offer.
- D. Customers who have received a one-time credit of \$60.00, but disconnect their Common Line 800 5 Hour Plan prior to the completion of the 12 month term, will be billed an early termination fee of \$60.00 to offset the credit. In addition, customers shall be subject to pay any other charges, payments or disconnection/termination fees required by the tariffs.
- E. The original time frames and agreed upon products and/or services are required when the products and/or services governed under this promotion are moved or if the number changes.
- F. All terms and conditions continue to apply when the service governed under this promotion is superseded, the bill name changes, and the service remains on Southwestern Bell Telephone Company's network as a retail product.
- G. Customers may not participate in other Usage product promotions unless otherwise specified in this tariff or other applicable Southwestern Bell Telephone Company agreements.
- H. All other Common Line 800 options are available at the rates provided in the tariff. All other terms and conditions remain unchanged.

The discount will be applied to the customers' bill each month during the 12 month commitment period.
 - D. To qualify for benefits under this promotion, a customer must agree to and maintain a 12 month subscription to the Common Line 800 Residence Per Minute Plan.
 - E. Customers who disconnect their service prior to the end of the agreed upon commitment period will not receive the \$10 credit. Customers will still be responsible for all other costs associated with the selected plan.
 - F. All terms and conditions, including but not limited to the 12 month subscription, will continue to apply if the service is moved, the billed telephone number changes, or the bill name changes, as long as Southwestern Bell Telephone Company is the intraLATA carrier.
 - G. Customers may not simultaneously participate in other Common Line 800 Residence product promotions unless otherwise specified in this tariff or other applicable Southwestern Bell Telephone Company agreements.
 - H. All other Common Line 800 options are available at the rates provided in the tariff. All other terms and conditions remain unchanged.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.24 Common Line 800 Service Regulations-(Continued)

2.24.4 Promotions-(Continued)

2.24.4.4 Common Line 800 2 Hour and Per Minute Plan Promotion

- A. For a period beginning on June 16, 1999 and ending on December 31, 1999, qualified business customers newly subscribing to a Common Line 800 2 Hour or Per Minute Plan will receive the following benefits:
- B. For a six (6) consecutive month subscription to the Common Line 800 2 Hour Plan, customers will receive a one-time credit of \$30.00 (equal to the 6 months of the monthly service charge of \$5.00). The credit will be applied to the customers' bill in the sixth full bill round of service. An existing Common Line 800 Per Minute Plan subscriber who converts their service to a Common Line 800 Two Hour Plan with a six (6) month term commitment, will also be eligible for the credit.
- C. For a six (6) consecutive month subscription to the Common Line 800 Per Minute Plan, customers will receive a one-time credit of \$15.00. The credit will be applied to the customers' bill in the sixth full bill round of service.
- D. Customers will remain responsible for all other costs associated with the selected plan. Customers with multiple locations/BTN may participate in this offer.
- E. Customers must remain qualified under the plan to receive the credit. Customers who disconnect their service prior to the end of the agreed upon commitment period will not receive the credit.
- F. The original time frames and agreed upon products and/or services are required when the products and/or services governed under this promotion are moved or if the number changes.
- G. All terms and conditions continue to apply when the service governed under this promotion is superseded, the bill name changes, and the service remains on Southwestern Bell's network as a retail product.
- H. Customers may not participate in other Usage product promotions unless otherwise specified in this tariff or other applicable Southwestern Bell Telephone Company agreements.
- I. All other Common Line 800 options are available at the rates provided in the tariff. All other terms and conditions remain unchanged.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

(MT) 2.25 Telecommunications Service Priority System

The priority provisioning and restoration of services offered under this tariff relative to the National Security Emergency Preparedness (NSEP) Telecommunications Service Priority (TSP) System shall be pursuant to the regulations and rates as delineated in P.S.C. Mo.-No. 38, Digital Link Services Tariff, Section 7.

For application in this tariff, such regulations, rates and charges shall be interpreted to apply on a "per request, per IntraLATA Access Line" basis.

WIDE AREA TELECOMMUNICATIONS SERVICE **REVISED**

FEB 28 1975

1.2 GENERAL REGULATIONS - (Continued)

1.2.17 Rates for Fractional Periods

(CT)A. WATS Unlimited

If the service period exceeds the minimum contract period, the charges for the fractional part of a month will be a proportionate part of the monthly charges based on the actual number of days the service is furnished.

(CT)B. WATS 10

If the service period exceeds the minimum contract period, the charges for a fractional part of a month will be a proportionate part of the first ten hour charge based on the actual number of days the service is provided plus additional hour and/or tenth-of-hour charges as applicable for usage in excess of the same proportionate part of the first ten hours.

(AT)C. WATS 50

If the service period exceeds the minimum contract period, the charges for a fractional part of a month will be a proportionate part of the first fifty hour charge based on the actual number of days the service is provided plus additional hour and/or tenth-of-hour charges as applicable for usage in excess of the same proportionate part of the first fifty hours.

D. For the purpose of administering this regulation with respect to the determination of charges for a fractional part of a month, every month is considered to have thirty days.

WIDE AREA TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS - (Continued)

1.2.17 Rates for Fractional Periods

A. Full-Time Service

If the service period exceeds the minimum contract period, the charges for the fractional part of a month shall be a proportionate part of the monthly charges based on the actual number of days the service is furnished.

B. Measured-Time Service

If the service period exceeds the minimum contract period, the charges for a fractional part of a month will be a proportionate part of the first ten hour charge based on the actual number of days the service is provided plus additional hour and/or tenth-of-hour charges as applicable for usage in excess of the same proportionate part of the first ten hours.

C. For the purpose of administering this regulation with respect to the determination of charges for a fractional part of a month, every month is considered to have thirty days.

1.2.18 Maintenance and Repairs

The Telephone Company undertakes to maintain and repair the facilities which it furnishes to customers. The customer shall be responsible for damages to facilities of the Telephone Company caused by the negligence or willful act of the customer. The customer may not rearrange, disconnect, remove or attempt to repair, or permit others to rearrange, disconnect, remove or attempt to repair any equipment installed by the Telephone Company except upon the written consent of the Telephone Company.

A non-recurring Maintenance Service Charge of \$15.00 will apply for each repair visit to a customer's premises or the premises of any other user where the service difficulty or trouble results from the use of Customer-Provided Equipment or Facilities.

WIDE AREA TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.19 Access to Customers' Premises

The agents and employees of the Telephone Company shall have the right to enter the premises of a customer at any reasonable hour for the purpose of installing, inspecting or repairing the instruments and lines of the Telephone Company or upon termination of the service, for the purpose of removing such instruments and lines.

1.2.20 Allowance for Interruptions

(RT)

(CT) A. If the customer has not used the minimum period during the monthly contract period, credit is allowed for interruption of the access line of 24 consecutive hours or more. Interruption to the access line, not due to the negligence of the customer are credited at one-thirtieth of the monthly charge for the access line for each 24 hours or major fraction thereof of interruption.

(CT) B. Long distance telecommunications service furnished at the customer's request when his wide area telecommunications service is interrupted is charged for at the long distance telecommunications rates contained in the Long Distance Message Telecommunications Service Tariff.

1.2.21 Continuity of Service

A. In case of connection or restoration of a wide area telephone service access line for a customer at a location where wide area telephone service has been disconnected or suspended by him less than two weeks previous, charges for the service so established will commence one day following the effective disconnect or suspend date of the prior service.

WIDE AREA TELECOMMUNICATIONS SERVICE

W.S.B.V.S.

FEB 28 1975

1.2 GENERAL REGULATIONS - (Continued)

1.2.19 Access to Customers' Premises

The agents and employees of the Telephone Company shall have the right to enter the premises of a customer at any reasonable hour for the purpose of installing, inspecting or repairing the instruments and lines of the Telephone Company or upon termination of the service, for the purpose of removing such instruments and lines.

1.2.20 Allowance for Interruptions

- (CT)A. On WATS Unlimited no credit is allowed for interruptions to the access line of less than two hours. Interruptions to the access line of two hours or over not due to the negligence of the customer are credited to the customer at the proportionate monthly contract charge in hourly multiples for each hour or major fraction thereof of interruption.
- (CT)B. On WATS 10 or WATS 50 if the customer has not used the minimum period during the monthly contract period, credit is allowed for interruption of the access line of 24 consecutive hours or more. Interruption to the access line, not due to the negligence of the customer are credited at one-thirtieth of the monthly charge for the access line for each 24 hours or major fraction thereof of interruption.
- C. Long distance telecommunications service furnished at the customer's request when his wide area telecommunications service is interrupted is charged for at the long distance telecommunications rates contained in the Long Distance Message Telecommunications Service Tariff.

1.2.21 Continuity of Service

- A. In case of connection or restoration of a wide area telephone service access line for a customer at a location where wide area telephone service has been disconnected or suspended for less than two weeks previous, charges for the service so established will commence one day following the effective date of the prior service.

WIDE AREA TELECOMMUNICATIONS SERVICE

5. RATES-(Continued)

(C) 5.4 Rates - Inward WATS (800 Service) or Outward WATS-(Continued)

C. Method of Applying Monthly IntraLATA Usage Rate

1. Rates for 800 Service in Paragraph 5.4, A.2., preceding, will apply to intraLATA usage only. Rates for interLATA 800 Service will be at the rates of the interexchange customer.

If sufficient data is not available to determine the customer's intraLATA usage, 47 percent of the total intrastate 800 Service usage will be considered to be intraLATA usage, and 53 percent will be considered to be interLATA usage.

2. Rates for Outward WATS Service in Paragraph 5.4, B.2., preceding, will apply to intraLATA usage only. Rates for interLATA Outward WATS usage will be at the rates as found in the tariffs of the interexchange customer.

5.5 Method of Determining Monthly Charges for Usage

For all WATS access lines on which usage is recorded by the Telephone Company by time-of-day rate periods, the usage charge is determined, separately for Outward WATS and 800 Service, using steps A. through E., following:

- A. Determine the total number of completed calls for each rate period for each service arrangement.
- B. Apply the Minimum Average Time Requirement of one minute by dividing the number of completed calls for each rate period in each service arrangement by 60. (one call = one minute.)
- C. Determine the total actual hours used for each rate period for each service arrangement.
- D. Determine the total chargeable hours for each rate period for each service arrangement. This is the greater of B. or C., above, rounded to the nearest tenth (one decimal place).
- E. Determine the total usage charge for all rate periods in each service arrangement by applying the rates shown in the rate table in Paragraph 5.4 for Outward WATS or 800 Service.

- 2. Rates for Outward WATS Service in Paragraph 5.4, B.2., preceding, will apply to intraLATA usage only. Rates for interLATA Outward WATS usage will be at the rates as found in the tariffs of the interexchange customer.

5.5 Method of Determining Monthly Charges for Usage

For all WATS access lines on which usage is recorded by the Telephone Company by time-of-day rate periods, the usage charge is determined, separately for Outward WATS and 800 Service, using steps A. through E., following:

- (AT) A. Determine the total number of completed calls for each rate period for each service arrangement.
- (CT) B. Apply the Minimum Average Time Requirement of one minute by dividing the number of completed calls for each rate period in each service arrangement by 60. (one call = one minute.)
- (CT) C. Determine the total actual hours used for each rate period for each service arrangement.
- (CT) D. Determine the total chargeable hours for each rate period for each service arrangement. This is the greater of B. or C., above, rounded to the nearest tenth (one decimal place).
- (CT) E. Determine the total usage charge for all rate periods in each service arrangement by applying the rates shown in the rate table in Paragraph 5.4 for Outward WATS or 800 Service.

5.5 Method of Determining Monthly Charges

MISSOURI

For all WATS access lines on which usage is recorded by the Telephone Company by time-of-day rate periods, the usage charge is determined using steps A. through I., following:

- A. Determine the total number of completed calls for each rate period for each service group.
- B. Apply the Minimum Average Time Requirement of one minute by dividing the number of completed calls for each rate period in each service group by 60. (one call = one minute.)
- C. Determine the total actual hours used for each rate period for each service group.
- D. Determine the total chargeable hours for each rate period for each service group. This is the greater of B. or C., above, rounded to the nearest tenth (one decimal place).
- E. Determine the number of access lines within each service group in service during the month. Access lines in service for a fraction of a month are based on the number of days in service divided by 30 days. The result is rounded to the nearest hundredth (two decimal places). The same number of access lines is used for each rate period.
- F. Determine the average usage for each rate period for each access line in each service group by dividing the chargeable hours for each period in D., above, by the number of access lines in E., above.
- G. Determine the usage charge per rate period for each access line by applying the rates shown in the rate table in Section 5.4 for Outward WATS or 800 Service.
- H. Determine the total usage charge for each rate period for each service group by multiplying the usage charge per rate period in G., above, by the number of access lines in E., above.
- I. Determine the total usage charge for each rate period in each service group by adding the results of H., above.

DEC 17 1976
Missouri
Public Service Commission

1.2.21 Continuity of Service-(Continued)

B. After the minimum contract period, wide area telephone service may be suspended for a period of not less than two weeks and not more than two months. The suspension rates will not be applicable for a subsequent suspension until the suspended service has been restored to the full rates for one month.

(CT) C. Service will be suspended at the rates set forth in Paragraph 1.3.4 following.

1.2.22 Special Taxes, Fees and Charges

A. There shall be added to the customer's bill or charge as a part of the rate for service, a surcharge, equal to the pro rata share of any franchise, occupation, business, license, excise, privilege, or other similar tax, fee or charge (hereafter called "tax") now or hereafter imposed upon the Telephone Company by any taxing body or authority, whether by statute, ordinance, law or otherwise, and whether presently due or to hereafter become due.

B. On and after the effective date thereof, any subsequent increase, decrease, imposition or determination of liability for such taxes, fees or charges, as described above, shall be applied in the manner provided below, to the customer's bill or charge on each individual billing date.

C. When such tax or taxes are imposed in terms of a flat sum payment of money, the surcharge applicable to each customer's bill or charge, as the pro rata share of such taxes described above, shall be determined by relating the flat sum payment to the total local exchange revenues within the jurisdiction of the taxing body; the fraction so described shall be converted to a percentage; the local exchange rate shall be increased by that percentage, and applied to the customer's bill or charge, so that the amount added, when accumulated from all bills or charges, including in the geographic jurisdiction of the taxing body, will equal the amount of the flat sum payment.

11th Revised Sheet 13
Replacing 10th Revised Sheet 13

WIDE AREA TELECOMMUNICATIONS SERVICE

5. RATES-(Continued)

5.6 Timing of Calls

- A. Chargeable time begins when connection is established between a service point associated with the WATS access line and the calling or called service point and ends when the calling service point "hangs up," thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
- B. When a connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period.
- C. The rate charged is determined by the day and time (standard or daylight savings) at the WATS access line location.
- D. When 800 Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communications system, chargeable time begins when the 800 Service call terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the 800 Service so that chargeable time may begin.

5.7 Access Line Extension (WEC)

Extensions of individual WATS access lines are provided at locations within the intraLATA territory of the WATS state as provided for in the Extension Service Section of the General Exchange Tariff. The mileage rates and measurements are the same as for extension service on flat rate business service as provided in Section 2 of the Private Line Service Tariff.

5.8 Installation/Nonrecurring Charges

(AT) The charges for changing the 800 data base record for intraLATA 800 Service terminating to a
 | WATS Access Line are the same charges that are shown as the change charges for Common Line
 (AT) 800 Service in this Tariff.

- A. Discontinuance of WATS at one premise and its installation at another premise, all within the same exchange, is considered as an outside move and is subject to regular Installation/Nonrecurring Charges.

1.3.1 Class of Service and Monthly Rates-(Continued) :

(AT) B. WATS 10(1)

WATS 10 outward service (WM7) or inward service (800 Service) (WAC) permits calling within the State of Missouri over an access line for a period of ten hours or any fraction thereof including up to 600 completed calls at a monthly rate of \$282.50. The rate for each additional period is \$25.00.

(AT) C. WATS 50(1)

WATS 50 outward service (WML) or inward service (800 Service) (WK5) permits calling within the State of Missouri over an access line for a period of fifty hours or any fraction thereof including up to 3000 completed calls at a monthly rate of \$924.50. The rate for each additional period is \$17.50.

1.3.2 Method of Determining Monthly Charges

A. The initial period for the selected class of service provides for the use of WATS for a monthly total of hours of use and number of completed calls as specified in 1.3.1. Service furnished beyond the initial period will be charged for at the additional period rate based on the greater of the following:

- a. Actual total time of monthly usage, or
- b. Total number of completed calls multiplied by one minute.

B. Service furnished beyond the initial period is measured in tenths of an hour or major fraction thereof. The charge per tenth of an hour is one-tenth of the additional period rate.

C. Where a customer subscribes to more than one access line, furnished for service at the same premises, arranged for the same direction, class of service and service area, the total initial period for such access lines will be the product of the applicable initial period (hours of use and completed calls) multiplied by the number of such access lines. The additional period will be the accumulated use (time and completed calls) of such access lines in excess of that product.

5. RATES-(Continued)

5.9 Directory Listings

Directory listings will be provided upon request for WATS 800 numbers in directories within the State of Missouri. Rates for business regular extra listings as contained in the Directory Services Section of the General Exchange Tariff are applicable for all directory listings.

5.10 Directory Assistance Service

- A. The Telephone Company furnishes Directory Assistance Service whereby customer's may request assistance in determining telephone numbers.
- B. The regulations and rates set forth in the Directory Services Section of the General Exchange Tariff apply to calls from WATS customers who request assistance in determining telephone numbers of customers who are located in the same local calling area.
- (CP) C. An Outward WATS customer is allowed three local direct-dialed Directory Assistance calls per access line, per month. Outward WATS customers are not billed for Home Numbering Plan Area (HNPA) Directory Assistance calls.

6. MISCELLANEOUS CHARGES

6.1 General Regulations

- A. The following rates and charges, with their associated regulations, will apply for the services that are not regularly furnished with WATS. They apply in addition to the established charges for WATS.
- B. Rates and Charges as found in the Local Exchange tariff and the General Exchange Tariff, applicable to the business class of service, apply for additional services such as change telephone number, change from loop start to ground start or vice-versa, inside move of Network Interface, etc., provided at the customer's request.

Wide Area Telecommunications Service Tariff
4th Revised Sheet 14
Replacing Interim 4th Revised Sheet 14

WIDE AREA TELECOMMUNICATIONS SERVICE

1.3 RATES-(Continued)

DEC - 4 1980

1.3.2 Method of Determining Monthly Charges-(Continued)

D. Charges for a fractional part of a month are determined in accordance with 1.2.17.

(AT) E. Chargeable time begins when connection is established between a station associated with the WATS access line and the calling or called station, and ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.

F. When Inward WATS (800 Service) is directly connected (i.e., not connected through a Multiline Terminating System) at a Customer's premises to a communications system, chargeable time begins when the Inward WATS (800 Service) call terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the Inward WATS (800 Service) so that chargeable time may begin.

(CP) 1.3.3 Access Line Extension (EWW)

Extensions of individual WATS access lines are provided at locations within the WATS state. The extension station line rate, as provided for in Section 10 of the General Exchange Tariff, applies. The private line rates and measurements are the same as for an extension on Flat Rate Business service as provided for in Section 2 of the Private Line Service Tariff.

Wide Area Telecommunications Service Tariff
1st Revised Sheet 14
Replacing Original Sheet 14

WIDE AREA TELECOMMUNICATIONS SERVICE

1.3 RATES - (Continued)

1.3.1 Class of Service - (Continued)

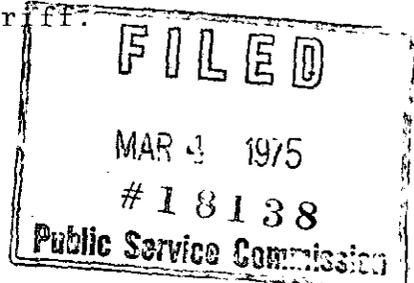

(NR)C. WATS 50

1. WATS 50 outward (WML) or inward (WK5) service permits calling within the State of Missouri over an access line for a period of 50 hours or any fraction thereof at a monthly rate of \$720.00. The additional period is one hour and the rate for each additional period is \$14.00. Fractional parts of an hour beyond the first fifty hours are measured in tenths of an hour or major fraction thereof. The charge per tenth of an hour is one-tenth of the additional hour charge.
2. Where a customer subscribes to more than one WATS 50 access line, on the same premises, the initial period will be the product of fifty hours multiplied by the number of access lines; the additional period, in such case, will be the sum of the accumulated measured times of such lines in excess of that product, computed in hourly periods and tenths of an hour or major fraction thereof. This computation is made separately for outward and inward service.
3. Chargeable time begins when connection is established between the WATS access line and the called or calling station, and ends when such connection is terminated.

1.3.2 Access Line Extension (EWW)

Extensions of individual WATS access lines are provided at locations within the WATS state for which the access line rate applies. The monthly rate is equivalent to the flat rate business extension rate applicable in the exchange where the WATS access line terminates. The mileage rates and measurement are the same as for an extension on full-rate business service as provided for in Section 18 of the General Exchange Tariff.

WIDE AREA TELECOMMUNICATIONS SERVICE

5. RATES-(Continued)

5.12 Common Line 800 Service-Business-(Continued)

If the customer's Area of Service covers an area that is served by more than one Revenue Accounting Office (RAO), the customer's usage billing will be computed separately in each RAO. The customer will receive a separate billing statement from each RAO. Exception: If a LATA is served by two RAOs, the usage billing will not be split between the two RAOs.

The Minimum Average Time Requirement (MATR) for Common Line 800 Service usage is 30 seconds.

Method of Determining Monthly Usage Charges - Business Common Line 800 Service:

- a. Determine the total number of completed calls for each 800 telephone number per Revenue Accounting Office (RAO).
- b. Determine the minimum chargeable minutes for each 800 telephone number by multiplying the number of calls by .5.
- c. Determine the total actual minutes of use for each 800 telephone number per RAO.
- d. Determine the chargeable minutes of each 800 telephone number per RAO. This is the greater of b) or c) above. Round the result up to the nearest whole minute.
- e. Determine the total usage charge for per minute billing options by applying the rates shown in the rate table in Section 5.12.
- f. Determine the total usage charge for block plan billing options by applying the rates shown in the rate table in Section 5.12. For block plan options the initial period rate is the minimum monthly charge for any accumulated usage up to 120 or 300 minutes (depending on plan option selected) each month. The additional period rate is used for charging usage in excess of the initial allowable usage each month.

Usage which is delayed from being processed during the normal billing cycle will be billed as usage during the next billing period immediately following the receipt of the message information which is necessary for billing. Previous months' bills which did not include usage which was delayed will not be reissued to account for the delayed usage.

Wide Area Telecommunications
Service Tariff
Original Sheet 14.05

WIDE AREA TELECOMMUNICATIONS SERVICE

5. RATES-(Continued)

5.12 Common Line 800 Service-Business-(Continued)

If the customer's Area of Service covers an area that is served by more than one Revenue Accounting Office (RAO), the customer's usage billing will be computed separately in each RAO. The customer will receive a separate billing statement from each RAO. Exception: If a LATA is served by two RAOs, the usage billing will not be split between the two RAOs.

Residence customers must choose one plan option for usage in each RAO. Associated charges for each usage option will apply.

The Minimum Average Time Requirement (MATR) for Common Line 800 Service Usage is 30 seconds.

Method of Determining Monthly Usage Charges Common Line 800 - Residence Service:

- a. Determine the total number of completed calls for each 800 telephone number per Revenue Accounting Office (RAO).
- b. Determine the minimum chargeable minutes for each 800 telephone number by multiplying the number of calls by .5.
- c. Determine the total actual minutes of use for each 800 telephone number per RAO.
- d. Determine the chargeable minutes of each 800 telephone number per RAO. This is the greater of b) or c) above. Round the result up the nearest whole minute.
- e. Determine the total usage charge for per minute billing options by applying the rates shown in the rate table in Section 5.13.
- f. Determine the total usage charge for block plan billing options by applying the rates shown in the rate table in Section 5.13. For block plan options the initial period rate is the minimum monthly charge for any accumulated usage up to 60 or 120 minutes (depending on plan option selected) each month. The additional period rate is used for charging usage in excess of the initial allowable usage each month.

Usage which is delayed from being processed during the normal billing cycle will be billed as usage during the next billing period immediately following the receipt of the message information which is necessary for billing. Previous months' bills which did not include usage which was delayed will not be reissued to account for the delayed usage.

1.3.5 Installation and Moves and Change Charges

- A. An installation charge of \$50.00 applies for each WATS access line.
- B. A change charge of \$25.00 applies for each WATS access line to change class (AT) or direction of service or for a change of inward WATS (800 Service) number at the request of the customer.
- C. An installation charge of \$39.00 is applicable to WATS access line extensions.
- D. A charge of \$39.00 applies when the telephone instrument associated with the WATS access line or extension line is either moved or there is a change in the color or style.

1.3.6 Directory Listings

- (AT) Directory listings will be provided upon request with inward WATS (800 Service) in directories within the State of Missouri. Rates for business
- (CT) regular extra listings as contained in Section 7 of the General Exchange Tariff are applicable for all directory listings.

1.3.7 Directory Assistance Service

- A. The Telephone Company furnishes Directory Assistance Service whereby customers may request assistance in determining telephone numbers.
- B. The regulations and rates set forth in Section 7 of the General Exchange Tariff apply to calls from WATS customers who request assistance in determining telephone numbers of customers who are located in the same local calling area. Upon request the address shown in the Directory Assistance attendant's records will be given out, for other than nonpublished customers.
- C. Allowances:

A WATS customer is allowed 5 direct dialed Directory Assistance calls at no charge per outward WATS line.

Subsequent to the deployment of the modified billing system and billing of rates found in Section 5, the Telephone Company will review all customer usage billed at the rate in Paragraph 9.3. From this review, the Telephone Company will determine using the rates in Section 5 if any overbilling occurred while the interim rate was in effect. If it is determined that overbilling did occur, the overbilled amount will be refunded by crediting the customer's account. Simple interest at the rate of nine (9) percent per annum on the refunded amount will also be included in the credit.

9.2 IntraLATA usage will be accumulated per minute during the billing period and be manually bulk billed.

9.3 IntraLATA minutes of use will be billed per minute of chargeable time as defined in Section 5.6 of this Tariff.

(MT) 1.5 MISCELLANEOUS EQUIPMENT AND SERVICES

1.5.1 General Regulations

- (CT) A. The following rates and charges, with their associated regulations, will apply for the equipment which is not regularly furnished with WATS. They apply in addition to the established charges for WATS.
- B. Discontinuance of WATS and associated equipment at one premises and their installation at another premises, all within the same exchange, is considered as an outside move and is subject to regular installation charges and non-recurring charges that may be applicable.
- C. Unless specifically excepted, installation charges quoted in this section do not apply to reconnections of in-place miscellaneous equipment.
- D. Certain items of supplemental equipment require the use of commercial power. The rates quoted contemplate the use of standard equipment designed to operate on 110 volts, 60 cycle A-C power. Where required, the customer shall furnish, install and maintain the commercial power and convenience outlets to operate the equipment.
- E. When the customer requests a service arrangement which can be furnished under the terms of the WATS offering but which cannot be provided with regularly offered equipment, services, and arrangements; modifications of standard equipment, specially designed equipment, or special services and arrangements will be furnished in accordance with the procedures outlined in paragraph 1.6 of this Tariff.
- F. Service Charge(s) will apply as set forth in Section 28, Service Connection, Moves and Changes of the General Exchange Tariff.
- G. Station equipment and miscellaneous equipment which is provided on exchange service may be provided on WATS service according to the rates and regulations of the General Exchange Tariff.

Network Control Signaling

(AT)

Satisfactory performance of the telecommunications network requires continuing functional compatibility of the network control signals and the switching equipment involved. To assure such continuing compatibility, network control signaling (except customer-provided tone-type address signaling through a Telephone Company-provided connecting arrangement or signaling functions performed by customer-provided equipment pursuant to the provisions of 1.4.2 B-4 following) in the furnishing of WATS shall be performed by equipment furnished, installed and maintained by the Telephone Company.

Customer-provided tone-type address signaling is permitted through acoustic or inductive connections provided such connections are effected externally to a Telephone Company network control signaling unit. However, the facilities of the Telephone Company are not designed for such use and the Telephone Company makes no representation as to the reliability of address signaling which is performed in such manner.

10. Interim Regulations - 800 Service

AUG 1 - 1988

10.1 The following rules and regulations will apply to intraLATA calls terminated over 800 Service WATS access lines if the Telephone Company is unable to mechanically bill end users the rates as found in Section 5 of this Tariff. When the mechanized billing system to bill end users is developed and deployed, the Telephone Company will cease applying the rules and regulations found in Section 10 of this tariff.

(CP) 10.2 Rates for 800 Service in Paragraph 5.4, A.2., preceding, will apply to intraLATA usage only. Rates for interLATA 800 Service will be at the rates of the interexchange customer. Intrastate usage over multi-jurisdictional WATS access lines will be determined as described in Section 2, Paragraph 2.3.12 of the Access Services Tariff.

(CP) If sufficient data is not available to determine the customer's intraLATA usage, 47 percent of the total intrastate 800 Service usage will be considered to be intraLATA usage and 53 percent will be considered to be interLATA usage.

10.3 The rates for intraLATA 800 Service, as found in Section 5, will be billed to the Interexchange Carrier if they cannot be mechanically billed to the end user. This billing plan will continue until the Telephone Company has the ability to mechanically bill the end user for the current intraLATA 800 Service rates.

WIDE AREA TELECOMMUNICATIONS SERVICE

MISSOURI

Public Service Commission

10. Interim Regulations - 800 Service

10.1 The following rules and regulations will apply to intraLATA calls terminated over 800 Service WATS access lines if the Telephone Company is unable to mechanically bill end users the rates as found in Section 5 of this Tariff. When the mechanized billing system to bill end users is developed and deployed, the Telephone Company will cease applying the rules and regulations found in Section 10 of this tariff.

10.2 The rates for intraLATA 800 Service will apply to 47 percent of the total intrastate 800 service usage. Rates for the remaining 53 percent will be at the rates as found in the tariffs of the Interexchange Carrier. Intrastate usage over multi-jurisdictional WATS access lines will be determined as described in Section 2, Paragraph 2.3.12 of the Access Services Tariff.

10.3 The rates for intraLATA 800 Service, as found in Section 5, will be billed to the Interexchange Carrier if they cannot be mechanically billed to the end user. This billing plan will continue until the Telephone Company has the ability to mechanically bill the end user for the current intraLATA 800 Service rates.

1.4.1 General Provisions - (Continued)

F. Violation of Regulations - (Continued)

(CT) take such immediate action as necessary for the protection of the network, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such use has ceased or the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Telephone Company within the time stated above shall result in disconnection of the customer's service until such time as the customer complies with the provisions of this Tariff.

G. Minimum Protection Criteria

(CT) 1. Direct Electrical Connections

(AT) a. To protect telecommunications network and the services furnished to the general public by the Telephone Company from harmful effects, customer-provided terminal equipment or communications system must comply with the following minimum network protection criteria:

(1) to prevent excessive noise and crosstalk in the network, it is necessary that the power of the signal at the central office not exceed 12db below one milliwatt when averaged over any three second interval. To permit each customer, independent of distance from the central office, to supply signal power which approximates the 12db below one milliwatt limit at the central office, the power of the signal which may be applied by the customer-provided equipment to the Telephone Company interface located on the customer's premises will be specified for each customer's location, but in no case shall it exceed one milliwatt.

(MT) 1.6 SPECIAL SERVICE ARRANGEMENTS

1.6.1 Regulations

Special Service Arrangements consist of modifications of standard equipment or services offered under this Tariff. They will be furnished, when practicable, by the Telephone Company at charges equivalent to the cost of providing such arrangements if in connection with and not detrimental to any of the services furnished under the Company's tariffs.

A. Rates

1. Computation

- a. Rates for special service arrangements are equivalent to the costs of furnishing the special arrangement or service.
- b. The costs consist of an estimate of the total cost to the Telephone Company in providing the special modification including:
 - (1) Cost of maintenance
 - (2) Cost of operation
 - (CT) (3) Depreciation on the estimated cost installed of any service components used to provide the special modification based on the anticipated useful service life of the service components with an appropriate allowance for the estimated net salvage.
 - (CT) (4) Administrative expenses, including taxes on the basis of average charges for these items.
 - (5) Any other item of expense associated with the particular arrangement or service.
 - (CT) (6) An amount, computed on the estimated cost installed of the services used to provide the special modification, for return on investment.
- c. Estimated cost installed mentioned above includes cost of equipment and materials provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights-of-way and other items which are chargeable to the capital accounts.

(CP) 2. Connection of Customer-Provided Voice Transmitting and/or Receiving Terminal Equipment for Recording of Two-Way Telephone Conversations-(Continued)

b. Acoustic, Inductive Connections

Customer-provided voice recording equipment may not be connected with facilities of the Telephone Company for the recording of two-way telephone conversations by means of an acoustic or inductive connection, except under the following conditions (and under such following excepted conditions the distinctive recorder tone described in 1.4.2B.2.a. preceding is not required):

- When used by a Federal Communications Commission licensed broadcast station customer for the recording of two-way telephone conversations solely for broadcast over the air.
- When used by a public fire and police service for the recording of two-way telephone conversations provided that the proper public authority certifies that the service will be used by ~~the~~ *ext. by the* receipt of emergency fire and *1028 the* police calls.
- When used by the United States Secret Service of the Department of the Treasury for recording of two-way telephone conversations which concern the safety and security of the person of the President of the United States, or members of his immediate family, or the White House and its grounds.
- Any acoustic or inductive connection permitted under 1.4.2B.2.b. preceding must also be in accordance with 1.4.1G.2. preceding.

WIDE AREA TELECOMMUNICATIONS SERVICE

1.4 CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMERS-
(Continued)

(CT) 1.4.4 Connection of Other Common Carrier-Provided Communications Systems-(Continued)

(RT)

C. Network Control Signaling

Satisfactory performance of the telecommunications network requires continuing functional compatibility of the network control signals and the switching equipment involved. To assure such continuing compatibility, network control signaling (except customer-provided tone-type address signaling through a Telephone Company-provided or Other Common Carrier-provided connecting arrangement) in the furnishing of WATS shall be performed by equipment furnished, installed and maintained by the Telephone Company or Other Common Carrier.

D. Conditions for Connection of Other Common Carrier-Provided Communications Systems

Other Common Carrier-provided communications systems including channels derived from such systems, not exceeding voice grade, may be connected with WATS at the premises of the customer provided that:

- 1. Such WATS or Other Common Carrier-provided communications system is utilized for the origination or termination of communications at the customer's premises where the connection is made.

1.4.4 Connection of Other Participating Carrier Communications Systems-(Continued)

B. Responsibility of the Customer-(Continued)

The customer shall be responsible for payment of a nonrecurring Maintenance Service Charge, as set forth in this Tariff, for each repair visit by the Telephone Company to the premise of the customer where the service difficulty results from the use of equipment, facilities or services provided by an Other Participating Carrier.

C. Network Control Signaling

Satisfactory performance of the telecommunications network requires continuing functional compatibility of the network control signals and the switching equipment involved. To assure such continuing compatibility, network control signaling (except customer-provided tone-type address signaling through a Telephone Company-provided or Other Participating Carrier-provided connecting arrangement) in the furnishing of WATS shall be performed by equipment furnished, installed and maintained by the Telephone Company or Other Participating Carrier.

The Telephone Company shall not be responsible to the customer or otherwise if changes in minimum network protection criteria as stated in 1.4.1-G preceding or in any of the facilities, operation or procedures of the Telephone Company render any Other Common Carrier-provided system, or portion thereof, obsolete or require modification or alteration of such system, or portion thereof, or otherwise affect its use or performance.

H. Violation of Regulations

When any Other Common Carrier-provided system is connected with the facilities furnished by the Telephone Company for WATS in violation of any of the provisions in 1.4.5 the Telephone Company will take such immediate action as necessary for the protection of the network, and will promptly notify the customer of the violation. The customer shall discontinue such connection of the system or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such connection has ceased or that the violation has been corrected. Failure of the customer to discontinue such

1.5.1 General Regulations

- A. The following rates and charges, with their associated regulations, will apply for the equipment and facilities which are not regularly furnished with WATS. They apply in addition to the established charges for WATS.
- B. Discontinuance of WATS and associated equipment at one premises and their installation at another premises, all within the same exchange, is considered as an outside move and is subject to regular installation charges and non-recurring charges that may be applicable.
- C. Unless specifically excepted, installation charges quoted in this section do not apply to reconnections of in-place miscellaneous equipment.
- D. Certain items of supplemental equipment require the use of commercial power. The rates quoted contemplate the use of standard equipment designed to operate on 110 volts, 60 cycle A-C power. Where required, the customer shall furnish, install and maintain the commercial power and convenience outlets to operate the equipment.
- E. When the customer requests a service arrangement which can be furnished under the terms of the WATS offering but which cannot be provided with regularly offered equipment, services, and arrangements; modifications of standard equipment, specially designed equipment, or special services and arrangements will be furnished in accordance with the procedures outlined in paragraph 1.6 of this tariff.
- F. Service Charge(s) will apply as set forth in Section 28, Service Connection, Moves and Changes of the General Exchange Tariff.

WIDE AREA TELECOMMUNICATIONS SERVICE

1.5 MISCELLANEOUS EQUIPMENT-(Continued)

1.5.2 Automatic Answering and Recording Equipment-(Continued)
Regulations-(Continued)

The customer indemnifies and saves the Telephone Company harmless against all claims arising from the use of facilities transmitted over facilities furnished hereunder, including claims for libel, slander, fraudulent or misleading advertisements, infringement of copyright, or any other claims, and against all claims arising out of any act or omission of the customer or of the calling party in connection with facilities provided by the Telephone Company.

The necessary power wiring, power outlets and commercial power for the operation of automatic answering and recording and automatic answering (only) equipment are furnished by the customer, who assumes all responsibility for the safe condition of such wiring, outlets and power.

For the purposes of identification, customers to telephone service who transmit recorded public announcements over facilities provided by the Telephone Company, must include in the recorded message, the name of the customer and the address at which the service is provided.

1.5 MISCELLANEOUS EQUIPMENT-(Continued)

FEB 28 1975

1.5.6 Cords (Standard and Special Types)-(Continued)

Regulations

- 1. The cord charge for standard spring mounting cords and special cords, (special cords refer only to standard extra length cords) will not apply under the following conditions:

When a customer has a standard spring mounting cord or a special cord and moves within the same exchange of the Telephone Company, he may have installed a similar cord at his new location.

When the same customer reconnects a standard spring mounting cord or special cord.

- 2. The customer indemnifies and saves the Telephone Company harmless from any claims, losses or suits for injury to or death of any person, or damage to any property which arises from the use, placement or presence of a twenty-five foot cord on the customer's premises.
- 3. When installed in connection with installation (both in-place and not-in-place), move or change of WATS, only the above cord charge applies; if not associated (CT) with installation, move or change of WATS, the Service Charges, as provided in Section 28 of the General Exchange Tariff, apply in addition to the cord charge.
- 4. If a twenty-five foot cord is installed in connection with the installation, move or change of a WATS station or extension, no non-recurring charge for the cord is applicable. Otherwise the non-recurring charges for business extension telephones apply.
- 5. The cord charge does not apply when reconnecting an "in-place" standard spring mounting cord or special cord for other than the same customer.

1.5.9 Jacks for Portable Telephones-(Continued)

Installation and Move Charge (1)

Outdoor Jack:

Four conductor, flush (JKD) or non-flush (JKT) type..... (CR) \$33.25

Four conductor, flush (JKDHP) or non-flush (JKTHP) type, when conduit, housing and snap lock cover are furnished and installed by the customer, each..... (CR) 16.35

One portable telephone will be furnished for each WATS access line in lieu of a permanently bridged telephone; additional portable telephones will be furnished at the rates specified in 1.3.2 preceding.

One subset and bell permanently connected to the line is furnished without additional charge for each portable telephone except combined type telephones. Bells and subsets in excess of this allowance, and other than those associated with permanently bridged stations, are furnished at the regular extension bell rate.

The customer must contract for one portable telephone for every ten jacks, or fraction thereof.

Jacks for portable telephones may be used only in connection with outward WATS.

(AT) 1.6 SPECIAL SERVICE ARRANGEMENTS

DEC 9 1975

1.6.1 Regulations

Special Service Arrangements consist of modifications of standard equipment or services offered under this Tariff. They will be furnished, when practicable, by the Telephone Company at charges equivalent to the cost of providing such arrangements if in connection with and not detrimental to any of the services furnished under the Company's tariffs.

CANCELLED

A. Rates

JUL 20 1980

1. Computation

- a. Rates for special service arrangements equivalent to the costs of furnishing the special arrangement or service.
- b. The costs consist of an estimate of the total cost to the Telephone Company in providing the special modification including:
 - (1) Cost of maintenance
 - (2) Cost of operation
 - (3) Depreciation on the estimated cost installed of any facilities used to provide the special modification based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
 - (4) Administrative expenses, including taxes on the basis of average charges for these items.
 - (5) Any other item of expense associated with the particular arrangement or service.
 - (6) An amount, computed on the estimated cost installed of the facilities used to provide the special modification, for return on investment.
- c. Estimated cost installed mentioned above includes cost of equipment and materials provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights-of-way and other items which are chargeable to the capital accounts.

WIDE AREA TELECOMMUNICATIONS SERVICE

(AT) 1.6 SPECIAL SERVICE ARRANGEMENTS

1.6.1 Regulations

A. Rates-(Continued)

1. Computation-(Continued)

- d. In computing the rates for special service arrangements, the Telephone Company will, at its option, use one of the following three rate treatments: (1) a recurring monthly rate and termination contract with or without an installation charge; (2) a recurring monthly rate with an installation charge; (3) an installation charge only.

B. Termination Contract

- 1. A Termination Contract may apply, in those cases, where non-recoverable costs are substantial. Non-recoverable cost is equivalent to the estimated installed cost, plus removal cost less immediate salvage value.
