RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS: CONTINUED

V. USE OF SERVICES AND FACILITIES (Continued)

- G. USE OF PARTY LINE SERVICE**—Applications for party line service shall be made to the Telephone Company with the understanding that each customer will so use the line as not to interfere with an equitable proportionate use of the service by the other customers on the same line. When the duration or number of local messages sent or received by a party line customer is so great as to prevent an equitable proportionate use of the line by other customers on the line, the Telephone Company shall have the right to require the customer to contract for a higher grade of service, or to discontinue the service. The Telephone Company reserves the right to limit the continuous use of a party line for a local message to five minutes.

VI. PAYMENT FOR SERVICE—

- A.** The customer is required to pay, promptly, all charges for exchange service and for all toll messages including charges for messenger service. The customer is responsible for all charges for telephone service rendered at his station, both flat and toll, including charges for toll messages on which the charges have been guaranteed. When message rate service is furnished, local message guarantees are on a monthly basis. Settlement of local message charges is made monthly on the basis of the guaranteed number of local messages plus charges for additional local messages.
- B.** The customer is required to pay his pro rata share of special license and other taxes under Paragraph XVIII, Municipal Taxes, of this section of the Tariff.

- VII. PARALLELING SERVICE**—When both flat and message rates (including semi-public service) are quoted in an exchange for business or residence main station or commercial premises, an applicant may, at his option, select service under either method of payment but the entire service furnished at the same premises including additional lines must be uniformly on the same rate basis and not on a combination of the two. The foregoing does not apply to hotel and motel premises where flat rate service may be furnished for the exclusive use of the hotel or motel management or may be contracted for by guests in addition to the message service ordinarily provided in guests' rooms. Neither does this apply to furnishing message rate business service with semi-public service. Semi-public service may be installed on a premises with flat rate business service, in the judgment of the Telephone Company, and upon approval of the General Commission, where there is sufficient public and customer need to warrant furnishing combinations of these services.

P. S. C. Mo.—No. 16

General
Rules and Regulations Applying to all Customers' Contracts
Original

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

ΔXVIII. MUNICIPAL TAXES

A. GENERAL

1. When any city or county imposes a franchise, occupation, business, license, excise, privilege or similar tax of any kind on the Telephone Company, the amount of such taxes presently or hereafter levied, shall be billed by the Telephone Company to its customers within such city or county on a pro rata basis in the manner provided in paragraph B.1. below, with the amount thereof added to the bill for service to the Telephone Company customers in the city or county.
2. Any subsequent increase, decrease, or imposition of such taxes, as described in paragraph A.1. above, shall be applied in the manner provided in paragraph B.1. below, to the customer's bill on each individual billing date following the effective date of the tax ordinance or order.

B. APPLICATION OF TAXES

1. The amount to be added to each customer's bill as the pro rata share of such taxes described in A. above shall be determined, insofar as practicable, by relating the amount of such taxes imposed by the city or county upon the Telephone Company (numerator) to the revenues subject to tax which the Telephone Company derives from its customers within that city or county (denominator). The fraction so derived shall be converted to a percentage and applied to the charges of the customer's bill subject to tax. This amount shall be stated separately on each customer's bill as the city or county tax. When the revenues subject to tax are not identified by the taxing ordinance or order, the denominator shall consist of all local exchange revenues which the Telephone Company derives from its customers within the city or county.
2. The application of municipal taxes will become effective on each individual billing date following the effective date of this Tariff. After the initial determination, the percentage applied to the charges of the customer's bill subject to tax shall be redetermined annually.
