## ORDER SETTING INTERVENTION DEADLINE

Issue Date: April 4, 2025

Effective Date: April 4, 2025

On July 17, 2024, Ameren Transmission Company of Illinois (ATXI) filed an application with the Commission seeking an order granting a Certificate of Convenience and Necessity (CCN) pursuant to Section 393.170.1, RSMo. The CCN would authorize ATXI to construct, install, own, operate, maintain, and otherwise control 44 miles of 345 kV transmission line, in two segments, in Worth, Gentry, and DeKalb Counties, a new 345 kV substation named Denny in DeKalb county, and nine miles of 345 kV transmission line in Marion county between ATXI's existing Maywood Substation near Palmyra, Missouri, and the Mississippi River Illinois/Missouri border, including upgrades to the Maywood Substation. On March 7, 2025, the Office of the Public Counsel (OPC) filed its *Response to Staff's Recommendation and List of Concerns* stating that several landowners in the area had not received adequate notice prior to the filing of the CCN application, and still had not received notice. ATXI has now provided notice of the CCN to those landowners.

The Commission set a deadline of August 16, 2024, for applications to intervene. However, some landowners who would be affected by the transmission line in this matter did not receive notice from ATXI until seven months after that intervention deadline had

passed. Accordingly, the Commission finds it reasonable to re-open the intervention deadline.<sup>1</sup>
