**WIRELESS TERMINATION SERVICE****A. Application of tariff**

This tariff applies to intraMTA traffic originated by a Commercial Mobile Radio Service (CMRS) provider and terminated to end-user subscribers of the Telephone Company (i.e., wireless to wireline traffic) without the direct interconnection of the CMRS provider's and the Telephone Company's networks, and where the CMRS provider is physically connected with and delivers traffic to a third party ILEC(s) which in turn delivers the traffic to the Telephone Company.

**B. General**

1. This service is provided to Commercial Mobile Radio Service (CMRS) providers licensed by the Federal Communications Commission (FCC).
2. Wireless Termination Service is limited to wireless-to-wireline traffic that originates and terminates within the same Major Trading Area (MTA) (i.e., intraMTA traffic)
3. Wireless Termination Service is not available to wireless-to wireline traffic that originates and terminates in two different MTAs (i.e., interMTA traffic). In those situations where a CMRS provider terminates interMTA traffic to the end-user subscribers of the Telephone Company then the rates, terms and conditions of the appropriate access tariff of the Telephone Company (either intrastate or interstate) will apply.
4. These Regulations and Rates are in addition to the Regulations, Rate and Charges in other Telephone Company tariffs.
5. This tariff applies except as otherwise provided in 1) an interconnection agreement between the CMRS provider and the Telephone Company approved by the Commission pursuant to the Act; or 2) a terminating traffic agreement between the CMRS provider and the Telephone Company approved by the Commission.
6. This tariff does not apply to traffic for which the CMRS provider has arranged with a non-ILEC IXC to carry the traffic.

**WIRELESS TERMINATION SERVICE**

2. The CMRS provider will provide to the Telephone Company call detail records in standard industry formats regarding calls it originates that terminate on the Telephone Company's network. Records will be provided at an individual call detail record with sufficient information to identify the specific date and time of the call, the call duration, the originating and terminating numbers, and the location of the initial cell cite originating the call.
3. If a CMRS provider fails to provide such call detail records of the calls that it originates to the Telephone Company, the Telephone Company may use usage reports and/or records, such as a CTUSR generated by a third party ILEC, or any usage report or record replacing the CTUSR, whose network is used to transit the traffic as the basis for billing the CMRS provider. Any charges of a third party ILEC will be the responsibility of the CMRS provider. In the event the records, the CTUSR, or its replacement, fail to provide the location of the initial cell cite originating all calls information, a default interMTA traffic factor of five (5) percent of all reported calls being interMTA, and of such interMTA calls default factors of eighty (80) percent thereof shall be deemed intrastate calls and twenty (20) percent thereof shall be deemed interstate calls.
4. If a CMRS provider submits a traffic study acceptable to Telephone Company showing proportions of intraMTA and interMTA traffic, and/or proportions of intrastate and interstate interMTA traffic that different from the default proportions set forth in E.3 above, upon entry of a written agreement specifying such proportions executed by Telephone Company and the CMRS provider, the different proportions will be billed under this tariff for a maximum period of two years, and if a successor agreement is not reached the default proportions of E.3 will then apply. Upon request by the Commission or Commission Staff, said agreement will be made available to the Commission or Commission Staff.
6. The CMRS provider shall pay the Telephone Company for all charges in accordance with the rates set forth in this tariff, and for interMTA traffic the applicable switched access rate(s). Such payments are to be received within thirty (30) days from the effective date of the billing statement. The CMRS provider shall pay a late charge on any undisputed charges which are not paid within the thirty (30) day period. The rate of the late charge shall be the lesser of 1.5% per month or the maximum amount allowed by law. The CMRS provider shall pay the Telephone Company the reasonable amount of the Telephone Company's expenses related to collection of overdue bills, such amounts to include reasonable attorney fees. By mutual written agreement between the CMRS provider and

Upon reasonable written notice, the Telephone Company or its authorized representative shall have the right to conduct a review and verification of the CMRS provider to give assurances of compliance with the provisions of this tariff. This includes on-site verification reviews at the CMRS provider's or vendor locations. The review may consist of an examination and verification of data involving records, systems, procedures and other information related to the traffic originated by the CMRS provider and terminated to the Telephone Company. The CMRS provider will provide the Telephone Company with reasonable access to such information as is necessary to determine amounts payable under this tariff.

**G. Refusal and Discontinuance of Service**

In the case of such discontinuance, all applicable charges, including termination charges, shall become due.
2. 3. If the Telephone Company is unable to effectuate discontinuance of service at its own office it may request the assistance of other ILECs with whom the Telephone Company's network is connected. The Telephone Company may request such other ILEC(s) to take the necessary steps within its/their office(s) to disconnect service to the non-complying
