In the Stipulation and Agreement ER-2014-0258, the Commission ordered Ameren Missouri to implement general plant amortization for General Plant accounts. Due to the nature of general plant, many assets support both electric and gas operations, so applying general plant to both electric and gas general plant was necessary to avoid considerable confusion.

The Stipulation and Agreement GR-2019-0077 confirmed the approach to use general plant amortization to remain be consistent with ER-2014-0258.
