

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of)	
Great Plains Energy Incorporated for)	
Approval of its Merger with)	File No. EM-2018-0012
Westar Energy, Inc.)	

NOTICE OF COMPLIANCE

COME NOW, Evergy Metro Inc. d/b/a Evergy Missouri Metro (“Evergy Missouri Metro”) and Evergy Missouri West, Inc. d/b/a Evergy Missouri West (“Evergy Missouri West”) (collectively, the “Company”)¹, and for their Notice of Compliance (“Notice”) to the Missouri Public Service Commission (“Commission”), state as follows:

1. Pursuant to Condition 5 of the Merger Commitments and Conditions identified in Exhibit A to the *Stipulation and Agreement* (“Agreement”) filed in this docket on January 12, 2018, as approved by the Commission’s *Report and Order* dated May 24, 2018, Evergy Missouri Metro and Evergy Missouri West hereby notify the Commission of their compliance with the following element of Condition 5:

Each agency is required to provide documentation to KCP&L and GMO to verify how expenditures were incurred.

Community Action Agencies are required to file annual reports with KCP&L and GMO on how funds were expended. KCP&L and GMO shall file a condensed report of the agencies individual annual reports with the Commission, Staff and OPC. Any additional information is left to the agencies’ discretion (e.g., estimated additional homes weatherized because of the expenditures).²

2. Attached as **Exhibit A**, please find a report summarizing the information required by the above-cited portion of Condition 5.

¹ Effective October 7, 2019, Evergy Missouri Metro adopted the service territory and tariffs of Kansas City Power & Light Company (“KCP&L”) and Evergy Missouri West adopted the service territory and tariffs of KCP&L Greater Missouri Operations Company (“GMO”).

² See *Report and Order*, Exhibit A, Condition 5, pp. 1-3, issued May 24, 2018.

WHEREFORE, Evergy Missouri Metro and Evergy Missouri West request that the Commission take notice of the information herein.

Respectfully submitted,

/s/ Roger W. Steiner

Attorney for Evergy Missouri Metro and Evergy
Missouri West

EM-2018-0012 Merger Condition 5 – Report Summary

Each agency is required to provide documentation to KCP&L and GMO to verify how expenditures were incurred.

Community Action Agencies are required to file annual reports with KCP&L and GMO on how funds were expended. KCP&L and GMO shall file a condensed report of the agencies individual annual reports with the Commission, Staff and OPC. Any additional information is left to the agencies' discretion (e.g., estimated additional homes weatherized because of the expenditures).

The entities involved per the Stipulation and Agreement are:

- United Services CAA (CAA of Greater Kansas City)
- Community Action Partnership of Greater St. Joseph ("CAP St. Joe")
- Community Services, Inc. ("CSI")
- West Central Missouri CAA
- Missouri Valley CAA
- Community Action Partnership of North Central Missouri ("GHCAA")

All entities received \$50,000 in July 2018, 2019, 2020, 2021, 2022, 2023 and 2024. All parties to the case agreed that CSI would receive \$100,000 each year and cover the area that was formerly covered by CAP St. Joe.

To facilitate the compilation of the required report in Condition 5, Geoff Marke, OPC, provided eight questions as guidelines for information to be furnished by the Community Action Agencies ("CAA").

Those questions are:

- 1.) Were you successful in spending down the annual allocated funds?
- 2.) What did you spend the funds on—please provide details
 - a. Weatherization training and certification of agency personnel?
 - b. Discretionary funds for health and hazard for on-site units (that may or may not be otherwise passed over)?
 - c. Outreach efforts?
 - d. Utility weatherization account?
 - e. Hardship fund for on-bill payments?
- 3.) Can you provide quantification of benefits achieved via the funds (e.g., five more homes, one full time job, etc.....)?
- 4.) What would you say are the current strengths your agency possesses?
- 5.) What would you say are the current weaknesses your agency experiences?
- 6.) What are the current threats that your agency faces?

- 7.) What are the current opportunities for your agency to perform its service better-and how can this collaborative or its members help enable that?
- 8.) Do you believe that utility-funded weatherization funds would be better spent with more discretion by your agency? That is, would they be more effectively utilized in the same manner as the “Evergy-merger funds” or as they currently are—adhering to the Missouri Weatherization guidelines. Please explain.

The following is the condensed report of the answers from the five entities receiving these funds from Evergy.

1 – Four agencies spent 100% of the funds and one agency spent 42% of the funds. Overall, there has been an improvement compared to prior year.

2 and 3 – Projects related to plumbing, electrical and roof repairs, replacing breaker boxes, removing knob and tube wiring, installing electrical heating systems and A/C units were completed. Funds were also spent on marketing materials, salary for communication coordinator, annual agency audit, and purchase of another vehicle for training travel. One agency did an additional 2-3 homes a month than they would if they were just using state funds and was able to do more health and safety measures. One agency stressed that they provided enhanced weatherization to some client’s homes by providing measures that were just under the DOE SIR requirement of 1.0. Three agencies reported outreach efforts.

4 – The main theme is all have qualified, experienced, and knowledgeable staffs performing excellent weatherization services by DOE standards. One agency mentioned they always focused on stopping air flow and maximizing the dollars to provide all the services and measures they can for our clients. One agency has successfully utilized Mobile Action Center and a texting platform to effectively provide services and communicate with many clients; and has also completed a DNR/DE technical monitoring and fiscal/procedural visit resulted in minimal findings.

5 – One agency reported due to major staff changes and budget cuts they were not able to have an in-house Energy Auditor or QCI Final Inspector. One agency reported not being able to keep average cost per home within limit. One agency reported furnace contractors were falling behind due to additional allowance of system replacements. One agency reported that they cover a large territory that requires significant drive time to reach client homes for the auditors and crew. This decreases the number of homes they can complete.

6 – Matching production to the unstable political environment where consistency of funding availability is questionable. Price increase of materials is a threat. Insufficient number of complete applications. Ability to retain qualified and trained employees in a complicated labor economy.

7 – With uncertain times in funding these Evergy funds are crucial to the Weatherization’s operations. Partnership with Evergy allows the agencies to weatherize more homes and provide services to the community the regulations would traditionally exclude. Take advantage of promotional items for marketing and educational events provided by Evergy. Utilize billboards and allow programs to cross qualify applicants

8 – Most agencies feel positive about using all funds like how the Evergy funds can be spent to have more flexibility. One agency reported that their clients are typically struggling to maintain their properties in general, which presents health and safety barriers to their team in providing services. These barriers are issues such as foundations in need of repair, roofs that need repair or replacement, mold mitigation, pest infestations,

clutter, etc. Many of these issues have a higher cost than weatherization measures, so any flexibility in funding that can allow for these measures to be completed, and remove the barriers to providing weatherization services, is extremely valuable to the agency. One agency expressed satisfaction with the way the funds are currently spent and reported that Evergy has implemented some incredible changes over the last couple of years that has increased the number of clients they can serve. One agency is appreciative of utility Weatherization funds that has allowed them to do additional measures to homes, but with the uncertainty of the future funding may be vital to Weatherization's Program operations.
