

CORRECTED (additional hearing in Aurora and updated Joplin location)**NOTICE OF PUBLIC HEARINGS ON LIBERTY'S ELECTRIC RATES**

The Missouri Public Service Commission ("Commission") has scheduled local public hearings (listed below) for public input on Liberty's request to increase its rate revenues from its Missouri electric retail customers by \$152.8 million (about 30%) per year. Liberty is asking to continue its Fuel Adjustment Clause ("FAC") with modifications. About \$24.3 million of Liberty's \$152.8 million request (about 15.9%) is due to rebasing its FAC. Liberty is proposing to increase its residential customer charge from \$13.00 to \$16.00.

When utilizing only the bill line items titled: "Customer Charge" "Usage Charge" and "Off Peak Credit", the typical monthly bill impact for a residential customer billed on Liberty's Time Choice Residential Rate Plan (TC-RG rate schedule) during June through September are shown below:

Usage	Current	Proposed	Difference	Percent Increase
500 kWh	\$80.39	\$112.10	\$31.71	39.45%
1000 kWh	\$147.77	\$196.45	\$48.68	32.94%
1200 kWh	\$174.73	\$229.02	\$54.29	31.07%
1500 kWh	\$215.16	\$277.87	\$62.71	29.15%

and the following monthly bill impacts during October through May:

Usage	Current	Proposed	Difference	Percent Increase
500 kWh	\$80.39	\$112.10	\$31.71	39.45%
1000 kWh	\$138.25	\$185.03	\$46.78	33.84%
1200 kWh	\$160.45	\$211.88	\$51.43	32.05%
1500 kWh	\$193.74	\$252.16	\$58.42	30.15%

Liberty will continue to adjust (credit or bill) its monthly "Fuel Adjustment Clause" charge on its electric customers' bills each June 1st and December 1st.
