

Evergy MO Metro and MO West
Case Name: 2025 Approval of Large Load Service Rate Plan and Associated Tariffs
Case Number: EO-2025-0154

Requestor Luebbert J. -
Response Provided March 24, 2025

Question:0030

1) How does Evergy intend to address the potential for stranded costs if a subset of the LLPS class does not renew or extend the initial term?

RESPONSE: (do not edit or delete this line or anything above this)

Confidentiality: PUBLIC

Statement: This response is Public. No Confidential Statement is needed.

Response:

Under the proposed LLPS Rate Plan the Company would not have stranded costs should a LLPS customer terminate service. The capacity and energy previously consumed would now be available for service to other customers, potentially other Schedule LLPS customers. Should there be no need to serve customers, the capacity and energy would be available for sale to the SPP or to an external third party.
