Secretary of the Missouri Public Service Commission  
P.O. Box 360  
Jefferson City, Missouri 65102

Missouri Public  
Service Commission

To Whom It May Concern:

GW-2001-398

I have just received notice of an Order Establishing Case and Creating Task Force, Case No. GW-2001-398 to "investigate the process for the recovery of natural gas commodity cost increases by LDCs from their customers." I would like to express my interest in serving on this task force and offer my service to the Commission in this regard. I have worked in the natural gas industry for the last eighteen years and have a thorough working knowledge of the natural gas commodity.

I grew up in Missouri and graduated from the University of Missouri. I worked for Panhandle Eastern Pipe Line Company in the Gas Supply Department for five years in Kansas City before they relocated to Houston. I worked for two different marketing companies after that, selling gas to industrial end users around Kansas City and St. Louis while also functioning as a gas buyer for those companies. I then worked as Operations Manager for the Kansas Municipal Gas Association, buying gas for municipal utilities. After that I purchased gas for hospitals in Kansas and Missouri while working for Associated Purchasing Service. Currently, I am a self-employed natural gas consultant, helping end users of gas to reduce their costs and obtain terms appropriate to their institution.

I hope you find that I am adequately qualified to serve on this task force and consider my appointment to serve thereon.

Sincerely,

A handwritten signature in cursive script that reads "Anne McGregor".
