VIA EFIS

Secretary Dippell
Missouri Public Service Commission
Governor Office Building
200 Madison Street
Jefferson City, MO 65101

Dear Secretary Dippell,

Enclosed herewith for filing with the Missouri Public Service Commission are revised tariff sheets, P.S.C. MO. No. 9, Fifth Revised Sheet No. 11.7 for the eastern Missouri operating division and P.S.C. MO. No. 9, Sixth Revised Sheet No. 11.8 for the western Missouri operating division of Spire Missouri Inc. d/b/a Spire (the "Company"). These tariff sheets, which have an issue date of November 12, 2025 and an effective date of November 26, 2025, provide the Company's revised Purchased Gas Adjustment ("PGA") rates. These PGA rates reflect changes to the Current Cost of Gas and the Actual Cost Adjustment.

Spire East's charges for gas will change from \$0.52486 to \$0.61674 per ccf; and Spire West's charges for gas will change from \$0.62139 to \$0.67976 per ccf.

The increase for both Spire East and Spire West is due to higher gas prices, largely driven by higher domestic demand and liquefied natural gas (LNG) exports to other countries. Even with these higher prices, natural gas remains the most affordable energy source for heating, water heating and cooking.

Compared to existing rates, and assuming normal usage, the PGA rate for Spire West will increase the average monthly bill of the typical residential customer by \$3.33 (3.55%). For Spire East, the average monthly bill will increase by \$5.79 (6.43%). Such bill impacts may be less or more depending on a customer's actual usage, which is primarily affected by weather.

Thank you for bringing this matter to the attention of the appropriate Commission personnel.

Sincerely,

/s/ Antonio Arias
