Case No. TM-95-163

STIPULATION AND AGREEMENT

MISSOURI  
PUBLIC SERVICE COMMISSION

On November 14, 1994, GTE Midwest Incorporated ("GTE") and Cass County Telephone Company (Cass County) filed an application for authority(1) for GTE to sell, convey and transfer its properties related to the Cleveland, Creighton, Drexel, East Lynne, Garden City and Peculiar exchanges located in the western part of the State of Missouri to Cass County; and (2) for GTE to transfer all certificates of public convenience and necessity and any other franchises, licenses and permits related to the Cleveland, Creighton, Drexel, East Lynne, Garden City and Peculiar exchanges in the State of Missouri to Cass County. On April 3, 1995 Cass County and GTE filed a Supplemental Joint Application that sought the granting of a certificate of service authority to Cass County and the discontinuance of GTE's service obligations in those exchanges, among other things.

As a result of meetings and negotiation between the parties concerning the details of the above-described transactions, the parties to this Stipulation and Agreement have reached the following agreements and recommendations:

+

1. Acquisition Premium/Incremental Acquisition Costs.

Cass County agrees to separately identify on its books and records all costs of acquisition of the subject properties which exceed their associated book value (i.e., acquisition premium) as well as all incremental acquisition costs (e.g., incorporation expenses, regulatory approvals, due diligence review, associated sales tax, etc.) incurred in acquiring these properties. Cass County further agrees to forgo recovery in future rates for intrastate telecommunications services of any acquisition premium or incremental acquisition costs.

2. Modernization/Quality of Service.

Cass County agrees to modernize all six exchanges to meet the necessary elements for basic local and interexchange telecommunications service as identified in 4 CSR 240-32.100, by December 31, 1997, except for the elimination of party lines in the Creighton exchange, which will take place in the first quarter of 1988. By December 31, 1995, Cass County will file a modernization plan for the years 1996, 1997 and 1998 detailing the work to be done. Cass County shall file quarterly reports providing the information identified in Schedule 1 beginning with the first quarter of 1996.

3. Income Taxes.

Cass County agrees to use an additional offset to rate base in any Cass County filing for a general increase in telecommunications rates in Missouri initiated in the next ten years to compensate for rate base deductions eliminated by this

transaction, unless Cass County can show that its actual deferred tax reserve is the same as or greater than that reserve would have been, absent the sale of these exchanges. The amount of the offset for the first year shall be \$131,083. The amount shall reduce by \$13,108 per year on each anniversary date of the closing of the subject transaction.

4. Rates Based on Cass County's Operations.

Cass County will not file or implement a general increase in its rates for intrastate telecommunications services until Cass County has fully complied with the provisions of its Modernization Plans in accordance with 4 CSR 240-32.100. Said modernization is scheduled to be complete by the end of 1998. This commitment to not file a general rate increase includes an agreement not to propose increases in basic local exchange or access rates, but neither precludes increasing revenues through tariff filings for the introduction of new services or new features for existing services, nor does it preclude other revenue neutral tariff filings, during the period of this moratorium. No signatory shall bring a complaint concerning Cass County's rates for intrastate telecommunications services, or assist anyone else in the instigation or processing of a complaint regarding Cass County's rates prior to July 1, 1998. This agreement shall not be interpreted to preclude any proper party from bringing a complaint about the terms and conditions upon which service is provided or fully participating in any other complaint not related to rates for intrastate telecommunications services.

Furthermore, the signatories agree that this moratorium on rate increases or rate complaints shall not apply if an unusual event or events occur which would have a significant impact on the intrastate telecommunications operations of Cass County, such as: (a) natural disaster, (b) a significant change in federal or state laws, or (c) a significant change in Missouri or federal regulatory law or policies.

Within six months after completion of its Modernization Plans and no later than January 1, 1999, Cass County will provide to Staff (Accounting Department) and AT&T a Revenue Requirement Cost of Service Study, together with a copy of Cass County's latest annual report, and cooperate with Staff in determining Cass County's cost of service to provide intrastate telecommunications services. Notwithstanding this review and determination, neither Cass County or Staff is prohibited from pursuing a rate increase or earnings complaint subsequent to July 1, 1998.

5. Future Proceedings.

The parties reserve the right to propose adjustments in any future proceedings for any alleged detrimental or beneficial aspects later identified relating to the acquisition other than those specifically addressed in this agreement.

6. Capital Structure.

Cass County will achieve a capital structure of at least 40 percent equity to total capital (total capital is defined as the sum of short-term debt, long-term debt, preferred stock, and common equity) within the first two years of operation. If such a capital

structure is not achieved after two years, then sufficient capital will be infused to reach a 40% equity level, unless otherwise approved by the Commission. Cass County agrees to seek approval for any additional short or long-term debt or the issuance of any preferred stock that is not part of the financing of this transaction, until the 40 percent level is reached.

7. Dividends.

Dividends will not be paid or accrued to the shareholders if the capital structure falls below 40% equity to total capital unless otherwise approved by the Commission. It should be noted that Cass County has not asked for approval of its financing because it will operate in multiple states and by Missouri statute it does not need Commission approval for financing. Cass County will be using CoBank ACB as its lender, and the loan will be a 15 year note with an interest rate equal to the National Variable Rate minus 0.25 percentage points (as of April 13, 1995 the National Variable Rate was 9.00 percent).

8. Digital Switching and Single Party Service.

Cass County intends to install digital switching equipment in the six exchanges within 18 months of the closing of the sale. In addition, Cass County plans to eliminate multi-party service no later than April 1, 1998. The proposed modernization schedule of Cass County is more accelerated than the schedule approved for the upgrade of these exchanges by the Commission in Re: GTE Midwest, Case No. TO-93-309. Since the rates for the provision of telecommunications services within these exchanges

will not change as a result of this transaction, the proposed transaction will not be detrimental to the customers, and those customers should experience little, if any, change in the day-to-day operations of the telephone exchanges, except for the technological advances that will result from the modernization of the telephone exchanges.

9. Tax Impact.

As a result of the transaction contemplated herein, there should be no impact on tax revenues of the various political subdivisions in which the structures, facilities, or equipment is located, inasmuch as Cass County will, for the foreseeable future, retain its physical assets and the location of said assets will not change.

10. Depreciation.

Cass County agrees to:

- (a) the depreciation rates by plant account as shown in Schedule 2;
- (b) establish accounts as detailed in Schedule 2;
- (c) transfer the accumulated reserve for plant acquired from GTE to these accounts and to maintain the depreciation reserve by account as detailed in Schedule 2.
- (d) immediately following the sale and upon the establishment of the plant accounts as described in (c) above, complete the amortizations for accounts 2116.19, 2123.29 and 2124.29 and close those accounts;

- (e) maintain continuing property records and to establish a property unit catalog and to submit copies of the records and catalog to the Depreciation Department Manager within one year of the effective date of the Commission's order; and
- (f) submit copies of a comprehensive depreciation study to the Depreciation Department Manager within three and one-half years of the effective date of the Commission's order approving this Stipulation and Agreement or together with any filing of a rate case as described in Paragraph 5 above, whichever occurs first.

GTE agrees to:

- (a) record the fractional interests sold by account;
- (b) maintain the continuing property records to identify retirements of the plant sold from the normal retirement of the other owned plant; and
- (c) compute the accumulated reserves for depreciation up to the time of sale and transfer those amounts by account to Cass County. These amounts have previously been computed using the theoretical reserve prospective method, by GTE, through December 31, 1993. This same method shall be used to compute the transferred accumulated reserve for depreciation by account.

11. Rates.

Cass County agrees to use the same rates, terms and provisions that GTE currently charges customers for

telecommunications services in these six exchanges, provided that nothing contained herein shall be construed to require adoption of or adherence to any changes in GTE's tariffs made effective on or after April 1, 1995, including restructured transport rates. The signatories will ask the Commission to approve tariff rate sheets that are substantively identical to those attached as Attachment A, so that Cass County can implement the terms of this paragraph. The signatories will ask the Commission to approve tariff rate sheets that are substantively identical to those attached as Attachment B, so that GTE can implement the terms of this paragraph.

12. Tariffs.

Cass County's tariff approval is conditional upon the approval of the purchase of the GTE telephone exchanges of Cleveland, Creighton, Drexel, East Lynne, Garden City and Peculiar and the granting of a Certificate of Service Authority. The sale and certificate shall become effective upon the effective date of Cass County's and GTE's tariffs, as referred to in Attachments A and B, respectively.

13. Certificate of Service Authority.

The parties to this Stipulation and Agreement agree that Cass County should be issued a Certificate of Service Authority to provide basic local exchange service in the exchanges of Cleveland, Creighton, Drexel, East Lynne, Garden City and Peculiar, Missouri.

14. Telemedicine and Distance Learning.

GTE and Cass County agree to deploy, at tariffed rates, within six months of a request, the necessary infrastructure to

accommodate telemedicine and distance learning at any hospital, school or public health clinic in their respective service territories that requests such service, unless the Commission waives this requirement in a specific instance.

15. General Terms and Provisions.

a. If the Public Service Commission accepts the specific terms of this Stipulation and Agreement, the signatories waive their respective rights:

- i. to call, examine or cross-examine witnesses pursuant to Section 536.070(2), RSMo 1994;
- ii. to present oral argument and written briefs pursuant to Section 536.080.1, RSMo 1994;
- iii. to have the Commission read any transcript resulting from this proceeding pursuant to Section 536.080.2, RSMo 1994; and
- iv. to judicial review pursuant to Section 386.510, RSMo 1994.

b. Nothing in this Stipulation shall constitute an agreement by the parties as to the reasonableness of the amount or value for ratemaking purposes of any specific planned or completed expenditure made by the Company.

c. The provisions of this Stipulation and Agreement have resulted from extensive negotiations among the signatories and are interdependent. If the Commission does not approve this Stipulation and Agreement in total, it shall be void and no party

shall be bound, prejudiced or in any way affected by any of the agreements or provisions hereof.

d. Except as specified herein, no party shall be bound, prejudiced or in any way affected by any of the agreements or provisions hereof in any future proceeding, or in any proceeding currently pending under a separate docket.

e. At the Commission's request, the Staff may give the Commission a written explanation of its rationale for entering into this Stipulation and Agreement, if the Staff also gives a copy of its explanation to each signatory to this Stipulation and Agreement. In that event, each signatory may give the Commission a responsive written explanation within five (5) business days of receipt of the Staff's explanation, if the responding signatory contemporaneously gives a copy of such responsive written explanation to all other signatories. Each signatory agrees to keep the Staff's and other signatories' explanations confidential, and to treat them as privileged to the same extent as settlement negotiations under the Commission's rules. No signatory acquiesces in or adopts the explanations of another signatory. Such explanations shall not become a part of this proceeding's record, nor bind or prejudice any signatory in any proceeding.

f. The Staff may provide whatever oral explanation the Commission requests at any agenda meeting, if the Commission has given notice that it may consider this Stipulation and Agreement at the meeting. The Staff shall inform the other signatories as soon as practicable when the Staff learns that the Commission will

request such explanation. The Staff's explanation in agenda shall be subject to public disclosure, except to the extent it pertains to matters protected from disclosure.

WHEREFORE, the parties respectfully request from the Commission that it approve this Stipulation and Agreement in its entirety.

Respectfully submitted,

2) The Private Switch (PS) Provider will be charged for Rates c, g, h and/or i.		

- (1) This enables the Private Switch (PS) Provider's PS 9-1-1 Site Administrator to create ALI records in NENA Standard format in a computer database and upload PS End User records to the Company via modem. It provides limited database management capabilities to the PS End User records and enables receipt of downloaded PS End User record errors for correction. Some entry-checking features are incorporated to minimize chances of errors being entered. This software requires the PS Provider's Site Administrator to have access to a personal computer with an MS-DOS operating system, Version 3.1 or above, MS Windows software, sufficient RAM to operate MS Windows, a harddrive with ENTRY software, a modem with 2400 baud capability, communications software that will operate the modem, and transmit and receive data files using commonly accepted protocol, and a telephone line connection to the modem.

## FACILITIES FOR INTRASTATE ACCESS

3. ORDERING OPTIONS FOR FIA (Cont'd)3.2 Access Service Request (Cont'd)3.2.6 Cancellation of an ASR (Cont'd)

- (D) For cancellation of an ASR for Switched Access FGD before an end office converts to equal access, cancellation charges will apply if the Telephone Company is notified of the cancellation within a period of 12 months prior to the scheduled service date. Cancellation charges apply to each trunk canceled.

When, due to a shortage of FGD facilities an allocation of FGD facilities is made, cancellation charges apply only to circuits allocated to the customer.

Cancellation charges will accrue to the maximum in equal monthly increments (i.e., maximum cancellation charge divided by 12) beginning twelve months before an end office converts to equal access. Maximum cancellation charges are listed in Section 3.2.8. The charge applied will be the accrued charge in the month during which notice of cancellation is received by the Telephone Company.

Example:

<u>Month During Which Notice Is Received Before Conversion Date</u>	<u>Charge (Per Trunk Canceled)</u>

## FACILITIES FOR INTRASTATE ACCESS

3. ORDERING OPTIONS FOR FIA (Cont'd)3.2 Access Service Request (Cont'd)3.2.7 Discontinuance of Switched Access FGD

A Discontinuance Charge applies if a customer discontinues FGD service provided at the conversion of an end office to equal access. The Discontinuance Charge applies to each FGD trunk discontinued with one exception. When the FGD service is a result of an upgrade from FGB, FGC or SAC Access Service trunks in service prior to conversion to equal access, the Discontinuance Charge will only apply to the number of FGD trunks being discontinued that are in excess of the number of FGB, FGC or SAC Access Service trunks in service prior to conversion to equal access. However, the customer may still be liable for any Minimum Period charges in 3.2.5 that may be applicable to the FGB, FGC or SAC Access Service trunks that were in service prior to conversion. For purposes of calculating the Discontinuance Charge the Maximum Discontinuance Charge will be amortized in equal monthly increments (i.e., Maximum Discontinuance Charge divided by 12) over a 12 month period beginning on the date the end office converts to equal access. The Maximum Discontinuance Charge is equal to the FGD Maximum Cancellation Charge in 3.2.8. The charge assessed will be the unamortized portion of the Maximum Discontinuance Charge.

Example:

Month During Which Service is Discontinued After Conversion Date	Charge (Per Trunk Discontinued)

3.3 Access Service Requests For Services Provided By More Than One Telephone Company

(A) Switched or Special Access Services provided by more than one telephone company are services where one end of the Switched Transport or Special Transport facility is in the operating territory of one telephone company and the other end of the facility is in the operating territory of a different telephone company.

The ordering procedure for this service is in (1) and (2). The telephone company will notify the customer, identifying which ordering procedures will apply.

## (1) Single Company Billing

The telephone company receiving the ASR from the customer will arrange to provide the service and bill the customer as in 2.7(A)(1). The customer will place the ASR with the telephone company as follows:

(a) For Switched Access Services the customer will place the ASR with the telephone company in whose territory the following is located:

- FGA - dial tone office

When the preceding is not in the same telephone company's territory as the customer designated location (CDL), the customer must supply a copy of the ASR to the telephone company in whose territory the CDL is located.

## FACILITIES FOR INTRASTATE ACCESS

10. SPECIAL CONSTRUCTION (Cont'd)10.2 Liabilities, Charges and Payments (Cont'd)10.2.7 Types of Charges (Cont'd)(A) Nonrecurring Charges (Cont'd)(6) Optional Payment Charge (GSEC - NASCOP)

The customer may elect to pay an Optional Payment Charge when it requests Special Construction of facilities utilizing (1) a type of facilities or (2) a route other than that which the Telephone Company would otherwise utilize in furnishing the requested service. Payment of this charge will result in a lower recurring charge for the Special Construction. This election must be made in writing, before Special Construction starts.

If this election is coupled with the actual cost option, the Optional Payment Charge will reflect the actual cost of the specially constructed facilities.

(a) Development of Optional Payment Charge

This charge is equal to the excess installed cost or the total nonrecoverable cost, whichever is less (based on estimated or actual costs as elected by the customer).

## Example 1:

Total Installed Cost	\$30,000
Nonrecoverable	20,000
Normal Installed Cost	17,000
Total Installed Cost	\$30,000
Minus Normal Installed Cost	17,000
Equals Excess Installed Cost	13,000
Optional Payment Charge	13,000
Nonrecoverable Cost	\$20,000
Minus Optional Payment Charge	13,000
Equals Investment for MTL	
Computation	7,000
Remaining Recoverable	
Excess Installed Cost	\$0

Since the total installed cost is \$30,000 and the normal installed cost would have been \$17,000, the nonrecurring charge (optional payment) is limited to the difference (i.e., \$13,000). A Maximum Termination Liability would then be established to protect the remaining nonrecoverable cost of \$7,000 which is the difference between the total nonrecoverable cost (\$20,000) and the nonrecurring charge (\$13,000). The remaining excess installed cost in this example is zero. In addition, a recurring charge will be developed as set forth in 10.2.7 (B) following.

## Example 2:

Total Installed Cost	\$30,000
Nonrecoverable Cost	10,000
Normal Installed Cost	20,000

Total Installed Cost	\$30,000
Minus Normal Installed Cost	10,000
Equals Excess Installed Cost	20,000
Optional Payment Charge	10,000

Nonrecoverable Cost	\$10,000
Minus Optional Payment Charge	10,000
Equals Investment for	
MTL Computation	0
Remaining Recoverable	
Excess Installed Cost	\$ 3,000

The Optional Payment Charge is limited to the nonrecoverable cost. In this example the Optional Payment Charge equals the nonrecoverable cost. Therefore, there is no Maximum Termination Liability. In addition, a recurring charge will be developed as set forth in 10.2.7 (B) following.

If any portion of the specially constructed FIA, for which an Optional Payment Charge has been paid, requires replacement involving capital investment, a charge for replacement will apply. This charge will be in the same ratio as the initial Optional Payment Charge was to the installed cost of the specially constructed FIA. The customer will be notified in writing that the replacement is required. Replacement will not be made without the customer's ASR. If any portion of the FIA subject to the replacement charge fails, the FIA will not be restored until the customer orders the replacement.

## Example:

Original Total Installed Cost	\$30,000
Original Optional Payment Charge	\$15,000
Subsequent Cost of Replacement	\$ 2,000

Original Optional Payment Charge x	
<u>Replacement Cost</u>

## FACILITIES FOR INTRASTATE ACCESS

10. SPECIAL CONSTRUCTION (Cont'd)10.2 Liabilities, Charges and Payments (Cont'd)10.2.7 Types of Charges (Cont'd)(B) Recurring Charges (Cont'd)(1) Excess Capacity Charge

An Excess Capacity Charge applies when the customer requests more facilities be constructed than are required to satisfy the customer's ASR. The charge is based on the estimated cost difference between the facilities constructed at the customer's request and the facilities actually required to meet the customer's ASR.

## Example:

A customer has an immediate FIA requirement which would require a 100 pair cable but requests the installation of a 300 pair cable to allow for growth.

Total Installed Cost (300 Pair)	\$2,500
Estimated Annual Cost	\$ 920
Estimated Installed Cost (100 Pair)	\$1,000
Estimated Annual Cost	\$ 368

Excess Recurring Charge: Annually \$920 - \$368 = \$552

Monthly  $\frac{\$552}{12}$  = \$46

This charge applies until such time as the customer orders sufficient FIA to necessitate use of a larger size cable (e.g., 200 pair cable). At that time the recurring charge is adjusted as indicated in the following example:

Total Installed Cost (300 Pair)	\$2,500
Estimated Annual Cost	\$ 920
Estimated Installed Cost (200 Pair)	\$1,900
Estimated Annual Cost	\$ 683

Excess Recurring Charge: Annually \$920 - \$683 = \$237

Monthly  $\frac{\$237}{12}$  = \$19.75

The charge is revised in this manner until the number of FIA being provided would require a 300 pair cable, at which time the Excess Capacity Charge is no longer applied. The charge would be reapplied if the number of FIA declined to a level which would not require a 300 pair cable.

Such charges will continue to apply to all facilities held in abeyance until the period of termination liability expires. If facilities are still held in abeyance after the termination liability expires, a new schedule of rates will be calculated and such rates will apply as long as facilities are held in abeyance for the customer.

## PRIVATE LINE SERVICE

## B. GENERAL REGULATIONS

## 4. Payment Arrangements and Credit Allowances (Cont'd)

## i. Cancellation of Application for Service (Cont'd)

- 2) The charges for the minimum period of the service ordered by the customer, as provided in this Tariff, plus the full amount of any termination charges applicable.

Installation of service components for a customer is considered to have started when the Telephone Company incurs any expense, including engineering, in connection therewith or in preparation therefore which would not otherwise have been incurred, provided the customer has placed an order with the Telephone Company for provision of service.

## j. Restoration Priority Change

Upon receipt of certification in conformance with the Federal Communications Commission's Rules and Regulations which specify the priority system for restoration of Private Line Services, the Telephone Company will change the priority designation of a Private Line Service. The Restoration Priority Change Charge applies when the customer requests a change in the Restoration Priority after the service has been established or after the service has been ordered, but prior to start of service. No charge applies when the Restoration Priority certification is provided with the order to establish the service or when a Restoration Priority is discontinued.

## 6) Conditioning Options - Available for Types 414B, 414C, 420, and 422

The types and descriptions of the available conditioning options at rates and charges specified in C.2.f, following, are as follows:

a) Type C - Conditioning provides assured transmission quality for frequency response and envelope delay distortion as specified below.

b) Type C1\*\* - For a two-point or multi-point channel:

- The envelope delay distortion shall not exceed:  
Between 1000 and 2400 Hz, a maximum difference of 1000 microseconds.
- The loss deviation with frequency (from 1000 Hz, reference) shall not exceed:  
Between 1000 and 2400 Hz, - 1dB to +3dB.  
Between 300 and 2700 Hz, - 2dB to +6dB.  
(+ means more loss)

\* Obsolete-applicable to existing service installations at existing locations for existing customers.

\*\* Type C1 and C2 Channel Conditioning Service will be provided subject to these restrictions: with Customer Premises Equipment, the conditioned channel is restricted to more than five (5) points and/or 4000 miles on "two-wire" service and no more than twenty (20) points and/or 4000 miles on "four-wire" circuits. These restrictions do not apply to one-way simultaneous transmission from a master service point to all other service points such as broadcast-type multi-point service.

## 1. Service Description

Wideband Digital Service/1.544 Mbps is a two-point, intraLATA dedicated High Capacity Channel used for simultaneous two-way transmission of serial, bipolar, return-to-zero isochronous digital signals at a transmission speed of 1.544 Mbps. The channel design objective is to provide an average performance of at least 95 percent error-free seconds of transmission measured over a continuous 24-hour period through the Channel Service Unit or its functional equivalent.
