Re: Case No. HR-2026-0109

Dear Ms. Dippell:

Evergy Missouri West, Inc. d/b/a Evergy Missouri West (“EMW” or the “Company”) is seeking an increase in the revenue requirement for its five industrial steam customers. The Company initiated discussions with representatives from all of its steam service customers regarding the possibility of entering into an agreement to increase rates on August 8, 2025. Ongoing discussions from that date with the steam service customers moved to negotiations resulting in a Settlement Agreement between the Company and all of the steam customers. The Settlement Agreement has already been filed in this docket on December 8, 2025, which included exemplar tariffs which would implement the \$1,756,131 10.2% increase. In addition, to the Settlement Agreement, executed letters by representatives of all of the steam service customers were also filed indicated their support for and agreement with the Settlement Agreement.

The Company requests an order from the Commission approving the Settlement Agreement and requests the Commission order its Staff to review the exemplar tariffs so that the Company can file compliance tariff that can go into effect as soon as possible.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'R. W. Steiner', written over a horizontal line.

Roger W. Steiner
