3. Applicant proposes to provide resold basic local exchange services to business and residential customers in all exchanges currently served by Southwestern Bell Telephone, L.P.,d/b/a SBC Missouri (SBC), formerly known as Southwestern Bell Telephone Company, long distance interexchange telecommunications services to business and residential customers on a statewide basis, and may provide local exchange (non-switched private line) services in the future. Applicant will not offer operator services. The specific exchanges in which Applicant proposes to offer basic local service are listed in the incumbent providers' local exchange tariffs and will be listed in Applicant's basic local service tariff, which will reflect a service area containing only the service areas for which interconnection agreements have been approved. Applicant may seek authority to provide basic local service in other areas of the state in a subsequent proceeding.

4. Applicant is a telecommunications company that possesses the technical and managerial expertise and experience necessary to provide the services it proposes. Description of backgrounds of Applicant's management, which demonstrates the extensive experience and expertise, are attached hereto and incorporated herein by reference as Exhibit B.

5. Applicant also possesses the necessary financial resources to provide the telecommunications services for which authority is requested. Applicant requests that its financial statements be kept confidential, pursuant to Commission Rule 4 CSR 240-2.085. In support of its basic local service certificate application, Applicant will submit its financial information as late-filed Highly Confidential Exhibit C. Applicant is separately submitting its Motion for Protective Order pursuant to 4 CSR 240-2.085.

6. Applicant seeks classification of itself and its services as competitive pursuant to Section 392.361 RSMo. and 4 CSR 240-3.510(1)(A).

7. Applicant will offer basic local exchange telecommunications services as a separate and distinct service in accordance with applicable law. Applicant will give consideration to equitable access for all Missourians, regardless of where they might reside or their income, to affordable telecommunications services in Applicant's

proposed service areas in accordance with applicable law. Applicant will not unjustly discriminate among its customers as is prohibited under Section 392.200 RSMo.

8. Applicant is a competitive reseller of long distance telecommunications services and thus requests competitive classification pursuant to Section 392.361 RSMo and 4 CSR 240-2.060(6)(A). Applicant believes its proposed services will be subject to sufficient competition to justify a lesser degree of regulation. Further, when granted the Certificate requested herein, Applicant will be competing with other telecommunications companies in Missouri offering the same or similar services as Applicant.

9. Applicant is willing to comply with all applicable Commission rules and is willing to meet all relevant service standards, including, but not limited to billing, quality of service and tariff filing and maintenance. Consistent with the Commission's treatment of other certificated competitive basic local exchange telecommunications companies, Applicant requests that the following statutes and regulations be waived for Applicant and its basic local exchange service offerings:

Statutes:	Missouri Public Service Commission Rules
392.210.2 392.240.1 392.270 392.280 392.290 392.300.2 392.310 392.320 392.320 392.330 392.340	4 CSR 240-3.545(2)(C) 4 CSR 240-3.550(5)(C) 4 CSR 240-10.020 4 CSR 240-30.040 4 CSR 240-33.030

Applicant also requests that the following statutes and regulations be waived for

Applicant and its interexchange and local exchange service offerings:

392.330	
392.340	

10. Applicant also requests a temporary waiver of 4 CSR 240-2.060(6)(C), which requires that an application for a certificate of service authority to include a proposed tariff with a forty-five (45) day effective date. This waiver is requested for all types of service for which authority is sought herein. Applicant is adopting the M2A interconnection agreement with SBC and will file the adoption documents shortly. As soon as the tariffs are complete, Ameritel Missouri will promptly file said tariffs bearing no less than a 45-day effective date with the Commission. Furthermore, Applicant agrees that its proposed basic local service tariff will specifically identify the geographic service area in which it proposes to offer basic local service and that such area will follow the exchange boundaries of the ILECs in the same area and be no smaller than an exchange. Applicant understands that any service authority issued herein by the Commission shall be regarded as conditional and shall not be exercised until such time as a tariff for service has become effective.

11. Applicant submits that the public interest will be served by Commission approval of this application because Applicant's proposed services will create and enhance competition and expand customer service options, and offer service options consistent with the legislative goals set forth in the federal Telecommunications Act of 1996 and Chapter 392 RSMo. Prompt approval of this application also will expand the availability of innovative, high quality, and reliable telecommunications services within the State of Missouri.

12. Applicant submits, notwithstanding the provisions of Section 392.500 RSMo., as a condition of certification and competitive classification, Applicant agrees that, unless otherwise ordered by the Commission, Applicant's originating and terminating switched exchange access rates will be no greater than the lowest Commission-approved corresponding access rates in effect for each ILEC within whose service area(s) Applicant seeks authority to provide service. Additionally, pursuant to the Commission's Report and Order in Case No. TO-99-596, Applicant agrees that if the ILEC in whose service area Applicant is operating decreases its originating and/or terminating access service rates, Applicant shall file an appropriate tariff amendment to reduce its originating and/or terminating access rates within thirty (30) days of the ILEC's reduction of its originating and/or terminating access rates in order to maintain the cap on switched exchange access rates.

13. Applicant herein states, in accordance with 4 CSR 240-2.060(1)(K), that there are no pending actions or final unsatisfied judgments or decisions against Applicant in any state, federal agency, or court which involve customer service or rates for which

action, judgment, or decision has occurred within three (3) years of the date of this Application.

14. Pursuant to 4 CSR 240-2.060(1)(L), Applicant hereby states that the Company does not have any overdue annual reports or fees owed to the Missouri Public Service Commission

WHEREFORE, Applicant Ameritel Missouri, Inc. respectfully requests that the Commission 1) grant it a certificate of service authority to provide basic local telecommunications, interexchange and local exchange services as herein requested, 2) classify the Company and its proposed services as competitive, 3) grant waivers of statutes and regulations as requested herein; and 4) approve Applicant's tariffs which will be separately filed during the pendency of this matter.

Respectfully submitted,

Mary Ann (Garr) Young Mo. Bar No. 27951 WILLIAM D. STEINMEIER, P.C. 2031 Tower Drive, P.O. Box 104595 Jefferson City, MO 65110-4595 Phone: (573) 634-8109 Fax: (573) 634-8224 Email: myoung0654@aol.com
