EXPLANATION OF SYMBOLS

- (C)** Change in the offering
- (D)** To signify a discontinued regulation.
- (I)** To signify increased rate.
- (M)** To signify material relocated from or to another Tariff location.
- (N)** To signify a new rate or regulation.
- (R)** To signify a reduced rate.
- (T)** To signify a change in text only.

TARIFF FORMAT

- A. Page Numbering** - Sheet numbers appear in the upper right corner of the Sheet. Sheets are numbered sequentially. However, occasionally, when a new Sheet is added between Sheets already in effect, a decimal is added. For example, a new Sheet added between Sheets 14 and 15 would be 14.1.
- B. Page Numbers** - Revision numbers also appear in the upper right corner of each Sheet. These numbers are used to determine the most current Sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in its Tariff approval process, the most current Sheet number on file with the Commission is not always the Sheet in effect.
- C. Paragraph Numbering Sequence** – There are nine levels of paragraph coding. Each level of code is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a) I.
 - 2.1.1.A.1.(a) I.(i).
 - 2.1.1.A.1.(a) I.(i) (1).

- D.** TNCI may not be deemed to have waived or impaired any right, power, requirement or option reserved by this Tariff (including, but not limited to, the right to demand exact compliance with every term and condition herein), by virtue of any custom or practice of TNCI at variance with the terms hereof, or any failure, refusal or neglect of TNCI to exercise any right under this Tariff or to insist upon exact compliance with its terms, or any waiver, forbearance, delay, failure or omission by TNCI to exercise any right, power or option hereunder.

- A. The subscriber's long distance usage charge is based on the actual usage of Company's service. Usage begins when called party answers and terminates when either party hangs up.. The moment of the called party's answer is determined by hardware supervision in which the local telephone company sends a signal to the underlying carrier's switch or the software utilizing audio tone detection.
- B. The minimum call duration for billing purposes differs between rate plans.
- C. Usage is measured and rounded up to the next billing increment.
- D. There is no billing for incomplete calls.

SECTION 3 – DESCRIPTION OF SERVICE, Continued**3.1. APPLICATION OF RATES AND CHARGES, Continued****3.1.3. Service Connection and Maintenance Charges****A. Service Connection Charges**

1. Service Connection Charges are Nonrecurring Charges for establishing or modifying Services. Unless specifically exempted in this or other Sections of this Tariff, Service Connection Charges apply to all Customer-initiated requests, and are in addition to all other scheduled rates and charges.
2. Charges for installation or rearrangement of Service are billed on the next month's bill immediately following work performed by TNCI.
3. The charges specified in this Tariff reflect Service provided during regularly scheduled work hours, at current installation intervals and without work interruptions by the Customer.
4. Customer requests for expedited Services that require installations on a date that is sooner normally offered on a later date may result in an increase in applicable Service Connection Charges.
5. Customers that request service connection to be performed outside of normal business hours shall also incur an additional Service Connection Charge (excluding the Service Ordering Charge) as well as any additional costs attendant to the request.

SECTION 3 – DESCRIPTION OF SERVICE, Continued**3.2. DESCRIPTION OF SERVICES****3.2.1. Company provides Toll Free Inbound Service and “1+” Outbound interexchange long distance Services.**

A. Toll Free Inbound Service. Company’s Toll Free Inbound Service enables callers to place interexchange toll calls to Customers without incurring toll charges. Toll charges are assumed by Customers at the rates appearing in Section 4 below. Company’s Toll Free Inbound Service is provided on a switched access basis or via Customer-provided dedicated, non-switched facilities, which connect Customer’s premises to Company’s network. Toll Free Inbound Service is also offered with two enhanced options that provide additional feature packages, based on the selected option.

B. “1+” Outbound Service. Company’s “1+” Outbound Service enables Customers to originate and terminate intrastate calls. The Customer dials “1+” followed by the desired ten digit telephone number, or, if not presubscribed to Company’s service, dials “1010XXX” followed by “1+” followed by the desired ten digit telephone number. Further, Company’s “1+” Outbound Service permits a Customer connection to Company’s interstate and international telecommunications services. Company’s “1+” Outbound Service is provided on switched access basis, or via dedicated, non-switched facilities, which connect Customer’s premises to Company’s network. “1+” Outbound Service is also offered on an enhanced basis that provides additional reporting features. “1+” Outbound Service Customers also have access to Company’s Operator-Assisted Calling Services; and access to Directory Assistance.

C. Enhanced options may not be combined with non-enhanced Service offerings.

3.2.2. Travel Cards – The Customer utilizes an 11 digit “Toll Free” access number established by the Company to access a terminal. Upon receiving a voice prompt, the Customer uses push button dialing to enter an identification code assigned by the Company, and the ten digit number of the called party.**3.2.3. Toll Free Service – This service is inbound calling only where an 800, 888 or other Toll Free prefix number rings into a Customer’s premise routed to a specific telephone number or terminated over a dedicated facility.**

SECTION 3 – DESCRIPTION OF SERVICE, Continued**3.2. DESCRIPTION OF SERVICES, Continued**

3.2.4 Directory Assistance – Access to long distance directory assistance is obtained by dialing 1 + 555-1212 for other listings. When more than one number is requested in a single call, a charge will apply for each number requested. A charge will be applicable for each number requested, whether or not the number is listed or published.

3.2.5 Account Codes – Allows Customers to protect against telephone abuse and track calls back to the person or project originating the calls. A unique code must be entered before a long distance call will complete. As such, Account Codes provide an ideal way to prevent unauthorized long distance charges while tracking expenses and billing back to departments or other clients.
