

# NOTICE OF PUBLIC HEARING REGARDING EVERGY MISSOURI METRO

Public Service Commission Case No: ER-2026-0143

## Why Am I Receiving this Notice?

Evergy has filed a rate increase request with the Missouri Public Service Commission (“PSC”). The increase would total \$140.4 million or 15.19 percent in the territory served as Evergy Missouri Metro. For the average residential customer consuming 868/kWh per month, the proposed increase would be about \$17.70 per month.

This is Evergy’s first request to review rates for its Missouri Metro service area since February of 2022. The company’s request includes recovery of costs of investments made in grid improvements and other costs related to service Evergy Missouri Metro customers, and a request to continue Evergy’s Fuel Adjustment Clause (FAC).

Evergy’s current FAC allows Evergy to adjust customers’ bills two times per year based on the current cost of fuel and power purchased in the current market. Any increase or decrease in fuel costs is reflected in the FAC. To continue its Fuel Adjustment Clause (“FAC”) state law requires Evergy to file a rate review within four years of the date when the Commission last authorized Evergy to have a FAC.

## How Can I Be Heard?

The PSC will hold four local public hearings, two virtual and two in person, to receive public input regarding Evergy’s proposed changes to customer rates and charges. These local public hearings are made of a question-and-answer session that gives you an opportunity to ask questions, bring up any service or billing issues, and learn about the reasons for the proposed rate increase, followed by a formal hearing, which is your chance to give your opinion in front of the Commission. The PSC may limit the time for testifying at each hearing to three minutes per person. All in-person facilities are Americans with Disabilities Act (ADA) accessible.

### In- Person Public Hearing Schedule:

Date	Time	Location
Tuesday, July 14, 2026	6:00 PM	Metropolitan Community College-Penn Valley Education Center Room #019 3201 Southwest Trafficway Kansas City, Missouri 64111
