APPLYING TO

MISSOURI SERVICE AREAGENERAL RULES AND REGULATIONSIV. MEASUREMENT OF SERVICE (Cont'd.)**C. MULTIPLE METERED ACCOUNT BILLING**

Where more than one meter is installed for metering the premises of an individual account in accordance with paragraphs A and B above, the sum of each watthour meter's kilowatt-hour usage and each demand meter's individual maximum non-simultaneous kilowatt demand will be used for billing purposes. Under all circumstances involving multiple metered accounts, any alternating current watthour meter registering zero usage in a given billing month shall be subject to the monthly charge for three phase meters, specified in paragraph B of this Section IV, during each month of zero usage.

D. METER INSPECTIONS AND TESTING

Company's meters shall be inspected and tested for accuracy in accordance with applicable Missouri Public Service Commission Rules. If customer requests a meter test within 12 months of any previous testing of such meter, a standard charge based on meter type will be assessed for meters found to have an average meter error of 2 percent or less.

*** E. REMOTE METER READING OPT-OUT**

Customers receiving service under the Residential Anytime Service rate have the option of refusing the installation of remotely read metering or requesting the removal of previously installed remotely read metering. In such instances, non-standard metering equipment will be installed that requires a manual meter read. Customers requesting non-standard metering service after April 1, 2017 will be charged a one-time setup charge and a monthly recurring Non-Standard Meter Charge for each non-standard meter requested. Charges are listed on Sheet No. 63, Miscellaneous Charges. Charges shall not be applicable to customers who have not been offered remote metering equipment by the Company due to geographic or similar considerations. Company expects to install up to thirty (30) non-standard meters per month within 20 business days of the request and will notify customer if installation will be delayed.

Remote Meter Reading Opt-Out is not available for residential customers that are receiving service under any of the following rates: 1) any residential rate option other than Anytime Service, 2) Electric Power Purchases from Qualifying Facilities, or 3) Electric Power Purchases from Qualified Net Metering Facilities.

A customer that elects non-standard metering will have the option of self-reporting meter readings to Company by calling 1(814)258-9683 during normal business hours. Each bill will include a message indicating the time period that a customer will need to read and report the next meter reading for it to be useful in issuing the next bill. To the extent that bill adjustments occur to correct underbilling resulting from inaccurate readings supplied by customer the interest rate applicable to the adjustment shall not exceed five percent.

*Indicates Change.

GENERAL RULES AND REGULATIONS

IV. MEASUREMENT OF SERVICE (Cont'd.)

* E. REMOTE METER READING OPT-OUT (Cont'd.)

For all non-standard metering customers, Company will continue to need periodic access to the premises to maintain equipment and/or perform meter reading required by Commission rule 20 CSR 4240-13.020 Billing and Payment Standards. If a customer denies access to their premises for meter installation or replacement, either through verbal refusal, threats, or failure to establish an agreed-upon time for access, the Company will notify the customer in writing. The notification will state that continued refusal to allow installation of standard AMI metering equipment may result in disconnection of service in accordance with the notice procedures outlined in 20 CSR 4240-13.050. Non-standard metering will not be offered as an option in situations where the customer does not permit reasonable access for mandatory meter installation or replacement.

Metering equipment is normally located at or immediately adjacent to where a customer receives service as defined in the General Rules and Regulations, III. Distribution System Extensions, Point of Delivery of Service.
