

To: Nancy Dippell, Secretary, Missouri Public Service Commission

Date: June 10, 2026

FILED
June 10, 2026
Missouri Public
Service Commission

**Motion to request EC-2026-0350
be classified and handled as a small formal complaint.**

The June 4, 2026 ORDER GIVING NOTICE OF COMPLAINT, DIRECTING AN ANSWER AND A STAFF INVESTIGATION states ...

... the "complaint involves easements and the placement of transmission structures, so this complaint shall not proceed under the Commission's Small Complaint procedure."

This determination adversely affects my rights as a Missourian. No evidence or statute was provided to justify a change of status. Simply a statement with assumptions without authoritative basis or reference within the statute.

The complaint is limited and is wholly within the scope of CCN 9470, PSC policy related to safety and upholding the NESC.

In closing, per RSMo. Commission Rule 20 CSR 4240-2.070(15)(B), please change the status of the complaint to be a 'Small Formal Complaint'.

Thank you for your time and consideration.
Respectfully,

Bethann C Hill
