

Evergy Missouri Metro
Case Name: 2026 Evergy MO Metro Rate Case
Case Number: ER-2026-0143

Requestor Lyskowski Danny -
Response Provided June 12, 2026

Question:3.3

Of the total CWIP identified in response to request 3.2, please identify the dollar amount that is associated with, attributable to, or was undertaken in whole or in part to serve anticipated Large Load Power Service ("LLPS") customers. Please provide the FERC account, in-service date (actual or projected), total project cost, and the portion currently reflected as CWIP versus plant in service.

RESPONSE: (do not edit or delete this line or anything above this)

Confidentiality: PUBLIC

Statement: This response is Public. No Confidential Statement is needed.

Response:

None of the CWIP associated with New Natural Gas Generation (RB-21) is directly assigned or undertaken to serve LLPS customers solely. Instead, this generation serves MO Metro broadly, supported by and aligned with the development of our load forecasting and resource planning considerations in our IRP as described by company witnesses Mr. Gunn and Mr. Klote in Direct Testimony. Please see responses to MECG 3.1 and 3.2 for further context.
