

Ron Nelson

Partner, (360) 201-2827, rnelson@currentenergy.group

Education

MS, Agricultural and Resource Economics

Colorado State University, 2013

BA, Environmental Economics

Western Washington University, 2006

Work Experience

Founding Partner, Current Energy Group (May 2024 – Present)

- Subject matter and testimony expert in advanced rate design, embedded and marginal cost of service modeling, performance-based regulation, gas decarbonization, and DER integration and compensation.
- Designing and implementing policies and programs to decarbonize energy systems including deployment of distributed energy resources, demand-side management programs, energy storage and grid integration.

Founder, Volt-Watt Consulting LLC (2024 – Present)

Senior Director, Strategen Consulting, (2018 –February 2024)

- Expert witness and advisor that has testified across 20 states in over 80 proceedings and supported multiple state commissions in various proceedings

Economist, Minnesota Attorney General's Office (2013-2017)

- Provided expert testimony on cost of service modeling, rate design, grid modernization and utility business models.
- Analyzing issues related to conservation incentive programs, value of solar, grid modernization, performance-based regulation, renewable energy program design, and MISO.
- Reviewed and made recommendation to improve gas company pipeline replacement programs, demand response tariffs, performance metrics, and rate designs

Graduate Research Associate, Colorado State University (2011-2013)

Select Publications

DER Integration Framework: Regulatory Innovation for DER Compensation and Cost Allocation.

McDonnell, Nelson, and Mims Frick. January 2025. Lawrence Berkeley National Laboratory.

[Report](#)

Demand Charges in the Electricity Sector. Speetles, LeBel, Nelson, Zimny-Schmitt, Stright, and McLaren. Funded by the DOE: Office of Electricity. Forthcoming

“A Regulator’s Blueprint for 21st Century Has Utility Planning,” A Report for Advanced Energy United (2023)

[Report](#)

Led the development of a report that provided a blueprint for state public utility commissions that are interested in developing gas utility planning requirements to improve transparency into gas utility resource and capital investment plans.

Nonpipeline Alternative Analysis Framework for the Colorado Public Utilities Commission on Behalf of Lawrence Berkeley National Laboratory (2023)

[Report](#), [Report](#)

Through a collaboration with Lawrence Berkeley National Laboratory and the Colorado Public Utilities Commission, led the development of two reports that first examined the existing regulatory approaches for non-pipeline alternatives, and then proposed a regulatory framework.

Consumers Energy Gas Bill Impact Analysis: A Case Study of the Effects of Planned Capital Expenditures and Electrification Trends on Behalf of Advanced Energy United (2023)

[White Paper](#)

Quantified the impact of gas utility capital improvement projects on customer rates Consumers Energy gas in Michigan. The paper found that Michigan residential customers with Consumers Energy can expect to see their gas bills steadily increase over the next decade – up to 49% over 2021 levels – due to projected utility capital expenditures and electrification trends.

Select Projects

Worked with Green Mountain Power to develop their Embedded Cost of Service Model. Case No. 25-1955-PET.

Represent Maryland OPC in PC44 DSP and Interconnection Working Groups. 2022-Present. The DSP has been working on a process for stakeholder engagement and review of Maryland utilities distribution system planning processes. The interconnection has designed and implemented a new DER cost allocation approach called the Maryland Cost Allocation Mechanism (MCAM). The ultimately adopted MCAM was designed by Ron and prices hosting capacity by location and scarcity.

GridLab CHARGED Initiative - Flexible Connections, DER Planning, and Advance Rate Design Working Groups – Represent clients in Minnesota, Massachusetts, and Illinois in interconnection, flexible interconnection, interagency rates working group, long term system planning processes, and proactive planning processes. 2021-Present

Maine's Governor's Energy Office: Working in collaboration with Central Maine Power to design and implement non-firm import and export tariffs. 2024

Puerto Rico Energy Bureau – Facilitator and presenter for the Smart Inverter Implementation Working Group. Case No. NEPR-MI-2019-0009. 2024-Present

Puerto Rico Energy Bureau – Support on various regulatory matters. 2024-Present

Hawaii Public Utilities Commission: Advanced Rate Design Proceeding. Docket No. 201-90323. 2020-2021. [Documents available here.](#)

Hawaii Public Utilities Commission -Consulted on PBR, rate design, community solar gardens program design, and DER integration. 2018-2024

Kentucky Public Service Commission – Trained staff on cost of service, rate design, distribution system planning, and DER integration. Supported the Commission on all Net Energy Metering Dockets from 2020-2024.

Minnesota Valley Electric Cooperative. Supported on power supply and advanced rate design roadmap. 2023

Xcel C&I Rate Design. Ron used the cost duration model and other embedded cost results to inform a C&I critical peak pricing rate proposal on behalf of Fresh Energy. The MN PUC eventually required Xcel to pilot Ron's proposal across 100s of its customers.

[MPUC Docket No. E002/M-20-86](#)

California Energy Storage Alliance. Supported CESA in the SCE Wholesale Distribution Access Tariff Proceeding at FERC. 2019
