REBUTTAL TESTIMONY

OF

TAMMY HUBER

EVERGY METRO, INC. d/b/a EVERGY MISSOURI METRO

CASE NO. ER-2026-0143

Q. Please state your name and business address.

A. My name is Tammy Huber. My business address is 200 Madison Street,
Jefferson City, Missouri 65101.

Q. By whom are you employed and in what capacity.

A. I am employed by the Missouri Public Service Commission
("Commission") as a Senior Research/Data Analyst in the Customer Experience
Department ("CXD") Financial and Business Analysis Division. My duties as an
analyst include, but are not limited to, participating in and conducting customer
service and business office operations reviews. I research and manage formal
complaint investigations. I prepare and review audit and investigative reports at the
Commission. I participate in Staff recommendations and review tariffs.

Q. Please describe your education and work background.

A. Please see Schedule TH-r1.

Q. Have you previously filed testimony before the Commission?

A. Yes. My case participation history with the Commission is listed in
Schedule TH-r1.

Q. What is the purpose of your rebuttal testimony?

1 A. The purpose of my rebuttal testimony is to address the placeholder
2 recommendation introduced by The Office of Public Counsel (“OPC”) witness
3 Dr. Geoff Marke in direct testimony for an income-eligible rate design. I will also share
4 Staff’s recommendations and thoughts concerning a potential income-eligible rate
5 design. Finally, I will address Evergy Metro, Inc., d/b/a Evergy Missouri Metro (“EMM”)
6 proposed tariff sheets concerning certain revisions to Commission Rule 20 CSR
7 4240-13 (“Chapter 13”) language.¹

8 **INCOME-ELIGIBLE RATE DESIGN**

9 Q. What is Dr. Marke’s recommendation for an income-eligible rate
10 design in his direct testimony?

11 A. Dr. Marke proposes a placeholder recommendation for an
12 income-eligible rate design that waives the customer charge for residential
13 customers whose incomes are at or below 150% of the federal poverty line
14 (or 60% of the State’s Median Income depending on which metric the
15 Missouri Department of Social Services adopts).

16 Q. Did Dr. Marke provide any details of how an income-eligible rate design
17 would be administered in his direct testimony?

18 A. No. As he stated in his direct testimony ² his placeholder
19 recommendation for an income-eligible rate design is intended as a starting point for
20 future discussion.

¹ *Service and Billing Practices for Residential Customers of Electric, Gas, Sewer, and Water Utilities.*

² ER-2026-0143, Direct Testimony Geoff Marke, p. 52, l. 7.

Rebuttal Testimony of
Tammy Huber

1 Q. Do other Missouri investor-owned utilities regulated by the
2 Commission have programs that utilize an income-eligible rate design with eligibility
3 requirements similar to what Dr. Marke suggests in his testimony?

4 A. Yes. I will describe the Commission approved programs later in
5 my testimony.

6 Q. What are Staff's thoughts on an income-eligible rate design that waives
7 the customer charge for residential customers?

8 A. Staff needs additional time to collect data to determine if it could
9 support such a program design, including data on potential impacts to other EMM
10 customers. Staff does not oppose working towards a rate design that waives the
11 customer charge similar to the program approved³ for Spire Missouri Inc. ("Spire")
12 customers with some targeted limitations.

13 Q. What information would be necessary for Staff to potentially support a
14 customer charge waiver?

15 A. Staff would need to know the following information at a minimum.
16 Staff would also need this information defined in a tariff:

³ P.S.C. MO. No. 9 Sheet No. R-36 Limited-Income Customer Charge Pilot Program, Date Effective October 24, 2025, Approved in Case No. GR-2025-0107

Rebuttal Testimony of
Tammy Huber

- Budget
- Definition of federal poverty level
- Who is eligible to participate
- Restrictions
- How long the waiver can be applied
- How a customer can renew the waiver
- Third party involvement/process
- Implementation costs

Costs

Q. Are there other Staff witnesses who will respond to Dr. Marke's recommendation to waive the customer charge for qualifying customers?

A. Yes. Staff witness Sarah Lange will provide testimony and make recommendations concerning rate design, avoided revenue treatment and allocation of potential program costs if the Commission were to approve an income-eligible rate design that waives the customer charge.

Q. Are there implementation costs that EMM will incur if an income-eligible rate design is approved?

A. It is likely EMM will incur some costs to implement the proposal. Staff reached out to EMM to attempt to collect an estimated breakdown of costs associated with 1) IT and System Integration to modify its systems 2) Program Management including tracking and reporting on participation and

1 success of the program 3) Outreach and Marketing 4) Third party processing fees and
2 5) Training. EMM stated that it learned of the proposal after receiving Dr. Marke's
3 testimony therefore it did not have any of the information requested.⁴

4 **Other Income-Eligible Programs**

5 Q. Has the Commission previously approved any programs in which the
6 customer charge has been waived for residential customers?

7 A. Yes. As previously mentioned and referenced in Dr. Marke's
8 testimony,⁵ in Case No. GR-2025-0107, the Commission approved a pilot program
9 for Spire. The Limited-Income Customer Charge Pilot Program tariff includes a credit
10 for fixed monthly customer charge. The eligibility requirement targets Spire's
11 residential customers whose income is at or below 60% of the state median income,
12 or level that matches current Low Income Home Energy Assistance Program
13 ("LIHEAP") requirements, as verified by a Community Action Agency ("CAA"),
14 other federal or state agency, or other verifying party that is agreed to by the Spire
15 Low-Income Collaborative. A total funding cap of \$6 million⁶ is allocated to the
16 program. Previously, similar experimental or pilot programs⁷ which employ bill
17 credits equal to the amount of the monthly customer charges have been approved.

⁴EMM Response to Staff Data Request No. 0467.

⁵ ER-2026-0143, Geoff Marke Direct Testimony, p. 52.

⁶ P.S.C. MO. No. 9, Sheet No. R-36, Limited-Income Customer Charge Pilot Program.

⁷ For example see The Empire District Gas Company - Low Income Affordability Program ("LIAP") formerly known as the Experimental Low Income Program ("ELIP") approved in Case No. GR-2004-0072 and revised in GR-2009-0434. Also see Liberty Utilities (Midstates Natural Gas) Corp approved in GR-2018-0013 and modified in Case No. GR-2024-0106.

Conditions including budget caps, defined number of participants, eligibility requirements, terms, and administration to name a few were required with all the approved programs.

Eligibility

Q. You stated that Spire follows the same threshold utilized for LIHEAP eligibility. Please explain why this could be helpful if a program is approved for EMM.

A. Staff believes following the same guidelines for eligibility as LIHEAP would make the selection process for program participants easier in the implementation phase by giving EMM a starting point.

Q. How many EMM customers have received LIHEAP in the last four years?

A. EMM provided Staff the number of participants in DR 0491 below.

Number of LIHEAP Recipients - MO Metro Territory						
Energy Assistance = EA						
Energy Crisis Intervention Program = ECIP						
2023				2024		
	EA	5,900			EA	4,963
	ECIP	4,874			ECIP	5,288
	Total	10,774			Total	10,251
2025				2026 through June		
	EA	5,800			EA	4,068
	ECIP	6,165			ECIP	3,656
	Total	11,965			Total	7,724

1 Q. Do you know how many potential participants would be eligible for the
2 customer charge waiver program?

3 A. As stated earlier, no details were provided to help Staff determine this
4 number. Staff witness Sarah Lange provides recommendations concerning avoided
5 revenue treatment and allocation based on LIHEAP participation numbers
6 in her testimony.

7 **Recommendations**

8 Q. Does Staff have recommendations concerning the income-eligible
9 rate design customer charge waiver if approved?

10 A. Yes. If the Commission approves an income-eligible rate design
11 customer charge waiver, Staff recommends tariff language detailing the program.
12 The tariff should include the purpose of the program including definitions,
13 how eligibility requirements are defined, a limit on the number of participants and
14 the budget and should include parameters such as how long the program will last,
15 how the program will be evaluated and an explanation of how success of the program
16 is determined.

17 **TARIFF REVISIONS 20 CSR 4240.13**

18 Q. Did EMM have substantive changes to tariff sheets regarding
19 Chapter 13 rule provisions supported in its testimony?

20 A. No. EMM did not provide testimony supporting tariff changes in its
21 direct filing.

1 Q. Does Staff have concerns with any of the proposed tariff language
2 associated with Chapter 13?

3 A. Yes. Staff has concerns with the proposed new delinquent date
4 definition, billing adjustment/undercharge and reading meter language that Staff will
5 explain below.

6 **P.S.C. MO. No. 3, Original Sheet No. R-1.01, 1.12**

7 EMM proposes to include a new delinquent date definition:

8 DELINQUENT DATE - The date stated on a bill, which shall be at
9 least fifteen (15) days for a residential customer, and twenty-
10 one (21) days for a non-residential customer from the rendition
11 of the bill, after which Company may assess an approved late
12 payment charge in accordance with Company's tariff on file
13 with the Commission.

14 20 CSR 4240-13.020(7) Billing and Payment Standards states:

15 A monthly-billed customer shall have at least twenty-one (21)
16 days. . . A utility shall not base an assessment of a deposit or
17 delinquent charge, or a discontinuance of service, on a
18 payment that was made to a payment agent on or before the
19 due date or delinquent date.

20 Evergy Missouri West, Inc. d/b/a Evergy Missouri West's ("EMW") tariff states:

21 Delinquent date means the date stated on a bill, which shall be
22 at least twenty-one (21) days from the rendition of the bill, after
23 which Company may assess an approved late payment charge
24 in accordance with Company's tariff on file with the
25 Commission."

26 Chapter 13 requires utilities to allow residential customers at least twenty-one days
27 to remit payments. Staff is unaware of the reason EMM is proposing fifteen days
28 before a late payment assessment is applied, and fifteen days is not consistent with

Chapter 13 which requires twenty-one days for customers to remit payments.
The proposed language should be rejected and revised consistent with Chapter 13
and the EMW tariff language.

P.S.C. MO. No. 3, Original Sheet No. R-5.05, 5.04(E)

EMM proposes to revise the following under Billing Adjustments:

When the customer has been undercharged, except as provided in Section 5.04 (D) of this Rule, and a billing adjustment is made, the customer may elect to pay the amount of the adjustment in equal installments over a period not to exceed the period for which the billing adjustment was applicable.

20 CSR 4240-13.025(1)(C) Billing Adjustments states:

(C) In the event of an undercharge, the utility shall offer the customer the option to pay the adjusted bill over a period at least double the period covered by the adjusted bill;

EMM current tariff language states the following:

When the customer has been undercharged, except as provided in Section 4.10 of this Rule, and a billing adjustment is made, the customer may elect to pay the amount of the adjustment in equal installments over a period of at least double the period covered by the adjusted bill.

Staff concludes the existing language is more consistent with Chapter 13 by stating
“double the period,” therefore the revision should be rejected and updated with the
correct section reference.

P.S.C. MO. No. 3, Original Sheet No. R-6.01, 6.01(A)

EMM proposes the following revision:

Company will, as near as practicable, read its meters on the same day of each monthly period, and such readings shall be

Rebuttal Testimony of
Tammy Huber

1 used in billing the customer for such period. Nonreceipt of bills
2 by the customer shall not release or diminish the customer's
3 obligation with respect to payment thereof.

4 EMM current tariff language states:

5 The Company uses the plan of continuous cycle meter reading
6 in its service territory which is divided into meter reading
7 districts. Except as otherwise provided herein or in applicable
8 rate schedules of the Company, each meter in each such
9 district will be read monthly on or about the same day of the
10 month, and such readings shall be the basis for the Company's
11 billing for electric service during the period ending with the
12 latter reading. The Company reserves the right to redesignate
13 meter reading districts. If the Company changes a meter
14 reading district and the change results in a change of nine (9)
15 days or more in a billing cycle, notice will be given to each
16 affected customer at least 15 days prior to the date the affected
17 customers receive a bill based on the new cycle. Residential
18 customers whose meters are inaccessible for normal reading
19 may contact the Company and make appointment for a special
20 reading on a Saturday or prior to 9:00 p.m. on a weekday.

21 20 CSR 4240-13.020(6) Billing and Payment Standards states:

22 (6) A utility may bill its customers on a cyclical basis if the
23 individual customer receives each billing on or about the same
24 day of each billing period. If a utility changes a meter reading
25 route or schedule which results in a change of nine (9) days or
26 more of a billing cycle, notice shall be given to the affected
27 customer at least fifteen (15) days prior to the date the
28 customer receives a bill based on the new cycle.

29 EMM's proposed tariff includes language that incorporates 20 CSR 4240-13.020(6) in
30 another section.⁸ Staff does have concerns about the last sentence "Nonreceipt of
31 bills by the customer shall not release or diminish the customer's obligation with

⁸ P.S.C. MO. No. 3, Original Sheet No. R-6.05, 6.04(E).

1 respect to payment thereof.” Staff is unsure why this language was added and wants
2 to ensure consistency with Chapter 13 by removing the last sentence.

3 Q. Are you aware of any other potential changes to this subject in the
4 EMM tariff?

5 A. Yes. In the EMM “error log”⁹ there is a note of an intention to combine
6 sections 3.10 into 2.12 Discontinuance of Service (Service Agreements) and
7 Discontinuance of Electric Service (Supplying and Taking Service). Staff agrees the
8 sections should be combined. EMM also included in the error log an intention to
9 remove superfluous instances of the word “or” from Sheet R-1.02 section 1.
10 Staff agrees with this change. Staff agrees Sheets R-6.08, R-6.09, R-6.10, and R-6.11
11 in the Meter Reading, Billing, and Complaint Procedures are duplicative and can be
12 removed so only one instance remains. There are other instances of capitalization,
13 misspelling, typos and spacing to other sections that should be corrected.

14 Q. Did Staff discuss its concerns with EMM about the identified
15 tariff changes?

16 A. Yes. Staff and EMM met on August 5, 2026, and it is Staff’s
17 understanding that EMM intends to implement the changes discussed above in its
18 tariff. Attached to Randall Jennings’ rebuttal testimony as schedule RJ-r3 is a portion
19 of the “error log” that contains a list, as of August 7, 2026, of the items that will need
20 to be addressed as a result of the meeting held on August 5, 2026.

⁹ The error log was created and maintained by EMM to record tariff language issues and recommended corrections. This error log is a work in progress that both staff from EMM and the Commission are monitoring. Please see Staff witness Randall Jennings rebuttal testimony pp 10-11.

Recommendations

Q. Does Staff have general recommendations regarding the proposed tariff changes for P.S.C. MO. No. 3, Original Sheet No. R-1.01, 1.12, P.S.C. MO. No. 3, Original Sheet No. R-5.05, 5.04(E), and P.S.C. MO. No. 3, Original Sheet No. R-6.01, 6.01(A)?

A. Yes. As stated earlier in my testimony, Staff recommends the language should be made consistent with EMW language where appropriate and keep the previous tariff language. Staff recommends removal of the language referenced above for P.S.C. MO. No. 3, Original Sheet No. R-6.01, 6.01(A). In addition Staff recommends all changes included in the error log related to the sections discussed in this testimony be implemented.

Q. Does this conclude your rebuttal testimony?

A. Yes it does.

BEFORE THE PUBLIC SERVICE COMMISSION

OF THE STATE OF MISSOURI

Educational and Employment Background and Credentials

I am currently a Senior Research/Data Analyst in the Customer Experience Department of the Missouri Public Service Commission ("Commission"). I have held my position as a Senior Research/Data Analyst (former title Utility Policy Analyst II) since December 2017. Prior to December of 2017 I worked in the Energy Resources Department as a Utility Policy Analyst II (June 2014 through December of 2017). Before taking that position, I worked in the Engineering and Management Services Unit as a Management Analyst (November 2011 through June 2014). Previously, I was employed by the Missouri Department of Transportation (MODOT) as an Auditor in the Internal Auditing Department. Prior to my employment with MODOT, I was employed by the Commission in the General Counsel's Office.

I earned a Bachelor of Science in Business Administration with emphasis in Business Management from Columbia College in October 2008. I completed additional coursework in 2009 at Columbia College in Accounting.

As an analyst for the Commission, I have participated in and conducted reviews of customer service and business office operations. I have researched and managed a number of customer complaints and public comment projects. I have prepared and reviewed audit and investigative reports at the Commission. I have previously provided testimony before the Commission. I have participated in staff recommendations and reviewed tariffs. I have also been the Co-Case Coordinator and Case Manager for electric, water and sewer rate cases.
